Foreword

As we approach the fourth anniversary of the ratification of the SDGs, we are very pleased to present the second annual report on the progress of African countries towards achievement of the SDGs. We renew our call for an acceleration of SDG actions to address the pressing challenges related to poverty, infrastructure, innovation, and environmental sustainability.

The 2019 Africa SDG Index and Dashboards Report is a call for action not only to meet the SDGs but also to ensure timely and high-quality data on SDG indicators. The report focuses on the efforts that African governments are taking to incorporate the SDGs into their national strategies, budgets, public engagements, and coordination among branches of government. Governments have a unique and central role to play in achieving the UN's Agenda 2030 as well as Africa's own Agenda 2063, which will continue beyond the SDG timeline. While good governance is a Sustainable Development Goal in its own right (SDG 16), the active role of government is instrumental to every other SDG as well.

For this reason, it is necessary not only for each country to reflect on its current SDG status and progress, which are featured in detail in the country profiles, but to analyze how government-led efforts can be improved and accelerated. To this end, we invite countries to organize an "SDG Day" to reflect, at the country level, on the progress made toward the SDGs and how government efforts can do more to support SDG progress. The SDG Day would also be an opportunity to reflect on how the specific SDG targets can be placed in the national context, and how SDG metrics can be disaggregated by region and by household circumstances to better understand the current situation and to design policies that truly leave no one behind.

We hope that the 2019 Africa SDG Index and Dashboards Report will enlighten policy makers and the public on the progress so far towards the SDGs in Africa, and will serve as a catalyst to inspire increasing efforts by citizens, governments, businesses, academics, NGOs, and other partners within and beyond the continent to support the SDGs in Africa. With just over a decade left until 2030, time is running out and the stakes are high. We call on all partners to redouble their efforts to achieve the SDGs.

Belay Begashaw
Director General
The Sustainable Development
Goals Center for Africa

Jeffrey D. Sachs
Director
Sustainable Development
Solutions Network

The SDG Center for Africa is deeply committed to accelerating the implementation of the SDGs across the continent, including developing a new program to help governments build and strengthen capacity on data and statistical systems for reporting on the SDGs.

The Sustainable Development Solutions Network (SDSN) mobilizes global scientific and technological expertise to promote practical solutions for sustainable development, including the implementation of the SDGs and the Paris Climate Agreement.

Executive Summary

The 2019 SDG Index and Dashboards Report provides an assessment not just of where African countries stand with respect to the SDGs and their progress toward the goals, but also how African governments are implementing strategies for achieving them. The key findings of both of these assessments are summarized below.

While the 2018 report included only 11 countries in the preliminary analysis of SDG implementation, this report includes all 54 African countries. To make the survey more comprehensive, additional questions were added, organized around the following 6 areas: (i) national strategies and baseline assessments in the executive, (ii) budgeting practices and procedures in the executive, (iii) stakeholder engagement, (iv) coordinating units in the executive, (v) legislative actions, and (vi) main challenges for implementation. The overall findings on government implementation of the SDGs are as follows:

- The SDGs have widely received official endorsements by African governments and have been incorporated into many government action plans and national strategies.
- There are still widespread gaps on behalf of countries in understanding the distances to SDG targets.
- There is a lack of understanding on what it will take to reach the SDGs, very little consideration for the financial resources that will need to be mobilized, and who will provide the necessary funds.
- Engagement with the public and other stakeholders can significantly be improved. Only four countries have an online portal where citizens can see their countries' progress toward the SDGs, and less than half of all countries have done awareness-raising activities.
- According to country experts, who validated results for 21 countries, a lack of funding and resources is reported to be the single most significant challenge both in terms of SDG implementation and monitoring.

In terms of the current status and trends toward achieving the SDGs in Africa, this year's analysis presents a comprehensive and comparable monitoring framework at the continental, subregional, and national levels. An additional new feature in this report is an analysis and grouping of countries according to their performance on each of the SDGs. Some key findings include:

- Changes in the methodology and the data sources used to generate the 2019 Africa SDG Index have produced different results from last year's report. The average SDG index score across countries has remained virtually unchanged, but some of the rankings have changed.
- Overall, North Africa is the best-performing region on average, while Central Africa is the worst-performing. Tunisia has replaced Morocco as the top-ranking country, while Morocco is now ranked in 4th place, behind Mauritius and Algeria.
- Across the board, African countries perform comparatively well in terms of sustainable production and consumption as well as in climate action (SDGs 12 and 13) but perform poorly in goals related to human welfare (SDGs 1 to 7 and 11).
- There is a great deal of diversity with respect to the main SDG challenges in Africa's subregions. Countries can be broadly categorized into five major groups: continental leaders, which do better in terms of human welfare but need to improve environmental performance; growing countries, which are catching up to the leaders but have high inequality; middle-of-the-pack countries, which must maintain environmental performance while improving human welfare; emerging countries, which are also experiencing growth but still lag in terms of human welfare; and distressed countries, most of which are experiencing conflict, that will require the most support to achieve the SDGs.

Introduction

More than three years have elapsed since the adoption of the 2030 Agenda. The 17 Sustainable Development Goals (SDGs) represent an ambitious and voluntary undertaking by governments to implement and monitor progress on sustainable development. So far, only 19 out of the 54 African Member States have undertaken Voluntary National Reviews (VNR) with a further 16 expected to present for the first time in 2019. The high proportion of countries who haven't yet engaged with the official process suggests that reporting on the SDGs remains incomplete.

On the data side of monitoring, methodological and data gaps prevail: nearly half of the 169 targets are not quantified and only 40% of the indicators in the Global SDG framework have data. Some indicator data collection has not yet materialized, while some indicator methodology is still undefined.¹ The data gaps are particularly egregious in African countries. As detailed in last year's report, there are wide disparities in statistical capacity throughout the continent, but overall it is low. There are common challenges across institutions, relating to technical capacity, data collection and processing, and the adoption and application of international statistical standards and new technologies. Additionally, while the harmonization of the 2030 Agenda and the African Union 2063 Agenda has initiated over the last year, the full integration of the data frameworks is not complete.

The first Africa SDG Index and Dashboards report in 2018 was a first attempt to provide a comprehensive and comparable monitoring framework for the SDGs at the continental, regional and national levels.² The Index and Dashboards included *inter alia* countries' specific performance and trends for each of the 17 goals, the overall country aggregate SDG index score ranking as well as the trend analysis showing the respective countries' distance to achieving the SDGs. This second report of the Africa SDG Index and Dashboards includes additional indicators and eliminates some others. Due to a change in scope, methodology and indicators, the comparison of this index with last year's ranking is not possible.

While the 2018 report included only 11 countries in the preliminary analysis of SDG implementation, this report includes all 54 African countries. To make the survey more comprehensive, additional questions were added, organized around the following 6 areas: (i) national strategies and baseline assessments in the executive, (ii) budgeting practices and procedures in the executive, (iii) stakeholder engagement, (iv) coordinating units in the executive, (v) legislative actions, and (vi) main challenges for implementation. An additional new feature in this report is an analysis and grouping of countries according to their performance on each of the SDGs.

Five case studies, one from each major region, are included to illustrate a variety of best practices on SDG implementation efforts: 1) the African Business Coalition for Health SDGs, 2) Agro-processing Industrial Parks in Ethiopia, 3) Regional integration as a champion of the SDGs – East African Community, 4) Socio-economic investment and environmental impacts of the mines in Zambia, and 5) Jobs in the Digital Global Economy in Tunisia.

The rest of report is presented in three sections: the first analyzes SDG implementation efforts and includes these five case studies, the second presents the results and provides analysis, and the final section explains the methodology. The detailed indicator and country profiles, as well as the full implementation survey results, are found in the Appendices section.

Part I

SDG Implementation Efforts in Africa

1. Government Implementation Survey

African countries have stated their commitment to the SDGs. To understand and gauge how governments are actually implementing the SDGs, we conducted a survey that covers six strategic aspects: (i) national strategies and baseline assessments in the executive, (ii) budgeting practices and procedures in the executive, (iii) stakeholder engagement, (iv) coordinating units in the executive, (v) legislative actions, and (vi) main challenges for implementation.

Preliminary data were collected through extensive desk research and then validated or repudiated through consultations with national experts and government officials. To ensure quality of survey responses, evidence including references to official statements, documents, or web portals were provided for each positive answer. Of the 54 countries, 21 have responses that were vetted by national experts and/or government officials. As limitations, collected data are descriptive in nature and do not cover all established aspects to measure the level of effectiveness of strategies and coordination mechanisms in place.

Consultation summary

From April 15 to 30, 2019, the SDSN and the SDGCA held an open public consultation on the preliminary results of the Implementation Survey. The purpose of the online consultation was to validate the results of the preliminary desk research that the teams conducted. Over the course of the consultation period, nearly 50 sets of detailed comments were received from 20 countries. We are very grateful for the comments received from these sectoral experts from government, academia, NGOs, representatives of national statistical offices, and international organizations.

2. Findings and Analysis

The implementation survey findings are presented in accordance to the six thematic areas. Additionally, the regional comparison analytical survey findings are presented.

A. National strategies and mechanisms in the executive

The survey results show high commitments by African governments in terms of setting national strategies in the executive where most countries have officially endorsed the SDGs, launched a formal process to map the alignment of existing strategies with SDGs, and identified key national priorities vis-à-vis the implementation of SDGs (see Figure 1). Some areas are promising regarding the determination of governments in establishing action plans to implement the SDGs and assigning an institution to lead the work on data and indicators. Areas that show less efforts include documenting and analyzing the progress from the baseline and the distance to achieving the targets.

Out of 54 African countries, 48 countries have an official statement endorsing the implementation of SDGs since the current administration took office. The statement is either made by the head of government or by a member of cabinet. Forty-one (76%) countries have launched a formal process to map the alignment of existing national strategies with the SDGs. 34 countries have mapped their national priorities, while only 25 have identified their key national indicators, with an average of 108 indicators. This suggests that fully fledged adoption of SDGs in national strategies are not complete after three years of implementation. The findings also underscore a mismatch between political commitment and planning for SDGs – exhibiting compliance and enforcement gaps. The gaps become even larger at the downstream stages of the SDG ecosystem, in particular monitoring. Both evidence-based planning and monitoring reinforce each other, but both are in part contingent upon addressing data gaps. The current strategic trajectory arguably constrains effective implementation of SDGs and poses risks to the realisation of 2030 targets.

Figure 1 Most committed areas

Source: Authors' analysis

Despite the progress and commitments made in these areas, there is an urgent need for government efforts to track SDG progress for sound policies and strategic planning. Only 19 out of 54 countries have conducted the assessment to determine their distance to achieving the targets. Of the 19 assessments, 12 cover all SDGs and 7 include a quantitative measure of distance predefined targets. Additionally, 23 countries have issued reports about SDG progress where 21 are standalone reports (including 19 VNRs). This finding clearly demonstrates the need for the type of analysis provided by the Dashboards in this report.

B. Budgeting practices and procedures in the executive

The achievement of the SDGs in African countries will require huge investments and all types of financing including private, public, international and domestic resources. However, SDG financing and budgeting practices have been left behind when strategizing for SDG implementation: a mere 10 countries have done a quantitative assessment of financing needs to achieve the SDGs and only 9 countries have mentioned the SDGs in their latest budget document.

Figure 2 Least committed areas

Source: Authors' analysis

C. SDGs Stakeholder engagement

Communication and information sharing are critical for stakeholder engagement of the SDGs, yet 75% of African countries do not have a dedicated online repository or website for the SDGs, i.e. a website where the latest news, official speeches, metrics, and initiatives on the SDGs are provided. Only four countries have managed to host a separate, stand-alone website for the SDGs: Gabon, Kenya, Morocco and Nigeria. Botswana, Libya, Mauritius, Namibia, Uganda and Zambia reported that an SDG web page exists on the coordinating Ministry's website. Figure 3 below shows that 56% of countries have stakeholder engagement mechanisms in place. On the other hand, 48% of countries have engaged in national SDG awareness-raising. Out of all these countries, Botswana, Libya and Nigeria are the only countries that update their SDGs website regularly. This is a real missed opportunity for governments to share information publicly, especially since public interest in the SDGs is so high on the continent. In a recent analysis using Google trends, all the top 10 countries searching for "SDGs" online are in Africa.³

Figure 3 SDG stakeholder engagement

3. Evans, "Public Interest in the SDGs."

D. Coordinating Unit(s) in the Executive

Seventy-four percent of African countries have a lead central or federal government unit responsible for supporting the implementation of the SDGs across line ministries and agencies.

Figure 4 SDGs lead central/federal government unit

Source: Authors' analysis

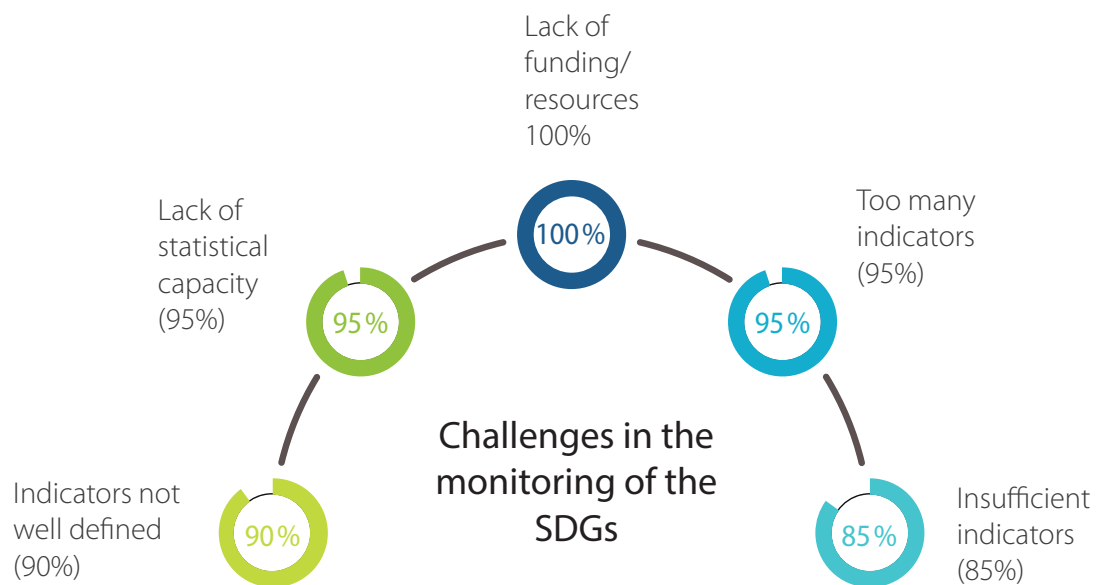

Twenty-one African countries have an inter-ministerial committee or task force set up to coordinate the implementation of the SDGs across line ministries or agencies and another six are planning to establish one. On engagement with the legislative branch, only 6 countries (Algeria, Comoros, Uganda, Mali, Nigeria, Sierra Leone and Zimbabwe) have a dedicated task force/committee set up in Parliament to discuss the implementation of the SDGs.

E. Main challenges for SDG Implementation

This section of the survey presents challenges that are a subjective assessment based on what the experts or SDGs focal person for each country reported. These assessments are not based on any desk research, only the validated results from 21 countries. The first question specifically focused on the main challenges for monitoring the SDGs (figure 5) and the second was more broadly on the main challenges in implementing the SDGs (figure 6).

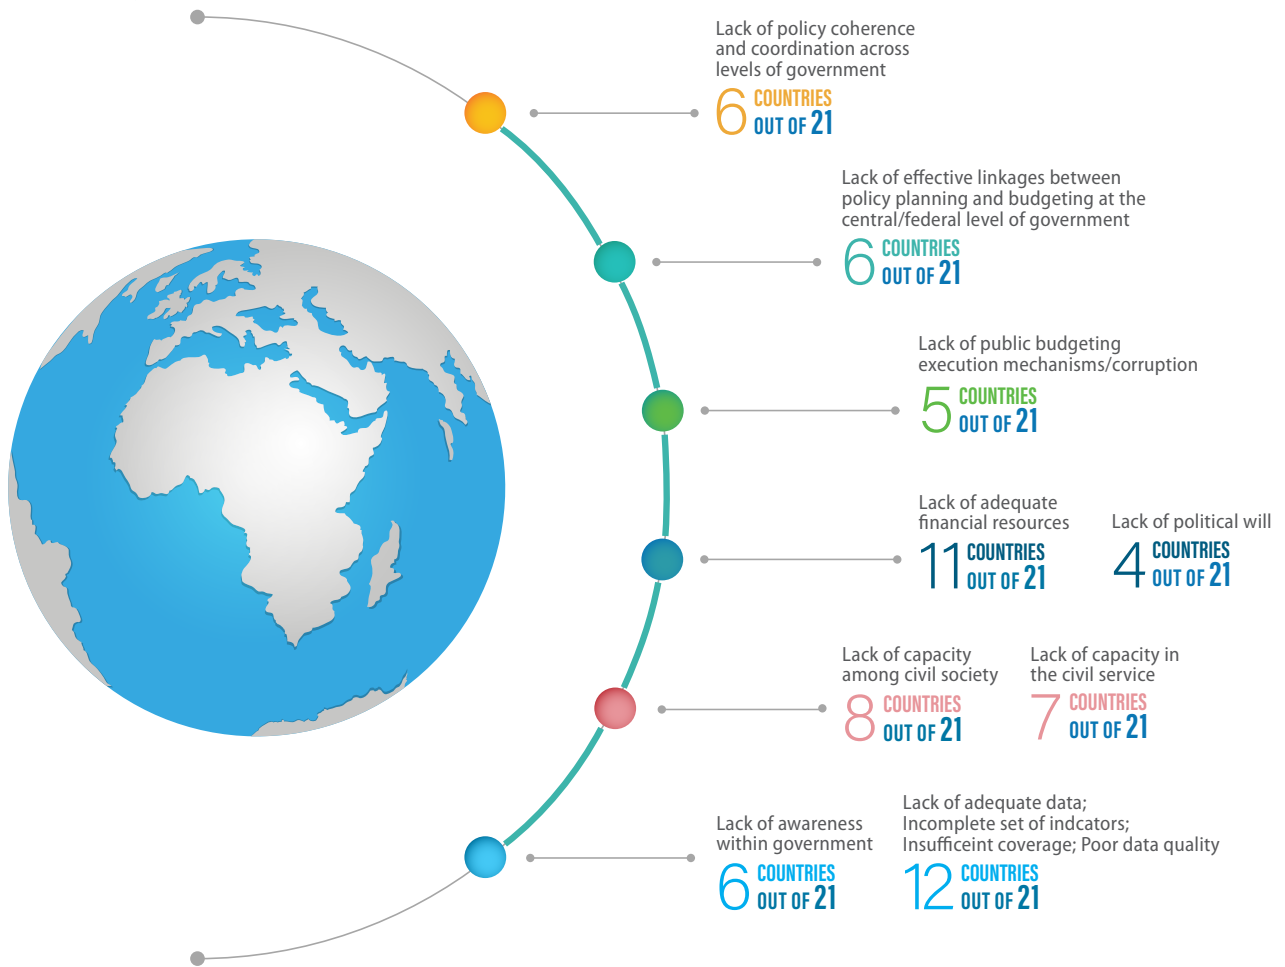

Figure 5 Main challenges for monitoring SDGs

Source: Authors' analysis

All 21 countries for which we have validated results reported that lack of funding or resources is one of the most important challenges in monitoring the SDGs (Figure 5). Libya is the only country that specified that security and political division as one of the challenges in monitoring and implementing the SDGs. Challenges in implementing the SDGs differs from one country to the other, but the most commonly cited challenge was also on lack of financial resources and lack of quality data (Figure 6).

Figure 6 Main challenges in implementing SDGs

Lack of policy coherence and coordination across levels of government is a very important challenge in Democratic Republic of the Congo, Libya, Malawi, Seychelles, South Africa, and Somalia. Similarly, lack of effective linkages between policy planning and budgeting at the central/federal level of government is also a crucial challenge in Democratic Republic of the Congo, Comoros, Libya, Malawi, Somalia, and South Africa. Lack of public budgeting execution mechanisms/corruption is also an important challenge in Democratic Republic of the Congo, Comoros, Libya, South Africa and Somalia whereas lack of political will is an important challenge in Democratic Republic of the Congo, Malawi, Somalia and South Africa only. Another challenge is lack of adequate data: incomplete set of indicators, insufficient coverage, and poor data quality have also been noted as very important in Algeria, Benin, Comoros, Democratic Republic of the Congo, Ghana, Guinea, Libya, Malawi, Senegal, Seychelles, Somalia Zimbabwe. Adequate data is very crucial for monitoring progress towards the implementation of the SDGs in real time. However, this data is collected at an interval of 5 years, which makes it a challenge for monitoring the SDGs on an annual basis. As a result, countries may not track progress in real time until after the five-year period.

Implementation Case Studies

African Businesses engaging in Sustainable Development: The African Business Coalition for Health

The attainment of the SDG and Agenda 2063 health goals requires countries to take a fresh look at healthcare financing, as government budgets of African countries are not large enough to meet the ambitious targets outlined in SDG 3. Collaborations with the private sector are essential to ensuring the achievement of Good Health and Well-Being for all. Small, medium, and large multinational companies are both beneficiaries and contributors to the health of their employees, their families, their communities, and the broader society. The African continent is home to 400 companies with revenue of more than \$1 billion per year, and these companies are growing faster and are more profitable in general than their global peers.

The Global Business Coalition for Health (GBCHealth) and Aliko Dangote Foundation joined forces to build the African Business Coalition for Health (ABCHealth). The Aliko Dangote Foundation is the private philanthropic foundation of Aliko Dangote, established with a mission to enhance opportunities for social change through strategic investments. GBCHealth is dedicated to leveraging the resources and expertise of the private sector to meet today's most pressing health challenges. The ABCHealth was launched during the 2019 Africa Business Health forum and will mobilise private sector champions committed to advancing health outcomes across Africa. The program will kick off in Nigeria and roll out through business regions in Africa and beyond over the next three years. The coalition will have five primary objectives over its first three years:

- Incubate partnerships on priority health programs to enhance and accelerate results;
- Work directly with companies to optimize workplace and community health programs;
- Advocate for policies and initiatives that drive system-level changes;
- Create a hub of data and insights specific to Africa and African business; and
- Curate leadership events to convene and drive action around common health issues, across sectors.

For the government of Nigeria, this coalition will contribute to the financing of the Basic Health Care Provision Fund (BHCPF) which serves as the principal funding vehicle for the health sector. It is the fundamental funding provision under the National Health Act and was appropriated for the first time in the 2018 budget since the Act was signed in 2014.

Its funding is derived from three tracks, namely: (1) an annual grant from the Government of Nigeria of not less than one percent of its Consolidated Revenue Fund; (2) grants by international donor partners; and (3) funds from any other source. The Nigerian government begins to implement the BHCPF since May 2018. The fund is expected to mobilize close to 60 billion Nigerian naira (approximately US\$150 million) in new money per year for primary health care strengthening and service delivery.

Agro-processing Industrial Parks in Ethiopia

Integrating Ethiopia's rural population into global markets for agricultural commodities is a top priority for the Ethiopian government. This is part of the country's strategy to promote rural development, ensure food security, grow the economy and alleviate poverty.⁴ Smallholder farms are not currently highly integrated into agro-industrial value chains. One reason for this is that smallholder farmers are typically risk-averse and lack access to credit, and therefore have few incentives to invest in market-oriented production systems.⁵ Global markets for agricultural commodities also have strict technical and phytosanitary requirements, and companies in Africa often struggle to gain access to these markets due to the high capital requirements, and the low levels of infrastructure in their home countries.

To address the challenges that businesses face and to encourage investment, the Ethiopian government has developed a network of regional integrated agro-industrial parks (IAIPs), in which processing firms are able to consolidate their requirements for infrastructure, utilities, and business services. These include roads, power, water, sewage, telecommunications, cold storage, logistics, sales and purchasing, storage, laboratories, as well as human capital through training and extension services. These clusters of agro-processing firms are supported by networks of Rural Transformation Centers (RTCs) in a 100 km radius of the IAIP, which function as hubs for agricultural extension services, sorting, grading and other pre-processing activities, credit and finance services, input supply, and market information provision. Thus, the links between farmers and other actors in the agro-industrial sector are strengthened. In Ethiopia, this strategy is focused on three sectors: agro-food processing, textiles and apparel, and

leather production.⁶ The government of Ethiopia is encouraging investment by offering low land prices, income tax exemptions, exemptions for input duties for capital goods, remittance rights, training programs for the workforce, and financial support from domestic financial institutions.

The IAIP program internalizes the infrastructure dimension of the SDG agenda in Ethiopia, and also contributes to economic growth, poverty reduction, and food security. As exemplified in this report, Ethiopia has already made significant progress in reducing poverty, food security, and creating jobs (p.56). While it is too early to show what effect this program is having on industry and infrastructure (SDG 9), it can be expected to contribute significantly to this goal. By combining strategies to develop industrial infrastructure, the establishment of rural outreach centers actively seek to establish links with subsistence farmers, both by supplying inputs and providing access points to sell agricultural commodities and prepare them for industrial processes. It also ensures that private actors are incentivized to participate in the development process, instead of it being imposed upon by the national government.

Regional Integration and the SDGs

Effective economic integration can leverage structural transformation and sustainable development.⁸ Both the 2030 Agenda and the AU Agenda 2063 place a particular emphasis on regional integration as a significant conduit for the attainment of its respective goals.⁹ This is also reflected by the recent adoption of the Africa Continental Free Trade Area (ACFTA), which was ratified by 22 Member States as of April 2019. Further, the Addis Ababa Action Agenda on financing for development recognizes the importance of regional integration and by extension emphasizes the need for a regional approach to the SDGs as leverage to consolidate African cohesive undertaking for a lasting developing impact.¹⁰ It is also a form of the growing relevance of South-South Cooperation (SDG 17).

Africa has eight regional economic blocs (see figure 8). The East Africa Community (EAC) has registered the

most progress with trade integration as indicated by the Africa Regional Integration Index.¹¹ Three EAC countries (Kenya, Rwanda and Uganda) have already ratified the ACFTA. However, the EAC remains one of the least competitive regions according to the 2018 WEF Global Competitiveness Report, in particular due to infrastructure.¹² At the regional level, the SDGs are enshrined in the East African Community Vision 2050, aimed at socio-economic transformation and development. All the countries have formally embarked on mainstreaming the implementation of the SDGs. However, regional approaches to monitoring SDGs are not in place and the EAC has not engaged in South to South Cooperation (SSC) as a form of financing for the SDGs.¹³ Regional integration is expected to leverage SSC for sustainable development by consolidating people's voices and espousing regional approaches to raising much-needed resources.¹⁴

Socio-economic investment and environmental impacts of mining in Zambia

Ranked as the 7th largest copper producer in the world, the economy of Zambia depends heavily on copper mining, which accounts for 70% of total export value. Overall, mining provides tax revenues to the government and contributes to job creation and infrastructure development. Mining also constitutes 62% of total foreign direct investment (FDI) and about 12% of total GDP, but only employs 1.7% of the labor force, which is about 8.7% of total formal employment in Zambia. As part of corporate social responsibilities, mines in Zambia also contribute to other socio-economic activities, such as the construction of roads and schools, and the operation of health facilities.¹⁵

Zambia's Vision 2030 identifies mining as a critical sector that should significantly contribute to sustainable social economic development by 2030.¹⁶ Consistently, Zambia's seventh National Development Plan underlines improvement in transparency and accountability in critical sectors including mining. The Government is extending the electricity supply for the areas where there are mines using a diversified energy mix to power Zambia's economy. The aim is to contribute directly to the SDG 7 (Affordable and Clean Energy), SDG 8 (Decent work and Economic Growth), and SDG 9 (Industry, Innovation and Infrastructure). In contributing to SDGs 1 and 8, the government is focusing on formalizing and empowering small-scale miners, supporting development of lapidaries and local auction sales, enhancing the capacity of local businesses to participate in the mining value chains, and boosting export revenue.¹⁷

However, the government SDG implementation efforts have not yet fully materialised. There are still needed legal reforms related to environmental protection, community engagement, resettlements, compensation for land use, as well as creation of decent jobs. The mining industry has also negatively affected human health and degraded the environment. For instance, copper is mined through a leaching or smelting process, which produces sulphur dioxide gas (SO₂) and heavy metals.¹⁷ During these processes, particles react with each other to create acidic mists that not only harm people's skin, eyes and lungs, but also destroy crops, deteriorate the quality of the land, and damage nearby buildings. These negative impacts counteract efforts to achieve the health and environment-related SDGs. In response to some of these challenges, the government established the mines and minerals development Act 2015 in alignment with the Africa Mining Vision (AMV), and a special Mines Safety Department under the Ministry of Mines and Minerals Development.¹⁸

Zambian mining companies have joined the Extractive Industry Transparency Initiative (EITI) and through the EITI reporting process, the revenues accruing to governments from extractive sectors are documented and publicly disclosed. Therefore, this process improves transparency and accountability of the resources which enable citizens to understand how much money is being paid to the government from different sources.¹⁹ The Zambian government is trying to optimize revenue and rents from the sector to finance the SDGs and Agenda 2063.²⁰

Going forward, through the seventh National Development Plan, Zambia has created a governance environment conducive to a diversified and inclusive economy by improving transparency and accountability among key sectors such as mining. However, there is a remaining need to pragmatically mainstream the SDGs into mining through a proactive promotion of more sustainable and inclusive ways of mining in both national development plans and national budgets. For instance, the World Economic Forum has suggested that companies should collaborate to provide common industry perspectives to governments and policy-makers on how to incorporate the SDGs into mining regulations, policies and frameworks.²¹

Jobs in the Digital Global Economy

A major challenge for African countries is how to align their national economies with an increasingly digitized and technology-intensive global economy, and how to attract investment that will allow countries to be competitive in the global economy. In Tunisia, the government is taking major strides to become a global leader in digital innovation and to integrate its workforce into the digital global economy. In 2018, after 2 years of deliberations, the Tunisian parliament passed the Startup Act, which is a law designed to incentivize the creation and development of start-up enterprises that use innovative technologies in their business models. Enterprises are granted the start-up label if they comply with the following five conditions:²²

- They have been in legal existence for no more than 8 years;
- Their revenues, balance sheets, and number of staff are within fixed limits;
- More than ⅓ of the enterprise's shareholders are founders or angel/hedge fund investors;
- Their business models are technologically innovative;
- Their activities have high potential for economic growth.

If an enterprise complies with these conditions, it is eligible for a number of business incentives, including tax exemptions, paid salaries for founders who are taking leave from regular jobs, and access to paid skills training for employees.

This law is part of the *Digital Tunisia 2020* strategic national plan, which focuses on increasing the share of high-tech industries in the economy (SDG target 9.B) and using them to promote socio-economic development (SDG 8.3).²³ As part of this plan, the Tunisian Government is trying to reduce the country's high levels of youth unemployment by creating 50,000 jobs in the digital sectors oriented toward the market for Offshoring, Nearshoring, and Colocation activities, through a program called SMART Tunisia.²⁴ Given Tunisia's location in the Mediterranean and the country's large reserves of educated young people, investors are taking note and seeing Tunisia as a bridge to markets in Europe. Already, numerous start-up companies have been founded in Tunisia or have relocated to Tunisia, attracted by government initiatives.

Efforts are also being made to extend activities into rural areas through education programs in schools focusing on skills of the future, as well as setting up start-up hubs in interior regions, modelled after the famous Station F start-up campus in Paris, France. The changing nature of work and the growth of the digital technology in the 21st century presents both unique challenges as well as opportunities to foster economic growth and provide good jobs to African workers. Tunisia's push to attract innovative, high-tech start-ups is a very good example of how African countries can use their young, entrepreneurial workers to bridge the skills gap faced by the globalized digital economy. The development of the digital economy is also likely to have long-term synergies with other SDGs, promoting not only economic growth and social inclusion, but also providing an environmentally-friendly basis for economic growth that is human-focused and decoupled from adverse environmental impacts.

Part II

Results and Analysis

1. Africa SDG Index

The 2019 Africa SDG Index ranks 52 African countries based on 97 indicators across all 17 goals. The SDG Index score signifies a country's position between the worst (0) and best (100) outcomes. Tunisia tops this year's ranking with a score of 66.01, meaning that the country is 66% of the way towards achieving the SDGs, according to our methodology.

The top 5 ranked states are North African countries (Tunisia (1), Algeria (3) and Morocco (4)) and small island states (Mauritius (2) and Cabo Verde (5)). However, these top performers are still more than 30% of the way from achieving the SDGs by 2030. Low performers are mainly composed of fragile states, with high levels of poverty and conflict in their territories: South Sudan, Central African Republic and Chad scored, 29.2, 36.7 and 38.7 respectively. Seychelles and Libya are excluded due to insufficient data availability. Overall, the average score across all countries is just 52.3 (52.7 after weighting by population), implying that the continent as a whole is barely halfway to achieving the SDGs.

