

DAVID EDWARD™

Aspen™

Designed by
Scott Mason

Diversely accommodating for any environment.

Drawing inspiration from classic lines and intricate details, designer Scott Mason embarked on a journey to design a chair that would not only look stunning in any setting but also fulfill the requirements of modern interiors. Aspen's versatility makes it an ideal choice for executive suites and meeting spaces that prioritize elevated design.

Width	27⅞"
Depth	28¼"
Seat Height	18⅞"-22¼"
Seat Width	20"
Seat Depth	19¼"
Arm Height	27⅞"-31"

Weight 43 lbs.

**Executive
Mid Back**

KA4EMPU

Height	41⅞"-45"
Width	27⅞"
Depth	28⅞"
Seat Height	18⅞"-22¼"
Seat Width	20⅜"
Seat Depth	19⅞"
Arm Height	27⅞"-31"

Weight 41 lbs.

BASE FINISH

Polished

Knee Tilt Control

Provides minimal rise of the front seat edge when reclining, allowing the user's feet to remain firmly on the floor. Back may be locked in a full upright position by pushing in tilt lever. Chair swivels freely 360°.

Recommended for users weighing 275 lbs. or less.

Pneumatic Height Adjustment

Allows user to raise or lower the seat height with a control lever while seated. Upward movement of lever located beneath the seat activates a gas cylinder to quickly adjust the chair.

Tilt Tension Control

Increase or decrease tension of tilt to match body weight.
