SEAQUAL
INITIATIVE

**TOGETHER
FOR A CLEAN
OCEAN**

MAKING A POSITIVE IMPACT

At Kimball International, we are committed to minimizing our environmental footprint while incorporating sustainability into our product design and development processes. We are proud to partner with Seaqual Initiative to offer panel fabrics that are created from plastic marine litter.

The Seaqual Initiative is a unique collaborative community that works with ocean clean-up programs around the world to bring value to waste recovered. Seaqual Marine Plastic is upcycled into yarns, which are then woven into textiles. Abroad, Deliver, and Post are Grade B panel fabrics created using Seaqual Yarns. These textiles are bleach cleanable and ideal for use in healthcare spaces and other high-use areas.
