Fringe 3.0

LOUNGE COLLECTION

Fringe 3.0 has a streamlined silhouette and tailored style. Designed with clean lines, angular details, and straight arms, this series is a perfect solution for spaces with a smaller footprint. Nook models feature tablet arms or cubbies to create additional workspace or storage. All models are sized to fit in Kolo Pods and are the perfect solution for welcoming lobbies, focus areas, and guest spaces, too.

"When designing Fringe 3.0, I focused on creating a lounge solution that accommodates spaces with smaller footprints, including the Kolo Pods. By enhancing the styling and comfort of Fringe 2.0, and adding tablet arm and cubby options, Fringe 3.0 provides an efficient offering that adds convenience and privacy."