The Index's indicators have been as closely aligned as possible with the official SDG indicators. Where gaps remained, we have filled them with SDG-related data from reputable sources. All indicators are from harmonized data sources to allow for comparison; nationally-generated data cannot be included in a cross-country analysis. To ensure pertinence to Africa, indicators from the global SDG Index that were not a useful metric for African countries or that lacked sufficient coverage were omitted. Likewise, a number of additional indicators were included that reflect Africa-specific priorities including the African Union Agenda 2063. As a result of these changes, the results in the Africa report are not comparable to the findings in the global SDG Index and Dashboards report, or to the 2018 Africa report. The methodology, including data selection, is detailed in in Part III of the report.

Figure 10 SDG Index Rankings

Rank	Country	Score	Rank	Country	Score
1	Tunisia	66.01	27	Mali	51.74
2	Mauritius	65.95	28	Cameroon	51.54
3	Algeria	65.55	29	Benin	51.48
4	Morocco	64.28	30	Mozambique	51.40
5	Cabo Verde	64.00	31	Mauritania	51.25
6	Egypt	63.66	32	Lesotho	50.84
7	São Tomé and Príncipe	61.78	33	Niger	50.32
8	Botswana	61.44	34	Burundi	50.25
9	Ghana	61.17	35	Sierra Leone	49.74
10	South Africa	59.98	36	Djibouti	49.63
11	Gabon	59.06	37	Guinea	49.34
12	Rwanda	57.90	38	Angola	49.18
13	Namibia	57.01	39	Rep. of Congo	48.62
14	Senegal	56.93	40	Liberia	48.02
15	Kenya	56.53	41	Comoros	47.55
16	Tanzania	55.94	42	Sudan	47.38
17	Côte d'Ivoire	55.56	43	Nigeria	47.03
18	Uganda	54.88	44	Madagascar	45.56
19	Zimbabwe	54.77	45	Guinea-Bissau	45.46
20	Burkina Faso	53.47	46	Eritrea	43.32
21	Ethiopia	53.21	47	Equatorial Guinea	42.06
22	Zambia	53.04	48	Dem. Rep. of Congo	41.62
23	Togo	52.67	49	Somalia	40.12
24	Malawi	52.32	50	Chad	38.73

2. Africa Dashboards and Trends

A. Best/worst goals

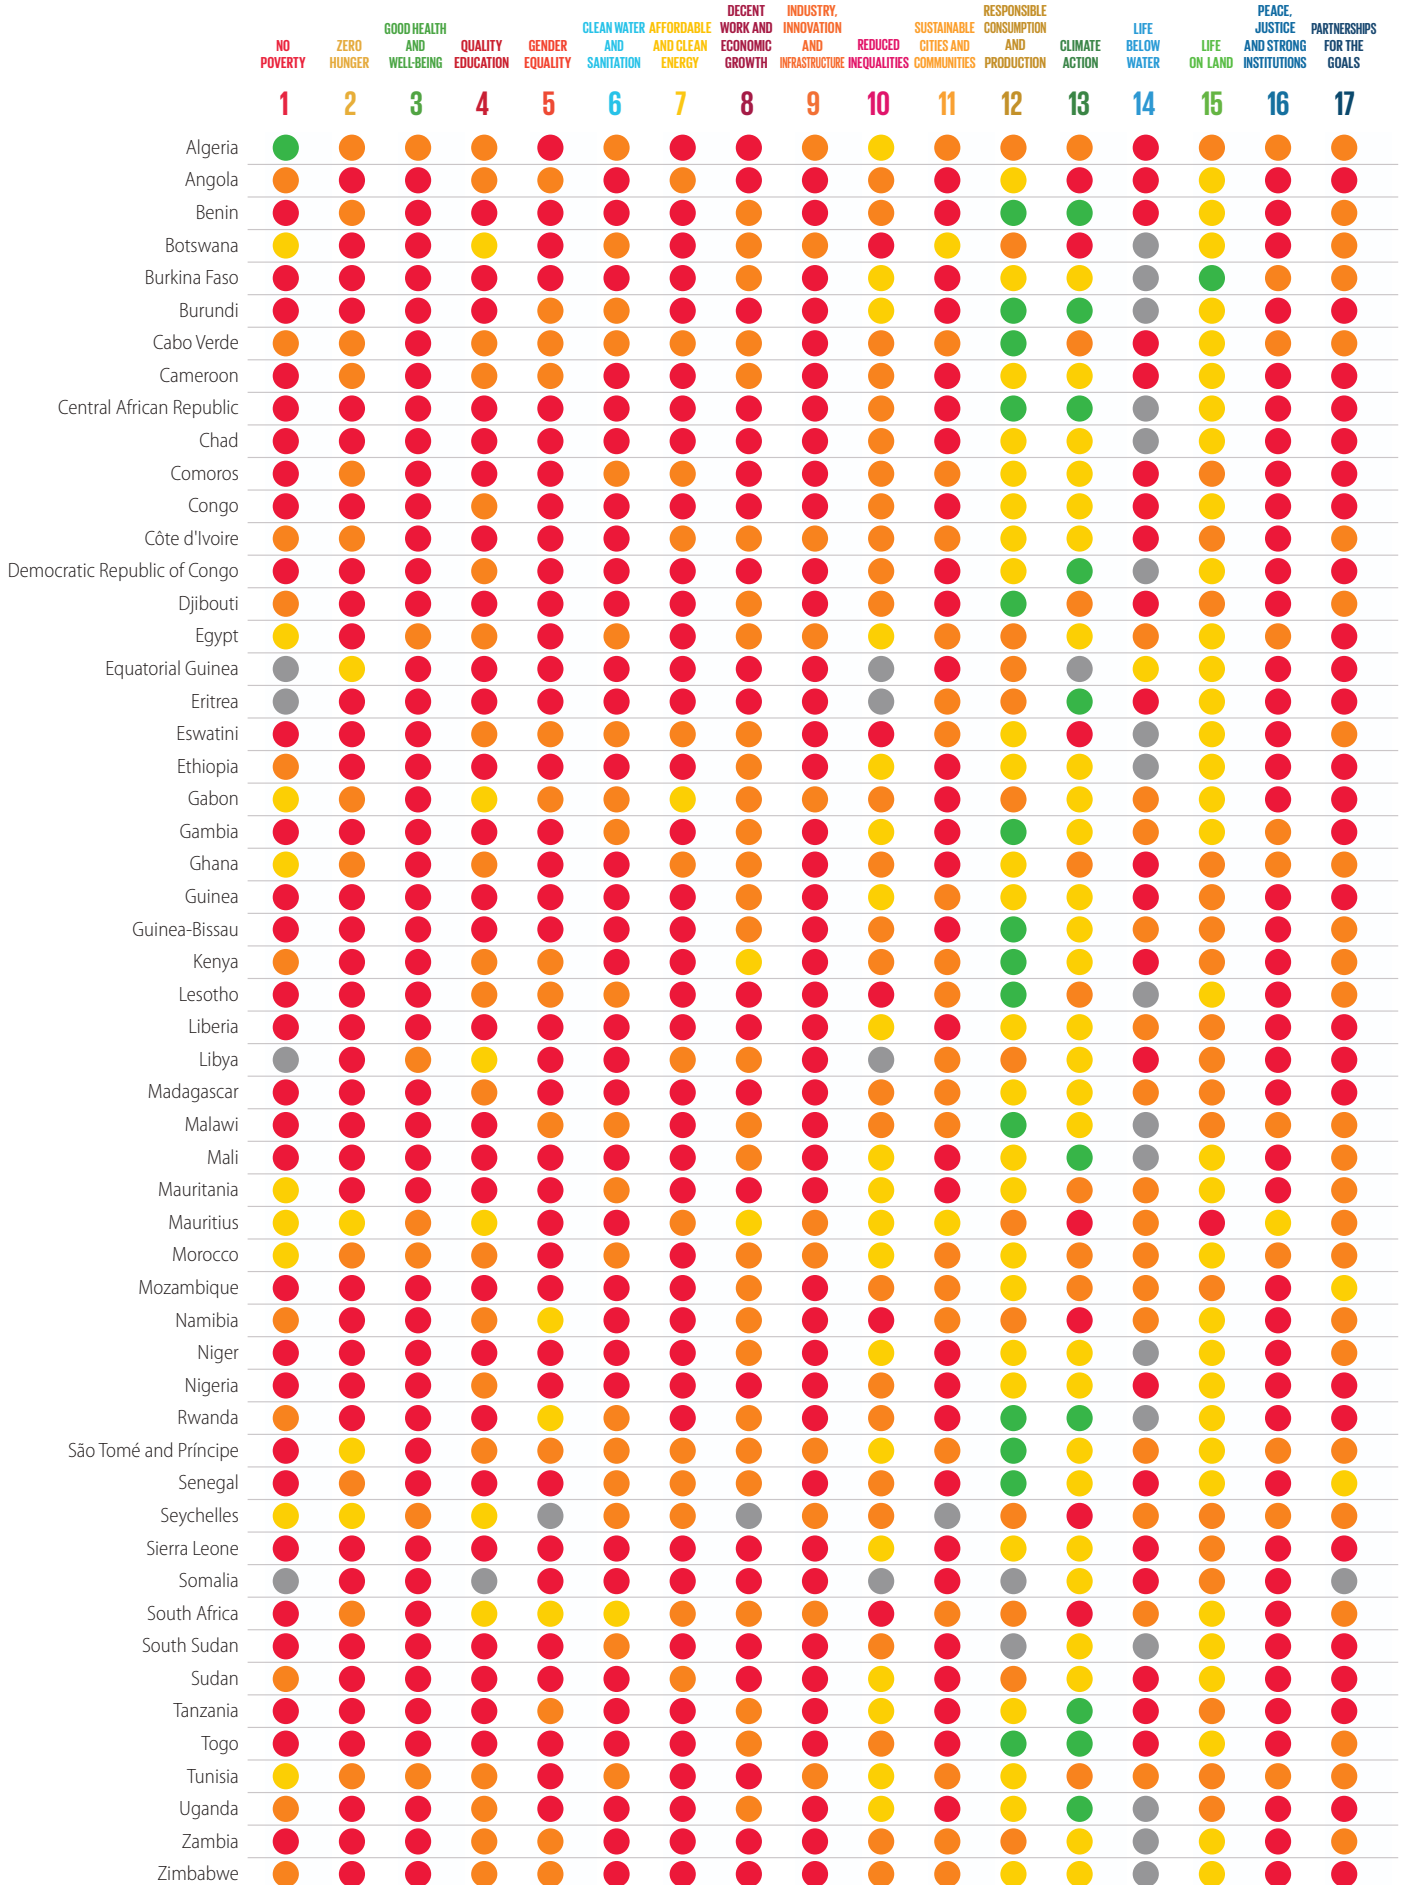

The 2019 Africa SDG Dashboard (Figure 11) serves as a good snapshot of the challenges that the continent faces in achieving the SDGs. On the Dashboard, a green rating denotes SDG achievement and is assigned to a country on a given SDG only if all the indicators under the goal are rated green. Yellow, orange, and red indicate increasing distance from SDG achievement. Red and orange are the most common colors on the Africa Dashboard, showing that the majority of countries are off-track on most of the 17 goals. According to the Dashboard's system of color coding, the goals that are facing the greatest challenges are SDG 3 (good health and wellbeing) with 87% of the countries scoring red, SDG 9 (infrastructure) with 80% of the countries scoring red, and SDG 16 (peace, justice and strong institutions) with 78% countries scoring red. Moreover, for 13 of the 17 goals, no country scored green. The goals where the continent is performing better are SDG 13 (climate action) and SDG 12 (responsible consumption and production) with 19% and 26% of the countries achieving green, respectively. However, this strong performance on SDG 13 cannot be interpreted independently of the overall poor performance on SDG 7 (electricity access) on which all but Gabon score red (74%) or orange (24%).

B. Relationships between goals

Another interesting way to look at the data is to explore the association between goal performances. The simplest way to explore this is to calculate the correlations between goals, which is visualized in Figure 12 below. Overall, goals 1 through 9 and goal 11, 16 and 17 appear to have robust positive correlations, meaning that if we observe a high score in one of these goals, we can expect the other goals to have a high value as well. For the environmental goals (12 to 15), we do not see as many positive relationships with other goals and see some negative associations instead. This indicates that in order for the SDGs to be achieved, the delivery of services to the population needs to be transformed so as to reduce impacts on the environment. One surprising and unexpected finding was that goal 5 (gender equality) has a somewhat negative association with goal 10 (reduced inequality). We expected to see the inverse, since gender equality is a component of overall social equality. This correlation can be explained by the fact that some of the highest performers in goal 10 perform poorly in goal 5, and conversely some of the higher performers in goal 5 perform poorly in goal 10. It reinforces the fact that these associations should not be interpreted causally, but rather highlight some aspects of sustainable development that should be given closer attention. Fortunately, most of the goals are positively correlated, and the negative associations that do exist are not particularly large. The results do not suggest that some SDGs are mutually incompatible.

Figure 11

Africa Dashboard

Note: Green denotes SDG achievement, followed by yellow to orange which indicate an increasing distance from SDG achievement. Red highlights major challenges.

Figure 12 Correlation plot between goals

C. Trends

Analysis of SDG trends in Africa reveal a mixed picture of whether African countries are progressing sufficiently to achieve the SDGs by 2030. The only goal for which the majority of African countries are on track to meeting SDG targets is SDG 13 on Climate Action. The worst trends can be seen in goals 4, 11, and 16, where a large majority of countries are stagnating. Fortunately, there is no single goal for which the majority of countries are off track, although there is a troubling number of countries that have adverse trends in SDGs 1 and 15. Across all goals, the most frequently-observed trend is stagnation. A majority of countries are in this category for SDGs 1, 2, 3, 4, 6, 7, 9, and 16. There is an urgent message underlying this stagnation: increased internal mobilization and external support are essential for African countries to achieve this ambitious development agenda.

There is also a large quantity of missing data. No trend analysis is possible for goals 10 and 12 due to a lack of time-series data. For those goals in which a trend analysis was possible, 43% of countries did not have data to conduct a trend analysis for goal 8 and 37% of countries did not have enough data for goal 11 (goal 14 was not counted, since landlocked countries are excluded from analysis on this goal).

Table 1 Summary of trends toward SDGs across all countries for 15 of 17 goals

	Goal 1	Goal 2	Goal 3	Goal 4	Goal 5	Goal 6	Goal 7	Goal 8	Goal 9	Goal 11	Goal 13	Goal 14	Goal 15	Goal 16	Goal 17
↑	7	0	0	1	2	6	1	2	1	1	39	0	10	1	7
↗	7	20	26	11	26	8	13	20	20	4	3	16	20	8	14
→	27	27	27	37	25	38	35	8	31	25	6	15	16	30	25
↓	9	2	0	4	0	2	3	1	1	4	5	0	8	3	5
—	4	5	1	1	1	0	2	23	1	20	1	23	0	12	3

3. Subregional Analysis

Given the diversity of the continent, subregional dashboards, based on the African Development Bank (AfDB) regional classification, were created to draw more detailed analysis.²⁵ These subregional dashboards and a brief analysis for each are presented below.

North Africa

North Africa is separated from the rest of the continent by the Sahara Desert and is the most economically developed region. By cultural, religious and linguistic standards, it is also the most homogenous. The countries are clustered into two main regional economic blocs: The Arab Maghreb Union (AMU) and the Community of Sahel-Saharan States (CENSAD). This region is the best performing in the continent, having 4 of its 6 countries in the top 6 rank. Tunisia tops the ranking and Algeria and Morocco are in third and fourth place, respectively. North Africa has the least number of reds (average of 5 per country), the largest number of yellows (3.0 per country), and only one green goal. Relative to Sub-Saharan Africa, these states perform better on SDG 1, (poverty) with 80% of the countries scoring yellow and 20% green, and SDG 10 (reduced inequality), with all countries scoring yellow. Historically, this region has had lower levels of poverty that have all been declining constantly since 2000. This is related to the fact that the industrial sector is the most developed on the continent.

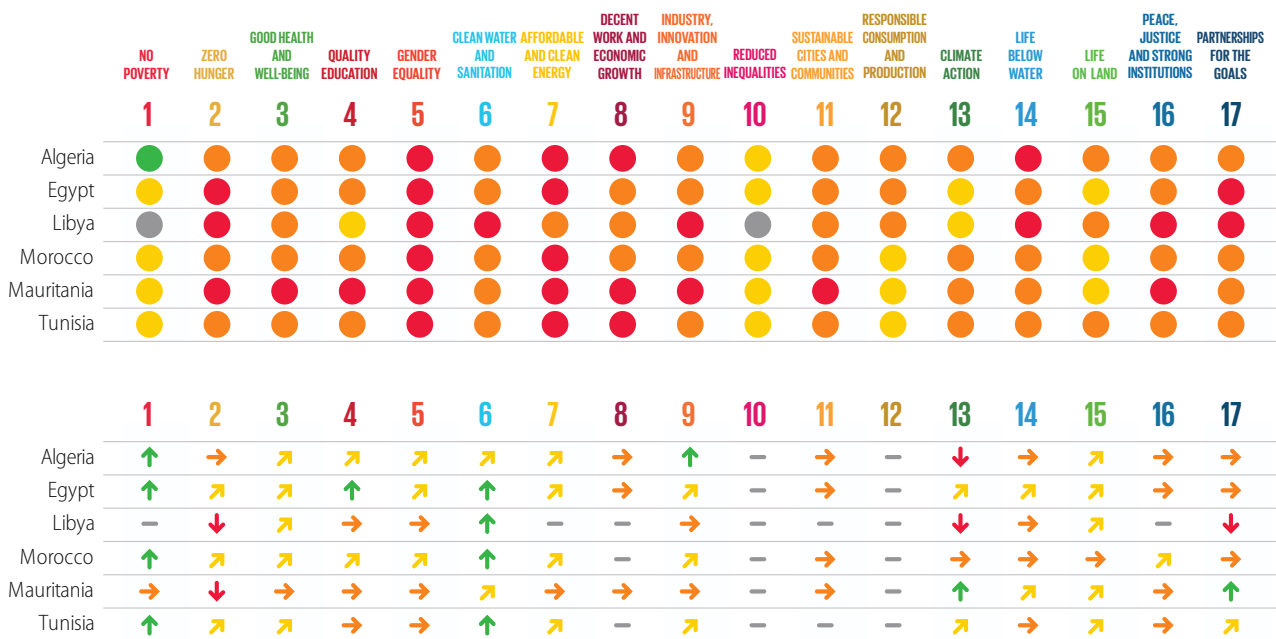

In these countries, SDG 5 (gender equality) is still a critical issue with all countries scoring red. Other challenges are SDG 7 (energy) and SDG 2 (zero hunger), with 83% and 50% of red respectively. Algeria, a country that recently underwent a big political shift after the resignation of its long-seated president, is the top dashboard performer with only 2 reds.

In terms of trends, North Africa is mostly on track to meeting SDGs 1 and 6, moderately increasing on goals 3, 4, 5, 7, 9, and 15; and stagnating on goals 2, 8, 11, 13, 14, 16 and 17. There is no goal for which a decrease in performance is observed, although a few countries are decreasing on goals 2 and 13. Libya, still mired in conflict, is missing data on most goals. Overall, North Africa looks well-placed to remain a top SDG performer, although progress on many goals is insufficient to reach SDG targets.

25. African Development Bank, "Countries."

Figure 13 North Africa SDG and Trends Dashboards

Note: The country groupings are based on the African Development Bank regional definitions. In addition to geography, these groupings take into consideration language, culture, trade ties, and topography. The regions are listed in the order they are presented by the AfDB.
 Source: Authors' analysis

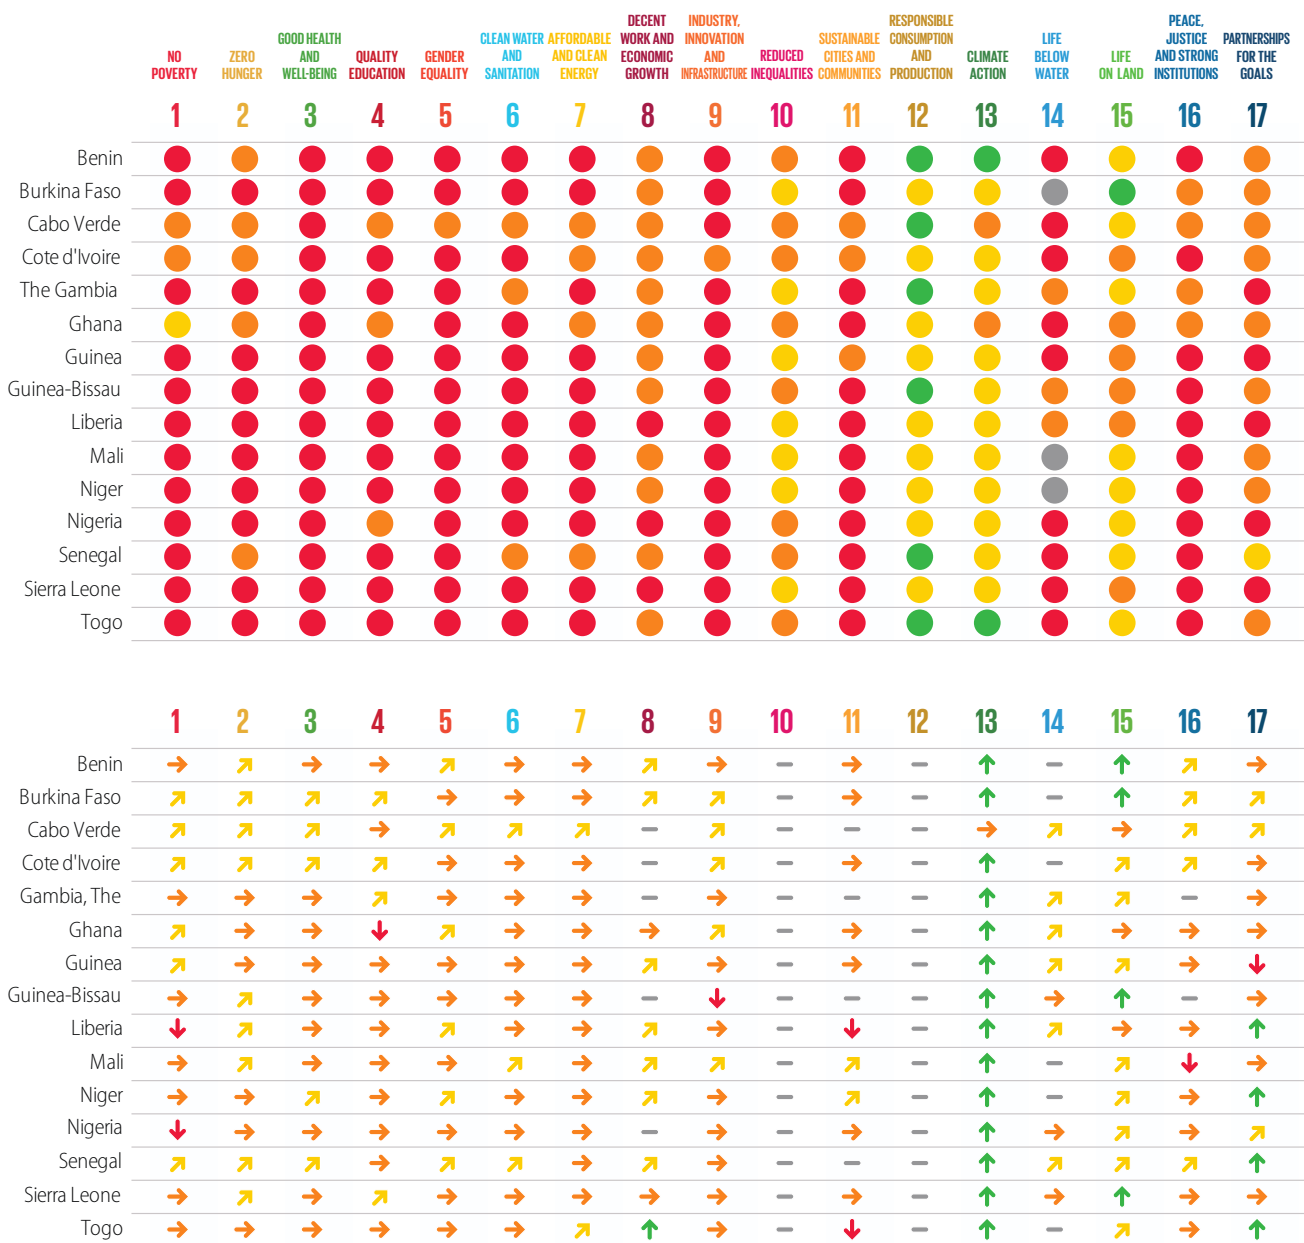

West Africa

West Africa is the largest region with 15 countries and is home to the most populous country and largest economy on the continent, Nigeria. The main economic bloc of the region is the Economic Community of West African States (ECOWAS) and the majority of its countries share monetary policies and the same currency. Cabo Verde and Ghana are the best performers, ranking 5th and 9th in the Index. SDG 3 (health) and SDG 9 (infrastructure) are imperative challenges with 100% and 93% of reds respectively. SDG 4 (education), SDG 6 (clean water and sanitation) and SDG 11 (responsible consumption and production) face great difficulties as well, with 80% of countries scoring red. The best goal performances are in SDG 13 (climate action) and 12 (responsible consumption and production) with 20% and 40% green and majority left yellow, followed by SDG 15 (life on land). However, this could be because secondary industries, such as the manufacturing sector, are not developed to their fullest, and pollution in the form of various emissions and wastes are not substantial.

On most goals, West Africa is stagnating in its progress toward the SDGs. One notable exception, however, is climate action, where all but one country is on track to meet the goal. The region is seeing moderate improvement towards goals 2, 8, 14, 15, 17. The challenge for West African countries will be to overcome stagnant performance in terms of social welfare without undermining environmental sustainability.

Figure 14 West Africa SDG and Trends Dashboards

Source: Authors' analysis

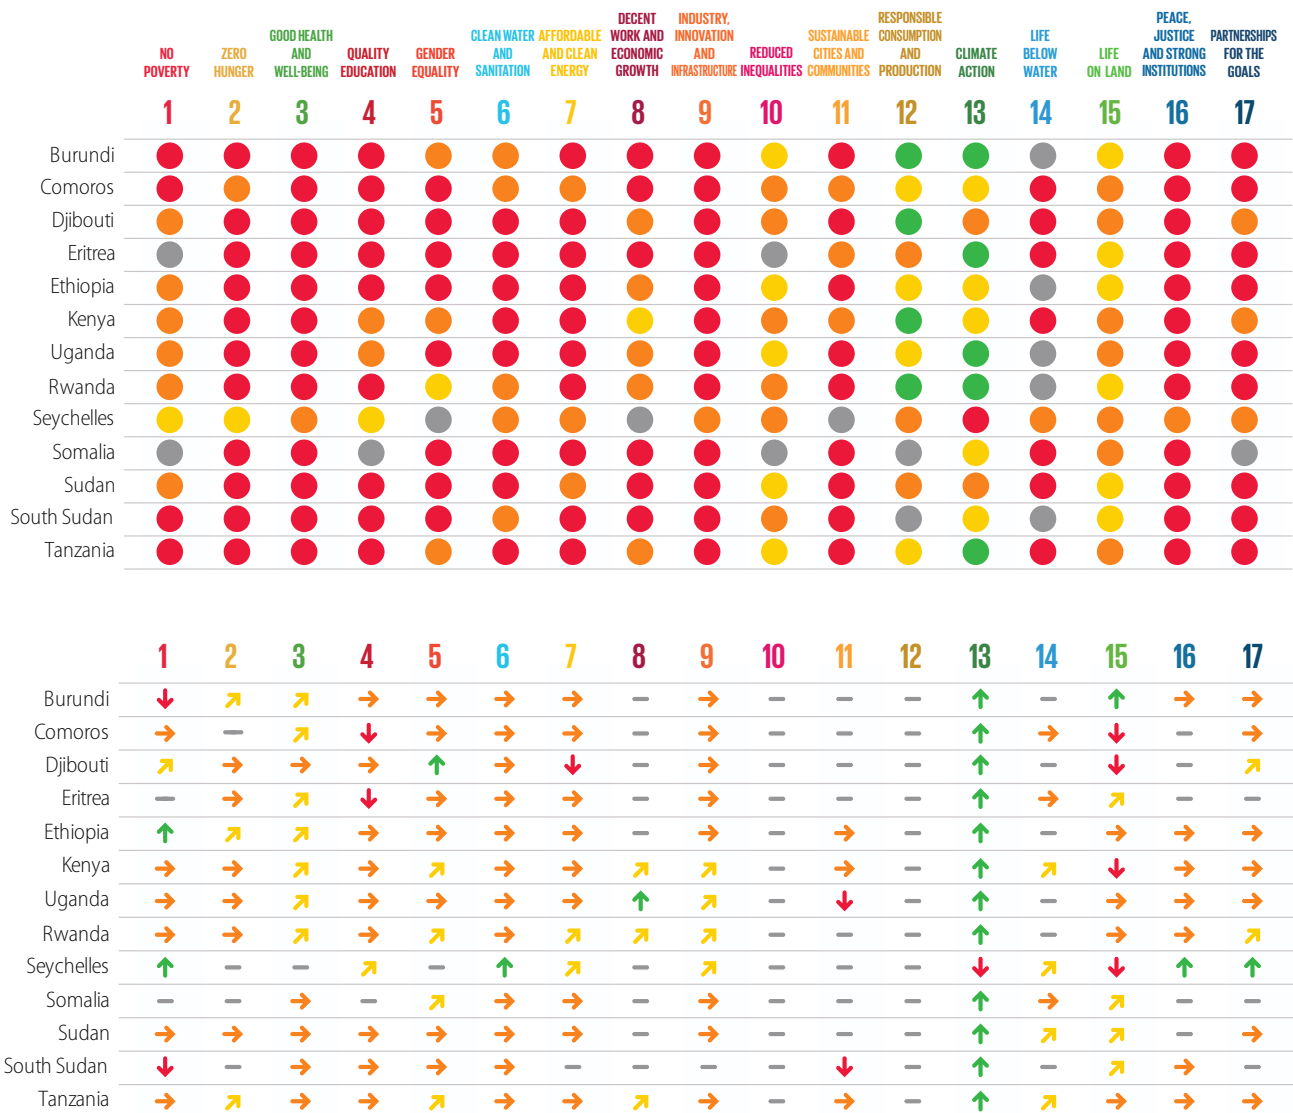

East Africa

East Africa is the most economically integrated region in the continent through the East African Community. The top performers of this group are Kenya, Rwanda, and the Seychelles. The region still has a large percentage of reds per country (9.1 are red on average). The steepest challenges are SDG 3 (good health and wellbeing), SDG 9 (infrastructure) and SDG 16 (peace and strong institutions) with all countries, except Seychelles, scoring red. SDG 4 (education) and SDG 17 (global partnerships) face similar problems with 70% reds. The goals with better performance are SDG 13 (climate action) and SDG 12 (responsible consumption and production) with 38% and 31% in green, respectively. Somalia and South Sudan, countries suffering from political instability, lack of rule of law, and conflict, are in the bottom of the continental ranking, with more than 80% of their goals in red.

Similar to West Africa, there is also stagnation in this region's progress toward most of the goals. This region is also mostly on track to meet its climate action targets, with the exception of Seychelles. There is mostly moderate progress toward goals 3, 5, and 14, but stagnant progress for every other goal. Some goals do not have data from enough countries to make a regional assessment of trends, such as goals 8 and 11.

