# Rooted in Texas. Inspired by the Journey.

Inspired by the migration of the monarch butterfly and the rich heritage of Texas, The Monarch San Antonio was designed to create a guest experience deeply connected to its surroundings. Partnering with Gettys Group, Kimball Hospitality brought the vision to life through custom guestroom furnishings, public space elements, specialty finishes, and architectural details that celebrate a distinctive sense of place.

From tailored casegoods and seating to thoughtfully crafted public space furnishings, every element was designed to support the property's unique identity while delivering a refined hospitality experience.
