Om Pod

Om Sit and Om Stand pods maximize open spaces by providing a quiet haven in working, learning, and healing environments. Ideal for a quick phone call, lengthy video chat, or anything in between, the Om Pods feature our Anti-Eavesdrop Design which obscures speech intelligibility and dampens sounds. The motion-activated fans refresh air for comfort and the built-in rollers make it easy to accommodate changing floorplans. Made with best-in-class materials, Om Pods are always in stock and ready to ship.
