Zing

COLLABORATIVE TABLES
& ACCESSORIES

NATIONAL®

Shaped by everyday experiences.

Zing is a flexible table collection designed for spaces that change throughout the day. Based on feedback from those who set up, clean, and use meeting areas every day, we created Zing to make a difference in environments where tables need to move easily, store tightly, and be powered without clutter. With smooth flip/nest capabilities, generous kneespace, and simple access to charging, Zing is ideal for spaces where we gather, learn, and socialize.

Moves with the moment.

Zing was developed in response to a clear shift in how modern environments function. Training rooms, classrooms, and collaboration spaces need furniture that can move, adapt, and reset quickly. Zing facilitates quick layout changes, so one room can support interaction, lecture, teamwork, or social use without interruption. It brings the required flexibility to spaces that are used for multiple purposes.

The Learner

They care about comfort, accessibility, functionality, and a set up that supports focus and engagement.

- Clear kneespace
- Better sightlines for lectures
- Shapes that support solo and group work
- Easy flip and quick mobility
- Integrated power for electric cords
- Accessible heights for all

The Facilitator

They care about flexible configurations, easy set up, and functional accessories (power access, mobility, visibility, cup holders, hooks).

- Reset rooms quickly and easily
- Maintain clean sightlines
- Move tables and tools easily
- Keep devices powered and accessible
- Store materials
- Support teaching without clutter

The Facility Member

They care about planning, configuring, moving, and maintaining with a focus on durability, ease of use, storage efficiency, and how well the tables support evolving space needs.

- Built to handle daily use and high traffic
- Easy mobility, tight nesting, faster cleaning
- Toolless power connections
- Factory-installed hardware and power
- Flexible shapes that adapt
- Simplified installation