Figure 15 East Africa SDG and Trends Dashboards

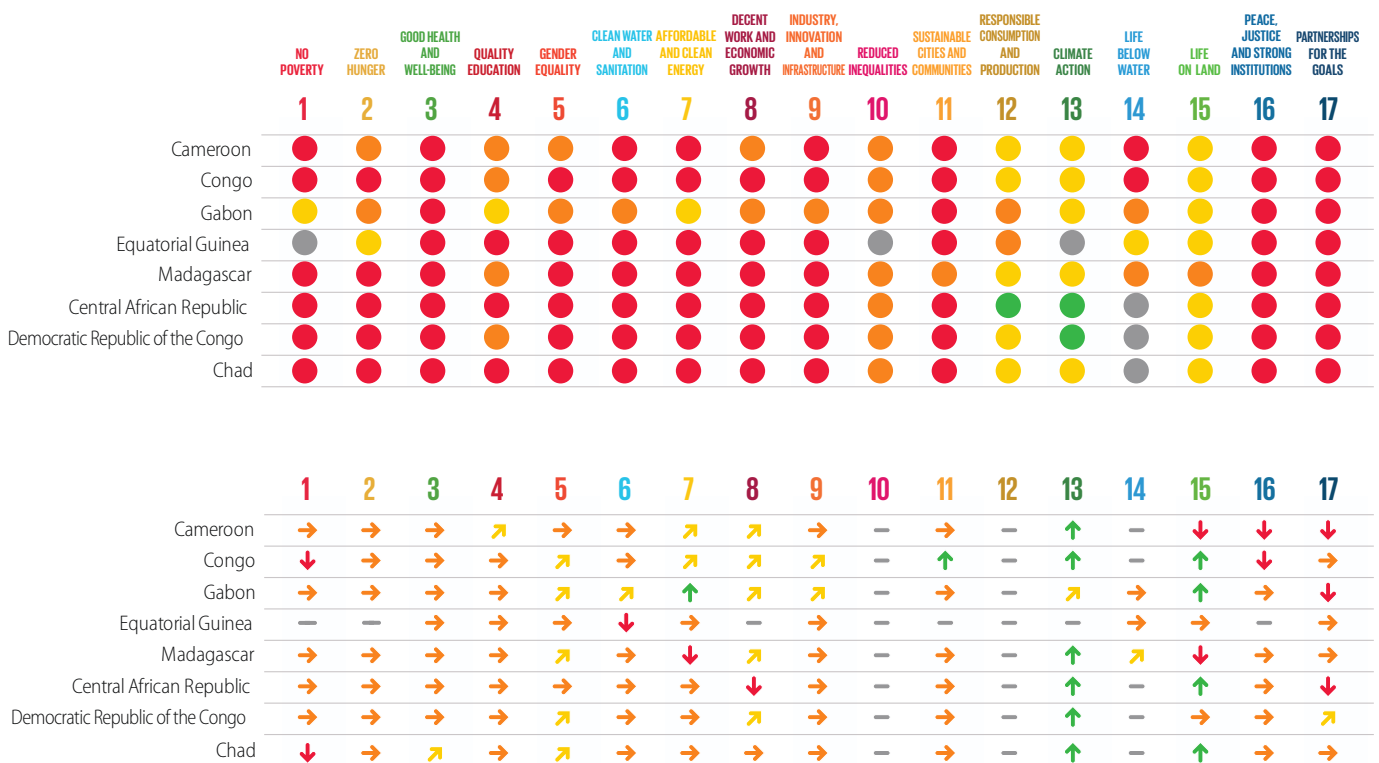

Source: Authors' analysis

Central Africa

Despite natural resources, Central Africa has the largest number of goals in red per country averaging at 10.0. SDG 3 (good health and well-being), SDG 16 (peace and strong institutions) and SDG 17 (global partnerships) are critical as all of the countries scored red. Substantial challenges remain in SDG 1 (poverty), SDG 6 (clean water and sanitation), SDG 9 (infrastructure) and SDG 11 (sustainable cities) with over 86% in red. The best performing goals are SDG 13 (climate action) and SDG 12 (responsible consumption and production) with 25% and 13% green respectively and the rest mainly yellow. The best performer is Gabon with the least number of red in the region, only 4. The bottom performers are Chad and Central African Republic, countries that have faced high levels of poverty, political discord and violence.

Central African countries are stagnating on 10 of the 15 goals that were assessed. For the other goals, SDG 13 performance is strong, and SDGs 5, 8, and 15 are improving moderately. Meeting the SDGs would require a drastic transformation for all countries in this region.

Figure 16 Central Africa SDG and Trends Dashboards

Source: Authors' analysis

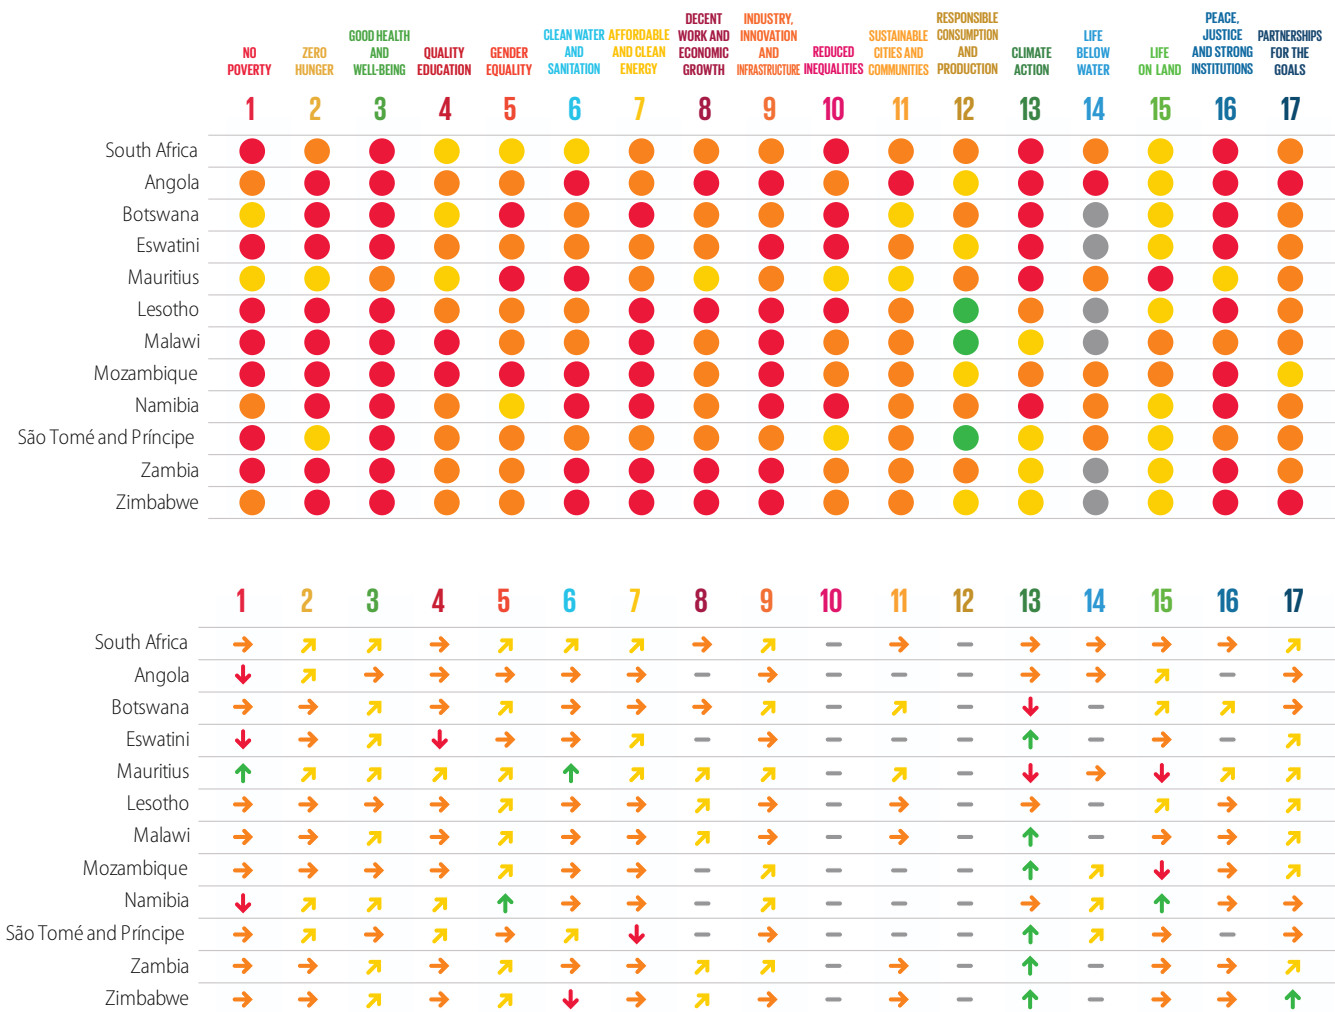

Southern Africa

Southern Africa is a heterogeneous region comprised of land-locked countries, small island, and mid-size and large economies. The main economic bloc is SADC, the Southern African Development Community. The main challenges faced by this region are SDG 3 (good health and wellbeing) with 92% of countries scoring red, followed by SDG 9 (infrastructure), SDG 16 (peace and strong institutions), SDG 7 (energy), SDG 2 (zero hunger) and SDG 1 (no poverty) with over 50% reds. The best performing goal is SDG 12 (responsible consumption and production) with 27% green and 36% yellows. The best performing countries are Mauritius and Sao Tome and Principe, ranking 2nd and 7th in the Index. Mozambique and Angola are the countries with the largest number of reds.

As a region, Southern Africa is not on track to meet any of the SDGs, but neither is its performance worsening on any of the goals. Progress is moderately increasing for 7 of 15 goals and stagnating for the remaining 8. The trend towards the SDGs is thus better than other regions in Sub-Saharan Africa, but still insufficient to meet the goals.

Figure 17 Southern Africa SDG and Trends Dashboards

Source: Authors' analysis

4. Cluster Analysis

An alternative to grouping countries by geographic region is to group countries by the similarity of their SDG performance. This allows us to group countries both in terms of their achievements as well as their challenges. Cluster analysis could be performed on all countries except Seychelles and Libya, which did not have sufficient data to generate all SDG scores. Section IV.7 describes the methodology used for this exercise. We found the best way to group African countries into 5 clusters, which we describe below.

Figure 18 Tree diagram of countries according to similarity of SDG performance

Cluster 1: Continental Leaders

Members: Algeria, Egypt, Mauritius, Morocco, São Tomé and Príncipe, and Tunisia

This group of countries, consisting of North African and small island states, leads the continent on 11 of 17 goals, especially those relating to human welfare. It contains 6 of the 7 top-ranked SDG performers. Despite this, it has the worst performance on production and consumption and life on land. Performance on gender equality is also worse than expected. Its biggest SDG priority is to promote innovation, infrastructure, and industry.

Cluster 2: Growing

Members: Botswana, Cabo Verde, Ghana, Kenya, Lesotho, Namibia, Rwanda, South Africa, and eSwatini

This is a group of countries that is growing quickly, as indicated by the best score on SDG 8 (economic growth and good jobs). They also have the best performance on gender equality, and partnerships for the goals. However, it has the highest levels of inequality in the region, and also performs comparatively poorly on climate action. To close the most pressing SDG gaps, actions must be taken in these countries to ensure that growth is more inclusive and environmentally sustainable.

Cluster 3: Middle of the Pack

Members: Angola, Benin, Cameroon, Comoros, Republic of the Congo, Côte d'Ivoire, Djibouti, Ethiopia, Gabon, The Gambia, Guinea-Bissau, Madagascar, Malawi, Mozambique, Nigeria, Senegal, Tanzania, Togo, Uganda, Zambia, and Zimbabwe

Consisting of 21 countries, this is the largest cluster, as well as the most diverse. This group has the best regional performance in terms of SDG 12 (responsible production and consumption) and SDG 13 (climate action). This group's greatest challenges are poverty, innovation and infrastructure, and inequality. Performance on SDG 8 for this group is close to the top. These countries must ensure that they leverage their growth in a way that reduces poverty and promotes human welfare, without compromising environmental sustainability.

Cluster 4: Emerging

Members: Burkina Faso, Guinea, Liberia, Mali, Mauritania, Niger, Sierra Leone, Sudan

Despite having the best performance on overall equality, this group of countries has significant shortcomings. It has the worst performance in terms of education and gender equality. Interestingly the group on average performs slightly better than the middle-of-the-pack countries in terms of poverty, but worse on other human welfare goals. Its performance on economic growth is closer to the middle as well. Overall, this is a group of countries that is beginning to emerge and distance itself from the distressed countries.

Cluster 5: Distressed

Members: Central African Republic, Chad, Democratic Republic of the Congo, Equatorial Guinea, Eritrea, Somalia, and South Sudan

This small group of countries has the worst overall SDG performance, and contains most of the lowest performing countries. It has the worst averages on 12 SDGs, especially on poverty and other goals relating to human welfare. Despite this, it has the best regional score on SDG 15 (life on land). This group's biggest challenges are related to poverty, education, infrastructure and innovation, as well as peace and governance. The performance of these countries on socio-economic goals is extremely precarious, and these countries do not have the capacity to meet the SDGs without external assistance. This cluster has the highest need of assistance to achieve the SDGs.

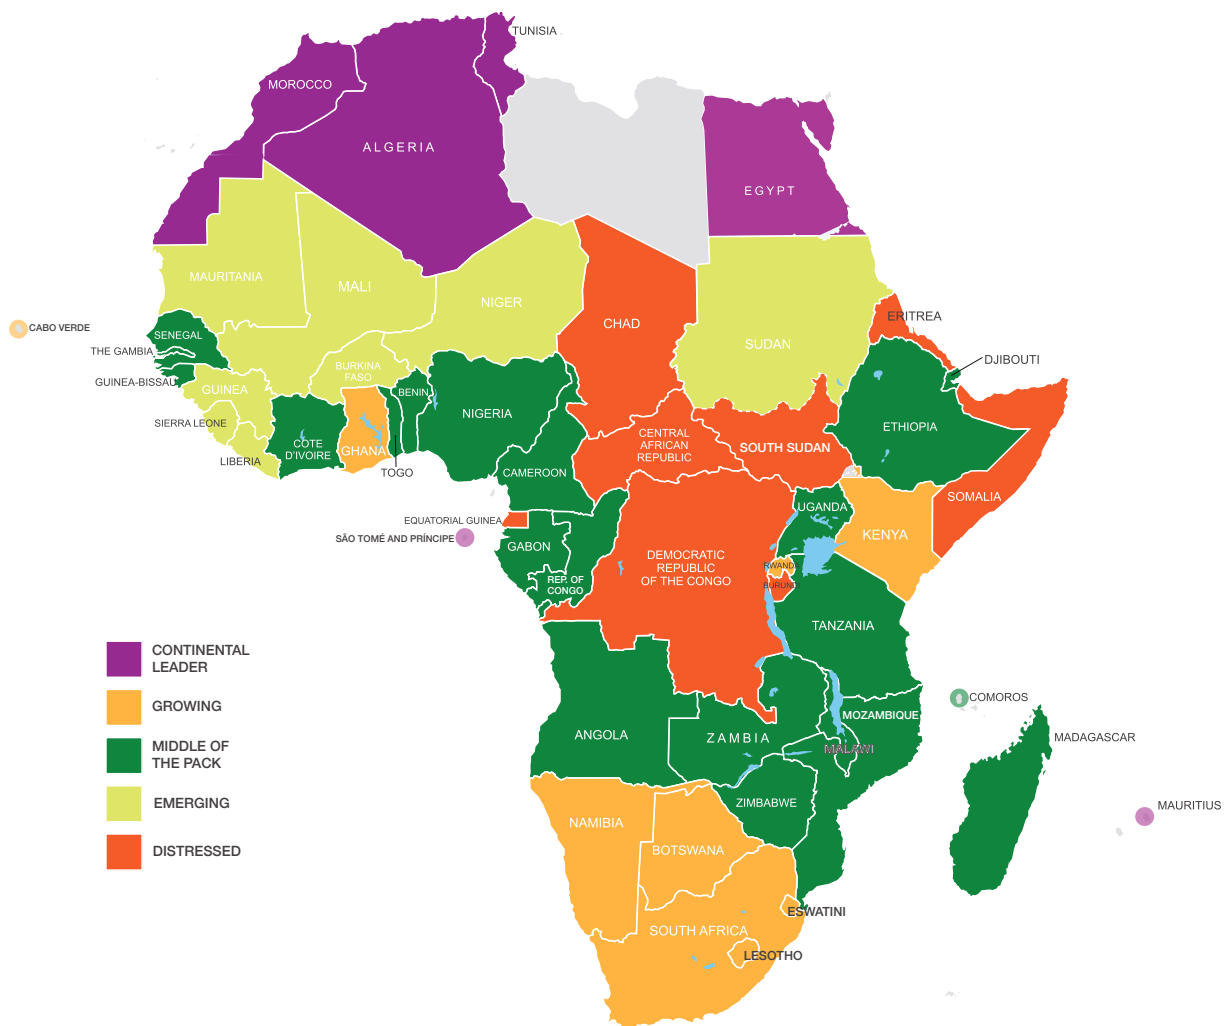

Table 2

Average performance per goal by cluster

SDG Goal	Cluster 1	Cluster 2	Cluster 3	Cluster 4	Cluster 5
SDG 1	76	56	38	41	16
SDG 2	61	48	42	38	34
SDG 3	71	55	45	41	35
SDG 4	75	65	42	22	28
SDG 5	53	72	52	35	39
SDG 6	63	58	49	45	44
SDG 7	52	51	49	43	33
SDG 8	59	63	62	56	38
SDG 9	40	35	21	15	6
SDG 10	66	10	32	75	34
SDG 11	71	58	43	36	35
SDG 12	76	84	88	84	79
SDG 13	86	78	95	94	86
SDG 14	53	49	44	51	42
SDG 15	62	69	71	72	74
SDG 16	72	64	53	52	32
SDG 17	60	69	56	53	29

Figure 19 Cluster map

5. Data Limitations

There are persistent data gaps that continue to inhibit the inclusion of certain countries and indicators in the SDG Index. Although we were able to generate an overall score for 52 countries this year as opposed to 51 countries last year, there is still a lack of internationally comparable data for Libya and the Seychelles. Missing data is a major issue for other countries as well: 13 out of 54 countries analyzed in this index have more than 10% of missing data. Only four countries have complete data coverage on the selected indicators. Overall, the total proportion of missing values was 8.4%, including those countries for which not enough data was available to generate an overall score. Some of the indicators for which a high proportion of countries did not have data include: social protection coverage, fertilizer consumption, primary school enrollment, affordability of electricity, R&D expenditure, deforestation rates, and levels of import duties (not including indicators not applicable to some countries, such as sea-related indicators for landlocked countries and natural resource value realization for countries without mining and oil industries).

Despite our best efforts, there are still several goals whose targets are not fully captured due to a lack of comparable data across African countries. Data on educational outcomes are insufficient and there is not enough data on secondary school enrollment and completion. There is also no universal metric for the sustainability of farmland, despite the importance of agriculture in African economies. For SDG 10, we are reliant on estimates of GINI coefficients, but are unable to account for social protection measures to reduce inequalities. Lastly, despite the importance of climate change adaptation for African countries, there is no available metric to assess how well countries are adapting and building resilience to climate change.

Another persistent issue in this and any other cross-country analysis is that they are necessarily bound to data sources that provide a cross-country comparison of values. Such data sources often do not include the most up-to-date or the more specific information that is generated nationally, especially in countries with higher-than-average statistical capacity in Africa. Nationally-generated data cannot be included in a cross-country analysis because the methodology used to generate that data may not be the same as is used in other countries, and this would result in biased conclusions.

Part III Methodology

The 2019 Africa SDG Index and Dashboards Report describes African countries' progress towards achieving the SDGs and indicates areas requiring faster progress. The report uses the most recent data available that have been aligned as closely as possible with official SDG indicators.

The SDG Index score and scores by goal can be interpreted as a percentage of achievement. The difference between 100 and countries' scores is therefore the distance in percentage points that needs to be completed to achieving the SDGs and goals. The same basket of indicators is used for all countries to generate comparable scores and rankings. It should be noted that differences in rankings may be due to small differences in the aggregate score.

The SDG Dashboards provide a visual representation of countries' performance by SDGs to identify priorities for action. The "traffic light" color scheme (green, yellow, orange, and red) illustrates a country's current status for a particular goal. A green rating denotes SDG achievement and is assigned to a country on a given SDG only if all the indicators under the goal are rated green. Yellow, orange, and red indicate increasing distance from SDG achievement.

The SDG Trends Dashboards indicate whether a country is on track to achieve a particular goal by 2030 based on recent past performance of a given indicator. Indicator trends are then aggregated at the goal level to give a trend indication of how the country is progressing in the goal overall.

To ensure pertinence to Africa, several methodological changes have been made to this report relative to the global SDG Index and Dashboards.

- Additional indicators fill gaps and capture issues particular to the Africa context.
- Revised indicator thresholds ensure more granularity and differentiation, thereby allowing better benchmarking between African countries.
- For Africa-specific indicators, an average of the top 3 African performers was used to create the upper bound for normalization.

As a result of these significant changes, it is not possible to directly compare the results of the Africa SDG Index and Dashboards with results in the global Sustainable Development Report (formerly the Global SDG Index report) or the 2018 Africa report.

1. Changes made to the 2019 SDG Index and Dashboards

The 2019 report incorporates several new indicators (Table 3). This table also identifies the indicators that were replaced or modified due to changes in the methodology and estimates produced by data providers. The data for this year's edition was extracted between February and April 2019.

The 2019 report incorporates a few slight adjustments to the trends methodology detailed in section IV.6. One such change is the use of just 4 trend arrows instead of 5 following feedback from the JRC's statistical audit.

Table 3 New indicators and replacements included in the 2019 Africa SDG Index and Dashboards

Indicator	Change
Gross intake ratio to last grade of lower secondary education (%)	New addition
Demand for family planning satisfied by modern methods (% women married or in unions, ages 15-49)	Replaces Unmet demand for contraception, estimated (% women married or in unions, ages 15-49)
Palma ratio	New addition
People affected by climate-related disasters (per 100,000 population)	Replaces Climate Change Vulnerability Monitor (best 0 - 1 worst)
Permanent Deforestation (5 year average annual %)	Replaces Percentage Change in forest area (%)
Freedom of Press Index (best 0 - 100 worst)	New addition

Source: Authors' analysis

2. The European Commission's independent statistical audit

The European Commission Joint Research Centre (JRC) conducted for the first time an independent statistical audit of the global Sustainable Development Report's methodology and results. The purpose of the audit was to check the conceptual and statistical coherence of the index structure. Based on the conclusions of the audit, the main amendments made to the methodology, indicator selection, and presentation of the results are listed below:

Methodology:

- When there are clear outliers within the 2.5th percentile, adjustments were made at the bottom of the distribution (see codebook for detailed information);
- A special process was introduced to deal with small decreases in indicator performance among very top performers;
- Some targets at the top of the distribution have been refined.

Indicator selection:

- Projected indicators (e.g. such as "projected poverty in 2030") were no longer retained as it leads to inconsistencies with the poverty indicator trend arrows;
- The indicator on "Anthropogenic wastewater" was moved from SDG 12 to SDG 6 to follow more closely the content of the official SDGs;
- The indicator on "Climate Vulnerability Monitor" was replaced by an indicator on "People affected by disasters" - a more specific measure that is updated more frequently;
- Revised the list of indicators included under SDG 14 (Life Below Water).

Presentation of the results:

- Trend arrow system was simplified (4 arrows) where "flat green" (maintaining performance above SDG achievement) and "up-green" (on track) were merged together.

3. Data Selection

A. Criteria for indicator selection

Where possible, the 2019 Africa Index and Dashboards uses official SDG indicators endorsed by the UN Statistical Commission. Where insufficient data is available for an official indicator and to close data gaps, other metrics from official and unofficial sources are included. Five criteria for indicator selection were used to determine suitable metrics for each SDG.

- 1. Global relevance and applicability to a broad range of country settings:** The indicators are relevant for monitoring achievement of the SDGs and applicable to the entire continent. They are internationally comparable and allow for direct comparison of performance across countries. In particular, they allow for the definition of quantitative performance thresholds that signify SDG achievement.
- 2. Statistical adequacy:** The indicators selected represent valid and reliable measures.
- 3. Timeliness:** The indicators selected are up to date and published on a reasonably prompt schedule.
- 4. Data quality:** Data had to be harmonized according to international standards, whether derived from official national or international sources (e.g. national statistical offices or international organizations) or other reputable sources, such as peer-reviewed publications or academia.
- 5. Coverage:** Data had to be available for at least 80% of the 48 African countries with a national population greater than 1 million. We excluded small countries (5) in the indicators selection process because data tend to be scarce for these countries, which in turn makes it more difficult to include new indicators given our precise data coverage requirement for adding additional indicators. South Sudan was also excluded from the calculation since fewer data are available for this young country.

B. Indicator Selection

The SDG Index was built on a set of indicators for each of the 17 SDGs using the most recent published data. We included all of the more than 230 SDG indicators proposed by the Inter-Agency and Expert Group on SDG Indicators (IAEG-SDGs) and endorsed by the UN Statistical Commission that met the five criteria above.²⁶ Some official SDG indicators have adequate data coverage but could not be included as they did not permit a ranking of countries or the definition of a quantitative threshold signifying achievement of the goals applicable to all countries. For example, different countries specialize in different sectors of the economy, so there is no “right” threshold of manufacturing as a share of GDP for which all countries should aim. While individual countries may find the share of manufacturing value added highly useful for developing long-term strategies for industrialization, it is not possible to define a common threshold for the SDGs. Other official SDG indicators are similarly useful at the country level but cannot serve as a yardstick for comparing countries’ performance internationally.

26. United Nations Statistics Division, “IAEG-SDGs Tier Classification for Global SDG Indicators.”

Where official SDG indicators did not meet the criteria for data selection or where indicator gaps remained, we considered official and other metrics published in the peer-reviewed literature, as well as major databases and reports on development and environmental indicators.²⁷

In the 2019 Africa Index and Dashboards, 97 indicators were included in total from a broad range of data sources. The revised set of indicators includes new indicators and revisions to fill gaps and to better align the SDG Index and Dashboards with the monitoring needs of African states. The Africa SDG Index comprises 52 of the 54 African member states of the UN.

B. Missing data and imputations

The purpose of the 2019 Africa SDG Index and Dashboards is to guide countries' discussions of their SDG priorities today based on available and robust data. For this reason, and since many SDG priorities lack widely-accepted statistical models for imputing country-level data, we generally did not impute or model any missing data; We made exceptions for the following variable that would otherwise not have been included because of excessive missing data.

- SDG 3: New HIV infections (per 1,000): We impute values from IHME's Global Burden of Disease Study (2017) when countries are missing empirical data in UNAIDS.
- SDG 5: Proportion of girls and women aged 15–49 years who have undergone female genital mutilation/cutting (FGM/C): Survey data is available for 26 African countries where FGM/C is most concentrated. For countries where data are not available, we assumed zero only for those countries where our desk research clearly showed that FGM/C is not a cultural practice. Where the desk research was inconclusive, we left the value missing for countries without data and where it is possible that FGM/C is practiced.
- SDG 8: Prevalence of Modern Slavery (victims per 1,000 population): We assume missing data points for those countries in which the Walk Free Foundation's methodology has less confidence due to survey unavailability.
- SDG 9: Research and development (R&D) expenditure (% of GDP): We assumed zero R&D expenditure for low-income countries that did not report any data for this variable.
- SDG 10: Gini: We impute the World Bank Gini coefficients for those countries missing data on the adjusted Gini coefficient from Brookings.
- SDG 12: Value realization score: This component of the Resource Governance Index (RGI) only applies to those African countries with oil and gas and/or mining sectors. In cases where both sectors were assessed by the RGI, the average score across sectors was calculated.
- SDG 13: CO₂ emissions embodied in fossil fuel exports (kg/capita): We assumed a value of 0 for countries with little to no production of fossil fuels that for which data was not reported.
- SDG 16: Conflict-related deaths per 100,000: We assumed zero conflict deaths for countries without data for this variable.

27. World Bank, World Development Indicators 2016; UNDP, "Human Development Report"; OECD, "OECD Statistics"; Kroll, "Sustainable Development Goals"; SDSN, "Indicators and a Monitoring Framework for Sustainable Development Goals."

To reduce missing data biases in the computation of the Africa SDG Index, we impute missing goal scores using the regional mean. This applies primarily to Goal 10 (Reduced Inequalities) and Goal 14 (Life Below Water). Imputed goal scores are used solely for the computation of the index, and they are not reported in the SDG Dashboards or country profiles. In the case of Goal 14 (Life Below Water), we hope to identify suitable metrics in the future to gauge the impact of landlocked countries on oceans.

Since the Africa SDG Index compares countries, it is important to avoid excessive bias through missing data. The index therefore only includes countries that have data for at least 75% of the indicators used. In this report, only two African UN member states could not be included in the index ranking due to insufficient data availability: Libya and the Seychelles. Investing in these countries' capacity to generate high-quality and regular data is a priority for establishing better SDG monitoring in order to inform policy priorities and resource allocation. Though they are not ranked in the Index, more detailed information about these three countries is available in their respective country profiles and dashboards.

For more details, the raw data included in the construction of the Africa SDG Index and Dashboards is available for download on AfricaSDGIndex.org

4. Index Method

The procedure for calculating the SDG Index comprised three steps: (1) censor extreme values from the distribution of each indicator; (2) rescale the data to ensure comparability across indicators; (3) aggregate the indicators within and across SDGs.

Addressing extreme values and rescaling

To make the data comparable across indicators, each variable was rescaled from 0 to 100 with 0 denoting worst performance and 100 describing the optimum. Rescaling takes into account limits and extreme values (outliers) at both tails of the distribution. The latter may become unintended thresholds and introduce spurious variability in the data. Consequently, the choice of upper and lower bounds can affect the relative ranking of countries in the index. This applies in particular to the lower bounds that affect the value and the units of the variable, which may in turn affect rankings, while the upper bound only affects the units.²⁸

Where global indicators were retained for the Africa SDG Index, the same upper bounds from the global SDG Index were retained for those indicators (In the case of global indicators retained, the upper bound was set by taking the average value of the top 5 global performers.). For newly-added Africa-specific indicators, we defined new upper and lower bounds.

The upper bound for each indicator was determined using a four-step decision tree:

1. **Use absolute quantitative objectives in the goals and targets:** E.g. zero poverty, universal school completion, universal access to water and sanitation, full gender equality. For example, the optimal bound for women parliamentarians is 50%, representing gender parity. Some SDG targets propose relative changes (such as Target 3.4: [...] reduce by one third premature mortality from non-communicable diseases [...]) that cannot be translated into a global snapshot today. Such targets are addressed through Step 4 below.
2. **Where no explicit SDG target is available, apply the principle of “leave no one behind” to set upper bound to universal access (corresponding to an optimal value of 100) or zero deprivation for the following types of indicators:**
 - a. Measures of extreme poverty (e.g. wasting), consistent with the SDG ambition to end extreme poverty in all its forms (“leave no one behind”)
 - b. Public service coverage (e.g. access to contraception)
 - c. Access to basic infrastructure (e.g. mobile phone coverage, wastewater treatment)

28. OECD, European Union, and Joint Research Centre - European Commission, Handbook on Constructing Composite Indicators; Booyens, “An Overview and Evaluation of Composite Indices of Development.”

3. **Where science-based targets exist that must be achieved by 2030 or later, use these to set 100% upper bound:** E.g. zero greenhouse gas emissions from electricity as required by no later than 2070 to stay within 2°C, and 100% sustainable management of fisheries.
4. **For all other indicators, use the average of the top performers.** The average of the top 5 performers is used for the upper bound for indicators retained from the global Index. For newly-added Africa Index Indicators, we used the average of the top 3 African performers because of the smaller sample size of countries.

These principles interpret the SDGs as “stretch targets” and focuses attention on the indicators where a country is lagging behind. Each indicator distribution was censored, so that all values exceeding the upper bound scored 100, and values below the lower bound scored 0.

In some cases, the upper bound exceeded the thresholds to be met by 2030 in order to achieve the SDGs. For example, the SDGs call for reducing child mortality to no more than 25 per 1000 live births, but some African countries have already exceeded this threshold (Mauritius, Tunisia, and Cabo Verde have reduced their child mortality rates below this target). By defining the upper bound as the “best” outcome (e.g. 0 mortality per 1000)—rather than the SDG achievement threshold—the SDG Index rewards improvements across the full distribution. This is particularly important for countries that have already achieved some SDG thresholds but still lag behind other countries on this metric. Some countries have already exceeded the upper bound of some indicators today and more will do so in the coming years as the world progresses towards the SDGs.

To remove the effect of extreme values, which can skew the results of a composite index. The OECD (OECD and JRC, 2016) recommends censoring the data at the bottom 2.5th percentile as the minimum value for the normalization. We applied this approach to the lower bound and censored data at this level.

After establishing the upper and lower bounds, variables were transformed linearly to a scale between 0 and 100 using the following rescaling formula for the range [0; 100]:

$$x' = \frac{x - \min(x)}{\max(x) - \min(x)}$$

where x is raw data value; \max/\min denote the bounds for best and worst performance, respectively; and x' is the normalized value after rescaling.

The rescaling equation ensures that all rescaled variables were expressed as ascending variables (i.e. higher values denoted better performance). In this way, the rescaled data became easier to interpret and compare across all indicators: a country that scores 50 on a variable is half-way towards achieving the optimum value; a country with a score of 75 has covered three quarters of the distance from worst to best.

To minimize the bias of missing data on the aggregate index score, when countries do not have any indicator values under a goal, the regional goal average is used for the purpose of calculating their index score. For example, many landlocked countries have missing data for SDG 14, but this does not mean landlocked countries have no effect on marine life. To have at least an approximate measure, the 16 landlocked countries were assigned the average score of their regions.

5. Dashboard method

The Africa SDG Dashboards use the same data as the Africa SDG Index after censoring and rescaling. We introduced additional quantitative limits for each indicator to group countries in a “traffic light” table. Aggregating across all indicators for a goal yielded an overall score for each SDG and each country.

To assess a country’s progress on a particular indicator, we considered four bands. The green band is bounded by the maximum that can be achieved for each variable (i.e. the upper bound) and the threshold for achieving the SDG. Three color bands ranging from yellow to orange and red denote an increasing distance from SDG achievement. The upper and lower bounds are the same as for the Index described above.

A. Thresholds

For global indicators retained for the Africa SDG Dashboards, the green threshold always remained the same as it equates to goal achievement. In general, the red thresholds were made less strict by 20% from those used in the global SDG Dashboards. In some cases, this adjustment was more than 20% depending upon the nature of the indicator and how it relates to the African context. For instance, for the drinking water metric under SDG 6, the red threshold was lowered by about 40% from the global threshold. Since the majority of African countries have less than 60% access, the original global threshold of 80% was all red. The revised red threshold of 50% allows for more differentiation between African countries, which is one of the objectives of this report.

