

Frill™

DAVID EDWARD

FRILL

Frill epitomizes a sublime juxtaposition of style and beauty. With its elongated and ornate turned base design, Frill is exquisitely modern. This family of tables can be placed together to form a striking table ensemble or stand alone with pride.

Eakin's designs are about more than just furniture. His journey in designing the Frill table collection began when he noticed antique bellows hanging on the wall of a bronze foundry in Chicago. The flair of the bellows' neck inspired the shape of the table base, while the accordion back inspired the ruffle detailing around the base. The top pattern represents the rush of air escaping the bellows when operated.
