

# Commons on Vine

Location: Lancaster, Pennsylvania

Square Footage: 7,400

Dealer: Benjamin Roberts

Architecture & Design Firm: Hammel Associates  
Architects LLC

Photographer: Polett Photo

The Lancaster County Convention Center Authority recently unveiled Commons on Vine, a newly redeveloped event venue at the Lancaster County Convention Center. Developed in partnership with Benjamin Roberts, the space offers a flexible, technology-forward environment designed to attract new clients, support a wide range of event types, and increase demand throughout the region. Central to the venue's transformation is a thoughtfully curated furniture package from Kimball International, featuring several products from the David Edward collection, including Anora, Entourage, and Flo. Combining sophisticated aesthetics, exceptional comfort, and long-lasting durability, these furnishings help create an elevated hospitality-focused experience while supporting the functional and flexible needs of a modern event venue.

Entourage Lounge / Joelle Ottoman / Whimsy Ottoman / Anora Lounge / Jelsen Table

Hobsen Lounge / Wixler Tables

"Kimball International's furniture line of soft seating is a critical element in the development of the new event spaces in Commons on Vine at the Lancaster County Convention Center. The soft furniture layout addressed emerging trends of small group and side conversation needs at conferences and conventions. Kimball International's product line allowed our architect and dealer partner to create a comfortable environment that is aesthetically pleasing and functionally effective for small groups."