Additional thresholds, both red and green, were established both by a combination of analysis of the data distribution and consultation with experts—for instance, the fertilizer consumption green threshold is Africa-specific as the “right” amount of fertilizer use is very context-specific and not applicable globally. Similarly, the red threshold for many of the governance indicators was based on expert insight into country contexts, combined with an analysis of the actual data distribution and an identification of the worst performers.

These thresholds and other assessments were subject to an open online public consultation and direct consultations with members of the SDSN and the SDG Center for Africa’s network. All thresholds were specified in absolute terms and apply to all countries. Thanks to this approach, the Africa SDG Dashboards exposes more granularity of performance levels between countries and serves as a useful benchmarking tool for African countries.

Table 4 Thresholds for Indicators included in the 2019 Africa Index and Dashboards

SDG	Indicator	Green threshold	Global red threshold	Africa red threshold
1	Poverty headcount ratio at \$1.90/day (% population)	2	13	20
1	Proportion of population living below the national poverty line	15	n/a	49.5
1	Population covered by Social Protection (%)	70	n/a	18
2	Prevalence of undernourishment (% population)	7.5	15	18
2	Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	7.5	15	22
2	Prevalence of wasting in children under 5 years of age (%)	5	10	12
2	Prevalence of obesity, BMI \geq 30 (% adult population)	10	25	30
2	Cereal yield (t/ha)	2.5	1.5	1.2
2	Fertilizer consumption (kg per hectare of arable land)	50	n/a	9
3	Maternal mortality rate (per 100,000 live births)	70	140	168
3	Births attended by skilled health personnel (%)	98	90	72
3	Neonatal mortality rate (per 1,000 live births)	12	18	21.6
3	Mortality rate, under-5 (per 1,000 live births)	25	50	60
3	New HIV infections (per 1,000)	0.2	1	1.2
3	People living with HIV receiving antiretroviral therapy (%)	90	n/a	40.5
3	Incidence of tuberculosis (per 100,000 population)	10	75	100
3	Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	55	n/a	22.5
3	Malaria mortality rate	5	n/a	49.5
3	Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	75	n/a	27
3	Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30–70 years (per 100,000 population)	15	25	30
3	Traffic deaths rate (per 100,000 population)	8.4	16.8	25
3	Adolescent fertility rate (births per 1,000 women ages 15-19)	25	50	60
3	Universal Health Coverage Tracer Index (0-100)	80	60	48
3	Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	18	150	181
3	Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	90	80	64
3	Life Expectancy at birth (years)	80	70	48
3	Subjective Wellbeing (average ladder score, 0-10)	6	5	4
4	Net primary enrolment rate (%)	98	80	64
4	Mean years of schooling (years)	12	n/a	6
4	Literacy rate of 15-24-year-olds, both sexes (%)	95	85	68
4	Gross intake ratio to last grade of lower secondary education (%)	95	n/a	60

(Table 4 cont.)

SDG	Indicator	Green threshold	Global red threshold	Africa red threshold
5	Proportion of women aged 20-24 years who were married or in a union before age 18	5	n/a	33
5	Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	0	n/a	22
5	Seats held by women in national parliaments (%)	40	20	16
5	Women in ministerial positions (%)	40	n/a	16
5	Demand for family planning satisfied by modern methods (% women married or in unions, ages 15-49)	80	60	50
5	Ratio of female to male mean years of schooling of population age 25 and above	98	75	60
5	Ratio of female to male labour force participation rate	70	50	40
6	Population using at least basic drinking water services (%)	98	80	50
6	Population using at least basic sanitation services (%)	95	75	40
6	Freshwater withdrawal as % total renewable water resources	25	75	90
6	Imported groundwater depletion (m ³ /year/capita)	5	20	24
6	Percentage of anthropogenic wastewater that receives treatment (%)	50	15	12
7	Access to electricity (% population)	98	80	64
7	Access to clean fuels & technology for cooking (% population)	85	50	40
7	Renewable energy share in the total final energy consumption	75	n/a	36
7	Consumer affordability of electricity	100	n/a	30.6
8	5-year average GDP Growth per capita (%)	4	n/a	0.9
8	Employment-to-population ratio	75	n/a	40.5
8	Prevalence of Modern Slavery (victims per 1,000 population)	4	10	10
8	Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	80	50	
8	Starting Business	85	n/a	67.5
9	Infrastructure score	80	n/a	31.5
9	Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	3	2	1.6
9	Research and development expenditure (% GDP)	1.5	1	0.5
9	Number of scientific and technical journal articles (per 1,000 population)	0.5	0.05	0.08
9	Mobile broadband subscriptions (per 100 inhabitants)	75	40	32
9	Population using the internet (%)	80	50	25
10	Gini Coefficient adjusted for top income (1-100)	30	40	62.4
10	Palma ratio	1	n/a	2.5
11	Proportion of urban population living in slums	15	n/a	66
11	Improved water source, piped (% urban population with access)	98	75	60

(Table 4 cont.)

SDG	Indicator	Green threshold	Global red threshold	Africa red threshold
11	Satisfaction with public transport (%)	72	43	34.7
11	Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) ($\mu\text{g}/\text{m}^3$)	10	25	30
12	Municipal Solid Waste (kg/year/capita)	1	2	2.4
12	E-waste generated (kg/capita)	5	10	12
12	Natural Resource Value Realization Score	74	n/a	36
12	Production-based SO ₂ emissions (kg/capita)	10	30	36
12	Imported SO ₂ emissions (kg/capita)	1	15	18
13	People affected by climate-related disasters (per 100,000 population)	100	500	
13	Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	2	4	4.8
13	Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	0.5	1	1.2
13	CO ₂ emissions embodied in fossil fuel exports (kg/capita)	100	8000	9600
14	Percentage of inadequately managed plastic waste	30	n/a	66
14	Ocean Health Index Goal - Clean Waters (0-100)	70	60	48
14	Mean area that is protected in marine sites important to biodiversity (%)	50	10	8
14	Percentage of Fish Stocks overexploited or collapsed by EEZ (%)	25	50	60
14	Fish caught by trawling (%)	7	60	73
15	Mean area that is protected in terrestrial sites important to biodiversity (%)	50	10	8
15	Permanent Deforestation (5 year average annual %)	0.05	0.5	0.5
15	Red List Index of species survival (0-1)	0.9	0.8	0.64
15	Imported biodiversity threats (threats per million population)	5	15	18.6
16	Homicides (per 100,000 population)	1.5	4	3.6
16	Conflict-related deaths per 100,000	0	n/a	1.1
16	Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	80	50	40
16	Children 5–14 years old involved in child labour (%)	2	10	20
16	Property Rights	80	n/a	36
16	Access to justice	80	n/a	36
16	Corruption Perception Index (0-100)	60	40	32
16	Public Sector Accountability & Transparency	80	n/a	27
16	Birth registrations with civil authority, children under 5 years of age (%)	98	75	60
16	Freedom of Press Index (best 0 - 100 worst)	25	50	50
17	Tax revenue (% GDP)	25	n/a	13.5
17	Government Health and Education spending (% GDP)	10	5	6.4
17	Level of customs duties on imports	0.5	n/a	8.8
17	Visa Requirement	38	n/a	110
17	Governmental Statistical Capacity	75	n/a	45

B. Weighting and Aggregation

The purpose of the Africa SDG Dashboards is to highlight those SDGs that require particular attention in each country and therefore should be prioritized for early action. For the design of the SDG Dashboards, the issues discussed above for weighting and aggregation with the SDG Index also apply.

Averaging across all indicators for an SDG might hide areas of policy concern if a country performs well on most indicators but faces serious shortfalls on one or two metrics within the same SDG. As a result, the Africa SDG Dashboards aggregate indicator ratings for each SDG by estimating the average of the two variables on which a country performed worst. To this end, the indicator values were first rescaled from 0 to 3, where 0 corresponds to the lower bound, 1 to the value of the threshold between red and orange (“red threshold”), 2 to the value of the threshold between yellow and green (“green threshold”), and 3 to the upper bound. For all indicators, the “yellow/orange” threshold was set as the value halfway between the red and green thresholds (1.5). Each interval between 0 and 3 is continuous.

We then took the average of the two rescaled variables on which the country performed worst to identify the rating for the goal. We applied the added rule that in order to score green for the goal both indicators had to be green—otherwise the goal would be rated yellow. Similarly, a red score was applied only if both worst-performing indicators score red. If the country has only one data point under a particular goal, then the color rating for that indicator determines the overall rating for the goal. If the country has less than 50% of the indicators available under a goal the dashboard color for that goal is “grey”.

6. Trends

Using historic data, we estimate how fast a country has been progressing towards an SDG and determine whether – if continued into the future – this pace will be sufficient to achieve the SDG by 2030. For each indicator, SDG achievement is defined by the green threshold set for the SDG Dashboards. The difference in percentage points between the green threshold and the normalized country score denotes the gap that must be closed to meet that goal. To estimate trends at the indicator level, we calculated the linear annual growth rates (i.e. annual percentage improvements) needed to achieve the target by 2030 (i.e. 2010-2030) which we compared to the average annual growth rate over the most recent period (usually 2010-2015). Progress towards achievement on a particular indicator is described using a 4-arrow system (Figure 20). Figure 21 illustrates the methodology graphically.

Figure 20 The 4-arrow system for denoting SDG trends

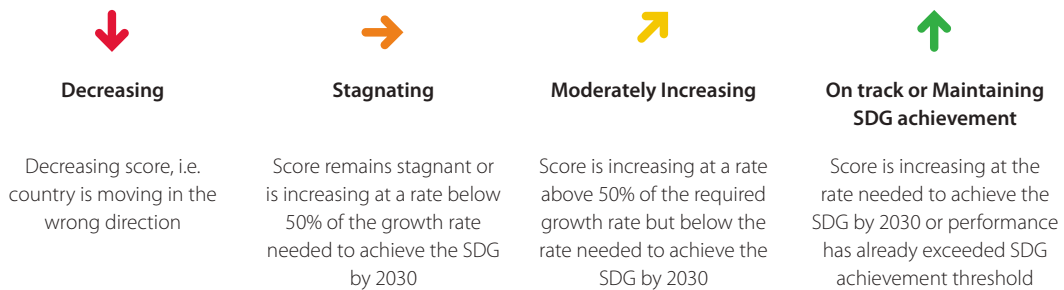

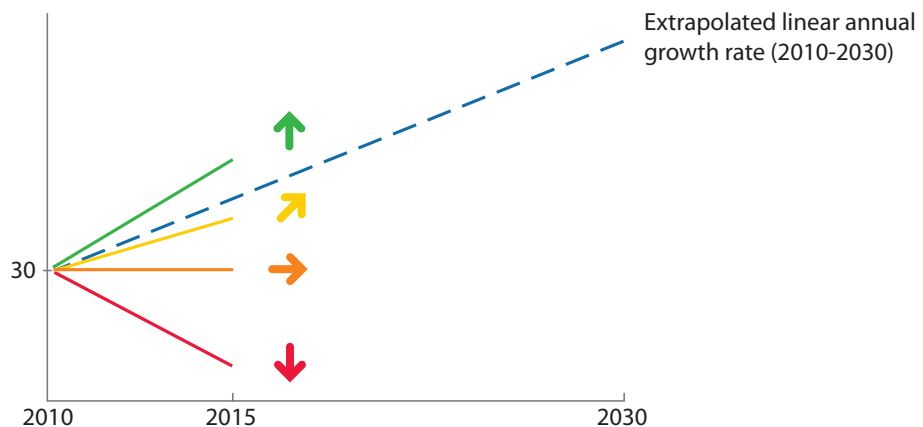

Figure 21 Graphic representation of the SDG trends methodology

Specifically, each indicator trend was re-normalized on a scale from 0-4 in a similar way to the dashboard methodology. Decreasing indicators were assigned a value between 0-1 where 0 is the worst rate of decrease in score and 1 corresponds to absolutely no change in the score over time. Indicator trends that were “stagnating” were assigned a value between 1-2, where 2 is the value that corresponds to 50% of the needed growth rate to meet the target by 2030. Indicators that were “moderately improving” were assigned a value between 2-3 where 3 is the exact needed growth rate to achieve the target by the year 2030. Those indicators that are “on track” were assigned values between 3-4 where 4 is the best improvement over the period. Indicators that were “maintaining SDG achievement” were assigned a score of exactly 3. The individual bands are linear, but the continuous 0 to 4 scale is not linear as a whole.

The overall goal trends were calculated as an arithmetic average of the rescaled values for all trend indicators under the goal. An average between 0-1 corresponds to a “decreasing” goal trend, 1-2 to “stagnating”, 2-3 to “moderate improvement”, and 3-4 to “on track or maintaining achievement.”

Trends are reported at the SDG level only if trend data were available for at least 75% of the trend indicators under a goal. An exception was made for SDG 4 for which trend data for at least 2/3 of the trend indicators is required due to a larger number of missing values for those indicators. The trend for an SDG was calculated as the arithmetic average of all trend indicators for that goal.

Table 5 provides the complete list of indicators used to compute SDG Trends. Trend indicators were selected from the indicators included in the SDG Dashboards based on the availability of trend data. When the value for one year was not available we used the closest available value with a maximum one-year difference for calculating the trend indications. The table also indicates the period over which the trend was calculated.

Following feedback from the JRC, the trend methodology has been refined for small decreases. For top performers only, very small decreases are now treated as “stagnating” trends. They are reported as such at the indicator level and treated as such when calculating the overall goal trend. Because those countries that are farther from achieving the target still have serious challenges, this methodology was only applied to the top performers that were decreasing.

The raw indicator values are rescaled so that a 0 represents the minimum value in the series, while 100 represents achievement of the SDG Target, which is the green threshold. Next, countries are identified that have decreased over the time period chosen (e.g. 2010 – 2015) while staying within 90% of SDG achievement i.e. the rescaled value is greater than 90 at the beginning and end of the period. However, if a country falls from a score of 100 (SDG achievement) to a lower score so that it is no longer meeting the SDG target, this country is still assigned “decrease” trend.

Several other calculation methods were considered. For instance, we tested the sensitivity of the results when using technical optimums (100 score) as “goal achievement” and calculate distance to technical optimums. This approach yielded harsher results and is not consistent with our conceptual assumption that lower green thresholds correspond to goal achievement. We also considered using compound annual growth rates (CAGR) instead of linear growth rates. The two approaches yield rather similar results and we could not identify a strong argument for using the more sophisticated CAGR method. Finally, while the dashboards are only based on the two-worst indicators, trends are generated using all indicators under the goal. This is because the dashboards aim to highlight goals where particular attention is required due to very poor performance on some of the underlying indicators, whereas trends aim to reflect insights on the overall goal evolution including all indicators.

Table 5 Trend indicators

SDG	Indicators	Time Period
1	Poverty headcount ratio at \$1.90/day (% population)	2015–2018
2	Prevalence of undernourishment (% population)	2012–2017
2	Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	2012–2017
2	Prevalence of wasting in children under 5 years of age (%)	2012–2017
2	Prevalence of obesity, BMI \geq 30 (% adult population)	2012–2017
2	Cereal yield (t/ha)	2012–2017
2	Fertilizer consumption (kg per hectare of arable land)	2012–2017
3	Maternal mortality rate (per 100,000 live births)	2011–2016
3	Births attended by skilled health personnel (%)	2011–2016
3	Neonatal mortality rate (per 1,000 live births)	2011–2016
3	Mortality rate, under-5 (per 1,000 live births)	2011–2016
3	New HIV infections (per 1,000)	2011–2016
3	Incidence of tuberculosis (per 100,000 population)	2011–2016
3	Malaria mortality rate	2011–2016
3	Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30–70 years (per 100,000 population)	2011–2016
3	Traffic deaths rate (per 100,000 population)	2011–2016
3	Adolescent fertility rate (births per 1,000 women ages 15-19)	2011–2016
3	Universal Health Coverage Tracer Index (0-100)	2011–2016

17	Governmental Statistical Capacity	2010–2015

7. Cluster Analysis

There are three steps to clustering countries by SDG performance:

- 1. Computing a dissimilarity matrix:** In order to measure the similarity between countries, we first calculate the Euclidean distance between each data point, based on their normalized scores on each of the 17 goals. The distance matrix shows the distance from each data point to each other data point.
- 2. Determining the clustering structure:** For our purposes, we chose a hierarchical clustering method, since this allows us to visualize the distance between grouped data points. Agglomerative hierarchical clustering works in a bottom-up manner, starting with each observation being assigned to its own cluster and reducing the number of clusters in each consecutive step, merging the clusters that are closest to each other at each step until all observations are grouped into a single cluster.²⁹ In this index, the best algorithm to agglomerate observations into clusters was found to be Ward's minimum variance method, which minimizes the within-cluster distances between observations in each cluster.

29. University of Cincinnati, "New Tutorials on Clustering - UC Business Analytics R Programming Guide."

3. Determining number of clusters to be analyzed: After determining the breakdown of clusters at each level, we have to choose how many clusters we want our observations to be grouped into. There are many methods to do this, and different methods usually differ with respect to the number of clusters deemed “optimal”. After testing 30 indices together (using the NbClust package in R), the number of clusters is chosen is the one that the most methods agreed on, while also producing groups that are interesting to observe individually.³⁰

30. Charrad et al, “NbClust.”

Appendix I. Country profiles

The country profiles summarize results of the Africa SDG Index and Dashboards report for each of the 54 African countries. The underlying data and full metadata are available online at www.AfricaSDGindex.org.

For each country, we present:

Overall Performance

The country's SDG Index rank (out of 54 countries) and score (0-100), as well as the average SDG Index score of countries in the same sub-region, according to the AfDB regional definitions.

Average Performance by SDG

A radar chart reporting the country's performance (between 0 and 100) for each of the 17 SDGs. A score of 100 corresponds to the "best" possible value.

Comparison with other Development Metrics

A table comparing the country's performance on the Africa SDG Index to other Africa-specific metrics: The Africa Infrastructure Development Index, Africa Gender Equality Index, Africa Regional Integration Index, and the Ibrahim Index of African Governance.

SDG Dashboard

The country SDG Dashboard reports the country's average performance (green, yellow, orange or red) on each of the SDGs. Green denotes SDG achievement and red highlights major challenges, while yellow and orange indicate that varying degrees of challenges remain.

Performance by Indicator

A full-page indicator table lists the country's raw indicator value and color rating for the SDG Dashboards. Missing data are also recorded in grey. The last column indicates the trend for each indicator for which time series data are available. The arrow key is featured in the Time Series methodology section on page 50.

ALGERIA

Performance by Indicator

SDG1 – End Poverty

	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	0.3	●	↑	2019
Proportion of population living below the national poverty line	5.5	●	—	2011
Population covered by Social Protection (%)	NA	●	—	NA

SDG2 – Zero Hunger

Prevalence of undernourishment (% population)	4.7	●	↑	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	11.7	●	↗	2012
Prevalence of wasting in children under 5 years of age (%)	4.1	●	↑	2012
Prevalence of obesity, BMI ≥ 30 (% adult population)	27.4	●	↓	2016
Cereal yield (t/ha)	1.6	●	↓	2016
Fertilizer consumption (kg per hectare of arable land)	22.3	●	→	2016

SDG3 – Good Health and Well-Being

Maternal mortality rate (per 100,000 live births)	140	●	→	2015
Births attended by skilled health personnel (%)	96.6	●	—	2013
Neonatal mortality rate (per 1,000 live births)	14.9	●	↗	2017
Mortality rate, under-5 (per 1,000 live births)	24.0	●	↑	2017
New HIV infections (per 1,000)	0.0	●	↑	2017
People living with HIV receiving antiretroviral therapy (%)	80	●	—	2017
Incidence of tuberculosis (per 100,000 population)	70	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	NA	●	—	NA
Malaria mortality rate	0.0	●	↑	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	85.6	●	—	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	14.2	●	↑	2016
Traffic deaths rate (per 100,000 population)	23.7	●	→	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	10.4	●	↑	2016
Universal Health Coverage Tracer Index (0-100)	72.3	●	↗	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	50	●	—	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	88	●	↑	2017
Life Expectancy at birth (years)	76.4	●	↗	2016
Subjective Wellbeing (average ladder score, 0-10)	5.0	●	↓	2018

SDG4 – Quality Education

Net primary enrolment rate (%)	97.5	●	↑	2017
Mean years of schooling (years)	8.0	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	93.8	●	—	2008
Gross intake ratio to last grade of lower secondary education (%)	79	●	—	2016

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	2.5	●	—	2013
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	0.0	●	—	2017
Seats held by women in national parliaments (%)	25.8	●	↓	2018
Women in ministerial positions (%)	13.3	●	—	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	77.2	●	↑	2013
Ratio of female to male mean years of schooling of population age 25 and above (%)	88.4	●	↑	2017
Ratio of female to male labour force participation rate	22.8	●	↓	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	93.5	●	↑	2015
Population using at least basic sanitation services (%)	87.5	●	↗	2015
Freshwater withdrawal as % total renewable water resources	88.0	●	—	2014
Imported groundwater depletion (m ³ /year/capita)	7.5	●	—	2010
Anthropogenic wastewater that receives treatment (%)	46.1	●	—	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	99.4	●	↑	2016
Access to clean fuels & technology for cooking (% population)	92.6	●	↑	2016
Renewable energy share in the total final energy consumption	0.1	●	↓	2015
Consumer affordability of electricity	0.0	●	—	2017

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	1.1	●	—	2017
Employment-to-population ratio	36.3	●	↓	2018
Prevalence of Modern Slavery (victims per 1,000 population)	2.7	●	—	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	42.8	●	↗	2017
Starting a Business	78.1	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

Infrastructure score	62.9	●	—	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.4	●	↑	2018
Research and development expenditure (% GDP)	0.1	●	—	2005
Number of scientific and technical journal articles (per 1,000 population)	0.1	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	78.4	●	↑	2017
Population using the internet (%)	47.7	●	↑	2017

SDG10 – Reduced Inequalities

Gini Coefficient adjusted for top income (1-100)	31.5	●	—	2011
Palma ratio	1.0	●	—	2017

SDG11 – Sustainable Cities and Communities

Proportion of urban population living in slums	NA	●	—	NA
Improved water source, piped (% urban population with access)	81.9	●	↓	2015
Satisfaction with public transport (%)	57.7	●	↑	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	38.9	●	↓	2017

SDG12 – Responsible Consumption and Production

Municipal Solid Waste (kg/year/capita)	1.2	●	—	2012
E-waste generated (kg/capita)	6.2	●	—	2016
Natural Resource Value Realization Score	40.3	●	—	2017
Production-based SO ₂ emissions (kg/capita)	8.5	●	—	2010
Imported SO ₂ emissions (kg/capita)	0.7	●	—	2010

SDG13 – Climate Action

People affected by climate-related disasters (per 100,000 population)	195.2	●	—	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	6.9	●	↓	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	-0.1	●	—	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	3,194.1	●	—	2017

SDG14 – Life Below Water

Inadequately managed plastic waste (%)	58.1	●	—	2014
Ocean Health Index Goal-Clean Waters (0-100)	40.5	●	→	2018
Mean area that is protected in marine sites important to biodiversity (%)	54.9	●	↑	2018
Fish Stocks overexploited or collapsed by EEZ (%)	65.2	●	↓	2014
Fish caught by trawling (%)	29.6	●	↓	2014

SDG15 – Life on Land

Mean area that is protected in terrestrial sites important to biodiversity (%)	38.8	●	→	2018
Permanent Deforestation (5-year average annual %)	0.6	●	—	2015
Red List Index of species survival (0-1)	0.9	●	↑	2018
Imported biodiversity threats (per million population)	0.7	●	—	2015

SDG16 – Peace, Justice and Strong Institutions

Homicides (per 100,000 population)	1.4	●	↑	2015
Conflict-related deaths per 100,000	0.2	●	↑	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	64.3	●	—	2018
Children 5-14 years old involved in child labour (%)	5.0	●	—	2016
Property Rights	47.4	●	↓	2017
Access to justice	60.6	●	↗	2017
Corruption Perception Index (0-100)	35	●	↓	2018

Notes: The full title of Goal 2 "Zero Hunger" is "End hunger, achieve food security and improved nutrition and promote sustainable agriculture".

The full title of each SDG is available here: <https://sustainabledevelopment.un.org/topics/sustainabledevelopmentgoals>

SDG1 – End Poverty

Indicator	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	45.4	●	→	2019
Proportion of population living below the national poverty line	40.1	●	→	2015
Population covered by Social Protection (%)	3.6	●	→	2003

SDG2 – Zero Hunger

Prevalence of undernourishment (% population)	10.4	●	→	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	34.0	●	↗	2014
Prevalence of wasting in children under 5 years of age (%)	4.5	●	↑	2014
Prevalence of obesity, BMI ≥ 30 (% adult population)	9.6	●	↑	2016
Cereal yield (t/ha)	1.5	●	→	2016
Fertilizer consumption (kg per hectare of arable land)	14.7	●	→	2016

SDG3 – Good Health and Well-Being

Maternal mortality rate (per 100,000 live births)	405	●	→	2015
Births attended by skilled health personnel (%)	77.2	●	→	2014
Neonatal mortality rate (per 1,000 live births)	32.7	●	→	2017
Mortality rate, under-5 (per 1,000 live births)	98.3	●	→	2017
New HIV infections (per 1,000)	0.4	●	↑	2017
People living with HIV receiving antiretroviral therapy (%)	55	●	→	2017
Incidence of tuberculosis (per 100,000 population)	58	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	13.1	●	→	2014
Malaria mortality rate	65.6	●	↗	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	78.0	●	→	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	19.6	●	→	2016
Traffic deaths rate (per 100,000 population)	27.7	●	→	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	88.1	●	→	2016
Universal Health Coverage Tracer Index (0-100)	50.6	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	205	●	→	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	74	●	↗	2017
Life Expectancy at birth (years)	61.1	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	5.8	●	↑	2018

SDG4 – Quality Education

Net primary enrolment rate (%)	97.0	●	↑	2017
Mean years of schooling (years)	3.6	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	52.5	●	→	2012
Gross intake ratio to last grade of lower secondary education (%)	46	●	→	2016

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	25.9	●	→	2014
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	9.2	●	→	2014
Seats held by women in national parliaments (%)	7.2	●	→	2018
Women in ministerial positions (%)	18.2	●	→	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	24.5	●	→	2014
Ratio of female to male mean years of schooling of population age 25 and above (%)	69.8	●	↗	2017
Ratio of female to male labour force participation rate	94.2	●	↑	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	67.0	●	→	2015
Population using at least basic sanitation services (%)	13.9	●	→	2015
Freshwater withdrawal as % total renewable water resources	0.7	●	→	2014
Imported groundwater depletion (m³/year/capita)	7.1	●	→	2010
Anthropogenic wastewater that receives treatment (%)	0.0	●	→	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	41.4	●	→	2016
Access to clean fuels & technology for cooking (% population)	6.4	●	→	2016
Renewable energy share in the total final energy consumption	50.9	●	→	2015
Consumer affordability of electricity	74.5	●	→	2016

SDG8 – Decent Work and Economic Growth

Indicator	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	2.2	●	→	2017
Employment-to-population ratio	69.7	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	5.5	●	→	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	38.5	●	↑	2017
Starting a Business	90.6	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

Infrastructure score	38.8	●	→	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.5	●	↓	2018
Research and development expenditure (% GDP)	0.0	●	→	NA
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	12.0	●	→	2017
Population using the internet (%)	14.1	●	→	2017

SDG10 – Reduced Inequalities

Gini Coefficient adjusted for top income (1-100)	50.1	●	→	2015
Palma ratio	2.9	●	→	2017

SDG11 – Sustainable Cities and Communities

Proportion of urban population living in slums	61.5	●	→	2014
Improved water source, piped (% urban population with access)	56.6	●	↓	2015
Satisfaction with public transport (%)	48.4	●	↑	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m³)	39.0	●	↓	2017

SDG12 – Responsible Consumption and Production

Municipal Solid Waste (kg/year/capita)	0.5	●	→	2012
E-waste generated (kg/capita)	0.7	●	→	2016
Natural Resource Value Realization Score	NA	●	→	NA
Production-based SO ₂ emissions (kg/capita)	0.8	●	→	2010
Imported SO ₂ emissions (kg/capita)	0.7	●	→	2010

SDG13 – Climate Action

People affected by climate-related disasters (per 100,000 population)	NA	●	→	NA
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	1.0	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	0.2	●	→	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	0.0	●	→	2017

SDG14 – Life Below Water

Inadequately managed plastic waste (%)	82.8	●	→	2014
Ocean Health Index Goal-Clean Waters (0-100)	16.7	●	→	2018
Mean area that is protected in marine sites important to biodiversity (%)	NA	●	→	NA
Fish Stocks overexploited or collapsed by EEZ (%)	NA	●	→	NA
Fish caught by trawling (%)	1.5	●	↑	2014

SDG15 – Life on Land

Mean area that is protected in terrestrial sites important to biodiversity (%)	77.4	●	↑	2018
Permanent Deforestation (5-year average annual %)	0.2	●	→	2015
Red List Index of species survival (0-1)	0.9	●	↑	2018
Imported biodiversity threats (per million population)	0.6	●	→	2015

SDG16 – Peace, Justice and Strong Institutions

Homicides (per 100,000 population)	6.2	●	→	2015
Conflict-related deaths per 100,000	0.0	●	↑	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	50.4	●	↗	2018
Children 5-14 years old involved in child labour (%)	52.5	●	→	2016
Property Rights	60.4	●	↓	2017
Access to justice	97.7	●	↑	2017
Corruption Perception Index (0-100)	40	●	↗	2018
Public Sector Accountability & Transparency	38.8	●	→	2017
Birth registrations with civil authority, children under 5 years of age (%)	84.8	●	→	2016
Freedom of Press Index (best 0-100 worst)	30.2	●	→	2018

SDG17 – Partnerships for the Goals

Tax revenue (% GDP)	16.1	●	↓	2019
Government Health and Education spending (% GDP)	5.2	●	↓	2015
Level of customs duties on imports	6.6	●	→	2013
Visa Requirement	105	●	→	2015
Governmental Statistical Capacity	75.6	●	↑	2018

Performance by Indicator

SDG1 – End Poverty

	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	75.6	●	↓	2019
Proportion of population living below the national poverty line	64.9	●	—	2014
Population covered by Social Protection (%)	NA	●	—	NA

SDG2 – Zero Hunger

Prevalence of undernourishment (% population)	NA	●	—	NA
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	55.9	●	→	2016
Prevalence of wasting in children under 5 years of age (%)	5.1	●	→	2016
Prevalence of obesity, BMI ≥ 30 (% adult population)	5.4	●	↑	2016
Cereal yield (t/ha)	1.5	●	↑	2016
Fertilizer consumption (kg per hectare of arable land)	5.4	●	↓	2016

SDG3 – Good Health and Well-Being

Maternal mortality rate (per 100,000 live births)	712	●	→	2015
Births attended by skilled health personnel (%)	85.1	●	↑	2017
Neonatal mortality rate (per 1,000 live births)	22.1	●	↗	2017
Mortality rate, under-5 (per 1,000 live births)	61.2	●	↑	2017
New HIV infections (per 1,000)	0.3	●	↑	2017
People living with HIV receiving antiretroviral therapy (%)	77	●	—	2017
Incidence of tuberculosis (per 100,000 population)	114	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	68.9	●	—	2012
Malaria mortality rate	48.4	●	→	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	95.2	●	—	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	22.9	●	↓	2016
Traffic deaths rate (per 100,000 population)	32.7	●	↓	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	27.4	●	↑	2016
Universal Health Coverage Tracer Index (0-100)	45.1	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	180	●	—	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	90	●	↑	2017
Life Expectancy at birth (years)	60.1	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	3.8	●	↑	2018

SDG4 – Quality Education

Net primary enrolment rate (%)	96.6	●	—	2017
Mean years of schooling (years)	3.0	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	79.6	●	—	2014
Gross intake ratio to last grade of lower secondary education (%)	41	●	—	2017

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	20.4	●	—	2010
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	0.0	●	—	2017
Seats held by women in national parliaments (%)	36.4	●	→	2018
Women in ministerial positions (%)	26.1	●	—	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	39.3	●	↓	2017
Ratio of female to male mean years of schooling of population age 25 and above (%)	73.0	●	↓	2017
Ratio of female to male labour force participation rate	103.6	●	↑	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	55.9	●	→	2015
Population using at least basic sanitation services (%)	50.5	●	→	2015
Freshwater withdrawal as % total renewable water resources	3.1	●	—	2014
Imported groundwater depletion (m ³ /year/capita)	0.2	●	—	2010
Anthropogenic wastewater that receives treatment (%)	0.0	●	—	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	7.6	●	→	2016
Access to clean fuels & technology for cooking (% population)	0.8	●	→	2016
Renewable energy share in the total final energy consumption	95.7	●	↑	2015
Consumer affordability of electricity	50.0	●	—	2017

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	-2.0	●	—	2017
Employment-to-population ratio	77.8	●	↑	2018
Prevalence of Modern Slavery (victims per 1,000 population)	40.0	●	—	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	7.1	●	—	2014
Starting a Business	94.8	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

Infrastructure score	37.6	●	—	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.0	●	↗	2018
Research and development expenditure (% GDP)	0.0	●	—	NA
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016

