KESHAVA NARAYAN

Design Principal

An architect turned coder and tech enthusiast, he moves beyond traditional drawing by coding to automate generation of drawing sets. His computational design thinking fosters agility, aligning with various construction industry systems to seamlessly assemble buildings. His ingenuity drives the development of plugins that enhance operational efficiency and simplify complex construction systems.

Registered Architect
COA/2020/125028

Education

Master in Advanced Computation in Architecture and Design, IAAC, Barcelona, Spain

Bachelor of Architecture, CEPT University

Student Exchange Program | Technical University of Munich (Erasmus Merit Scholarship)

Professional Experience

Calm Studio, Chennai + Wasabe, Singapore
BIM Technologist, 2020 - Present
