Care

Cleaning & Care Instructions

- Wipe up spills as soon as they occur
- Clean with soap and water or alcohol based cleaners
- Sanitize using (1:5) bleach/water solution or other approved disinfectants
- For ink or other stubborn stains, wipe off with isopropyl alcohol as soon as possible
- Thoroughly rinse all solution residue with clean water
- Air dry

Some upholsteries may experience dye transfer (clothing dyes transfer to the seating fabric.) This does not mean that the fabric or application is deficient, but rather it is an inherent characteristic of that fabric or application and is considered normal behavior. Once the dye transfer occurs on Essence, Brisa, Brisa Distressed, and Tottori, it is irreversible.

The above collections are PFAS free.

The above collections can be used in healthcare applications with the exception of Brisa & Brisa Distressed, which can only be used in non-clinical applications.
