TABLET ARM SOLUTIONS

Kimball International offers a wide range of lounge, guest, and side seating solutions with tablet arm options. Convenient and efficient, our tablet arms provide a surface for devices and books or coffee and a space to journal. No matter how you use our tablet arms, they are designed to boost productivity with comfort and usability in mind.

Choose from swivel arms that rotate 360°, hinged arms that fold for easy entrance into the seat, or double-pivoting arms that accommodate left- or right-handed users. Our variety of shapes, sizes, and functionality truly give you options when a tablet surface is needed.
