

LOOKING FOR IDEAS TO SAVE MONEY FOR SCHOOL?

We recommend that you have at least \$_____ saved for initial expenses before starting school. Here are some ideas to help you get started:

- 1 Open a savings account that's separate from your regular checking/savings account and just for school.
- 2 If you are currently working, put away a set amount of money from each paycheck.
- 3 Think about services you can provide to earn extra money. For example: mowing lawns | shoveling snow | babysitting | pet-sitting
- 4 Think about items you may be able to sell to generate extra cash.
- 5 Ask friends and family members to contribute to your education.
- 6 Ask for cash instead of gifts for holidays, birthdays, graduation, etc. and put that money towards your school fund.

Start saving early!

See page 2 for a worksheet to help create your personal savings plan.
