TABLES COLLECTION

Strassa tables combine classic structure with today's need to collaborate. Worksurface, counter, and bar heights in widths from 24" to 48" and lengths up to 240" make it easy to use Strassa throughout an entire environment. Whether you are gathering as a group or need space to spread out, it's a smart solution for corporate areas, training spaces, café spots, and design studios.

Optional power and data grommets combined with Strassa's built-in wire access panel or our cord management accessories make it easy to charge up and connect. Add on the optional footrail to provide comfort for standing applications.
