TABLES, STORAGE, & MOBILE ANCILLARY

The Tarver collection celebrates industrial beauty and the natural characteristics of artisanal veneer and rugged steel. Featuring exposed metal fasteners, Tarver blends craftsmanship and rustic appeal. With varied shapes, heights, and sizes of tables along with coordinating storage and mobile pieces, Tarver enhances working, gathering, and dining spaces.

"Inspired by the revitalization and renovation of late 19th century industrial warehouse architecture, Tarver merges the natural characteristics of metal and wood to create rustic showpieces."