Births attended by skilled health personnel (%)	64.7	●	→	2014
Neonatal mortality rate (per 1,000 live births)	25.5	●	→	2017
Mortality rate, under-5 (per 1,000 live births)	84.0	●	↗	2017
New HIV infections (per 1,000)	1.2	●	↗	2017
People living with HIV receiving antiretroviral therapy (%)	49	●	→	2017
Incidence of tuberculosis (per 100,000 population)	194	●	↗	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	15.1	●	→	2014
Malaria mortality rate	48.1	●	→	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	85.8	●	→	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	21.6	●	→	2016
Traffic deaths rate (per 100,000 population)	28.1	●	→	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	108.8	●	→	2016
Universal Health Coverage Tracer Index (0-100)	53.0	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	208	●	→	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	77	●	→	2017
Life Expectancy at birth (years)	58.1	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	5.3	●	↑	2018

SDG4 – Quality Education

Net primary enrolment rate (%)	95.2	●	↑	2017
Mean years of schooling (years)	6.3	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	80.6	●	→	2010
Gross intake ratio to last grade of lower secondary education (%)	49	●	→	2016

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	31.0	●	→	2014
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	1.4	●	→	2004
Seats held by women in national parliaments (%)	31.1	●	→	2018
Women in ministerial positions (%)	18.6	●	→	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	40.1	●	↗	2014
Ratio of female to male mean years of schooling of population age 25 and above (%)	61.8	●	→	2017
Ratio of female to male labour force participation rate	87.8	●	↑	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	65.3	●	→	2015
Population using at least basic sanitation services (%)	38.8	●	↓	2015
Freshwater withdrawal as % total renewable water resources	0.5	●	→	2014
Imported groundwater depletion (m ³ /year/capita)	5.1	●	→	2010
Anthropogenic wastewater that receives treatment (%)	0.0	●	→	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	60.1	●	→	2016
Access to clean fuels & technology for cooking (% population)	23.0	●	→	2016
Renewable energy share in the total final energy consumption	76.5	●	↑	2015
Consumer affordability of electricity	100.0	●	→	2017

SDG8 – Decent Work and Economic Growth

Indicator	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	2.3	●	→	2017
Employment-to-population ratio	73.7	●	↑	2018
Prevalence of Modern Slavery (victims per 1,000 population)	6.9	●	→	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	34.6	●	↗	2017
Starting a Business	86.3	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

Infrastructure score	45.7	●	→	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.6	●	↓	2018
Research and development expenditure (% GDP)	NA	●	→	NA
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	17.7	●	→	2017
Population using the internet (%)	23.2	●	↗	2017

SDG10 – Reduced Inequalities

Gini Coefficient adjusted for top income (1-100)	47.7	●	→	2014
Palma ratio	2.7	●	→	2017

SDG11 – Sustainable Cities and Communities

Proportion of urban population living in slums	37.8	●	→	2014
Improved water source, piped (% urban population with access)	61.5	●	↓	2015
Satisfaction with public transport (%)	47.2	●	↗	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	72.8	●	↓	2017

SDG12 – Responsible Consumption and Production

Municipal Solid Waste (kg/year/capita)	0.8	●	→	2012
E-waste generated (kg/capita)	0.8	●	→	2016
Natural Resource Value Realization Score	59.3	●	→	2017
Production-based SO ₂ emissions (kg/capita)	1.0	●	→	2010
Imported SO ₂ emissions (kg/capita)	0.1	●	→	2010

SDG13 – Climate Action

People affected by climate-related disasters (per 100,000 population)	436.4	●	→	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	1.0	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	0.1	●	→	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	425.2	●	→	2017

SDG14 – Life Below Water

Inadequately managed plastic waste (%)	81.4	●	→	2014
Ocean Health Index Goal-Clean Waters (0-100)	34.5	●	→	2018
Mean area that is protected in marine sites important to biodiversity (%)	NA	●	→	NA
Fish Stocks overexploited or collapsed by EEZ (%)	NA	●	→	NA
Fish caught by trawling (%)	7.9	●	↑	2014

SDG15 – Life on Land

Mean area that is protected in terrestrial sites important to biodiversity (%)	36.3	●	→	2018
Permanent Deforestation (5-year average annual %)	0.2	●	→	2015
Red List Index of species survival (0-1)	0.8	●	↓	2018
Imported biodiversity threats (per million population)	0.3	●	→	2015

SDG16 – Peace, Justice and Strong Institutions

Homicides (per 100,000 population)	4.2	●	→	2012
Conflict-related deaths per 100,000	1.5	●	↓	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	46.2	●	↓	2018
Children 5-14 years old involved in child labour (%)	47.0	●	→	2016
Property Rights	45.7	●	→	2017
Access to justice	50.7	●	↓	2017
Corruption Perception Index (0-100)	25	●	↓	2018
Public Sector Accountability & Transparency	26.8	●	↓	2017
Birth registrations with civil authority, children under 5 years of age (%)	66.1	●	→	2016
Freedom of Press Index (best 0-100 worst)	40.9	●	→	2018

SDG17 – Partnerships for the Goals

Tax revenue (% GDP)	17.3	●	→	2019
Government Health and Education spending (% GDP)	3.5	●	↓	2015
Level of customs duties on imports	NA	●	→	NA
Visa Requirement	141	●	→	2015
Governmental Statistical Capacity	60.0	●	↓	2018

COMOROS

Performance by Indicator

SDG1 – End Poverty

	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	21.2	●	→	2019
Proportion of population living below the national poverty line	42.4	●	→	2013
Population covered by Social Protection (%)	0.9	●	→	2004

SDG2 – Zero Hunger

	Value	Rating	Trend	Year
Prevalence of undernourishment (% population)	NA	●	→	NA
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	32.1	●	→	2012
Prevalence of wasting in children under 5 years of age (%)	11.1	●	↗	2012
Prevalence of obesity, BMI ≥ 30 (% adult population)	7.8	●	↑	2016
Cereal yield (t/ha)	1.4	●	→	2016
Fertilizer consumption (kg per hectare of arable land)	NA	●	→	NA

SDG3 – Good Health and Well-Being

	Value	Rating	Trend	Year
Maternal mortality rate (per 100,000 live births)	335	●	↗	2015
Births attended by skilled health personnel (%)	82.2	●	→	2012
Neonatal mortality rate (per 1,000 live births)	31.7	●	↗	2017
Mortality rate, under-5 (per 1,000 live births)	69.0	●	↗	2017
New HIV infections (per 1,000)	0.0	●	↑	2017
People living with HIV receiving antiretroviral therapy (%)	27	●	→	2017
Incidence of tuberculosis (per 100,000 population)	35	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	16.0	●	→	2012
Malaria mortality rate	1.0	●	↑	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	46.2	●	→	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	22.9	●	→	2016
Traffic deaths rate (per 100,000 population)	28.6	●	↓	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	67.2	●	↗	2016
Universal Health Coverage Tracer Index (0-100)	47.4	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	172	●	→	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	90	●	↑	2017
Life Expectancy at birth (years)	63.9	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	4.0	●	→	2018

SDG4 – Quality Education

	Value	Rating	Trend	Year
Net primary enrolment rate (%)	79.8	●	↓	2017
Mean years of schooling (years)	4.8	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	71.6	●	→	2012
Gross intake ratio to last grade of lower secondary education (%)	48	●	→	2014

SDG5 – Gender Equality

	Value	Rating	Trend	Year
Proportion of women aged 20-24 years who were married or in a union before age 18	31.6	●	→	2012
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	NA	●	→	NA
Seats held by women in national parliaments (%)	6.1	●	→	2018
Women in ministerial positions (%)	8.3	●	→	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	27.8	●	→	2012
Ratio of female to male mean years of schooling of population age 25 and above (%)	66.1	●	→	2017
Ratio of female to male labour force participation rate	71.9	●	↑	2018

SDG6 – Clean Water and Sanitation

	Value	Rating	Trend	Year
Population using at least basic drinking water services (%)	83.7	●	→	2015
Population using at least basic sanitation services (%)	34.2	●	→	2015
Freshwater withdrawal as % total renewable water resources	1.2	●	→	2014
Imported groundwater depletion (m ³ /year/capita)	NA	●	→	NA
Anthropogenic wastewater that receives treatment (%)	NA	●	→	NA

SDG7 – Affordable and Clean Energy

	Value	Rating	Trend	Year
Access to electricity (% population)	77.8	●	↑	2016
Access to clean fuels & technology for cooking (% population)	9.3	●	→	2016
Renewable energy share in the total final energy consumption	45.3	●	↓	2015
Consumer affordability of electricity	NA	●	→	NA

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	0.1	●	→	2017
Employment-to-population ratio	42.5	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	NA	●	→	NA
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	21.7	●	→	2011
Starting a Business	72.3	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

	Value	Rating	Trend	Year
Infrastructure score	39.0	●	→	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.3	●	↑	2018
Research and development expenditure (% GDP)	0.0	●	→	NA
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	37.8	●	→	2017
Population using the internet (%)	8.5	●	→	2017

SDG10 – Reduced Inequalities

	Value	Rating	Trend	Year
Gini Coefficient adjusted for top income (1-100)	45.0	●	→	2013
Palma ratio	2.5	●	→	2017

SDG11 – Sustainable Cities and Communities

	Value	Rating	Trend	Year
Proportion of urban population living in slums	69.6	●	→	2014
Improved water source, piped (% urban population with access)	87.0	●	↗	2015
Satisfaction with public transport (%)	58.0	●	→	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	20.5	●	→	2017

SDG12 – Responsible Consumption and Production

	Value	Rating	Trend	Year
Municipal Solid Waste (kg/year/capita)	2.2	●	→	2012
E-waste generated (kg/capita)	0.8	●	→	2016
Natural Resource Value Realization Score	NA	●	→	NA
Production-based SO ₂ emissions (kg/capita)	1.1	●	→	2010
Imported SO ₂ emissions (kg/capita)	0.6	●	→	2010

SDG13 – Climate Action

	Value	Rating	Trend	Year
People affected by climate-related disasters (per 100,000 population)	1,252.5	●	→	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	0.4	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	NA	●	→	NA
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	0.0	●	→	2017

SDG14 – Life Below Water

	Value	Rating	Trend	Year
Inadequately managed plastic waste (%)	82.9	●	→	2014
Ocean Health Index Goal-Clean Waters (0-100)	36.7	●	↓	2018
Mean area that is protected in marine sites important to biodiversity (%)	0.0	●	→	2018
Fish Stocks overexploited or collapsed by EEZ (%)	24.0	●	↑	2014
Fish caught by trawling (%)	NA	●	→	NA

SDG15 – Life on Land

	Value	Rating	Trend	Year
Mean area that is protected in terrestrial sites important to biodiversity (%)	10.4	●	→	2018
Permanent Deforestation (5-year average annual %)	0.3	●	→	2015
Red List Index of species survival (0-1)	0.8	●	↓	2018
Imported biodiversity threats (per million population)	NA	●	→	NA

SDG16 – Peace, Justice and Strong Institutions

	Value	Rating	Trend	Year
Homicides (per 100,000 population)	7.7	●	→	2015
Conflict-related deaths per 100,000	0.0	●	↑	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	70.8	●	→	2018
Children 5-14 years old involved in child labour (%)	22.0	●	→	2016
Property Rights	47.4	●	↑	2017
Access to justice	56.1	●	↑	2017
Corruption Perception Index (0-100)	27	●	→	2018
Public Sector Accountability & Transparency	23.2	●	→	2017
Birth registrations with civil authority, children under 5 years of age (%)	87.3	●	→	2016
Freedom of Press Index (best 0-100 worst)	25.3	●	→	2018

SDG17 – Partnerships for the Goals

	Value	Rating	Trend	Year
Tax revenue (% GDP)	15.5	●	↗	2019
Government Health and Education spending (% GDP)	5.4	●	↓	2015
Level of customs duties on imports	0.5	●	→	2014
Visa Requirement	54	●	→	2015
Governmental Statistical Capacity	35.6	●	↓	2018

Indicator	Value	Rating	Trend	Year
Net primary enrolment rate (%)	86.0	●	↑	2017
Mean years of schooling (years)	5.2	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	53.0	●	→	2014
Gross intake ratio to last grade of lower secondary education (%)	47	●	→	2017

SDG5 – Gender Equality

Indicator	Value	Rating	Trend	Year
Proportion of women aged 20-24 years who were married or in a union before age 18	33.2	●	→	2012
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	36.7	●	→	2016
Seats held by women in national parliaments (%)	10.6	●	→	2018
Women in ministerial positions (%)	15.0	●	→	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	31.1	●	→	2016
Ratio of female to male mean years of schooling of population age 25 and above (%)	64.5	●	→	2017
Ratio of female to male labour force participation rate	72.9	●	↑	2018

SDG6 – Clean Water and Sanitation

Indicator	Value	Rating	Trend	Year
Population using at least basic drinking water services (%)	73.1	●	→	2015
Population using at least basic sanitation services (%)	29.9	●	→	2015
Freshwater withdrawal as % total renewable water resources	2.7	●	→	2014
Imported groundwater depletion (m³/year/capita)	8.0	●	→	2010
Anthropogenic wastewater that receives treatment (%)	0.6	●	→	2016

SDG7 – Affordable and Clean Energy

Indicator	Value	Rating	Trend	Year
Access to electricity (% population)	64.3	●	↗	2016
Access to clean fuels & technology for cooking (% population)	18.2	●	↓	2016
Renewable energy share in the total final energy consumption	64.5	●	↓	2015
Consumer affordability of electricity	100.0	●	→	2017

SDG8 – Decent Work and Economic Growth

Indicator	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	5.7	●	→	2017
Employment-to-population ratio	55.9	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	5.9	●	→	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	41.3	●	→	2017
Starting a Business	93.7	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

Indicator	Value	Rating	Trend	Year
Infrastructure score	53.5	●	→	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.9	●	↗	2018
Research and development expenditure (% GDP)	NA	●	→	NA
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	↓	2016
Mobile broadband subscriptions (per 100 inhabitants)	53.9	●	↑	2017
Population using the internet (%)	43.8	●	↑	2017

SDG10 – Reduced Inequalities

Indicator	Value	Rating	Trend	Year
Gini Coefficient adjusted for top income (1-100)	46.4	●	→	2015
Palma ratio	2.0	●	→	2017

SDG11 – Sustainable Cities and Communities

Indicator	Value	Rating	Trend	Year
Proportion of urban population living in slums	56.0	●	→	2014
Improved water source, piped (% urban population with access)	70.2	●	→	2015
Satisfaction with public transport (%)	41.2	●	↗	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m³)	25.9	●	↓	2017

SDG12 – Responsible Consumption and Production

Indicator	Value	Rating	Trend	Year
Municipal Solid Waste (kg/year/capita)	0.5	●	→	2012
E-waste generated (kg/capita)	0.9	●	→	2016
Natural Resource Value Realization Score	59.8	●	→	2017
Production-based SO ₂ emissions (kg/capita)	0.7	●	→	2010
Imported SO ₂ emissions (kg/capita)	0.4	●	→	2010

SDG13 – Climate Action

Indicator	Value	Rating	Trend	Year
People affected by climate-related disasters (per 100,000 population)	20.4	●	→	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	0.8	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	-0.1	●	→	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	177.4	●	→	2017

SDG14 – Life Below Water

Indicator	Value	Rating	Trend	Year
Inadequately managed plastic waste (%)	81.6	●	→	2014
Ocean Health Index Goal-Clean Waters (0-100)	37.7	●	↓	2018
Mean area that is protected in marine sites important to biodiversity (%)	NA	●	→	NA
Fish Stocks overexploited or collapsed by EEZ (%)	NA	●	→	NA
Fish caught by trawling (%)	4.3	●	↑	2014

SDG15 – Life on Land

Indicator	Value	Rating	Trend	Year
Mean area that is protected in terrestrial sites important to biodiversity (%)	79.1	●	↑	2018
Permanent Deforestation (5-year average annual %)	0.9	●	→	2015
Red List Index of species survival (0-1)	0.9	●	→	2018
Imported biodiversity threats (per million population)	0.2	●	→	2015

SDG16 – Peace, Justice and Strong Institutions

Indicator	Value	Rating	Trend	Year
Homicides (per 100,000 population)	11.6	●	→	2015
Conflict-related deaths per 100,000	0.0	●	↑	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	39.7	●	↓	2018
Children 5-14 years old involved in child labour (%)	26.4	●	→	2016
Property Rights	62.4	●	↑	2017
Access to justice	57.7	●	↑	2017
Corruption Perception Index (0-100)	35	●	↗	2018
Public Sector Accountability & Transparency	47.3	●	↑	2017
Birth registrations with civil authority, children under 5 years of age (%)	65.0	●	→	2016
Freedom of Press Index (best 0-100 worst)	30.1	●	→	2018

SDG17 – Partnerships for the Goals

Indicator	Value	Rating	Trend	Year
Tax revenue (% GDP)	19.8	●	→	2019
Government Health and Education spending (% GDP)	6.0	●	→	2015
Level of customs duties on imports	0.7	●	→	2013
Visa Requirement	99	●	→	2015
Governmental Statistical Capacity	70.0	●	→	2018

DEMOCRATIC REPUBLIC OF CONGO

Performance by Indicator

Indicator	Value	Rating	Trend	Year
SDG1 – End Poverty				
Poverty headcount ratio at \$1.90/day (% population)	70.1	●	→	2019
Proportion of population living below the national poverty line	63.9	●	→	2012
Population covered by Social Protection (%)	5.5	●	→	2012
SDG2 – Zero Hunger				
Prevalence of undernourishment (% population)	NA	●	→	NA
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	42.6	●	→	2013
Prevalence of wasting in children under 5 years of age (%)	8.1	●	↑	2013
Prevalence of obesity, BMI ≥ 30 (% adult population)	6.7	●	↑	2016
Cereal yield (t/ha)	0.8	●	→	2016
Fertilizer consumption (kg per hectare of arable land)	2.5	●	→	2016
SDG3 – Good Health and Well-Being				
Maternal mortality rate (per 100,000 live births)	693	●	→	2015
Births attended by skilled health personnel (%)	80.1	●	→	2014
Neonatal mortality rate (per 1,000 live births)	28.9	●	→	2017
Mortality rate, under-5 (per 1,000 live births)	91.1	●	→	2017
New HIV infections (per 1,000)	0.2	●	↑	2017
People living with HIV receiving antiretroviral therapy (%)	55	●	→	2017
Incidence of tuberculosis (per 100,000 population)	322	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	17.0	●	→	2013
Malaria mortality rate	56.6	●	→	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	92.2	●	→	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	19.4	●	→	2016
Traffic deaths rate (per 100,000 population)	33.5	●	→	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	125.2	●	→	2016
Universal Health Coverage Tracer Index (0-100)	43.9	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	164	●	→	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	80	●	→	2017
Life Expectancy at birth (years)	60.5	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	4.3	●	↑	2017
SDG4 – Quality Education				
Net primary enrolment rate (%)	NA	●	→	NA
Mean years of schooling (years)	6.8	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	85.0	●	→	2016
Gross intake ratio to last grade of lower secondary education (%)	50	●	→	2014
SDG5 – Gender Equality				
Proportion of women aged 20-24 years who were married or in a union before age 18	37.3	●	→	2014
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	NA	●	→	NA
Seats held by women in national parliaments (%)	8.9	●	→	2018
Women in ministerial positions (%)	NA	●	→	NA
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	15.6	●	→	2014
Ratio of female to male mean years of schooling of population age 25 and above (%)	63.1	●	→	2017
Ratio of female to male labour force participation rate	97.1	●	↑	2018
SDG6 – Clean Water and Sanitation				
Population using at least basic drinking water services (%)	41.8	●	→	2015
Population using at least basic sanitation services (%)	19.7	●	↓	2015
Freshwater withdrawal as % total renewable water resources	0.1	●	→	2014
Imported groundwater depletion (m ³ /year/capita)	0.5	●	→	2010
Anthropogenic wastewater that receives treatment (%)	0.0	●	→	2016
SDG7 – Affordable and Clean Energy				
Access to electricity (% population)	17.1	●	→	2016
Access to clean fuels & technology for cooking (% population)	4.0	●	→	2016
Renewable energy share in the total final energy consumption	95.8	●	↑	2015
Consumer affordability of electricity	51.0	●	→	2017
SDG8 – Decent Work and Economic Growth				
5-year average GDP Growth per capita (%)	2.7	●	→	2017
Employment-to-population ratio	61.0	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	13.7	●	→	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	25.8	●	→	2017
Starting a Business	90.2	●	↑	2019
SDG9 – Industry, Innovation and Infrastructure				
Infrastructure score	24.7	●	→	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	NA	●	→	NA
Research and development expenditure (% GDP)	0.0	●	→	2015
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	5.9	●	→	2017
Population using the internet (%)	8.6	●	→	2017
SDG10 – Reduced Inequalities				
Gini Coefficient adjusted for top income (1-100)	42.1	●	→	2012
Palma ratio	2.1	●	→	2017

SDG1 – End Poverty

	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	0.6	●	↑	2019
Proportion of population living below the national poverty line	27.8	●	—	2015
Population covered by Social Protection (%)	60.3	●	—	2008

SDG2 – Zero Hunger

Prevalence of undernourishment (% population)	4.8	●	↑	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	22.3	●	↑	2014
Prevalence of wasting in children under 5 years of age (%)	9.5	●	↑	2014
Prevalence of obesity, BMI ≥ 30 (% adult population)	32.0	●	↓	2016
Cereal yield (t/ha)	7.1	●	↑	2016
Fertilizer consumption (kg per hectare of arable land)	649.2	●	↑	2016

SDG3 – Good Health and Well-Being

Maternal mortality rate (per 100,000 live births)	33	●	↑	2015
Births attended by skilled health personnel (%)	91.5	●	—	2014
Neonatal mortality rate (per 1,000 live births)	11.6	●	↑	2017
Mortality rate, under-5 (per 1,000 live births)	22.1	●	↑	2017
New HIV infections (per 1,000)	0.0	●	↑	2017
People living with HIV receiving antiretroviral therapy (%)	24	●	—	2017
Incidence of tuberculosis (per 100,000 population)	13	●	↑	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	NA	●	—	NA
Malaria mortality rate	0.0	●	↑	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	98.6	●	—	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	27.7	●	→	2016
Traffic deaths rate (per 100,000 population)	13.3	●	↗	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	51.0	●	→	2016
Universal Health Coverage Tracer Index (0-100)	65.2	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	109	●	—	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	94	●	↑	2017
Life Expectancy at birth (years)	70.5	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	4.0	●	↓	2018

SDG4 – Quality Education

Net primary enrolment rate (%)	97.0	●	→	2017
Mean years of schooling (years)	7.2	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	88.2	●	—	2017
Gross intake ratio to last grade of lower secondary education (%)	81	●	—	2017

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	17.4	●	—	2014
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	87.2	●	—	2015
Seats held by women in national parliaments (%)	14.9	●	→	2018
Women in ministerial positions (%)	24.2	●	—	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	80.0	●	↑	2014
Ratio of female to male mean years of schooling of population age 25 and above (%)	82.3	●	↑	2017
Ratio of female to male labour force participation rate	30.2	●	→	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	98.4	●	↑	2015
Population using at least basic sanitation services (%)	93.2	●	↑	2015
Freshwater withdrawal as % total renewable water resources	159.9	●	—	2014
Imported groundwater depletion (m ³ /year/capita)	2.8	●	—	2010
Anthropogenic wastewater that receives treatment (%)	28.4	●	—	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	100.0	●	↑	2016
Access to clean fuels & technology for cooking (% population)	97.6	●	↑	2016
Renewable energy share in the total final energy consumption	5.7	●	↓	2015
Consumer affordability of electricity	0.0	●	—	2017

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	1.4	●	—	2017
Employment-to-population ratio	42.6	●	↓	2018
Prevalence of Modern Slavery (victims per 1,000 population)	5.5	●	—	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	32.8	●	↗	2017
Starting a Business	84.1	●	→	2019

SDG9 – Industry, Innovation and Infrastructure

Infrastructure score	69.3	●	—	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.8	●	↑	2018
Research and development expenditure (% GDP)	0.7	●	—	2016
Number of scientific and technical journal articles (per 1,000 population)	0.1	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	50.1	●	↑	2017
Population using the internet (%)	45.0	●	↗	2017

SDG10 – Reduced Inequalities

Gini Coefficient adjusted for top income (1-100)	49.7	●	—	2015
Palma ratio	1.3	●	—	2017

SDG11 – Sustainable Cities and Communities

Proportion of urban population living in slums	10.6	●	—	2014
Improved water source, piped (% urban population with access)	97.9	●	↓	2015
Satisfaction with public transport (%)	71.0	●	↑	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	87.0	●	↓	2017

SDG12 – Responsible Consumption and Production

Municipal Solid Waste (kg/year/capita)	1.4	●	—	2012
E-waste generated (kg/capita)	5.5	●	—	2016
Natural Resource Value Realization Score	44.7	●	—	2017
Production-based SO ₂ emissions (kg/capita)	7.6	●	—	2010
Imported SO ₂ emissions (kg/capita)	-0.6	●	—	2010

SDG13 – Climate Action

People affected by climate-related disasters (per 100,000 population)	17.2	●	—	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	3.9	●	↗	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	-0.2	●	—	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	155.6	●	—	2017

SDG14 – Life Below Water

Inadequately managed plastic waste (%)	66.7	●	—	2014
Ocean Health Index Goal-Clean Waters (0-100)	49.5	●	↓	2018
Mean area that is protected in marine sites important to biodiversity (%)	64.8	●	↑	2018
Fish Stocks overexploited or collapsed by EEZ (%)	27.4	●	↑	2014
Fish caught by trawling (%)	34.5	●	↑	2014

SDG15 – Life on Land

Mean area that is protected in terrestrial sites important to biodiversity (%)	39.6	●	→	2018
Permanent Deforestation (5-year average annual %)	0.0	●	—	2015
Red List Index of species survival (0-1)	0.9	●	↑	2018
Imported biodiversity threats (per million population)	0.3	●	—	2015

SDG16 – Peace, Justice and Strong Institutions

Homicides (per 100,000 population)	2.5	●	—	2012
Conflict-related deaths per 100,000	0.9	●	→	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	87.0	●	↑	2018
Children 5-14 years old involved in child labour (%)	7.0	●	—	2016
Property Rights	61.4	●	↓	2017
Access to justice	45.4	●	↓	2017

ESWATINI

Performance by Indicator

SDG1 – End Poverty

	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	45.2	●	↓	2019
Proportion of population living below the national poverty line	63.0	●	—	2009
Population covered by Social Protection (%)	70.9	●	—	2009

SDG2 – Zero Hunger

	Value	Rating	Trend	Year
Prevalence of undernourishment (% population)	20.7	●	→	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	25.5	●	↗	2014
Prevalence of wasting in children under 5 years of age (%)	2.0	●	↑	2014
Prevalence of obesity, BMI ≥ 30 (% adult population)	16.5	●	↓	2016
Cereal yield (t/ha)	1.1	●	↓	2016
Fertilizer consumption (kg per hectare of arable land)	NA	●	—	NA

SDG3 – Good Health and Well-Being

	Value	Rating	Trend	Year
Maternal mortality rate (per 100,000 live births)	389	●	→	2015
Births attended by skilled health personnel (%)	88.3	●	—	2014
Neonatal mortality rate (per 1,000 live births)	17.4	●	↗	2017
Mortality rate, under-5 (per 1,000 live births)	53.9	●	↑	2017
New HIV infections (per 1,000)	8.0	●	↑	2017
People living with HIV receiving antiretroviral therapy (%)	85	●	—	2017
Incidence of tuberculosis (per 100,000 population)	308	●	↑	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	19.7	●	—	2010
Malaria mortality rate	0.1	●	↑	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	61.4	●	—	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	26.7	●	↓	2016
Traffic deaths rate (per 100,000 population)	24.9	●	→	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	78.5	●	→	2016
Universal Health Coverage Tracer Index (0-100)	54.7	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	137	●	—	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	89	●	↑	2017
Life Expectancy at birth (years)	57.7	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	4.2	●	—	2018

SDG4 – Quality Education

	Value	Rating	Trend	Year
Net primary enrolment rate (%)	75.7	●	↓	2016
Mean years of schooling (years)	6.5	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	93.5	●	—	2010
Gross intake ratio to last grade of lower secondary education (%)	55	●	—	2016

SDG5 – Gender Equality

	Value	Rating	Trend	Year
Proportion of women aged 20-24 years who were married or in a union before age 18	5.3	●	—	2014
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	0.0	●	—	2017
Seats held by women in national parliaments (%)	7.2	●	→	2018
Women in ministerial positions (%)	31.6	●	—	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	80.6	●	↑	2014
Ratio of female to male mean years of schooling of population age 25 and above (%)	88.4	●	→	2017
Ratio of female to male labour force participation rate	63.6	●	↗	2018

SDG6 – Clean Water and Sanitation

	Value	Rating	Trend	Year
Population using at least basic drinking water services (%)	67.6	●	↗	2015
Population using at least basic sanitation services (%)	58.0	●	→	2015
Freshwater withdrawal as % total renewable water resources	32.4	●	—	2014
Imported groundwater depletion (m ³ /year/capita)	0.2	●	—	2010
Anthropogenic wastewater that receives treatment (%)	3.7	●	—	2016

SDG7 – Affordable and Clean Energy

	Value	Rating	Trend	Year
Access to electricity (% population)	65.8	●	↑	2016
Access to clean fuels & technology for cooking (% population)	49.7	●	→	2016
Renewable energy share in the total final energy consumption	66.1	●	↗	2015
Consumer affordability of electricity	NA	●	—	NA

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	0.9	●	—	2017
Employment-to-population ratio	41.1	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	8.8	●	—	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	28.6	●	—	2011
Starting a Business	74.6	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

	Value	Rating	Trend	Year
Infrastructure score	53.3	●	—	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	NA	●	—	NA
Research and development expenditure (% GDP)	0.3	●	—	2015
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	↓	2016
Mobile broadband subscriptions (per 100 inhabitants)	13.1	●	↗	2017
Population using the internet (%)	30.3	●	↗	2017

SDG10 – Reduced Inequalities

	Value	Rating	Trend	Year
Gini Coefficient adjusted for top income (1-100)	65.0	●	—	2009
Palma ratio	3.5	●	—	2017

SDG11 – Sustainable Cities and Communities

	Value	Rating	Trend	Year
Proportion of urban population living in slums	32.7	●	—	2014
Improved water source, piped (% urban population with access)	92.9	●	↑	2015
Satisfaction with public transport (%)	63.6	●	—	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	17.2	●	→	2017

SDG12 – Responsible Consumption and Production

	Value	Rating	Trend	Year
Municipal Solid Waste (kg/year/capita)	0.5	●	—	2012
E-waste generated (kg/capita)	5.1	●	—	2016
Natural Resource Value Realization Score	NA	●	—	NA
Production-based SO ₂ emissions (kg/capita)	3.3	●	—	2010
Imported SO ₂ emissions (kg/capita)	-0.1	●	—	2010

SDG13 – Climate Action

	Value	Rating	Trend	Year
People affected by climate-related disasters (per 100,000 population)	18,331.7	●	—	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	1.8	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	2.7	●	—	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	158.2	●	—	2017

SDG2 – Zero Hunger

	Value	Rating	Trend	Year
Prevalence of undernourishment (% population)	9.4	●	→	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	17.5	●	↗	2012
Prevalence of wasting in children under 5 years of age (%)	3.4	●	↑	2012
Prevalence of obesity, BMI ≥ 30 (% adult population)	15.0	●	↓	2016
Cereal yield (t/ha)	1.6	●	↓	2016
Fertilizer consumption (kg per hectare of arable land)	26.8	●	↑	2016

SDG3 – Good Health and Well-Being

	Value	Rating	Trend	Year
Maternal mortality rate (per 100,000 live births)	291	●	→	2015
Births attended by skilled health personnel (%)	89.3	●	→	2012
Neonatal mortality rate (per 1,000 live births)	21.5	●	↗	2017
Mortality rate, under-5 (per 1,000 live births)	48.3	●	↗	2017
New HIV infections (per 1,000)	1.6	●	↗	2017
People living with HIV receiving antiretroviral therapy (%)	59	●	→	2017
Incidence of tuberculosis (per 100,000 population)	529	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	34.0	●	→	2012
Malaria mortality rate	24.9	●	→	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	9.7	●	→	2016
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	14.4	●	↑	2016
Traffic deaths rate (per 100,000 population)	22.7	●	→	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	98.5	●	↗	2016
Universal Health Coverage Tracer Index (0-100)	56.0	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	76	●	→	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	63	●	↓	2017
Life Expectancy at birth (years)	66.4	●	↗	2016
Subjective Wellbeing (average ladder score, 0-10)	4.8	●	→	2018

SDG4 – Quality Education

	Value	Rating	Trend	Year
Net primary enrolment rate (%)	NA	●	→	NA
Mean years of schooling (years)	8.2	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	88.5	●	→	2012
Gross intake ratio to last grade of lower secondary education (%)	NA	●	→	NA

