LF™ Series

# LF Series

As office landscapes change and footprints shrink, individual workspaces are changing but filing needs remain constant. While file banks are utilitarian in design, our LF Series metal filing and storage solutions were created to complement the

interior design of a space. Engineered and built for long-term durability, this collection of lateral files, overfiles, and storage cabinets offers a range of filing capabilities, drawer configurations, and paint options.

## Statement of Line

2-High Lateral Files

3-High Lateral Files

4-High Lateral Files

5-High Lateral Files

Overfiles

Storage Cabinets

## Features & Options

- Files available in 2- to 5-high units for use in file banks and storage islands, or for space division
- 2-, 3-, and 4-high files are available with half-height drawers in any or all positions
- Progressive slide suspension provides smooth drawer operation
- Built-in anti-rebound catch prevents drawers from accidentally rolling open
- Roll-out shelf with lift door option available
- Convenient coordinating options available like storage cabinets, overfiles, posting shelf units, bases, laminate file tops, wardrobe kits, and paper management accessories
- Features a dual interlock system which ensures that only one drawer may be opened at a time
- LF Series cabinets can be moved fully loaded