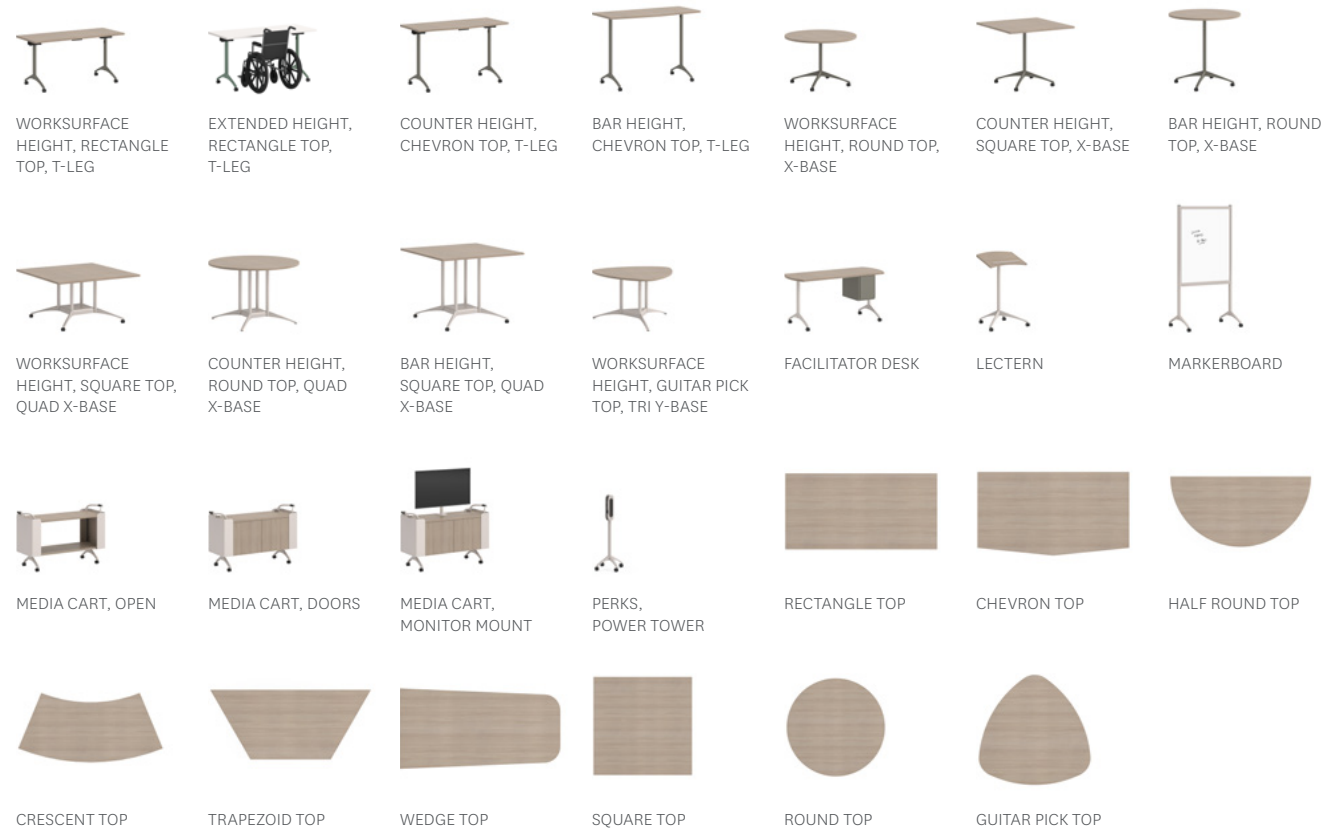

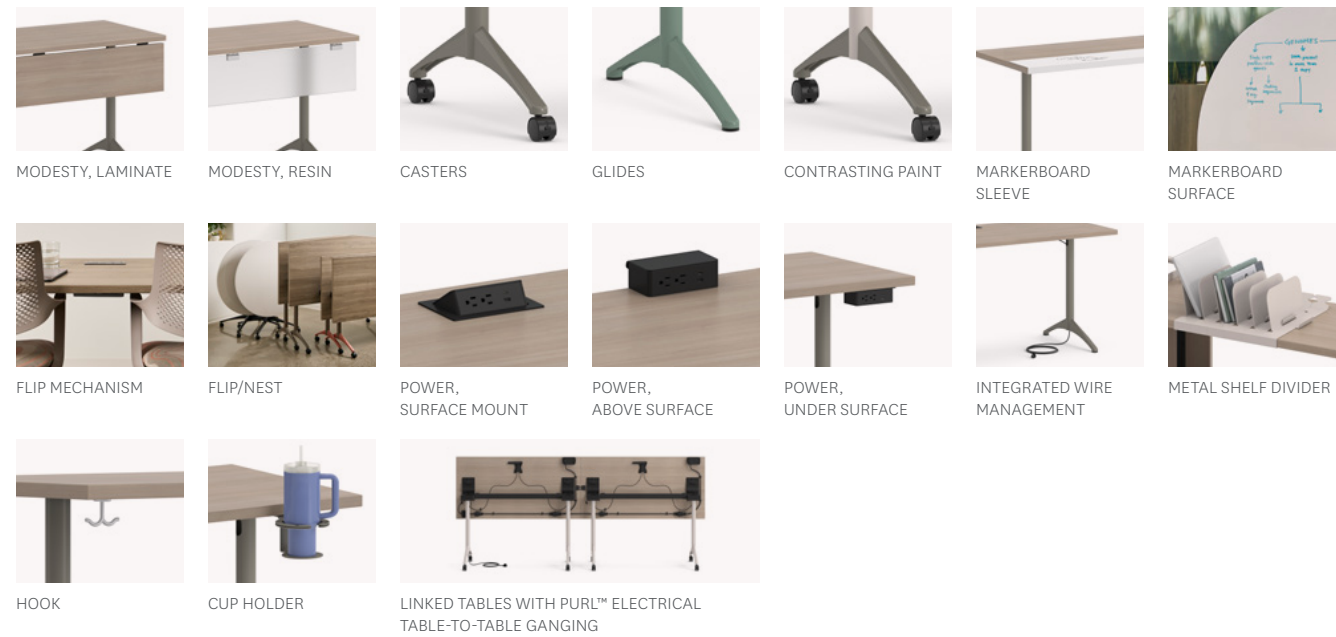

Flexible by design, broad by scope.

Shaped by the demands of learning environments, Zing also stands out in workplace, healthcare, and community spaces. By offering a broader range of table types, including supporting pieces that adapt to how each environment works, Zing is flexible and dependable. Its clean look and versatile configurations make it a natural fit wherever people gather, learn, collaborate, or recharge.
