President's Message

It was really great to see everyone at the summer picnic!

The board has been working hard these past few months to reinvent our meetings, and we are looking forward to September's meeting, where we will have two presentations. The first will be focused on small shop essentials -dust collection, and the second will be Dan Smith presenting on "The journey from rigidity to creativity in woodworking ". I am looking forward to both of them.

I believe we will have a great turnout for this meeting, and if you are not able to be there, then please plan on attending our October meeting, where we will also have two presentations. There are also a few additional events planned for September and October outside our general meetings, so there is something for everyone!

Check out our calendar of events on our website, CVWA.org. The October event is still being finalized, and as soon as we have details, we will get it posted.

Scott Gamber
CVWA President

Equipment for sale:

We have an old Delta Unisaw (we estimate it to be from the early to mid-1960s) at our Camarillo air museum that needs a new home. If it's permissible, I'd like to advertise it in the next newsletter.

Delta Unisaw, 10"

Rip and miter fence

Motor is set up for 230V single-phase

Motor rated at 5.9 amps

It's not pretty looking and needs new belts, but we ran it, and it runs well, with no vibration

We're asking \$600 or the best reasonable offer.

The Saw is located at the Camarillo Air Museum wood shop

Contact information.

Rob Mawer

Upcoming Events:

- General Membership Meeting - September 4 at the Woodworkers Retreat. 7-9 p.m. Please bring a guest to experience what our club has to offer. We look forward to seeing everyone.

If you are working on any projects and want them highlighted in our newsletters, please send pictures to stacygerlich@gmail.com.
