

# dockwa

NEW FEATURE: MARINA MAP

# Make those game time decisions with to-scale representations

Yes, you CAN squeeze that last boat onto your linear dock!

The screenshot displays the Dockwa Marina Map interface. On the left is a dark sidebar with navigation options: Dashboard, Reservations, Contracts, Inquiries, Sales, Waitlist, Customers, Messages, Assignments (selected), and Reports. A red 'New Reservation' button is at the bottom of the sidebar. The main area is titled 'Assignments' and shows a view of 'Marina M' with a 'Jump to: 01/05/2023' dropdown. At the top right, there are buttons for 'Assign Reservations' (with a red '145' notification), 'Add Placeholder', and 'Add Note'. A legend indicates '30 Amp' (red diamond) and '50 Amp' (yellow circle). The map shows three dock sections: A (left), B (middle), and C (right). Each section has a vertical list of dock numbers (e.g., A15, A02, A17, A04, A18, A05, A19, A07, A20, A08, A21, A09, A22, A10, A23, A11, A27, A12, A28, A14, A29, A13). Boats are represented by colored rectangles with checkmarks or arrows. A tooltip for a boat in section C is open, showing details for 'Face Dock': Orientation (east (0°) → west (560°)), Mathew Minty - Minty, 45' Power, Arrival (Wed 01/01/2020), Departure (Wed 02/01/2023), Status (Confirmed), Label (Short Term), Assignment Location (275' - 320'), Tie (Starboard), and Customer Note (Prefers slip A-45). Other labels on the map include 'Fuel Dock' and 'Lunch Ramp Dock'.

With the new Dockwa Marina Map, you have a custom visual of your entire marina at your fingertips.
