

ALTERNA[®]

interwoven[®]

A VERSATILE FOUNDATION FOR THE SPACES
PEOPLE RELY ON EVERY DAY.

**Alterna brings together the durability of
contract-grade casework and the flexibility
of freestanding furniture, creating a versatile
system for environments that demand both
performance and design consistency.**

Originally developed for healthcare settings, Alterna is engineered to support the realities of everyday use with durable materials, modular components, and coordinated finishes that adapt easily across applications.

From workplace and education to healthcare and hospitality environments, it provides a cohesive foundation for storage, support spaces, and integrated amenities.

With efficient installation, flexible configurations, and a broad statement of line, Alterna offers a smarter alternative to traditional millwork, helping spaces evolve over time while maintaining consistent design intent.

*Created to meet
evolving demands.*

HEALTH

Today's healthcare spaces demand more from furniture. They require adaptability, durability, and a professional aesthetic that supports both care teams and patient comfort. Alterna is designed to meet those needs across the entire facility. Whether it's a patient room, nurse station, clinic check-in, or staff respite area, Alterna delivers consistent finishes, flexible configurations, and long-term value that help healthcare environments perform better.

WORKPLACE

In today's corporate environments, flexibility and consistency are key. Alterna supports a wide range of workstyles and settings. Its modular design allows for easy reconfiguration as needs evolve, while coordinated finishes and thoughtful details help maintain a cohesive look across departments, floors, or entire campuses.

EDUCATION

Alterna is designed to support evolving needs of educational environments, from early learning through higher education. With a broad offering of modular storage, worksurfaces, and accessories, it adapts easily across a variety of spaces. Durable, flexible, and easy to install, Alterna delivers long-term value in classrooms, labs, offices, and common areas.

Alterna delivers a consistent and reliable casework solution that brings lasting value to a wide range of commercial spaces. It combines the durability of contract-grade construction with the refined look of built-in millwork and the flexibility of furniture. Supported by a broad statement of line and high-quality material options, Alterna promotes cleanability, easy reconfiguration, and long-term performance. Designed for efficient installation and future change, Alterna offers a dependable alternative to permanent millwork while often providing measurable cost savings per square inch over the life of the space.

| 6. Flat-top or sloped-top | |
| 7. Faucet options | |

MODULARITY WITH PURPOSE

Alterna is engineered for change. Cabinets and surfaces can be removed, reconfigured, and reused without damage giving you the freedom to evolve or expand as needs change.

DURABLE, CLEANABLE MATERIALS

From high pressure laminates to solid surface options, Alterna is built to perform in demanding environments. With durable construction and easy-to-clean materials, Alterna holds up to rigorous use over time.

FULL-FACILITY SOLUTIONS

Alterna provides adaptable storage and casework solutions for a wide range of environments, creating a cohesive interior across an entire facility.

VERSATILE BEYOND HEALTHCARE

While Alterna was developed with healthcare performance in mind, its flexibility also makes it a strong solution for education, workplace, and community spaces.

DESIGNED FOR SPEED & SAVINGS

Because it qualifies as furniture, Alterna is treated as a capital asset rather than fixed millwork. This helps simplify project timelines and long-term planning while offering financial value.

FINE-INCREMENT MODIFIED SIZING

Alterna is a parametric-inspired, modular system that offers 1/16" adjustability in width, which means cabinets, drawers, and worksurfaces can be tailored to the exact dimensions.
