Jovalie

LOUNGE COLLECTION

With distinct curves that create cozy comfort, Jovalie is more than just lounge seating. Its welcoming style and versatile shape easily fit into a variety of environments, creating spaces where conversations flow and interactions thrive. Easy access to integrated power and data options makes Jovalie even more accommodating. From single seat solutions to multi-seat units, with options for mobile, static, and swivel bases, Jovalie offers distinct appeal and indulgent comfort.

“When designing Jovalie, I wanted to develop a lounge solution that could be used in any space type — from hub-like areas with multiple users to cozy nooks where individuals could relax. Jovalie is unique because its curvaceous design really creates a relatable experience for the user. It’s comforting and inviting.”