SDG5 – Gender Equality

	Value	Rating	Trend	Year
Proportion of women aged 20-24 years who were married or in a union before age 18	21.9	●	→	2012
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	0.0	●	→	2017
Seats held by women in national parliaments (%)	17.1	●	→	2018
Women in ministerial positions (%)	17.9	●	→	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	33.7	●	→	2012
Ratio of female to male mean years of schooling of population age 25 and above (%)	81.3	●	→	2017
Ratio of female to male labour force participation rate	72.5	●	↑	2018

SDG6 – Clean Water and Sanitation

	Value	Rating	Trend	Year
Population using at least basic drinking water services (%)	87.5	●	↑	2015
Population using at least basic sanitation services (%)	40.9	●	→	2015
Freshwater withdrawal as % total renewable water resources	0.1	●	→	2014
Imported groundwater depletion (m ³ /year/capita)	2.4	●	→	2010
Anthropogenic wastewater that receives treatment (%)	0.0	●	→	2016

SDG7 – Affordable and Clean Energy

	Value	Rating	Trend	Year
Access to electricity (% population)	91.4	●	↑	2016
Access to clean fuels & technology for cooking (% population)	79.1	●	↑	2016
Renewable energy share in the total final energy consumption	82.0	●	↑	2015
Consumer affordability of electricity	NA	●	→	NA

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	0.4	●	→	2017
Employment-to-population ratio	41.9	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	4.8	●	→	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	58.6	●	↑	2017
Starting a Business	82.6	●	↗	2019

SDG9 – Industry, Innovation and Infrastructure

	Value	Rating	Trend	Year
Infrastructure score	37.1	●	→	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.1	●	→	2018
Research and development expenditure (% GDP)	NA	●	→	NA
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	↓	2016
Mobile broadband subscriptions (per 100 inhabitants)	84.1	●	↑	2017
Population using the internet (%)	50.3	●	↑	2017

SDG10 – Reduced Inequalities

	Value	Rating	Trend	Year
Gini Coefficient adjusted for top income (1-100)	46.3	●	→	2005
Palma ratio	2.1	●	→	2017

SDG11 – Sustainable Cities and Communities

	Value	Rating	Trend	Year
Proportion of urban population living in slums	37.0	●	→	2014
Improved water source, piped (% urban population with access)	94.5	●	→	2015
Satisfaction with public transport (%)	30.3	●	→	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	44.4	●	↓	2017

SDG12 – Responsible Consumption and Production

	Value	Rating	Trend	Year
Municipal Solid Waste (kg/year/capita)	0.5	●	→	2012
E-waste generated (kg/capita)	7.6	●	→	2016
Natural Resource Value Realization Score	18.2	●	→	2017
Production-based SO ₂ emissions (kg/capita)	0.9	●	→	2010
Imported SO ₂ emissions (kg/capita)	0.7	●	→	2010

SDG13 – Climate Action

	Value	Rating	Trend	Year
People affected by climate-related disasters (per 100,000 population)	NA	●	→	NA
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	5.1	●	↗	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	-0.6	●	→	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	NA	●	→	NA

SDG14 – Life Below Water

	Value	Rating	Trend	Year
Inadequately managed plastic waste (%)	34.0	●	→	2014
Ocean Health Index Goal-Clean Waters (0-100)	63.0	●	↑	2018
Mean area that is protected in marine sites important to biodiversity (%)	98.6	●	↑	2018
Fish Stocks overexploited or collapsed by EEZ (%)	47.2	●	↓	2014
Fish caught by trawling (%)	39.6	●	↓	2014

SDG15 – Life on Land

	Value	Rating	Trend	Year
Mean area that is protected in terrestrial sites important to biodiversity (%)	61.7	●	↑	2018
Permanent Deforestation (5-year average annual %)	0.1	●	→	2015
Red List Index of species survival (0-1)	1.0	●	↑	2018
Imported biodiversity threats (per million population)	3.0	●	→	2015

SDG16 – Peace, Justice and Strong Institutions

	Value	Rating	Trend	Year
Homicides (per 100,000 population)	8.0	●	→	2015
Conflict-related deaths per 100,000	0.0	●	↑	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	34.7	●	↓	2018
Children 5-14 years old involved in child labour (%)	13.4	●	→	2016
Property Rights	51.7	●	↓	2017
Access to justice	78.1	●	↑	2017
Corruption Perception Index (0-100)	31	●	↓	2018
Public Sector Accountability & Transparency	25.3	●	↓	2017
Birth registrations with civil authority, children under 5 years of age (%)	89.6	●	→	2016
Freedom of Press Index (best 0-100 worst)	32.4	●	→	2018

SDG17 – Partnerships for the Goals

	Value	Rating	Trend	Year
Tax revenue (% GDP)	9.9	●	↓	2019
Government Health and Education spending (% GDP)	4.2	●	↓	2014
Level of customs duties on imports	NA	●	→	NA
Visa Requirement	139	●	→	2015
Governmental Statistical Capacity	36.7	●	↓	2018

THE GAMBIA

Performance by Indicator

SDG1 – End Poverty

Indicator	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	38.7	●	→	2019
Proportion of population living below the national poverty line	48.6	●	→	2015
Population covered by Social Protection (%)	6.1	●	→	2010

SDG2 – Zero Hunger

Indicator	Value	Rating	Trend	Year
Prevalence of undernourishment (% population)	9.6	●	→	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	25.0	●	→	2013
Prevalence of wasting in children under 5 years of age (%)	11.1	●	↓	2013
Prevalence of obesity, BMI ≥ 30 (% adult population)	10.3	●	↓	2016
Cereal yield (t/ha)	0.8	●	↓	2016
Fertilizer consumption (kg per hectare of arable land)	1.2	●	↓	2016

SDG3 – Good Health and Well-Being

Indicator	Value	Rating	Trend	Year
Maternal mortality rate (per 100,000 live births)	706	●	→	2015
Births attended by skilled health personnel (%)	57.2	●	→	2013
Neonatal mortality rate (per 1,000 live births)	27.6	●	→	2017
Mortality rate, under-5 (per 1,000 live births)	63.6	●	→	2017
New HIV infections (per 1,000)	0.7	●	→	2017
People living with HIV receiving antiretroviral therapy (%)	32	●	→	2017
Incidence of tuberculosis (per 100,000 population)	174	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	37.9	●	→	2013
Malaria mortality rate	32.1	●	→	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	67.9	●	→	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	20.4	●	→	2016
Traffic deaths rate (per 100,000 population)	30.4	●	→	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	81.9	●	→	2016
Universal Health Coverage Tracer Index (0-100)	51.3	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	237	●	→	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	90	●	↑	2017
Life Expectancy at birth (years)	61.9	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	4.9	●	→	2018

SDG4 – Quality Education

Indicator	Value	Rating	Trend	Year
Net primary enrolment rate (%)	77.6	●	→	2017
Mean years of schooling (years)	3.5	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	60.8	●	→	2013
Gross intake ratio to last grade of lower secondary education (%)	63	●	→	2014

SDG5 – Gender Equality

Indicator	Value	Rating	Trend	Year
Proportion of women aged 20-24 years who were married or in a union before age 18	30.4	●	→	2013
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	74.9	●	→	2013
Seats held by women in national parliaments (%)	10.3	●	→	2018
Women in ministerial positions (%)	11.1	●	→	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	23.9	●	→	2013
Ratio of female to male mean years of schooling of population age 25 and above (%)	67.4	●	→	2017
Ratio of female to male labour force participation rate	75.8	●	↑	2018

SDG6 – Clean Water and Sanitation

Indicator	Value	Rating	Trend	Year
Population using at least basic drinking water services (%)	80.1	●	→	2015
Population using at least basic sanitation services (%)	41.7	●	↓	2015
Freshwater withdrawal as % total renewable water resources	1.5	●	→	2014
Imported groundwater depletion (m³/year/capita)	26.6	●	→	2010
Anthropogenic wastewater that receives treatment (%)	NA	●	→	NA

SDG7 – Affordable and Clean Energy

Indicator	Value	Rating	Trend	Year
Access to electricity (% population)	47.8	●	→	2016
Access to clean fuels & technology for cooking (% population)	3.3	●	→	2016
Renewable energy share in the total final energy consumption	51.5	●	↓	2015
Consumer affordability of electricity	NA	●	→	NA

SDG8 – Decent Work and Economic Growth

Indicator	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	-0.2	●	→	2017
Employment-to-population ratio	54.2	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	5.8	●	→	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	NA	●	→	NA
Starting a Business	69.9	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

Indicator	Value	Rating	Trend	Year
Infrastructure score	49.7	●	→	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	1.8	●	→	2018
Research and development expenditure (% GDP)	0.1	●	→	2011
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	27.0	●	→	2017
Population using the internet (%)	19.8	●	→	2017

SDG10 – Reduced Inequalities

Indicator	Value	Rating	Trend	Year
Gini Coefficient adjusted for top income (1-100)	47.3	●	→	2003
Palma ratio	1.5	●	→	2017

SDG11 – Sustainable Cities and Communities

Indicator	Value	Rating	Trend	Year
Proportion of urban population living in slums	34.8	●	→	2014
Improved water source, piped (% urban population with access)	89.1	●	→	2015
Satisfaction with public transport (%)	45.6	●	→	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m³)	34.0	●	↓	2017

SDG12 – Responsible Consumption and Production

Indicator	Value	Rating	Trend	Year
Municipal Solid Waste (kg/year/capita)	0.5	●	→	2012
E-waste generated (kg/capita)	1.1	●	→	2016
Natural Resource Value Realization Score	NA	●	→	NA
Production-based SO ₂ emissions (kg/capita)	0.8	●	→	2010
Imported SO ₂ emissions (kg/capita)	0.7	●	→	2010

SDG13 – Climate Action

Indicator	Value	Rating	Trend	Year
People affected by climate-related disasters (per 100,000 population)	3,190.8	●	→	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	0.5	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	0.2	●	→	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	0.0	●	→	2017

SDG14 – Life Below Water

Indicator	Value	Rating	Trend	Year
Inadequately managed plastic waste (%)	83.6	●	→	2014
Ocean Health Index Goal-Clean Waters (0-100)	48.0	●	→	2018
Mean area that is protected in marine sites important to biodiversity (%)	54.4	●	↑	2018
Fish Stocks overexploited or collapsed by EEZ (%)	NA	●	→	NA
Fish caught by trawling (%)	1.4	●	↑	2014

SDG15 – Life on Land

Indicator	Value	Rating	Trend	Year
Mean area that is protected in terrestrial sites important to biodiversity (%)	34.6	●	→	2018
Permanent Deforestation (5-year average annual %)	NA	●	→	NA
Red List Index of species survival (0-1)	1.0	●	↑	2018
Imported biodiversity threats (per million population)	0.6	●	→	2015

SDG16 – Peace, Justice and Strong Institutions

Indicator	Value	Rating	Trend	Year
Homicides (per 100,000 population)	9.1	●	→	2015
Conflict-related deaths per 100,000	0.0	●	↑	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	46.6	●	→	2018
Children 5-14 years old involved in child labour (%)	19.2	●	→	2016
Property Rights	59.4	●	↓	2017
Access to justice	82.1	●	↑	2017
Corruption Perception Index (0-100)	37	●	↑	2018
Public Sector Accountability & Transparency	43.8	●	↓	2017
Birth registrations with civil authority, children under 5 years of age (%)	72.0	●	→	2016
Freedom of Press Index (best 0-100 worst)	38.4	●	→	2018

SDG17 – Partnerships for the Goals

Indicator	Value	Rating	Trend	Year
Tax revenue (% GDP)	19.3	●	→	2019
Government Health and Education spending (% GDP)	5.7	●	↓	2014
Level of customs duties on imports	16.7	●	→	2012
Visa Requirement	78	●	→	2015

Population using the internet (%)	37.9	●	↑	2017

SDG10 – Reduced Inequalities

Gini Coefficient adjusted for top income (1-100)	42.2	●	—	2012
Palma ratio	2.1	●	—	2017

SDG11 – Sustainable Cities and Communities

Proportion of urban population living in slums	37.9	●	—	2014
Improved water source, piped (% urban population with access)	42.2	●	↓	2015
Satisfaction with public transport (%)	49.8	●	↑	2017
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	34.7	●	↓	2017

SDG12 – Responsible Consumption and Production

Municipal Solid Waste (kg/year/capita)	0.1	●	—	2012
E-waste generated (kg/capita)	1.4	●	—	2016
Natural Resource Value Realization Score	63.5	●	—	2017
Production-based SO ₂ emissions (kg/capita)	2.0	●	—	2010
Imported SO ₂ emissions (kg/capita)	1.0	●	—	2010

SDG13 – Climate Action

People affected by climate-related disasters (per 100,000 population)	765.2	●	—	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	0.8	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	0.2	●	—	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	486.5	●	—	2017

SDG14 – Life Below Water

Inadequately managed plastic waste (%)	81.0	●	—	2014
Ocean Health Index Goal-Clean Waters (0-100)	31.3	●	↓	2018
Mean area that is protected in marine sites important to biodiversity (%)	NA	●	—	NA
Fish Stocks overexploited or collapsed by EEZ (%)	39.0	●	↑	2014
Fish caught by trawling (%)	7.8	●	↑	2014

SDG15 – Life on Land

Mean area that is protected in terrestrial sites important to biodiversity (%)	85.0	●	↑	2018
Permanent Deforestation (5-year average annual %)	0.6	●	—	2015
Red List Index of species survival (0-1)	0.8	●	↓	2018
Imported biodiversity threats (per million population)	0.4	●	—	2015

SDG16 – Peace, Justice and Strong Institutions

Homicides (per 100,000 population)	1.7	●	—	2011
Conflict-related deaths per 100,000	0.0	●	↑	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	66.2	●	↓	2017
Children 5-14 years old involved in child labour (%)	21.8	●	—	2016
Property Rights	79.5	●	↑	2017
Access to justice	94.7	●	↑	2017
Corruption Perception Index (0-100)	41	●	↓	2018
Public Sector Accountability & Transparency	45.2	●	↓	2017
Birth registrations with civil authority, children under 5 years of age (%)	70.5	●	—	2016
Freedom of Press Index (best 0-100 worst)	18.4	●	—	2018

SDG17 – Partnerships for the Goals

Tax revenue (% GDP)	22.7	●	↑	2019
Government Health and Education spending (% GDP)	8.0	●	↓	2015
Level of customs duties on imports	4.8	●	—	2013
Visa Requirement	104	●	—	2015

GUINEA

Performance by Indicator

SDG1 – End Poverty

	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	29.4	●	↗	2019
Proportion of population living below the national poverty line	55.2	●	→	2012
Population covered by Social Protection (%)	2.0	●	→	2012

SDG2 – Zero Hunger

Prevalence of undernourishment (% population)	19.7	●	↓	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	32.4	●	↗	2016
Prevalence of wasting in children under 5 years of age (%)	8.1	●	→	2016
Prevalence of obesity, BMI ≥ 30 (% adult population)	7.7	●	↑	2016
Cereal yield (t/ha)	1.2	●	→	2016
Fertilizer consumption (kg per hectare of arable land)	1.6	●	↓	2016

SDG3 – Good Health and Well-Being

Maternal mortality rate (per 100,000 live births)	679	●	→	2015
Births attended by skilled health personnel (%)	62.7	●	↑	2016
Neonatal mortality rate (per 1,000 live births)	24.1	●	↗	2017
Mortality rate, under-5 (per 1,000 live births)	85.7	●	↗	2017
New HIV infections (per 1,000)	0.7	●	↗	2017
People living with HIV receiving antiretroviral therapy (%)	35	●	→	2017
Incidence of tuberculosis (per 100,000 population)	176	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	16.5	●	→	2016
Malaria mortality rate	59.5	●	↑	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	85.8	●	→	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	22.4	●	→	2016
Traffic deaths rate (per 100,000 population)	28.1	●	→	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	137.4	●	→	2016
Universal Health Coverage Tracer Index (0-100)	35.8	●	↓	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	243	●	→	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	45	●	↓	2017
Life Expectancy at birth (years)	59.8	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	5.3	●	↑	2018

SDG4 – Quality Education

Net primary enrolment rate (%)	76.8	●	→	2016
Mean years of schooling (years)	2.6	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	46.3	●	→	2014
Gross intake ratio to last grade of lower secondary education (%)	36	●	→	2014

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	51.7	●	→	2012
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	96.8	●	→	2016
Seats held by women in national parliaments (%)	21.9	●	→	2018
Women in ministerial positions (%)	11.8	●	→	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	21.5	●	→	2016
Ratio of female to male mean years of schooling of population age 25 and above (%)	38.5	●	→	2017
Ratio of female to male labour force participation rate	96.4	●	↑	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	67.4	●	↗	2015
Population using at least basic sanitation services (%)	22.0	●	→	2015
Freshwater withdrawal as % total renewable water resources	0.3	●	→	2014
Imported groundwater depletion (m ³ /year/capita)	18.0	●	→	2010
Anthropogenic wastewater that receives treatment (%)	1.1	●	→	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	33.5	●	→	2016
Access to clean fuels & technology for cooking (% population)	1.2	●	→	2016
Renewable energy share in the total final energy consumption	76.3	●	↑	2015
Consumer affordability of electricity	67.0	●	→	2017

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	4.0	●	→	2017
Employment-to-population ratio	62.3	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	7.8	●	→	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	23.5	●	↗	2017
Starting a Business	83.9	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

Infrastructure score	27.5	●	→	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	1.6	●	↓	2018
Research and development expenditure (% GDP)	0.0	●	→	NA
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	24.6	●	↑	2017
Population using the internet (%)	11.4	●	→	2017

SDG10 – Reduced Inequalities

Gini Coefficient adjusted for top income (1-100)	33.7	●	→	2012
Palma ratio	1.3	●	→	2017

SDG11 – Sustainable Cities and Communities

Proportion of urban population living in slums	43.3	●	→	2014
Improved water source, piped (% urban population with access)	65.5	●	↓	2015
Satisfaction with public transport (%)	39.0	●	↑	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	26.1	●	↓	2017

SDG12 – Responsible Consumption and Production

Municipal Solid Waste (kg/year/capita)	NA	●	→	NA
E-waste generated (kg/capita)	0.6	●	→	2016
Natural Resource Value Realization Score	53.2	●	→	2017
Production-based SO ₂ emissions (kg/capita)	0.8	●	→	2010
Imported SO ₂ emissions (kg/capita)	0.7	●	→	2010

SDG13 – Climate Action

People affected by climate-related disasters (per 100,000 population)	137.5	●	→	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	0.5	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	0.0	●	→	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	0.0	●	→	2017

Traffic deaths rate (per 100,000 population)	30.5	●	↓	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	81.8	●	→	2016
Universal Health Coverage Tracer Index (0-100)	53.3	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	78	●	→	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	82	●	↑	2017
Life Expectancy at birth (years)	66.7	●	↔	2016
Subjective Wellbeing (average ladder score, 0-10)	4.7	●	↔	2018

SDG4 – Quality Education

Net primary enrolment rate (%)	81.8	●	→	2012
Mean years of schooling (years)	6.5	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	86.5	●	→	2014
Gross intake ratio to last grade of lower secondary education (%)	81	●	→	2016

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	22.9	●	→	2014
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	21.0	●	→	2014
Seats held by women in national parliaments (%)	21.8	●	→	2018
Women in ministerial positions (%)	25.0	●	→	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	77.6	●	↑	2016
Ratio of female to male mean years of schooling of population age 25 and above (%)	80.3	●	↓	2017
Ratio of female to male labour force participation rate	91.1	●	↑	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	58.5	●	→	2015
Population using at least basic sanitation services (%)	29.8	●	↓	2015
Freshwater withdrawal as % total renewable water resources	14.3	●	→	2014
Imported groundwater depletion (m ³ /year/capita)	13.7	●	→	2010
Anthropogenic wastewater that receives treatment (%)	0.5	●	→	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	56.0	●	↔	2016
Access to clean fuels & technology for cooking (% population)	13.4	●	→	2016
Renewable energy share in the total final energy consumption	72.7	●	↓	2015
Consumer affordability of electricity	67.0	●	→	2017

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	2.8	●	→	2017
Employment-to-population ratio	60.1	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	6.9	●	→	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	81.6	●	↑	2017
Starting a Business	82.4	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

Infrastructure score	59.4	●	→	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.6	●	↑	2018
Research and development expenditure (% GDP)	0.8	●	→	2010
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	34.1	●	↑	2017
Population using the internet (%)	17.8	●	→	2017

SDG10 – Reduced Inequalities

Gini Coefficient adjusted for top income (1-100)	50.1	●	→	2005
Palma ratio	2.9	●	→	2017

SDG11 – Sustainable Cities and Communities

Proportion of urban population living in slums	56.0	●	→	2014
Improved water source, piped (% urban population with access)	61.4	●	↓	2015
Satisfaction with public transport (%)	55.0	●	↑	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	28.6	●	↓	2017

SDG12 – Responsible Consumption and Production

Municipal Solid Waste (kg/year/capita)	0.3	●	→	2012
E-waste generated (kg/capita)	0.8	●	→	2016
Natural Resource Value Realization Score	NA	●	→	NA
Production-based SO ₂ emissions (kg/capita)	1.3	●	→	2010
Imported SO ₂ emissions (kg/capita)	0.6	●	→	2010

SDG13 – Climate Action

People affected by climate-related disasters (per 100,000 population)	1,779.1	●	→	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	0.6	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	0.3	●	→	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	1.4	●	→	2017

SDG14 – Life Below Water

Inadequately managed plastic waste (%)	82.7	●	→	2014
Ocean Health Index Goal-Clean Waters (0-100)	45.9	●	↓	2018
Mean area that is protected in marine sites important to biodiversity (%)	51.9	●	↑	2018
Fish Stocks overexploited or collapsed by EEZ (%)	32.4	●	↑	2014
Fish caught by trawling (%)	8.0	●	→	2014

SDG15 – Life on Land

Mean area that is protected in terrestrial sites important to biodiversity (%)	37.5	●	→	2018
Permanent Deforestation (5-year average annual %)	0.3	●	→	2015
Red List Index of species survival (0-1)	0.8	●	↓	2018
Imported biodiversity threats (per million population)	0.8	●	→	2015

SDG16 – Peace, Justice and Strong Institutions

Homicides (per 100,000 population)	4.9	●	↓	2016
Conflict-related deaths per 100,000	0.5	●	→	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	54.3	●	→	2018
Children 5-14 years old involved in child labour (%)	25.9	●	→	2016
Property Rights	61.1	●	↑	2017
Access to justice	31.3	●	↓	2017
Corruption Perception Index (0-100)	27	●	→	2018
Public Sector Accountability & Transparency	45.4	●	→	2017
Birth registrations with civil authority, children under 5 years of age (%)	66.9	●	→	2016
Freedom of Press Index (best 0-100 worst)	30.8	●	→	2018

SDG17 – Partnerships for the Goals

Tax revenue (% GDP)	18.5	●	→	2019
Government Health and Education spending (% GDP)	7.0	●	↓	2015
Level of customs duties on imports	33.8	●	→	2014
Visa Requirement	48	●	→	2015
Governmental Statistical Capacity	55.6	●	↓	2018

The full title of each SDG is available here: <https://sustainabledevelopment.un.org/topics/sustainabledevelopmentgoals>

SDG1 – End Poverty

	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	52.6	●	→	2019
Proportion of population living below the national poverty line	57.1	●	—	2010
Population covered by Social Protection (%)	7.7	●	—	2010

SDG2 – Zero Hunger

	Value	Rating	Trend	Year
Prevalence of undernourishment (% population)	12.8	●	→	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	33.2	●	→	2014
Prevalence of wasting in children under 5 years of age (%)	2.8	●	↑	2014
Prevalence of obesity, BMI ≥ 30 (% adult population)	16.6	●	↓	2016
Cereal yield (t/ha)	0.5	●	↓	2016
Fertilizer consumption (kg per hectare of arable land)	NA	●	—	NA

SDG3 – Good Health and Well-Being

	Value	Rating	Trend	Year
Maternal mortality rate (per 100,000 live births)	487	●	↗	2015
Births attended by skilled health personnel (%)	77.9	●	—	2014
Neonatal mortality rate (per 1,000 live births)	37.9	●	→	2017
Mortality rate, under-5 (per 1,000 live births)	85.9	●	→	2017
New HIV infections (per 1,000)	9.1	●	→	2017
People living with HIV receiving antiretroviral therapy (%)	74	●	—	2017
Incidence of tuberculosis (per 100,000 population)	665	●	↑	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	NA	●	—	NA
Malaria mortality rate	NA	●	—	NA
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	100.0	●	—	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	26.6	●	→	2016
Traffic deaths rate (per 100,000 population)	26.1	●	→	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	89.7	●	→	2016
Universal Health Coverage Tracer Index (0-100)	52.6	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	178	●	—	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	90	●	↑	2017
Life Expectancy at birth (years)	52.9	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	3.8	●	↓	2017

SDG4 – Quality Education

	Value	Rating	Trend	Year
Net primary enrolment rate (%)	80.9	●	↓	2017
Mean years of schooling (years)	6.3	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	86.6	●	—	2014
Gross intake ratio to last grade of lower secondary education (%)	43	●	—	2017

SDG5 – Gender Equality

	Value	Rating	Trend	Year
Proportion of women aged 20-24 years who were married or in a union before age 18	17.3	●	—	2014
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	0.0	●	—	2017
Seats held by women in national parliaments (%)	22.1	●	↓	2018
Women in ministerial positions (%)	14.8	●	—	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	76.1	●	↑	2014
Ratio of female to male mean years of schooling of population age 25 and above (%)	127.3	●	↑	2017
Ratio of female to male labour force participation rate	79.4	●	↑	2018

SDG6 – Clean Water and Sanitation

	Value	Rating	Trend	Year
Population using at least basic drinking water services (%)	71.6	●	→	2015
Population using at least basic sanitation services (%)	43.8	●	↗	2015
Freshwater withdrawal as % total renewable water resources	2.1	●	—	2014
Imported groundwater depletion (m³/year/capita)	0.1	●	—	2010
Anthropogenic wastewater that receives treatment (%)	0.3	●	—	2016

SDG7 – Affordable and Clean Energy

	Value	Rating	Trend	Year
Access to electricity (% population)	29.7	●	→	2016
Access to clean fuels & technology for cooking (% population)	35.6	●	→	2016
Renewable energy share in the total final energy consumption	52.1	●	↓	2015
Consumer affordability of electricity	NA	●	—	NA

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	0.4	●	—	2017
Employment-to-population ratio	51.2	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	4.2	●	—	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	45.6	●	↑	2017
Starting a Business	83.1	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

	Value	Rating	Trend	Year
Infrastructure score	43.8	●	—	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.0	●	↓	2018
Research and development expenditure (% GDP)	0.0	●	—	2015
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	49.0	●	↑	2017
Population using the internet (%)	29.8	●	↗	2017

SDG10 – Reduced Inequalities

	Value	Rating	Trend	Year
Gini Coefficient adjusted for top income (1-100)	62.9	●	—	2010
Palma ratio	4.3	●	—	2017

SDG11 – Sustainable Cities and Communities

	Value	Rating	Trend	Year
Proportion of urban population living in slums	50.8	●	—	2014
Improved water source, piped (% urban population with access)	88.8	●	↗	2015
Satisfaction with public transport (%)	46.6	●	↓	2017
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m³)	28.0	●	→	2017

SDG12 – Responsible Consumption and Production

	Value	Rating	Trend	Year

SDG1 – End Poverty

	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	NA	●	—	NA
Proportion of population living below the national poverty line	NA	●	—	NA
Population covered by Social Protection (%)	NA	●	—	NA

SDG2 – Zero Hunger

	Value	Rating	Trend	Year
Prevalence of undernourishment (% population)	NA	●	—	NA
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	21.0	●	→	2007
Prevalence of wasting in children under 5 years of age (%)	6.5	●	→	2007
Prevalence of obesity, BMI ≥ 30 (% adult population)	32.5	●	↓	2016
Cereal yield (t/ha)	0.7	●	→	2016
Fertilizer consumption (kg per hectare of arable land)	11.7	●	↓	2016

SDG3 – Good Health and Well-Being

	Value	Rating	Trend	Year
Maternal mortality rate (per 100,000 live births)	9	●	↑	2015
Births attended by skilled health personnel (%)	99.9	●	—	2013
Neonatal mortality rate (per 1,000 live births)	6.5	●	↑	2017
Mortality rate, under-5 (per 1,000 live births)	12.4	●	↑	2017
New HIV infections (per 1,000)	0.0	●	—	NA
People living with HIV receiving antiretroviral therapy (%)	NA	●	—	NA
Incidence of tuberculosis (per 100,000 population)	40	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	NA	●	—	NA
Malaria mortality rate	NA	●	—	NA
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	NA	●	—	NA
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	20.1	●	→	2016
Traffic deaths rate (per 100,000 population)	25.3	●	↓	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	5.7	●	↑	2016
Universal Health Coverage Tracer Index (0-100)	70.6	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	72	●	—	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	94	●	↑	2017
Life Expectancy at birth (years)	71.9	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	5.5	●	↓	2018

SDG4 – Quality Education

	Value	Rating	Trend	Year
Net primary enrolment rate (%)	NA	●	—	NA
Mean years of schooling (years)	7.3	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	99.6	●	—	2004
Gross intake ratio to last grade of lower secondary education (%)	NA	●	—	NA

SDG5 – Gender Equality

	Value	Rating	Trend	Year
Proportion of women aged 20-24 years who were married or in a union before age 18	NA	●	—	NA
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	0.0	●	—	2017
Seats held by women in national parliaments (%)	16.0	●	→	2018
Women in ministerial positions (%)	NA	●	—	NA
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	29.6	●	→	2007
Ratio of female to male mean years of schooling of population age 25 and above (%)	110.0	●	↑	2017
Ratio of female to male labour force participation rate	32.6	●	↓	2018

SDG6 – Clean Water and Sanitation

	Value	Rating	Trend	Year
Population using at least basic drinking water services (%)	96.8	●	↑	2015
Population using at least basic sanitation services (%)	99.7	●	↑	2015
Freshwater withdrawal as % total renewable water resources	1,072.0	●	—	2014
Imported groundwater depletion (m ³ /year/capita)	9.7	●	—	2010
Anthropogenic wastewater that receives treatment (%)	9.6	●	—	2016

SDG7 – Affordable and Clean Energy

	Value	Rating	Trend	Year
Access to electricity (% population)	98.5	●	↑	2016
Access to clean fuels & technology for cooking (% population)	NA	●	—	NA
Renewable energy share in the total final energy consumption	2.0	●	→	2015
Consumer affordability of electricity	NA	●	—	NA

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	-5.1	●	—	2017
Employment-to-population ratio	43.3	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	NA	●	—	NA
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	65.7	●	—	2017
Starting a Business	73.6	●	→	2019

SDG9 – Industry, Innovation and Infrastructure

	Value	Rating	Trend	Year
Infrastructure score	45.4	●	—	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.2	●	→	2018
Research and development expenditure (% GDP)	NA	●	—	NA
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	36.9	●	—	2017
Population using the internet (%)	21.8	●	→	2017

SDG10 – Reduced Inequalities

	Value	Rating	Trend	Year
Gini Coefficient adjusted for top income (1-100)	NA	●	—	NA
Palma ratio	NA	●	—	NA

SDG11 – Sustainable Cities and Communities

	Value	Rating	Trend	Year
Proportion of urban population living in slums	NA	●	—	NA
Improved water source, piped (% urban population with access)	NA	●	—	NA
Satisfaction with public transport (%)	45.7	●	↓	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	54.3	●	↓	2017

SDG12 – Responsible Consumption and Production

	Value	Rating	Trend	Year
Municipal Solid Waste (kg/year/capita)	NA	●	—	NA
E-waste generated (kg/capita)	11.0	●	—	2016
Natural Resource Value Realization Score	26.8	●	—	2017
Production-based SO ₂ emissions (kg/capita)	8.5	●	—	2010
Imported SO ₂ emissions (kg/capita)	0.7	●	—	2010

SDG13 – Climate Action

	Value	Rating	Trend	Year
People affected by climate-related disasters (per 100,000 population)	NA	●	—	NA
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	16.5	●	↓	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	-0.4	●	—	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	NA	●	—	NA

SDG14 – Life Below Water

	Value	Rating	Trend	Year
Inadequately managed plastic waste (%)	22.9	●	—	2014
Ocean Health Index Goal-Clean Waters (0-100)	57.1	●	→	2018
Mean area that is protected in marine sites important to biodiversity (%)	0.0	●	→	2018
Fish Stocks overexploited or collapsed by EEZ (%)	67.1	●	↓	2014
Fish caught by trawling (%)	19.9	●	↓	2014

SDG15 – Life on Land

	Value	Rating	Trend	Year
Mean area that is protected in terrestrial sites important to biodiversity (%)	4.6	●	→	2018
Permanent Deforestation (5-year average annual %)	NA	●	—	NA
Red List Index of species survival (0-1)	1.0	●	↑	2018
Imported biodiversity threats (per million population)	2.1	●	—	2015

SDG16 – Peace, Justice and Strong Institutions

	Value	Rating	Trend	Year
Homicides (per 100,000 population)	2.5	●	↑	2015
Conflict-related deaths per 100,000	15.6	●	↓	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	54.1	●	—	2018
Children 5-14 years old involved in child labour (%)	NA	●	—	NA
Property Rights	18.1	●	↓	2017
Access to justice	21.1	●	→	2017
Corruption Perception Index (0-100)	17	●	→	2018
Public Sector Accountability & Transparency	18.2	●	↓	2017
Birth registrations with civil authority, children under 5 years of age (%)	NA	●	—	NA
Freedom of Press Index (best 0-100 worst)	56.8	●	—	2018

