

Tizelle<sup>®</sup>  
GUEST SEATING

NATIONAL

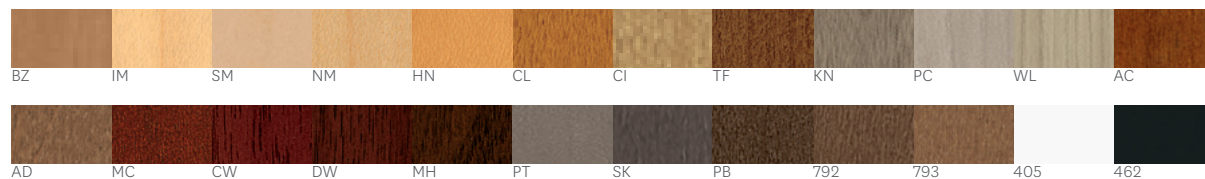

# Achieve design satisfaction that exceeds expectation.

Versatile and distinctive.

Tizelle offers remarkable options with its functional design and seemingly minimalist style. Featuring a beautiful and unexpected exposed plywood edge, it is an ideal side chair for multi-use spaces that crave a bit of extra detail. The angular, tapered leg design establishes a wall saver feature while the horizontal space between the back and seat cushions creates a clean out, making Tizelle perfect for any situation or space. This guest chair solution is available with or without arms and can be customized through contrasting fabric options. At first blush, Tizelle seems simple, but its essential details and design flexibility combine to offer surprising results.
