## REFRESHINGLY ADAPTABLE

Designed to support the evolving landscape of healthcare environments, Alterna modular caseworks provides seamless and durable solutions for an entire facility. From public spaces and clinical areas, to work zones and breakrooms, Alterna supports healthcare facilities with style, performance, and durability.

Alterna is designed and built to support the full facility. Its high-quality construction means it's dependable while the broad offering of finishes and materials makes it easy to specify for new construction or renovations to existing facilities.

## CONFIGURABLE FOR YOUR NEEDS

Alterna modular casegoods are thoughtfully designed for maximum reconfigurability. Each cabinet and surface is engineered to adapt as user needs evolve or for future installations. When cabinetry is uninstalled for repurposing, it remains intact and undamaged. Unlike custom millwork, Alterna offers the unique advantage of being 100% reconfigurable throughout its entire lifespan.

With an extensive spectrum of models in a variety of configurations, sizes, and features, Alterna can be composed to suit any facility's needs. Not only does it feature easy installation, its components can be removed, reconfigured, and repurposed should needs change. ADA-compliant heights, sink cabinets, wall-mounted storage, and sloped top options are also available to meet specific needs of unique spaces. Regardless of the scale of the application, Alterna can be configured to be the perfect fit.

### Features & Options

- Broad offering of storage sizes and configurations accommodates standard and ADA height requirements for all areas of a facility
- Cabinets available in multiple width, depth, and height options to accommodate specific needs
- Storage components deliver fully assembled for quick and easy installation
- Components can be removed, reconfigured, and repurposed should needs change
- Cabinets designed to disassemble and reattach to prevent damage when moved
- Upper and wall-mount cabinets engineered to hang from Z-brackets, eliminating the need for wall blocking
- All base and storage cabinets include adjustable glides to quickly level on uneven floors
- Filler panels and laminate toe kicks create a finished, built-in look
- Modular caseworks can be registered as a capital asset versus a fixed asset