SDG17 – Partnerships for the Goals

	Value	Rating	Trend	Year
Tax revenue (% GDP)	24.2	●	↓	2019
Government Health and Education spending (% GDP)	NA	●	—	NA
Level of customs duties on imports	0.0	●	—	2006
Visa Requirement	159	●	—	2015

SDG1 – End Poverty

	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	27.3	●	→	2019
Proportion of population living below the national poverty line	41.1	●	→	2009
Population covered by Social Protection (%)	0.6	●	→	2009

SDG2 – Zero Hunger

Prevalence of undernourishment (% population)	6.0	●	↑	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	30.4	●	→	2015
Prevalence of wasting in children under 5 years of age (%)	13.5	●	↓	2015
Prevalence of obesity, BMI ≥ 30 (% adult population)	8.6	●	↑	2016
Cereal yield (t/ha)	1.6	●	→	2016
Fertilizer consumption (kg per hectare of arable land)	44.2	●	↑	2016

SDG3 – Good Health and Well-Being

Maternal mortality rate (per 100,000 live births)	587	●	→	2015
Births attended by skilled health personnel (%)	43.7	●	↓	2015
Neonatal mortality rate (per 1,000 live births)	35.4	●	→	2017
Mortality rate, under-5 (per 1,000 live births)	106.0	●	↔	2017
New HIV infections (per 1,000)	0.6	●	→	2017
People living with HIV receiving antiretroviral therapy (%)	32	●	→	2017
Incidence of tuberculosis (per 100,000 population)	55	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	8.3	●	→	2015
Malaria mortality rate	67.0	●	↑	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	95.0	●	→	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	24.6	●	→	2016
Traffic deaths rate (per 100,000 population)	25.3	●	→	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	171.1	●	→	2016
Universal Health Coverage Tracer Index (0-100)	46.6	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	209	●	→	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	61	●	↓	2017
Life Expectancy at birth (years)	58.0	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	4.4	●	↓	2018

SDG4 – Quality Education

Net primary enrolment rate (%)	61.2	●	↓	2017
Mean years of schooling (years)	2.3	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	49.4	●	→	2015
Gross intake ratio to last grade of lower secondary education (%)	30	●	→	2017

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	51.5	●	→	2015
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	82.7	●	→	2015
Seats held by women in national parliaments (%)	8.8	●	→	2018
Women in ministerial positions (%)	34.4	●	→	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	46.0	●	→	2015
Ratio of female to male mean years of schooling of population age 25 and above (%)	56.7	●	→	2017
Ratio of female to male labour force participation rate	73.8	●	↑	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	74.3	●	↑	2015
Population using at least basic sanitation services (%)	31.3	●	→	2015
Freshwater withdrawal as % total renewable water resources	5.8	●	→	2014
Imported groundwater depletion (m ³ /year/capita)	0.5	●	→	2010
Anthropogenic wastewater that receives treatment (%)	0.0	●	→	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	35.1	●	↔	2016
Access to clean fuels & technology for cooking (% population)	1.0	●	↓	2016
Renewable energy share in the total final energy consumption	61.5	●	↓	2015
Consumer affordability of electricity	64.0	●	→	2017

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	2.3	●	→	2017

Indicator	Value	Rating	Trend	Year
Prevalence of undernourishment (% population)	5.8	●	↑	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	NA	●	—	NA
Prevalence of wasting in children under 5 years of age (%)	NA	●	—	NA
Prevalence of obesity, BMI ≥ 30 (% adult population)	10.8	●	↓	2016
Cereal yield (t/ha)	3.5	●	↑	2016
Fertilizer consumption (kg per hectare of arable land)	235.3	●	↑	2016

SDG3 – Good Health and Well-Being

Indicator	Value	Rating	Trend	Year
Maternal mortality rate (per 100,000 live births)	53	●	↑	2015
Births attended by skilled health personnel (%)	99.8	●	↑	2016
Neonatal mortality rate (per 1,000 live births)	7.9	●	↑	2017
Mortality rate, under-5 (per 1,000 live births)	13.1	●	↑	2017
New HIV infections (per 1,000)	0.2	●	—	NA
People living with HIV receiving antiretroviral therapy (%)	0	●	—	2017
Incidence of tuberculosis (per 100,000 population)	12	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	NA	●	—	NA
Malaria mortality rate	NA	●	—	NA
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	NA	●	—	NA
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	22.6	●	→	2016
Traffic deaths rate (per 100,000 population)	12.9	●	↓	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	26.9	●	↑	2016
Universal Health Coverage Tracer Index (0-100)	71.7	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	38	●	—	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	89	●	↑	2017
Life Expectancy at birth (years)	74.8	●	↗	2016
Subjective Wellbeing (average ladder score, 0-10)	5.9	●	↑	2018

SDG4 – Quality Education

Indicator	Value	Rating	Trend	Year
Net primary enrolment rate (%)	95.8	●	↑	2017
Mean years of schooling (years)	9.3	●	↗	2017
Literacy rate of 15-24 year olds, both sexes (%)	98.1	●	—	2011
Gross intake ratio to last grade of lower secondary education (%)	84	●	—	2017

SDG5 – Gender Equality

Indicator	Value	Rating	Trend	Year
Proportion of women aged 20-24 years who were married or in a union before age 18	NA	●	—	NA
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	0.0	●	—	2017
Seats held by women in national parliaments (%)	11.6	●	→	2018
Women in ministerial positions (%)	8.7	●	—	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	41.9	●	→	2014
Ratio of female to male mean years of schooling of population age 25 and above (%)	95.8	●	↑	2017
Ratio of female to male labour force participation rate	62.4	●	↗	2018

SDG6 – Clean Water and Sanitation

Indicator	Value	Rating	Trend	Year
Population using at least basic drinking water services (%)	99.9	●	↑	2015
Population using at least basic sanitation services (%)	93.1	●	↑	2015
Freshwater withdrawal as % total renewable water resources	26.4	●	—	2014
Imported groundwater depletion (m³/year/capita)	42.4	●	—	2010
Anthropogenic wastewater that receives treatment (%)	8.4	●	—	2016

SDG7 – Affordable and Clean Energy

Indicator	Value	Rating	Trend	Year
Access to electricity (% population)	98.8	●	↑	2016
Access to clean fuels & technology for cooking (% population)	93.3	●	↑	2016
Renewable energy share in the total final energy consumption	11.5	●	↓	2015
Consumer affordability of electricity	NA	●	—	NA

SDG8 – Decent Work and Economic Growth

Indicator	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	3.5	●	—	2017
Employment-to-population ratio	54.2	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	1.0	●	—	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	89.8	●	↑	2017
Starting a Business	94.3	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

Indicator	Value	Rating	Trend	Year
Infrastructure score	83.0	●	—	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.8	●	—	2018
Research and development expenditure (% GDP)	0.2	●	—	2012
Number of scientific and technical journal articles (per 1,000 population)	0.1	●	↗	2016
Mobile broadband subscriptions (per 100 inhabitants)	59.0	●	↑	2017
Population using the internet (%)	55.6	●	↑	2017

SDG10 – Reduced Inequalities

Indicator	Value	Rating	Trend	Year
Gini Coefficient adjusted for top income (1-100)	49.1	●	—	2012
Palma ratio	1.5	●	—	2017

SDG11 – Sustainable Cities and Communities

Indicator	Value	Rating	Trend	Year
Proportion of urban population living in slums	NA	●	—	NA
Improved water source, piped (% urban population with access)	99.9	●	↑	2015
Satisfaction with public transport (%)	71.9	●	↑	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m³)	14.5	●	→	2017

SDG12 – Responsible Consumption and Production

Indicator	Value	Rating	Trend	Year
Municipal Solid Waste (kg/year/capita)	2.3	●	—	2012
E-waste generated (kg/capita)	8.6	●	—	2016
Natural Resource Value Realization Score	NA	●	—	NA
Production-based SO ₂ emissions (kg/capita)	28.1	●	—	2010
Imported SO ₂ emissions (kg/capita)	-0.1	●	—	2010

SDG13 – Climate Action

Indicator	Value	Rating	Trend	Year
People affected by climate-related disasters (per 100,000 population)	2,365.3	●	—	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	7.3	●	↓	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	3.7	●	—	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	0.0	●	—	2017

SDG14 – Life Below Water

Indicator	Value	Rating	Trend	Year
Inadequately managed plastic waste (%)	51.4	●	—	2014
Ocean Health Index Goal-Clean Waters (0-100)	61.3	●	↓	2018
Mean area that is protected in marine sites important to biodiversity (%)	8.7	●	→	2018
Fish Stocks overexploited or collapsed by EEZ (%)	28.9	●	↑	2014
Fish caught by trawling (%)	6.5	●	—	2008

SDG15 – Life on Land

Indicator	Value	Rating	Trend	Year
Mean area that is protected in terrestrial sites important to biodiversity (%)	10.4	●	→	2018
Permanent Deforestation (5-year average annual %)	0.2	●	—	2015
Red List Index of species survival (0-1)	0.4	●	↓	2018
Imported biodiversity threats (per million population)	26.1	●	—	2015

SDG16 – Peace, Justice and Strong Institutions

Indicator	Value	Rating	Trend	Year
Homicides (per 100,000 population)	1.8	●	↑	2016
Conflict-related deaths per 100,000	0.0	●	↑	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	62.5	●	↑	2018
Children 5-14 years old involved in child labour (%)	NA	●	—	NA
Property Rights	79.6	●	↑	2017
Access to justice	89.0	●	↑	2017
Corruption Perception Index (0-100)	51	●	↓	2018
Public Sector Accountability & Transparency	64.6	●	↓	2017
Birth registrations with civil authority, children under 5 years of age (%)	NA	●	—	NA
Freedom of Press Index (best 0-100 worst)	26.5	●	—	2018

SDG17 – Partnerships for the Goals

Indicator	Value	Rating	Trend	Year
Tax revenue (% GDP)	21.5	●	→	2019
Government Health and Education spending (% GDP)	7.4	●	↑	2015
Level of customs duties on imports	0.0	●	—	2014
Visa Requirement	38	●	—	2015
Governmental Statistical Capacity	75.6	●	↑	2018

MOROCCO

Performance by Indicator

SDG1 – End Poverty

	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	0.4	●	↑	2019
Proportion of population living below the national poverty line	4.8	●	—	2013
Population covered by Social Protection (%)	52.5	●	—	2009

SDG2 – Zero Hunger

Prevalence of undernourishment (% population)	3.9	●	↑	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	14.9	●	↔	2011
Prevalence of wasting in children under 5 years of age (%)	2.3	●	↑	2011
Prevalence of obesity, BMI ≥ 30 (% adult population)	26.1	●	↓	2016
Cereal yield (t/ha)	0.9	●	↓	2016
Fertilizer consumption (kg per hectare of arable land)	71.1	●	↑	2016

SDG3 – Good Health and Well-Being

Maternal mortality rate (per 100,000 live births)	121	●	↑	2015
Births attended by skilled health personnel (%)	73.6	●	—	2011
Neonatal mortality rate (per 1,000 live births)	14.4	●	↑	2017
Mortality rate, under-5 (per 1,000 live births)	23.3	●	↑	2017
New HIV infections (per 1,000)	0.0	●	↑	2017
People living with HIV receiving antiretroviral therapy (%)	57	●	—	2017
Incidence of tuberculosis (per 100,000 population)	99	●	↔	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	NA	●	—	NA
Malaria mortality rate	0.0	●	↑	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	NA	●	—	NA
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	12.4	●	↑	2016
Traffic deaths rate (per 100,000 population)	18.6	●	↔	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	31.7	●	↔	2016
Universal Health Coverage Tracer Index (0-100)	61.1	●	↔	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	49	●	—	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	99	●	↑	2017
Life Expectancy at birth (years)	76.0	●	↔	2016
Subjective Wellbeing (average ladder score, 0-10)	4.9	●	↓	2018

SDG4 – Quality Education

Net primary enrolment rate (%)	96.8	●	↑	2017
Mean years of schooling (years)	5.5	●	↔	2017
Literacy rate of 15-24 year olds, both sexes (%)	91.2	●	—	2012
Gross intake ratio to last grade of lower secondary education (%)	65	●	—	2017

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	15.9	●	—	2004
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	0.0	●	—	2017
Seats held by women in national parliaments (%)	20.5	●	↔	2018
Women in ministerial positions (%)	5.6	●	—	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	74.8	●	↑	2011
Ratio of female to male mean years of schooling of population age 25 and above (%)	69.2	●	↔	2017
Ratio of female to male labour force participation rate	33.7	●	↔	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	83.0	●	↑	2015
Population using at least basic sanitation services (%)	83.5	●	↑	2015
Freshwater withdrawal as % total renewable water resources	49.0	●	—	2014
Imported groundwater depletion (m³/year/capita)	3.0	●	—	2010
Anthropogenic wastewater that receives treatment (%)	26.0	●	—	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	100.0	●	↑	2016
Access to clean fuels & technology for cooking (% population)	96.8	●	↑	2016
Renewable energy share in the total final energy consumption	11.3	●	↓	2015
Consumer affordability of electricity	0.0	●	—	2017

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	2.0	●	—	2017
Employment-to-population ratio	41.3	●	↓	2018
Prevalence of Modern Slavery (victims per 1,000 population)	2.4	●	—	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	28.6	●	—	2017
Starting a Business	93.0	●	↑	2019

Indicator	Value	Rating	Trend	Year
SDG1 – End Poverty				
Poverty headcount ratio at \$1.90/day (% population)	22.5	●	↓	2019
Proportion of population living below the national poverty line	17.4	●	—	2015
Population covered by Social Protection (%)	26.5	●	—	2009
SDG2 – Zero Hunger				
Prevalence of undernourishment (% population)	25.4	●	↑	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	23.1	●	↗	2013
Prevalence of wasting in children under 5 years of age (%)	7.1	●	↗	2013
Prevalence of obesity, BMI ≥ 30 (% adult population)	17.2	●	↓	2016
Cereal yield (t/ha)	0.5	●	→	2016
Fertilizer consumption (kg per hectare of arable land)	26.1	●	↑	2016
SDG3 – Good Health and Well-Being				
Maternal mortality rate (per 100,000 live births)	265	●	↗	2015
Births attended by skilled health personnel (%)	88.2	●	—	2013
Neonatal mortality rate (per 1,000 live births)	17.5	●	↗	2017
Mortality rate, under-5 (per 1,000 live births)	44.2	●	↗	2017
New HIV infections (per 1,000)	3.5	●	↗	2017
People living with HIV receiving antiretroviral therapy (%)	84	●	—	2017
Incidence of tuberculosis (per 100,000 population)	423	●	↗	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	44.8	●	—	2013
Malaria mortality rate	9.0	●	↑	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	15.3	●	—	2016
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	21.3	●	↗	2016
Traffic deaths rate (per 100,000 population)	23.6	●	↓	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	75.0	●	→	2016
Universal Health Coverage Tracer Index (0-100)	61.6	●	↗	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	145	●	—	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	80	●	→	2017
Life Expectancy at birth (years)	63.7	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	4.8	●	↗	2018
SDG4 – Quality Education				
Net primary enrolment rate (%)	97.0	●	↑	2017
Mean years of schooling (years)	6.8	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	94.4	●	—	2011
Gross intake ratio to last grade of lower secondary education (%)	70	●	—	2017
SDG5 – Gender Equality				
Proportion of women aged 20-24 years who were married or in a union before age 18	6.9	●	—	2013
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	0.0	●	—	2017
Seats held by women in national parliaments (%)	46.2	●	↑	2018
Women in ministerial positions (%)	20.0	●	—	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	75.1	●	↑	2013
Ratio of female to male mean years of schooling of population age 25 and above (%)	109.1	●	↑	2017
Ratio of female to male labour force participation rate	89.9	●	↑	2018
SDG6 – Clean Water and Sanitation				
Population using at least basic drinking water services (%)	78.8	●	→	2015
Population using at least basic sanitation services (%)	33.8	●	→	2015
Freshwater withdrawal as % total renewable water resources	0.9	●	—	2014
Imported groundwater depletion (m ³ /year/capita)	1.2	●	—	2010
Anthropogenic wastewater that receives treatment (%)	6.3	●	—	2016
SDG7 – Affordable and Clean Energy				
Access to electricity (% population)	51.8	●	→	2016
Access to clean fuels & technology for cooking (% population)	42.2	●	→	2016
Renewable energy share in the total final energy consumption	26.5	●	→	2015
Consumer affordability of electricity	NA	●	—	NA
SDG8 – Decent Work and Economic Growth				
5-year average GDP Growth per capita (%)	1.2	●	—	2017
Employment-to-population ratio	46.8	●	↓	2018
Prevalence of Modern Slavery (victims per 1,000 population)	3.3	●	—	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	80.6	●	—	2017
Starting a Business	69.1	●	→	2019
SDG9 – Industry, Innovation and Infrastructure				
Infrastructure score	66.2	●	—	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.8	●	↗	2016
Research and development expenditure (% GDP)	0.3	●	—	2014
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	55.8	●	↑	2017
Population using the internet (%)	36.8	●	↗	2017
SDG10 – Reduced Inequalities				
Gini Coefficient adjusted for top income (1-100)	66.4	●	—	2009
Palma ratio	5.8	●	—	2017
SDG11 – Sustainable Cities and Communities				
Proportion of urban population living in slums	33.2	●	—	2014
Improved water source, piped (% urban population with access)	97.1	●	→	2015
Satisfaction with public transport (%)	56.2	●	—	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	25.4	●	→	2017
SDG12 – Responsible Consumption and Production				
Municipal Solid Waste (kg/year/capita)	0.5	●	—	2012
E-waste generated (kg/capita)	6.0	●	—	2016
Natural Resource Value Realization Score	NA	●	—	NA
Production-based SO ₂ emissions (kg/capita)	37.3	●	—	2010
Imported SO ₂ emissions (kg/capita)	-20.7	●	—	2010
SDG13 – Climate Action				
People affected by climate-related disasters (per 100,000 population)	12,005.4	●	—	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	2.7	●	→	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	2.7	●	—	2016

Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	42	●	↓	2017
Life Expectancy at birth (years)	55.2	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	5.3	●	↑	2018

SDG4 – Quality Education

Net primary enrolment rate (%)	NA	●	—	NA
Mean years of schooling (years)	6.2	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	66.4	●	—	2008
Gross intake ratio to last grade of lower secondary education (%)	NA	●	—	NA

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	42.8	●	—	2013
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	18.4	●	—	2016
Seats held by women in national parliaments (%)	5.6	●	→	2018
Women in ministerial positions (%)	8.0	●	—	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	26.3	●	→	2017
Ratio of female to male mean years of schooling of population age 25 and above (%)	68.5	●	↓	2017
Ratio of female to male labour force participation rate	84.7	●	↑	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	67.3	●	↗	2015
Population using at least basic sanitation services (%)	32.6	●	↓	2015
Freshwater withdrawal as % total renewable water resources	5.8	●	—	2014
Imported groundwater depletion (m ³ /year/capita)	1.6	●	—	2010
Anthropogenic wastewater that receives treatment (%)	0.2	●	—	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	59.3	●	→	2016
Access to clean fuels & technology for cooking (% population)	4.9	●	→	2016
Renewable energy share in the total final energy consumption	86.6	●	↑	2015
Consumer affordability of electricity	94.0	●	—	2017

SDG8 – Decent Work and Economic Growth

5-year average GDP Growth per capita (%)	0.3	●	—	2017
Employment-to-population ratio	51.9	●	↓	2018
Prevalence of Modern Slavery (victims per 1,000 population)	NA	●	—	NA
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	39.7	●	↗	2017
Starting a Business	83.0	●	—	2019

SDG9 – Industry, Innovation and Infrastructure

Infrastructure score	39.7	●	—	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.6	●	↗	2018
Research and development expenditure (% GDP)	0.2	●	—	2007
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	↓	2016
Mobile broadband subscriptions (per 100 inhabitants)	19.9	●	↗	2017
Population using the internet (%)	27.7	●	↗	2017

SDG10 – Reduced Inequalities

Gini Coefficient adjusted for top income (1-100)	59.8	●	—	2009
Palma ratio	2.2	●	—	2017

SDG11 – Sustainable Cities and Communities

Proportion of urban population living in slums	50.2	●	—	2014
Improved water source, piped (% urban population with access)	13.5	●	↓	2015
Satisfaction with public transport (%)	64.8	●	↑	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	71.8	●	↓	2017

SDG12 – Responsible Consumption and Production

Municipal Solid Waste (kg/year/capita)	0.6	●	—	2012
E-waste generated (kg/capita)	1.5	●	—	2016
Natural Resource Value Realization Score	50.1	●	—	2017
Production-based SO ₂ emissions (kg/capita)	0.7	●	—	2010
Imported SO ₂ emissions (kg/capita)	0.6	●	—	2010

SDG13 – Climate Action

People affected by climate-related disasters (per 100,000 population)	347.4	●	—	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	1.1	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	0.2	●	—	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	1,655.9	●	—	2017

SDG14 – Life Below Water

Inadequately managed plastic waste (%)	81.0	●	—	2014
Ocean Health Index Goal-Clean Waters (0-100)	28.1	●	↓	2018
Mean area that is protected in marine sites important to biodiversity (%)	NA	●	—	NA
Fish Stocks overexploited or collapsed by EEZ (%)	13.4	●	↑	2014
Fish caught by trawling (%)	28.5	●	→	2014

SDG15 – Life on Land

Mean area that is protected in terrestrial sites important to biodiversity (%)	79.6	●	↑	2018
Permanent Deforestation (5-year average annual %)	NA	●	—	NA
Red List Index of species survival (0-1)	0.9	●	→	2018
Imported biodiversity threats (per million population)	0.3	●	—	2015

SDG16 – Peace, Justice and Strong Institutions

Homicides (per 100,000 population)	9.8	●	→	2015
Conflict-related deaths per 100,000	1.8	●	↓	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	54.3	●	↓	2018
Children 5-14 years old involved in child labour (%)	24.7	●	—	2016
Property Rights	44.8	●	↓	2017
Access to justice	82.5	●	↑	2017
Corruption Perception Index (0-100)	27	●	→	2018
Public Sector Accountability & Transparency	34.5	●	→	2017
Birth registrations with civil authority, children under 5 years of age (%)	29.8	●	—	2016
Freedom of Press Index (best 0-100 worst)	37.4	●	—	2018

SDG17 – Partnerships for the Goals

Tax revenue (% GDP)	2.9	●	→	2019
Government Health and Education spending (% GDP)	NA	●	—	NA
Level of customs duties on imports	13.5	●	—	2013
Visa Requirement	106	●	—	2015
Governmental Statistical Capacity	68.9	●	↑	2018

RWANDA

Performance by Indicator

SDG1 – End Poverty

Indicator	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	42.7	●	→	2019
Proportion of population living below the national poverty line	38.2	●	→	2016
Population covered by Social Protection (%)	35.3	●	→	2013

SDG2 – Zero Hunger

Indicator	Value	Rating	Trend	Year
Prevalence of undernourishment (% population)	36.1	●	↓	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	37.9	●	→	2015
Prevalence of wasting in children under 5 years of age (%)	2.2	●	↑	2015
Prevalence of obesity, BMI ≥ 30 (% adult population)	5.8	●	↑	2016
Cereal yield (t/ha)	1.5	●	↓	2016
Fertilizer consumption (kg per hectare of arable land)	10.9	●	→	2016

SDG3 – Good Health and Well-Being

Indicator	Value	Rating	Trend	Year
Maternal mortality rate (per 100,000 live births)	290	●	↗	2015
Births attended by skilled health personnel (%)	90.7	●	↑	2015
Neonatal mortality rate (per 1,000 live births)	16.4	●	↑	2017
Mortality rate, under-5 (per 1,000 live births)	37.9	●	↑	2017
New HIV infections (per 1,000)	0.6	●	↑	2017
People living with HIV receiving antiretroviral therapy (%)	83	●	→	2017
Incidence of tuberculosis (per 100,000 population)	57	●	↗	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	91.7	●	→	2013
Malaria mortality rate	26.8	●	→	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	83.5	●	→	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	18.2	●	↗	2016
Traffic deaths rate (per 100,000 population)	32.9	●	↓	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	26.8	●	↑	2016
Universal Health Coverage Tracer Index (0-100)	50.1	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	121	●	→	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	95	●	↑	2017
Life Expectancy at birth (years)	68.0	●	↗	2016
Subjective Wellbeing (average ladder score, 0-10)	3.6	●	→	2018

SDG4 – Quality Education

Indicator	Value	Rating	Trend	Year
Net primary enrolment rate (%)	93.9	●	→	2017
Mean years of schooling (years)	4.1	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	85.1	●	→	2014
Gross intake ratio to last grade of lower secondary education (%)	37	●	→	2017

SDG5 – Gender Equality

Indicator	Value	Rating	Trend	Year
Proportion of women aged 20-24 years who were married or in a union before age 18	6.8	●	→	2015
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	0.0	●	→	2017
Seats held by women in national parliaments (%)	61.3	●	↑	2018
Women in ministerial positions (%)	51.9	●	→	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	65.9	●	↑	2015
Ratio of female to male mean years of schooling of population age 25 and above (%)	78.7	●	↗	2017
Ratio of female to male labour force participation rate	99.8	●	↑	2018

SDG6 – Clean Water and Sanitation

Indicator	Value	Rating	Trend	Year
Population using at least basic drinking water services (%)	56.7	●	→	2015
Population using at least basic sanitation services (%)	62.3	●	↗	2015
Freshwater withdrawal as % total renewable water resources	1.4	●	→	2014
Imported groundwater depletion (m³/year/capita)	2.3	●	→	2010
Anthropogenic wastewater that receives treatment (%)	0.0	●	→	2016

SDG7 – Affordable and Clean Energy

Indicator	Value	Rating	Trend	Year
Access to electricity (% population)	29.4	●	↗	2016
Access to clean fuels & technology for cooking (% population)	0.6	●	→	2016
Renewable energy share in the total final energy consumption	86.7	●	↑	2015
Consumer affordability of electricity	61.0	●	→	2017

SDG8 – Decent Work and Economic Growth

Indicator	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	4.0	●	→	2017
Employment-to-population ratio	83.1	●	↑	2018
Prevalence of Modern Slavery (victims per 1,000 population)	11.6	●	→	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	50.0	●	↗	2017
Starting a Business	91.4	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

Indicator	Value	Rating	Trend	Year
Infrastructure score	56.6	●	→	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.8	●	↑	2018
Research and development expenditure (% GDP)	0.0	●	→	NA
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	35.0	●	↑	2017
Population using the internet (%)	21.8	●	↗	2017

SDG10 – Reduced Inequalities

Indicator	Value	Rating	Trend	Year
Gini Coefficient adjusted for top income (1-100)	53.3	●	→	2013
Palma ratio	3.2	●	→	2017

SDG11 – Sustainable Cities and Communities

Indicator	Value	Rating	Trend	Year
Proportion of urban population living in slums	53.2	●	→	2014
Improved water source, piped (% urban population with access)	72.6	●	→	2015
Satisfaction with public transport (%)	52.2	●	→	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m³)	43.2	●	↓	2017

SDG12 – Responsible Consumption and Production

Indicator	Value	Rating	Trend	Year
Municipal Solid Waste (kg/year/capita)	0.5	●	→	2012
E-waste generated (kg/capita)	0.5	●	→	2016
Natural Resource Value Realization Score	NA	●	→	NA
Production-based SO ₂ emissions (kg/capita)	1.1	●	→	2010
Imported SO ₂ emissions (kg/capita)	0.6	●	→	2010

SDG13 – Climate Action

Indicator	Value	Rating	Trend	Year
People affected by climate-related disasters (per 100,000 population)	82.6	●	→	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	0.1	●	↑	2016

SENEGAL

Performance by Indicator

SDG1 – End Poverty

Indicator	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	29.2	●	↗	2019
Proportion of population living below the national poverty line	46.7	●	→	2011
Population covered by Social Protection (%)	9.3	●	→	2011

SDG2 – Zero Hunger

Prevalence of undernourishment (% population)	11.3	●	↑	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	17.0	●	↗	2016
Prevalence of wasting in children under 5 years of age (%)	7.2	●	↗	2016
Prevalence of obesity, BMI ≥ 30 (% adult population)	8.8	●	↑	2016
Cereal yield (t/ha)	1.3	●	→	2016
Fertilizer consumption (kg per hectare of arable land)	16.4	●	↗	2016

SDG3 – Good Health and Well-Being

Maternal mortality rate (per 100,000 live births)	315	●	↗	2015
Births attended by skilled health personnel (%)	53.1	●	↓	2016
Neonatal mortality rate (per 1,000 live births)	20.5	●	↗	2017
Mortality rate, under-5 (per 1,000 live births)	45.4	●	↑	2017
New HIV infections (per 1,000)	0.1	●	↑	2017
People living with HIV receiving antiretroviral therapy (%)	54	●	→	2017
Incidence of tuberculosis (per 100,000 population)	122	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	10.6	●	→	2014
Malaria mortality rate	28.5	●	→	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	63.1	●	→	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	18.1	●	↑	2016
Traffic deaths rate (per 100,000 population)	28.0	●	→	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	74.9	●	↗	2016
Universal Health Coverage Tracer Index (0-100)	52.6	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	161	●	→	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	90	●	↑	2017
Life Expectancy at birth (years)	66.8	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	4.8	●	↗	2018

SDG4 – Quality Education

Net primary enrolment rate (%)	74.1	●	→	2017
Mean years of schooling (years)	3.0	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	69.5	●	→	2017
Gross intake ratio to last grade of lower secondary education (%)	37	●	→	2017

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	31.0	●	→	2015
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	23.5	●	→	2016
Seats held by women in national parliaments (%)	41.8	●	↑	2018
Women in ministerial positions (%)	22.9	●	→	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	47.4	●	↗	2016
Ratio of female to male mean years of schooling of population age 25 and above (%)	63.2	●	→	2017
Ratio of female to male labour force participation rate	65.7	●	↗	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	75.2	●	↗	2015
Population using at least basic sanitation services (%)	48.4	●	→	2015
Freshwater withdrawal as % total renewable water resources	7.2	●	→	2014
Imported groundwater depletion (m ³ /year/capita)	5.6	●	→	2010
Anthropogenic wastewater that receives treatment (%)	0.5	●	→	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	64.5	●	→	2016
Access to clean fuels & technology for cooking (% population)	31.7	●	↓	2016
Renewable energy share in the total final energy consumption	42.7	●	↓	2015
Consumer affordability of electricity	67.0	●	→	2017

SDG8 – Decent Work and Economic Growth

Indicator	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	2.8	●	→	2017
Employment-to-population ratio	43.4	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	2.9	●	→	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	42.3	●	↑	2017
Starting a Business	89.9	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

Infrastructure score	59.2	●	→	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.2	●	↓	2018
Research and development expenditure (% GDP)	0.8	●	→	2015
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	26.9	●	↑	2017
Population using the internet (%)	29.6	●	↗	2017

SDG10 – Reduced Inequalities

Gini Coefficient adjusted for top income (1-100)	44.4	●	→	2011
Palma ratio	1.9	●	→	2017

SDG11 – Sustainable Cities and Communities

Proportion of urban population living in slums	39.4	●	→	2014
Improved water source, piped (% urban population with access)	85.6	●	↓	2015
Satisfaction with public transport (%)	41.4	●	→	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	40.7	●	↓	2017

SDG12 – Responsible Consumption and Production

Municipal Solid Waste (kg/year/capita)	0.5	●	→	2012
E-waste generated (kg/capita)	1.0	●	→	2016
Natural Resource Value Realization Score	NA	●	→	NA
Production-based SO ₂ emissions (kg/capita)	2.2	●	→	2010
Imported SO ₂ emissions (kg/capita)	0.7	●	→	2010

SDG13 – Climate Action

People affected by climate-related disasters (per 100,000 population)	2,233.4	●	→	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	0.8	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	0.2	●	→	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	12.9	●	→	2017

SDG14 – Life Below Water

Inadequately managed plastic waste (%)	82.0	●	→	2014
Ocean Health Index Goal-Clean Waters (0-100)	45.1	●	→	2018
Mean area that is protected in marine sites important to biodiversity (%)	29.9	●	→	2018
Fish Stocks overexploited or collapsed by EEZ (%)	25.6	●	↑	2014
Fish caught by trawling (%)	15.2	●	↑	2014

SDG15 – Life on Land

Mean area that is protected in terrestrial sites important to biodiversity (%)	41.2	●	→	2018
Permanent Deforestation (5-year average annual %)	0.4	●	→	2015
Red List Index of species survival (0-1)	0.9	●	↑	2018
Imported biodiversity threats (per million population)	0.5	●	→	2015

SDG16 – Peace, Justice and Strong Institutions

Homicides (per 100,000 population)	7.4	●	↗	2015
Conflict-related deaths per 100,000	0.0	●	↑	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	53.3	●	→	2018
Children 5-14 years old involved in child labour (%)	23.0	●	→	2016
Property Rights	75.0	●	↗	2017
Access to justice	85.1	●	↑	2017
Corruption Perception Index (0-100)	45	●	→	2018

