PULL-UP TABLES

NATIONAL.

# Highly stylish and incredibly efficient.

Mariben pull-up tables combine smart design with stylish contours. Its crescent-shaped base plate allows the pull-up table to be nestled around the leg of a chair or lounge seating, enabling the surface to be closer to the user. This base design also accommodates nesting for easy storage or tiered tables. Mariben incorporates mixed materials, height adjustability, and varied shaped tops, cultivating a table solution that is practical, affordable, and flexible.

Pull-up tables are available in three top shapes with a wide variety of laminate surface options and height adjustable or fixed bases. Mix and match the column color with the base plate color to create a contrasting look or utilize the same paint for a monochromatic scheme. Height adjustable columns are available in Designer White, Cinder, and Platinum Metallic, while the fixed columns and crescent bases are available in all paint colors.
