

The Journey of Mariben™

WE LISTENED

We heard the need for a pull-up table at an attractive price point. We aligned this need with trends we’re seeing in the marketplace and started our development process.

WE CREATED

We developed a pull-up table that has universal design appeal, addresses users’ needs, is priced affordably, and meets GSA and BIFMA requirements. Mariben’s design details and functionality stand out from the competition in the following ways:

Crescent Shaped Base

Allows the pull-up table to be nestled around the leg of a chair or lounge seating, enabling the surface to be closer to the user.

Multiple Top Shapes

Support a variety of activities including note taking, using devices and laptops, and creating an easily accessible spot for your drink or a bite to eat.

Height-Adjustable Option

Adds variety to your day, giving you the option to sit or stand to improve posture, focus, and flexibility.

Nesting

Maximize space for easy and efficient storage and also allows for the creation of a tiered table configuration.

Expansive Paint and Laminate Offering

Accommodate a variety of styles and user preferences.

Attractive Price Point

Delivers great value without compromising functionality and style.

WE DELIVERED

A collection of pull-up tables featuring a crescent shaped base plate and a variety of specification options, including height-adjustability and a wide range of paint colors, to accommodate user preferences at an affordable price point.
