 Kimball International

## Open Plan Solutions

With our collection of panel and non-panel-based systems, open landscape work areas can accommodate privacy, worker autonomy, and spatial efficiency. These systems are a natural fit to support individual and collective work, simultaneously. By providing a clean, open configuration, our product mix can support all work styles.

## Panel-Based Workstations

Our panel-based systems offer a streamlined framework that tells your brand story throughout the entire workplace environment. Bringing together a wide range of complementary components and products, these workstations can be outfitted with customized graphics, mixed materials, layered panels, seamed panels, and more.

## Etarran

Create spaces for maximum functionality without compromising style.

Simple to specify and quick to install, the Etarran panel system highlights smart design, durable materials, and features all of the essentials. Add static or height-adjustable worksurfaces and a variety of mobile or freestanding storage units to personalize spaces and cultivate solutions that work for any environment. From single workstations and touch down areas to multiperson hubs for collaboration or focus, Etarran's flexibility and comprehensive portfolio make it easy to create a space for any situation.

# Narrate

Design can't be underestimated when creating a workplace culture. Narrate creates compelling environments with a flexible infrastructure that captures company culture while creating all the spaces people need to do their best work.

With a crisp, clean aesthetic, Narrate offers a streamlined framework that provides designers with the ability to maximize flexibility. This system easily creates dedicated areas for collaboration and focus.

## Xsite

Xsite allows limitless opportunities to design spaces that maximize user experience by eliminating boundaries and allowing design to emerge freely.

Xsite provides the essential building blocks to create the foundation of a workstation while offering a surplus of options to enhance functionality and aesthetics. Think beyond the usual vertical and horizontal constraints.

## Cetra

Cetra has it all—the planning convenience of systems furniture, the solidity of steel frames, and the design flexibility of a wide range of panels, finishes, and trim.

Option-rich Cetra lets you use monolithic panels, or mix materials on sectional panels, for striking elegance in high visibility areas. Mix fabric, metal, glass, and wood in almost any combination to create a strong, sophisticated statement in your space.

## Non-Panel-Based Workstations

When it comes to today's open office floorplans, visual expression is a significant factor in choosing the right configuration. But, that selection must also provide proper functionality to create a successful workspace. Our non-panel-based workstations empower users to effortlessly construct the ideal workspace – from heads down focus to lively collaboration...and everything in between.

## Xsede Height Adjust

Take daily work to a new level.

Workplace design should address the need for privacy while offering the freedom to choose an individualized work mode. The versatile components of Xsede Height Adjust provide balance for an active style of work with a welcoming aesthetic and functionality that fosters creativity, well-being, and engagement.

## Xside

Xside's thoughtful design and versatile components help you do more with less. Divide space and tailor workstation privacy as needed, while keeping the space feeling light and airy.

Xside balances focus and collaboration by providing the freedom to develop the space you need. Design ideal workspaces that accommodate all tasks from focus spaces to open collaboration areas.

## Footprint

Footprint's extensive portfolio of workspaces, support elements, storage units, and mobile pieces complement any setting.

Not only does it offer the basics, it has the ability to effectively integrate products and adapt to any environment or workspace requirement. Its solid foundation and thoughtful functionality make it easy to customize and create the right solution for the right design strategy.

## Work|Able

Create functional, expressive walls by utilizing a unique palette of honest materials.

Designed with full functionality in mind to maximize wall space and integrate into the open plan, Work|Able takes a modern approach with simplicity in design to facilitate collaboration, opening up a whole new way of leveraging the wall.

## Traxx & Tiles

This innovative wall system transforms architectural elements into useful square footage.

Its design allows you to easily incorporate functional tiles, worksurfaces, storage, and panels into any space. By mounting this sturdy rail system directly to building walls, each space can effortlessly be customized to meet your needs.

## Storage

Kimball International offers storage and shelving solutions that are applicable in a myriad of environments. Including undersurface, low, overhead, vertical, mobile, shelving, and pull-out storage, our broad offering provides the flexibility to individualize each space with an extensive material selection.

## Footprint

Easily create workspaces with full functionality and smart style.

With solutions that accommodate today's environments, Footprint offers a comprehensive portfolio that can be used to meet a variety of needs. Utilize storage components and worksurfaces to create workstations that meet the needs of your employees and your floorplan. From height adjustable peds that raise with the worksurface to a variety of shapes and sizes of storage, Footprint evolves and adapts.

## Fundamental Files

Kimball metal filing and storage solutions are engineered and built for long-term durability.

With a range of styles to choose from, Fundamental Files are available in two to five-high units for use in file banks and storage islands, or as separation and space division.

## LF Series

Storage is a necessity in any productive workspace and Kimball offers the perfect solution to meet those everyday storage requirements.

Individual workspaces are getting smaller, but workers still need storage. File banks are utilitarian, yet they need to blend in and complement the interior design, and they must be rock solid and secure. Enter LF. A metal filing series that supports storage requirements and meets the needs of a multitude of work environments.
