

## PYKARA LEATHER RADERMECKER®

**P**ykara is the fruit of the meeting of natural tanning leather range.

It is an excellent vegetable tanned leather for manual work and leather goods. It is suitable for hot stamping, hammering, sewing and precise cut. Naturally light leather, it offers a pleasant sensory experience, reflecting the nobility of the leather.

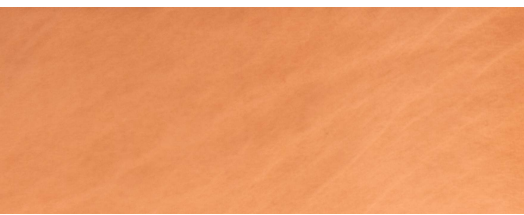

The bath tint adapts itself to the fibers of the skin.

It highlights and gives life to the fibers of the skin presenting a bi-tone finishing.
