Graduation Rate: Defined by MA 940 CMR 31.03 as the number of stude graduation rate shall be determined within 180 days from the end of each Graduation Time (Median Completion Time): Defined by MA 940 CMR:	ch calendar year.							

number of all students graduating from the program during the latest two calendar years. The graduate placement rate shall be determined within 100 days from the end of each calendar year.

Total Placement Rate: Defined by MA 940 CMR 31.03: The product of the graduate placement rate and the graduation rate. The total placement rate shall be determined within 180 days from the end of each calendar year.

Entry Level Salary Information for the Commonwealth of Massachusetts: https://lmi.dua.eol.mass.gov/lmi/.dua.eol.m

¹ Universal Technical Institute does not provide on-campus room and board at any of its campuses. The room and board and transportation costs shown are estimates derived from the College Board, an independent non-profit, third party entity providing research and student advocacy programs. (See http://professionals.collegeboard.com/higher-ed/financial-aid/living-expense).

² The graduation rate calculation mandated by Massachusetts regulations compares two largely unrelated groups of students who started in the program in the same year and may result in confusing figures if, for example, the number of people starting the program declined or expanded dramatically from year to year. For instance, if 50 students started in a program in 2016 and 100 students, who started in earlier years, graduated in this program in 2016, the required calculation would result in a 200% graduation rate.

Programs with low student counts may generate scenarios with all enrollments occurring in one calendar year, and all graduates in a subsequent year. These instances mathematically produce a graduation rate of "infinity," represented by "0" in our data.

⁴ The Avondale, AZ campus (OPEID 008221) includes five (5) branch campuses in Rancho Cucamonga, CA, Long Beach, CA, Mooresville, NC, Lisle, IL, and Miramar, FL cohort default rate data is reported on a consolidated basis for these locations in accordance with 34 CFR Part 668, Subparts M and N. Pursuant to 940 CMR 31.03 (Loan Nonpayment Percentage Part (a)) consolidated cohort default rates and related student populations are incorporated into the Massachusetts defined Loan Nonpayment Percentages.
