

A modern office lounge with a large vertical garden wall, a curved sofa, and large windows overlooking a city. The vertical garden is a lush wall of green plants in a dark frame. The sofa is light-colored with a curved design and several cushions. The windows are large and offer a view of a city with many buildings. The lighting is warm and modern, with several pendant lights hanging from the ceiling.

Kimball Product Certification Summary

Kimball International is committed to managing the impacts that our products have on human health and the environment. In line with this commitment, our practices focus on ensuring high product quality, integrating environmental and health considerations into materials use and product design, and working to make product transportation and end-of-life more sustainable.

We are committed to sustainable business practices and we offer products with the following attributes: SCS Global Services Indoor Advantage™ GOLD and BIFMA LEVEL® certified.

In addition, we have material recycling and disposal options for all of our products at the end of life.

Kimball International used the following method for its product grouping approach for LEVEL certification: The combination of base product and options with the highest volume of sales or anticipated highest volume for a new product within the product category / subcategories as defined in Annex A. It is not necessary to consider the full range of options available on the representative sample for purposes of the evaluation. Notwithstanding all products of a family group are expected to meet the intent of the credits.
