

Kolo Pod

NATIONAL.

Kolo Pod

Available in five sizes and an ADA-compliant model, the Kolo Pod makes it easy to find the right solution for working, learning, and healing environments. It's designed to offer a quiet space for focused work or meetings with up to eight people. Our Anti-Eavesdrop Design obscures speech intelligibility and dampens sounds, while the motion-activated fans refresh air for comfort. Made with best-in-class materials, the Kolo Pod is always in stock and ready to ship.
