IMPORTANT SAFETY INSTRUCTIONS

When using an electrical furnishing, basic precautions should always be followed, including the following:

Read all instructions before using this Pod .

DANGER

To reduce the risk of electric shock:

1. Always unplug this furnishing from the electrical outlet before cleaning or servicing.

WARNING

To reduce the risk of burns, fire, electric shock, or injury to persons:

1. Unplug from outlet before putting on or taking off parts.
2. Close supervision is necessary when this furnishing is used by, or near children, invalids, or disabled persons.
3. Use this furnishing only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.
4. Never operate this furnishing if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water. Return the furnishing to a service center for examination and repair.
5. Keep the cord away from heated surfaces.
6. Never operate the furnishing with the air openings blocked. Keep the air openings free of lint, hair, and the like.
7. Never drop or insert any object into any opening.
8. Do not use outdoors.
9. Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
10. To disconnect, turn all controls to the off position, then remove plug from outlet.
11. Commercial use only and dry location use only.
12. Max load 9A for all receptacles.
13. Use only SJT type, min 14 AWG, 80 degree C VW-1 cord.
14. Disconnect power before replacing fuses, replace only with a 250VAC, 10A Fuse.

15. Mount only approved work surfaces and secondary surfaces in accordance with instructions.
16. Risk of Injury to Persons – Do not use pod walls to mount video equipment such as televisions or computer monitors without Manufacturing approved solution.
17. Smoke developed index over 450.
18. Risk of Electric Shock – Connect this furnishing to a properly grounded outlet only. See Grounding Instructions.

19. The work surface is rated to support 200 lbs.
20. Contact your building manager or city fire Marshall before integrating this Pod into your buildings fire suppression system.
21. When not in use for extended periods of time we recommend disconnecting the power cord.

INSTRUCTIONS FOR USE & MAINTENANCE

POD INTERIOR

How to use Dimmer Switch

- Press the switch to turn the light on and off
- Touch and slide a finger along the switch edge to brighten and dim the light
- The light will turn on at the last level used prior to switching off
- The light will switch off after 5 minutes of no motion in the pod

POD EXTERIOR

*Cat6 ethernet cable not included

Cleaning and Care

- Dust as needed with a damp cloth. Periodically clear accumulated dust from the fans and fan grills
- Use only cleaners recommended for glass (non-ammonia) with a soft cloth
- Vacuum interior floor and walls as needed
- Spot clean floor, walls, and stool upholstery as needed using upholstery cleaners for polyester material
- Use warm, soapy water to clean the work surface

How to Replace a Blown Fuse

- Purchase a 250VAC, 10A Fuse
- Disconnect power and remove Fuse Cover
- Extract blown fuse and replace only with a 250VAC, 10A Fuse
- Replace Fuse Cover

How to Reposition + Level

- Use an allen wrench to disengage the glides
- Roll the Pod to it's desired location
- Adjust each of the 4 glides, leveling the Pod so that the seams and shadow lines are square

Kolo 1 Plus

· Begin Floor assembly

Kolo 1 Plus

- Expose the cable connectors from the wall and floor sections
- Make the electrical and data cable connections
- Attach the side walls to the floor

Kolo 1 Plus

- Make the electrical connections
- Install four alignment pins
- Screw the ceiling corners and ceiling together using four screws

Kolo 1 Plus

- Install the ceiling and make the electrical connections

Kolo 1 Plus

- Ensure that A/C power, USB outlets, light, and fan are in working order
- If failure, recheck all connection points
- If all components function, move to next phase of assembly

Kolo 1 Plus

- Attach horizontal frame H1

Kolo 1 Plus

- Insert vertical frame J1 onto corner **I**₁
- Insert this assembled unit into horizontal frame H1
- Attach vertical frame H1

Kolo 1 Plus

- Orient the glass panels outward
- Fit the glass panels into horizontal frame H1
- Engage with vertical frame J1

Kolo 1 Plus

- Insert fin M1 into corner **I1**
- Insert vertical frame J2 onto corner **I2**
- Insert this assembled unit into horizontal frame H1 and fin M1

Kolo 1 Plus

· Attach vertical frame J2

Kolo 1 Plus

- Assemble corners **I3** and **I4** onto horizontal frame **H2** and fin **M2**
- Lower this assembled unit into place, while also inserting fins **N1** and **N2** into corners **I1** and **I2**

Kolo 1 Plus

- Attach horizontal frame H2
- Use a mallet to close the four hinged fins N1, N2, M1 and M2

Kolo 1 Plus

- Begin front face assembly
- Attach horizontal frame H3

Kolo 1 Plus

- Insert vertical frame J3 onto corner I5
- Insert this assembled unit into horizontal frame H3
- Attach vertical frame J3

Kolo 1 Plus

- Fit the bezels between the door handles use the two screws provided to secure the handle.

Kolo 1 Plus

- Orient the door and side glass panel outward
- Slide the glass panels into horizontal frame H3
- Engage with vertical frame J3

Kolo 1 Plus

- Insert fin M3 into corner I5
- Insert vertical frame J4 onto corner I6
- Insert this assembled unit into horizontal frame H3 and fin M3

Kolo 1 Plus

· Attach vertical frame J4

Kolo 1 Plus

- Assemble corners **I7** and **I8** onto horizontal frame **H4** and fin **M4**
- Lower this assembled unit into place, while also inserting fins **N3** and **N4** into corners **I5** and **I6**

Kolo 1 Plus

· Attach horizontal frame H4

Kolo 1 Plus

- Install screws to secure door and side panel
- Install screw caps

Kolo 1 Plus

- Use mallet to close all the hinged screw access fins
- Remove 4 “OUT” orientation stickers
- Use an allen wrench to disengage the glides
- Roll the Pod to it's desired location
- Adjust each of the 4 glides, leveling the Pod so that the seams and shadow lines are square

Kolo 1 Plus

- Install Floor Cap
- Install Floor tiles P

Kolo 1 Plus

- Press finishing panels into place
- Plug in the Pod
- Check function of all electrical components

Kolo 1 Plus

- Unplug the power cord
- Remove the cover plate
- Drill a pilot hole from the exterior
- Use a 2 3/8" hole saw from interior
- Install grommet, plumbing and sprinkler head guard (not provided)
