**Pomona Woodworking Show**

The May bus trip to the Pomona Woodworking Show was a great meeting of Southern California's best and most entertaining woodworkers. Fun was had by all on the bus rides to and from the show. Tim rivaled his previous "Identify the Sand Paper" contest with a maddening selection of obscure screws and bolts. If you were unable to enjoy the fun on this trip, consider coming along for the next show. You'll enjoy the large selection of tools and demonstrations and a busload of camaraderie.

**May Meeting -- Wood Threading Demonstration**

The May Meeting included a fascinating demonstration on wood threading. Stephen Case Pall, Brady Andresen and Brad Ormsby revealed the secrets of the Beall Wood Threader. Stephen offered experienced tips such as using linseed oil to help turn the threader and avoiding using end grains.

Brady discussed metal cutting taps and dies and Brad Ormsby demonstrated the Beall System by using a router system.
