# Fringe 2.0

## LOUNGE COLLECTION

Fringe 2.0 is an extensive offering of lounge seating and tables that can be combined to create everything from large configurations for community areas to individual nooks for privacy. Fringe 2.0 complements the Fringe series but showcases a lighter scale profile and slender silhouette. It also includes a clean out feature to address the need for cleanability in high-use areas. Unique club chairs, guest seating, and lounge components make Fringe 2.0 a beautiful solution for workplace, education, and health spaces.

*"Based on the architecture of original Fringe, I designed Fringe 2.0 to have a softer aesthetic and a more comfortable sit. The thinner arm and back styles are relevant to today's trends and the user experience has been enhanced by offering softer, more residential seat cushions."*

**Derek Schweikarth** | Designer
