

Kolo ADA- Compliant Pod

NATIONAL®

Kolo ADA-Compliant Pod

With the ADA-compliant model of the Kolo Pod, now privacy is accessible to all. Designed to offer the choice for privacy and quiet in open spaces, the ADA-compliant Kolo Pod is thoughtfully designed to accommodate a variety of guests.

This pod features a ramped threshold and anti-slip floor. Fold-down benches can be found on either side, while a center worksurface folds upward for maximum space and mobility. The T-shaped turnaround allows for complete use of the pod's internal floorplate. The automatic door opens with a light touch and closes automatically. Motion-activated lights are dimmable and the motion-sensitive fans recirculate air within the pod every 3 minutes. The front and back glass can be used as a dry erase board and is constructed of tempered safety glass.

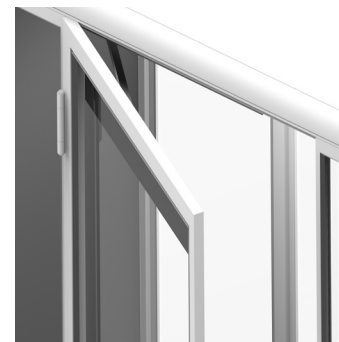

Kolo Pods received a Silver Nightingale Award and an Innovation Award at the Healthcare Design Conference + Expo (HCD) for excellence and innovation, as well as its contribution to healthcare environments.