Births attended by skilled health personnel (%)	19.4	●	—	2010
Neonatal mortality rate (per 1,000 live births)	39.6	●	→	2017
Mortality rate, under-5 (per 1,000 live births)	96.4	●	→	2017
New HIV infections (per 1,000)	1.2	●	↗	2017
People living with HIV receiving antiretroviral therapy (%)	13	●	—	2017
Incidence of tuberculosis (per 100,000 population)	146	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	8.2	●	—	2010
Malaria mortality rate	48.3	●	→	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	11.5	●	—	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	19.8	●	→	2016
Traffic deaths rate (per 100,000 population)	29.3	●	↓	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	65.2	●	↗	2016
Universal Health Coverage Tracer Index (0-100)	30.7	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	165	●	—	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	20	●	↓	2017
Life Expectancy at birth (years)	58.6	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	2.8	●	↓	2017

SDG4 – Quality Education

	Value	Rating	Trend	Year
Net primary enrolment rate (%)	32.1	●	—	2015
Mean years of schooling (years)	4.8	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	36.7	●	—	2008
Gross intake ratio to last grade of lower secondary education (%)	NA	●	—	NA

SDG5 – Gender Equality

	Value	Rating	Trend	Year
Proportion of women aged 20-24 years who were married or in a union before age 18	51.5	●	—	2010
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	NA	●	—	NA
Seats held by women in national parliaments (%)	28.5	●	→	2018
Women in ministerial positions (%)	18.8	●	—	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	5.6	●	→	2010
Ratio of female to male mean years of schooling of population age 25 and above (%)	75.5	●	→	2017
Ratio of female to male labour force participation rate	96.0	●	↑	2018

SDG6 – Clean Water and Sanitation

	Value	Rating	Trend	Year
Population using at least basic drinking water services (%)	50.4	●	↗	2015
Population using at least basic sanitation services (%)	10.4	●	→	2015
Freshwater withdrawal as % total renewable water resources	1.3	●	—	2014
Imported groundwater depletion (m ³ /year/capita)	NA	●	—	NA
Anthropogenic wastewater that receives treatment (%)	NA	●	—	NA

SDG7 – Affordable and Clean Energy

	Value	Rating	Trend	Year
Access to electricity (% population)	8.9	●	→	2016
Access to clean fuels & technology for cooking (% population)	0.6	●	→	2016
Renewable energy share in the total final energy consumption	39.1	●	—	2015
Consumer affordability of electricity	64.0	●	—	2017

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	1.4	●	—	2017
Employment-to-population ratio	63.8	●	↓	2018
Prevalence of Modern Slavery (victims per 1,000 population)	NA	●	—	NA
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	8.6	●	—	2017
Starting a Business	65.4	●	↓	2019

SDG9 – Industry, Innovation and Infrastructure

	Value	Rating	Trend	Year
Infrastructure score	16.9	●	—	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	NA	●	—	NA
Research and development expenditure (% GDP)	0.0	●	—	NA
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	3.8	●	→	2017
Population using the internet (%)	8.0	●	—	2017

SDG10 – Reduced Inequalities

	Value	Rating	Trend	Year
Gini Coefficient adjusted for top income (1-100)	47.4	●	—	2009
Palma ratio	2.7	●	—	2017

SDG11 – Sustainable Cities and Communities

	Value	Rating	Trend	Year
Proportion of urban population living in slums	95.6	●	—	2014
Improved water source, piped (% urban population with access)	12.1	●	→	2015
Satisfaction with public transport (%)	17.7	●	↓	2017
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m ³)	45.6	●	↓	2017

SDG12 – Responsible Consumption and Production

	Value	Rating	Trend	Year
Municipal Solid Waste (kg/year/capita)	NA	●	—	NA
E-waste generated (kg/capita)	NA	●	—	NA
Natural Resource Value Realization Score	42.4	●	—	2017
Production-based SO ₂ emissions (kg/capita)	NA	●	—	NA
Imported SO ₂ emissions (kg/capita)	NA	●	—	NA

SDG13 – Climate Action

	Value	Rating	Trend	Year
People affected by climate-related disasters (per 100,000 population)	14,807.0	●	—	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	0.3	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	0.0	●	—	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	NA	●	—	NA

SDG14 – Life Below Water

	Value	Rating	Trend	Year
Inadequately managed plastic waste (%)	NA	●	—	NA
Ocean Health Index Goal-Clean Waters (0-100)	NA	●	—	NA
Mean area that is protected in marine sites important to biodiversity (%)	NA	●	—	NA
Fish Stocks overexploited or collapsed by EEZ (%)	NA	●	—	NA
Fish caught by trawling (%)	NA	●	—	NA

SDG15 – Life on Land

	Value	Rating	Trend	Year
Mean area that is protected in terrestrial sites important to biodiversity (%)	33.6	●	→	2018
Permanent Deforestation (5-year average annual %)	NA	●	—	NA
Red List Index of species survival (0-1)	0.9	●	↑	2018
Imported biodiversity threats (per million population)	0.1	●	—	2015

SDG16 – Peace, Justice and Strong Institutions

	Value	Rating	Trend	Year
Homicides (per 100,000 population)	13.9	●	—	2012
Conflict-related deaths per 100,000	9.1	●	↓	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	42.0	●	↓	2017
Children 5-14 years old involved in child labour (%)	NA	●	—	NA
Property Rights	26.0	●	↓	2017
Access to justice	12.7	●	↗	2017
Corruption Perception Index (0-100)	13	●	↓	2018
Public Sector Accountability & Transparency	9.1	●	→	2017
Birth registrations with civil authority, children under 5 years of age (%)	35.4	●	—	2016
Freedom of Press Index (best 0-100 worst)	46.9	●	—	2018

SDG17 – Partnerships for the Goals

	Value	Rating	Trend	Year
Tax revenue (% GDP)	NA	●	—	NA
Government Health and Education spending (% GDP)	1.9	●	—	2015
Level of customs duties on imports	NA	●	—	NA
Visa Requirement	152	●	—	2015
Governmental Statistical Capacity	37.8	●	—	2018

TANZANIA

Performance by Indicator

SDG1 – End Poverty

Indicator	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	35.6	●	→	2019
Proportion of population living below the national poverty line	28.2	●	—	2011
Population covered by Social Protection (%)	9.0	●	—	2014

SDG2 – Zero Hunger

Indicator	Value	Rating	Trend	Year
Prevalence of undernourishment (% population)	32.0	●	→	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	34.4	●	→	2015
Prevalence of wasting in children under 5 years of age (%)	4.5	●	↑	2015
Prevalence of obesity, BMI ≥ 30 (% adult population)	8.4	●	↑	2016
Cereal yield (t/ha)	1.5	●	→	2016
Fertilizer consumption (kg per hectare of arable land)	12.6	●	→	2016

SDG3 – Good Health and Well-Being

Indicator	Value	Rating	Trend	Year
Maternal mortality rate (per 100,000 live births)	398	●	→	2015
Births attended by skilled health personnel (%)	63.5	●	→	2016
Neonatal mortality rate (per 1,000 live births)	21.1	●	→	2017
Mortality rate, under-5 (per 1,000 live births)	54.0	●	→	2017
New HIV infections (per 1,000)	1.4	●	→	2017
People living with HIV receiving antiretroviral therapy (%)	66	●	—	2017
Incidence of tuberculosis (per 100,000 population)	269	●	→	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	84.9	●	—	2016
Malaria mortality rate	38.9	●	→	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	87.4	●	—	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	17.9	●	→	2016
Traffic deaths rate (per 100,000 population)	33.4	●	↓	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	116.6	●	→	2016
Universal Health Coverage Tracer Index (0-100)	50.2	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	139	●	—	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	97	●	↑	2017
Life Expectancy at birth (years)	63.9	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	3.4	●	↓	2018

SDG4 – Quality Education

Indicator	Value	Rating	Trend	Year
Net primary enrolment rate (%)	78.9	●	↓	2017
Mean years of schooling (years)	5.8	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	85.8	●	—	2015
Gross intake ratio to last grade of lower secondary education (%)	29	●	—	2016

SDG5 – Gender Equality

Indicator	Value	Rating	Trend	Year
Proportion of women aged 20-24 years who were married or in a union before age 18	30.5	●	—	2016
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	10.0	●	—	2016
Seats held by women in national parliaments (%)	37.2	●	→	2018
Women in ministerial positions (%)	22.7	●	—	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	52.9	●	→	2016
Ratio of female to male mean years of schooling of population age 25 and above (%)	87.1	●	↑	2017
Ratio of female to male labour force participation rate	90.7	●	↑	2018

SDG6 – Clean Water and Sanitation

Indicator	Value	Rating	Trend	Year
Population using at least basic drinking water services (%)	50.1	●	→	2015
Population using at least basic sanitation services (%)	23.5	●	→	2015
Freshwater withdrawal as % total renewable water resources	7.5	●	—	2014
Imported groundwater depletion (m³/year/capita)	0.7	●	—	2010
Anthropogenic wastewater that receives treatment (%)	1.4	●	—	2016

SDG7 – Affordable and Clean Energy

Indicator	Value	Rating	Trend	Year
Access to electricity (% population)	32.8	●	→	2016
Access to clean fuels & technology for cooking (% population)	2.2	●	→	2016
Renewable energy share in the total final energy consumption	85.7	●	↑	2015
Consumer affordability of electricity	98.0	●	—	2017

SDG8 – Decent Work and Economic Growth

Indicator	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	3.8	●	—	2017
Employment-to-population ratio	81.6	●	↑	2018
Prevalence of Modern Slavery (victims per 1,000 population)	6.2	●	—	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	46.8	●	↑	2017
Starting a Business	72.7	●	→	2019

SDG9 – Industry, Innovation and Infrastructure

Indicator	Value	Rating	Trend	Year
Infrastructure score	45.6	●	—	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.8	●	↑	2016
Research and development expenditure (% GDP)	0.5	●	—	2013
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	8.7	●	→	2017
Population using the internet (%)	16.0	●	→	2017

SDG10 – Reduced Inequalities

Indicator	Value	Rating	Trend	Year
Gini Coefficient adjusted for top income (1-100)	41.6	●	—	2011
Palma ratio	1.7	●	—	2017

SDG11 – Sustainable Cities and Communities

Indicator	Value	Rating	Trend	Year
Proportion of urban population living in slums	50.7	●	—	2014
Improved water source, piped (% urban population with access)	58.9	●	↓	2015
Satisfaction with public transport (%)	64.6	●	↑	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m³)	29.1	●	→	2017

SDG12 – Responsible Consumption and Production

Indicator	Value	Rating	Trend	Year
Municipal Solid Waste (kg/year/capita)	0.3	●	—	2012
E-waste generated (kg/capita)	0.8	●	—	2016
Natural Resource Value Realization Score	59.4	●	—	2017
Production-based SO ₂ emissions (kg/capita)	0.5	●	—	2010
Imported SO ₂ emissions (kg/capita)	0.4	●	—	2010

SDG13 – Climate Action

Indicator	Value	Rating	Trend	Year
People affected by climate-related disasters (per 100,000 population)	62.5	●	—	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	0.4	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	0.2	●	—	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	1.7	●	—	2017

SDG14 – Life Below Water

Indicator	Value	Rating	Trend	Year
Inadequately managed plastic waste (%)	83.5	●	—	2014
Ocean Health Index Goal-Clean Waters (0-100)	48.0	●	→	2018
Mean area that is protected in marine sites important to biodiversity (%)	53.1	●	↑	2018
Fish Stocks overexploited or collapsed by EEZ (%)	16.4	●	↑	2014
Fish caught by trawling (%)	2.8	●	↑	2014

SDG15 – Life on Land

Indicator	Value	Rating	Trend	Year
Mean area that is protected in terrestrial sites important to biodiversity (%)	57.0	●	↑	2018
Permanent Deforestation (5-year average annual %)	0.4	●	—	2015
Red List Index of species survival (0-1)	0.7	●	↓	2018
Imported biodiversity threats (per million population)	0.2	●	—	2015

SDG16 – Peace, Justice and Strong Institutions

Indicator	Value	Rating	Trend	Year
Homicides (per 100,000 population)	7.0	●	→	2015
Conflict-related deaths per 100,000	0.0	●	↑	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	62.8	●	↓	2018
Children 5-14 years old involved in child labour (%)	28.8	●	—	2016
Property Rights	63.4	●	↓	2017
Access to justice	73.1	●	↓	2017
Corruption Perception Index (0-100)	36	●	↑	2018
Public Sector Accountability & Transparency	42.0	●	↓	2017
Birth registrations with civil authority, children under 5 years of age (%)	26.4	●	—	2016
Freedom of Press Index (best 0-100 worst)	30.7	●	—	2018

SDG17 – Partnerships for the Goals

Indicator	Value	Rating	Trend	Year
Tax revenue (% GDP)	16.5	●	→	2019
Government Health and Education spending (% GDP)	5.4	●	↓	2014
Level of customs duties on imports	54.8	●	—	2014
Visa Requirement	64	●	—	2015
Governmental Statistical Capacity	71.1	●	↑	2018

SDG1 – End Poverty

Indicator	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	42.9	●	→	2019
Proportion of population living below the national poverty line	55.1	●	→	2015
Population covered by Social Protection (%)	0.0	●	→	2011

SDG2 – Zero Hunger

Prevalence of undernourishment (% population)	16.2	●	↗	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	27.5	●	→	2014
Prevalence of wasting in children under 5 years of age (%)	6.7	●	↓	2014
Prevalence of obesity, BMI ≥ 30 (% adult population)	8.4	●	↑	2016
Cereal yield (t/ha)	1.1	●	→	2016
Fertilizer consumption (kg per hectare of arable land)	11.0	●	→	2016

SDG3 – Good Health and Well-Being

Maternal mortality rate (per 100,000 live births)	368	●	→	2015
Births attended by skilled health personnel (%)	44.6	●	→	2014
Neonatal mortality rate (per 1,000 live births)	25.4	●	→	2017
Mortality rate, under-5 (per 1,000 live births)	72.9	●	↗	2017
New HIV infections (per 1,000)	0.7	●	↑	2017
People living with HIV receiving antiretroviral therapy (%)	57	●	→	2017
Incidence of tuberculosis (per 100,000 population)	41	●	↑	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	49.6	●	→	2013
Malaria mortality rate	68.5	●	→	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	70.5	●	→	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	23.6	●	→	2016
Traffic deaths rate (per 100,000 population)	31.9	●	→	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	89.6	●	→	2016
Universal Health Coverage Tracer Index (0-100)	53.3	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	250	●	→	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	90	●	↑	2017
Life Expectancy at birth (years)	60.6	●	→	2016
Subjective Wellbeing (average ladder score, 0-10)	4.0	●	↗	2018

SDG4 – Quality Education

Net primary enrolment rate (%)	90.0	●	→	2017
Mean years of schooling (years)	4.8	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	84.3	●	→	2015
Gross intake ratio to last grade of lower secondary education (%)	46	●	→	2017

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	21.8	●	→	2014
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	4.7	●	→	2014
Seats held by women in national parliaments (%)	17.6	●	→	2018
Women in ministerial positions (%)	16.7	●	→	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	32.1	●	→	2014
Ratio of female to male mean years of schooling of population age 25 and above (%)	50.8	●	→	2017
Ratio of female to male labour force participation rate	95.2	●	↑	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	62.8	●	↗	2015
Population using at least basic sanitation services (%)	13.9	●	→	2015
Freshwater withdrawal as % total renewable water resources	1.8	●	→	2014
Imported groundwater depletion (m³/year/capita)	3.9	●	→	2010
Anthropogenic wastewater that receives treatment (%)	0.0	●	→	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	46.9	●	↗	2016
Access to clean fuels & technology for cooking (% population)	6.7	●	→	2016
Renewable energy share in the total final energy consumption	71.3	●	↑	2015
Consumer affordability of electricity	56.0	●	→	2017

SDG8 – Decent Work and Economic Growth

Indicator	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	2.8	●	→	2017
Employment-to-population ratio	76.4	●	↑	2018
Prevalence of Modern Slavery (victims per 1,000 population)	6.8	●	→	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	45.3	●	↑	2017
Starting a Business	88.7	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

Infrastructure score	43.4	●	→	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.2	●	↓	2018
Research and development expenditure (% GDP)	0.3	●	→	2014
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	51.5	●	↗	2017
Population using the internet (%)	12.4	●	→	2017

SDG10 – Reduced Inequalities

Gini Coefficient adjusted for top income (1-100)	49.0	●	→	2015
Palma ratio	2.2	●	→	2017

SDG11 – Sustainable Cities and Communities

Proportion of urban population living in slums	51.2	●	→	2014
Improved water source, piped (% urban population with access)	48.1	●	↓	2015
Satisfaction with public transport (%)	26.3	●	↓	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m³)	35.7	●	↓	2017

SDG12 – Responsible Consumption and Production

Municipal Solid Waste (kg/year/capita)	0.5	●	→	2012
E-waste generated (kg/capita)	0.9	●	→	2016
Natural Resource Value Realization Score	NA	●	→	NA
Production-based SO ₂ emissions (kg/capita)	0.8	●	→	2010
Imported SO ₂ emissions (kg/capita)	0.7	●	→	2010

SDG13 – Climate Action

People affected by climate-related disasters (per 100,000 population)	46.3	●	→	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	0.6	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	0.1	●	→	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	1.0	●	→	2017

SDG14 – Life Below Water

Inadequately managed plastic waste (%)	83.5	●	→	2014
Ocean Health Index Goal-Clean Waters (0-100)	15.1	●	→	2018
Mean area that is protected in marine sites important to biodiversity (%)	NA	●	→	NA
Fish Stocks overexploited or collapsed by EEZ (%)	NA	●	→	NA
Fish caught by trawling (%)	15.4	●	↓	2014

SDG15 – Life on Land

Mean area that is protected in terrestrial sites important to biodiversity (%)	97.0	●	↑	2018
Permanent Deforestation (5-year average annual %)	0.2	●	→	2015
Red List Index of species survival (0-1)	0.9	●	→	2018
Imported biodiversity threats (per million population)	0.7	●	→	2015

SDG16 – Peace, Justice and Strong Institutions

Homicides (per 100,000 population)	9.0	●	→	2015
Conflict-related deaths per 100,000	0.0	●	↑	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	48.1	●	↓	2018
Children 5-14 years old involved in child labour (%)	27.9	●	→	2016
Property Rights	49.2	●	↓	2017
Access to justice	33.4	●	↓	2017

Net primary enrolment rate (%)	90.9	●	→	2013
Mean years of schooling (years)	6.1	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	83.7	●	→	2012
Gross intake ratio to last grade of lower secondary education (%)	26	●	→	2017

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	39.7	●	→	2011
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	0.3	●	→	2016
Seats held by women in national parliaments (%)	34.3	●	↓	2018
Women in ministerial positions (%)	36.7	●	→	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	49.9	●	↗	2017
Ratio of female to male mean years of schooling of population age 25 and above (%)	65.3	●	→	2017
Ratio of female to male labour force participation rate	89.0	●	↑	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	38.9	●	→	2015
Population using at least basic sanitation services (%)	19.2	●	→	2015
Freshwater withdrawal as % total renewable water resources	1.3	●	→	2014
Imported groundwater depletion (m³/year/capita)	2.4	●	→	2010
Anthropogenic wastewater that receives treatment (%)	0.4	●	→	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	26.7	●	→	2016
Access to clean fuels & technology for cooking (% population)	0.8	●	↓	2016
Renewable energy share in the total final energy consumption	89.1	●	↑	2015
Consumer affordability of electricity	83.0	●	→	2017

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	1.1	●	→	2017
Employment-to-population ratio	69.8	●	↗	2018
Prevalence of Modern Slavery (victims per 1,000 population)	7.6	●	→	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	59.2	●	↑	2017
Starting a Business	72.3	●	↑	2019

SDG9 – Industry, Innovation and Infrastructure

Infrastructure score	42.1	●	→	2017
Logistics performance index: Quality of trade and transport-related infrastructure (1=low to 5=high)	2.2	●	↑	2018
Research and development expenditure (% GDP)	0.2	●	→	2014
Number of scientific and technical journal articles (per 1,000 population)	0.0	●	→	2016
Mobile broadband subscriptions (per 100 inhabitants)	23.4	●	↗	2017
Population using the internet (%)	23.7	●	→	2017

SDG10 – Reduced Inequalities

Gini Coefficient adjusted for top income (1-100)	41.0	●	→	2012
Palma ratio	2.0	●	→	2017

SDG11 – Sustainable Cities and Communities

Proportion of urban population living in slums	53.6	●	→	2014
Improved water source, piped (% urban population with access)	56.0	●	↓	2015
Satisfaction with public transport (%)	46.2	●	↓	2018
Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m³)	50.5	●	↓	2017

SDG12 – Responsible Consumption and Production

Municipal Solid Waste (kg/year/capita)	0.3	●	→	2012
E-waste generated (kg/capita)	0.6	●	→	2016
Natural Resource Value Realization Score	42.2	●	→	2017
Production-based SO ₂ emissions (kg/capita)	0.4	●	→	2010
Imported SO ₂ emissions (kg/capita)	0.2	●	→	2010

SDG13 – Climate Action

People affected by climate-related disasters (per 100,000 population)	8.9	●	→	2018
Energy-related CO ₂ emissions per capita (tCO ₂ /capita)	0.2	●	↑	2016
Imported CO ₂ emissions, technology-adjusted (tCO ₂ /capita)	0.2	●	→	2016
CO ₂ emissions embodied in fossil fuel exports (kg/capita)	0.0	●	→	2017

SDG14 – Life Below Water

Inadequately managed plastic waste (%)	NA	●	→	NA
Ocean Health Index Goal-Clean Waters (0-100)	NA	●	→	NA
Mean area that is protected in marine sites important to biodiversity (%)	NA	●	→	NA
Fish Stocks overexploited or collapsed by EEZ (%)	NA	●	→	NA
Fish caught by trawling (%)	NA	●	→	NA

SDG15 – Life on Land

Mean area that is protected in terrestrial sites important to biodiversity (%)	72.0	●	↑	2018
Permanent Deforestation (5-year average annual %)	0.5	●	→	2015
Red List Index of species survival (0-1)	0.7	●	↓	2018
Imported biodiversity threats (per million population)	0.4	●	→	2015

SDG16 – Peace, Justice and Strong Institutions

Homicides (per 100,000 population)	11.5	●	↓	2014
Conflict-related deaths per 100,000	0.0	●	↑	2017
Proportion of the population who feel safe walking alone at night in the city or area where they live (%)	52.3	●	↓	2018
Children 5-14 years old involved in child labour (%)	16.3	●	→	2016
Property Rights	60.4	●	↓	2017
Access to justice	76.2	●	↓	2017
Corruption Perception Index (0-100)	26	●	→	2018
Public Sector Accountability & Transparency	35.7	●	↓	2017
Birth registrations with civil authority, children under 5 years of age (%)	29.9	●	→	2016
Freedom of Press Index (best 0-100 worst)	36.8	●	→	2018

SDG17 – Partnerships for the Goals

Tax revenue (% GDP)	14.9	●	↗	2019
Government Health and Education spending (% GDP)	3.8	●	↓	2015
Level of customs duties on imports	33.6	●	→	2014
Visa Requirement	37	●	→	2015
Governmental Statistical Capacity	74.4	●	↑	2018

ZAMBIA

Performance by Indicator

SDG1 – End Poverty

	Value	Rating	Trend	Year
Poverty headcount ratio at \$1.90/day (% population)	53.1	●	→	2019
Proportion of population living below the national poverty line	54.4	●	—	2015
Population covered by Social Protection (%)	1.2	●	—	2010

SDG2 – Zero Hunger

Prevalence of undernourishment (% population)	44.5	●	→	2016
Prevalence of stunting (low height-for-age) in children under 5 years of age (%)	40.0	●	→	2013
Prevalence of wasting in children under 5 years of age (%)	6.3	●	→	2013
Prevalence of obesity, BMI ≥ 30 (% adult population)	8.1	●	↑	2016
Cereal yield (t/ha)	2.4	●	↓	2016
Fertilizer consumption (kg per hectare of arable land)	89.6	●	↑	2016

SDG3 – Good Health and Well-Being

Maternal mortality rate (per 100,000 live births)	224	●	↗	2015
Births attended by skilled health personnel (%)	63.3	●	—	2014
Neonatal mortality rate (per 1,000 live births)	22.2	●	↗	2017
Mortality rate, under-5 (per 1,000 live births)	60.0	●	↗	2017
New HIV infections (per 1,000)	3.6	●	↗	2017
People living with HIV receiving antiretroviral therapy (%)	75	●	—	2017
Incidence of tuberculosis (per 100,000 population)	361	●	↗	2017
Proportion of children under 5 with fever who are treated with appropriate anti-malarial drugs (%)	90.4	●	—	2013
Malaria mortality rate	44.6	●	→	2017
Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)	87.5	●	—	2017
Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30-70 years (per 100,000 population)	17.9	●	↑	2016
Traffic deaths rate (per 100,000 population)	24.7	●	→	2015
Adolescent fertility rate (births per 1,000 women ages 15-19)	86.0	●	↗	2016
Universal Health Coverage Tracer Index (0-100)	54.0	●	→	2017
Age-standardised death rate attributable to household air pollution and ambient air pollution (per 100,000 population)	127	●	—	2016
Percentage of surviving infants who received 2 WHO-recommended vaccines (%)	94	●	↑	2017
Life Expectancy at birth (years)	62.3	●	↗	2016
Subjective Wellbeing (average ladder score, 0-10)	4.0	●	↓	2018

SDG4 – Quality Education

Net primary enrolment rate (%)	86.3	●	—	2013
Mean years of schooling (years)	7.0	●	→	2017
Literacy rate of 15-24 year olds, both sexes (%)	88.7	●	—	2010
Gross intake ratio to last grade of lower secondary education (%)	53	●	—	2013

SDG5 – Gender Equality

Proportion of women aged 20-24 years who were married or in a union before age 18	31.4	●	—	2014
Proportion of girls and women aged 15-49 years who have undergone female genital mutilation/cutting, by age	NA	●	—	NA
Seats held by women in national parliaments (%)	18.0	●	↗	2018
Women in ministerial positions (%)	30.0	●	—	2019
Demand for family planning satisfied by modern methods (% women married or in union, ages 15-49)	63.8	●	↑	2014
Ratio of female to male mean years of schooling of population age 25 and above (%)	87.8	●	↗	2017
Ratio of female to male labour force participation rate	88.1	●	↑	2018

SDG6 – Clean Water and Sanitation

Population using at least basic drinking water services (%)	61.2	●	→	2015
Population using at least basic sanitation services (%)	31.1	●	→	2015
Freshwater withdrawal as % total renewable water resources	2.1	●	—	2014
Imported groundwater depletion (m ³ /year/capita)	0.3	●	—	2010
Anthropogenic wastewater that receives treatment (%)	4.2	●	—	2016

SDG7 – Affordable and Clean Energy

Access to electricity (% population)	27.2	●	→	2016
Access to clean fuels & technology for cooking (% population)	16.4	●	→	2016
Renewable energy share in the total final energy consumption	88.0	●	↑	2015
Consumer affordability of electricity	91.0	●	—	2017

SDG8 – Decent Work and Economic Growth

	Value	Rating	Trend	Year
5-year average GDP Growth per capita (%)	0.9	●	—	2017
Employment-to-population ratio	69.8	●	→	2018
Prevalence of Modern Slavery (victims per 1,000 population)	5.7	●	—	2018
Adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider (%)	45.9	●	↑	2017
Starting a Business	85.1	●	↑	2019

Appendix II. Indicator profiles

The indicator profiles summarize results of the Africa SDG Index and Dashboards report for each of the 97 indicators selected.

For each indicator, we present a brief definition and the source and year of the data. The full table lists the raw value and color rating by country. For trends indicators, we also include the years and the arrows. More detailed metadata are available online at www.AfricaSDGindex.org.

Poverty headcount ratio at \$1.90/day (% population)

Estimated proportion of each country's population that in 2018 are living under the poverty threshold of US\$ 1.90 a day (2011 PPP). Estimated using historical estimates of the income distribution, projections of population changes by age and educational attainment, and GDP projections.

Proportion of population living below the national poverty line

National poverty headcount ratio is the percentage of the population living below the national poverty lines. National estimates are based on population-weighted subgroup estimates from household surveys.

Population covered by Social Protection (%)

Percentage of population participating in social protection and labor programs (includes direct and indirect beneficiaries). The indicator is estimated by program type, for the entire population and by quintiles of both the post-transfer and pre-transfer welfare distribution. Programs are aggregated into social assistance, social insurance and labor market according to World Bank's ASPIRE classification. Indicators for all social protection and labor programs comprise the sum of social assistance, social insurance and labor market figures.

Mortality rate, under-5 (per 1,000 live births)

The probability that a newborn baby will die before reaching age five, if subject to age-specific mortality rates of the specified year, per 1,000 live births.

New HIV infections (per 1,000)

The estimated prevalence of people living with HIV, per thousand people. The estimates are modelled using population-based surveys, where available, and HIV prevalence studies in countries with low-level HIV epidemics where transmission largely occurs among key population groups.

Coverage of Preventive Chemotherapy for Neglected Tropical Diseases (%)

Preventive chemotherapy (PC) is the approach of treating populations at risk of Neglected Tropical Diseases (NTDs), to prevent transmission or morbidity of those diseases, with drugs either alone or in combination. Coverage is calculated as the number of people in need of PC and treated out of population requiring PC.

Age-standardised death rate due to cardiovascular disease, cancer, diabetes, and chronic respiratory disease in populations age 30–70 years (per 100,000 population)

The probability of dying between the ages of 30 and 70 years from cardiovascular diseases, cancer, diabetes or chronic respiratory diseases, defined as the percent of 30-year-old-people who would die before their 70th birthday from these diseases, assuming current mortality rates at every age and that individuals would not die from any other cause of death (e.g. injuries or HIV/AIDS).

Ratio of female to male mean years of schooling of population age 25 and above (%)

The number of years of schooling that a female child of school entrance age can expect to receive divided by the number of years of schooling a male child can expect to receive, assuming that prevailing patterns of age-specific enrolment rates persist throughout their life.

Percentage of anthropogenic wastewater that receives treatment (%)

The percentage of collected, generated, or produced wastewater that is treated, normalized by the population connected to centralized wastewater treatment facilities. Scores were calculated by multiplying the wastewater treatment summary values, based on decadal averages, with the sewerage connection values to arrive at an overall total percentage of wastewater treated.

Renewable energy share in the total final energy consumption

The renewable energy share in total final consumption is the percentage of final consumption of energy that is derived from renewable resources. It is calculated by dividing consumption of energy from all renewable sources by total final energy consumption. Renewable energy consumption includes consumption of energy derived from: hydro, solid biofuels, wind, solar, liquid biofuels, biogas, geothermal, marine and waste. Total final energy consumption is calculated from national balances and statistics as total final consumption minus non-energy use

Consumer affordability of electricity

In RISE, affordability of electricity for consumers is based on three sub-indicators: i) cost of subsistence consumption, ii) affordability of the connection fee, and iii) ability to support low-volume consumers.

5-year average GDP growth per capita (%)

5-year average annual percentage growth rate of GDP per capita based on constant local currency. Aggregates are based on constant 2010 U.S. dollars. GDP per capita is gross domestic product divided by midyear population. GDP at purchaser's prices is the sum of gross value added by all resident producers in the economy plus any product taxes and minus any subsidies not included in the value of the products. It is calculated without making deductions for depreciation of fabricated assets or for depletion and degradation of natural resources.

Employment-to-population ratio

The employment-to-population ratio is the proportion of a country's working-age population that is employed. Employment comprises all persons of working age who during a specified brief period, such as one week or one day, were in the following categories: a) paid employment (whether at work or with a job but not at work); or b) self-employment (whether at work or with an enterprise but not at work).

Prevalence of Modern Slavery (victims per 1,000 population)

Based on the Global Slavery Index (GSI), the score reflects a set of measures about the number of people in modern slavery, the steps governments are taking to respond to it, and the factors that make individuals vulnerable. It is calculated based on standardised surveys and Multiple Systems Estimation (MSE), and several indicators measuring vulnerability and government responses.

Infrastructure score (0-100)

This score consists of five indicators 1) the quality of roads; level of public satisfaction with government maintenance of roads and bridges; adequacy of the rail network for business needs; and quality of air transport and aviation safety; 2) the quality of the electricity supply and level of public satisfaction with the provision of a reliable electricity supply by the government; 3) the extent to which IT infrastructure is adequate for business needs; subscriptions to a mobile telephone service; households with a computer; and internet subscriptions; 4) the percentage of the total population that is served with drinking water from an improved source, provided collection time is not more than 30 minutes for a round trip, including queuing; and 5) the extent to which the public are satisfied with how the government is handling providing water and sanitation services.

Number of scientific and technical journal articles (per 1,000)

The number of scientific and technical journal articles published, that are covered by the Science Citation Index (SCI) or the Social Sciences Citation Index (SSCI). The following fields are included: physics, biology, chemistry, mathematics, clinical medicine, biomedical research, engineering and technology, and earth and space sciences. Articles are counted and assigned to a country based on the institutional address(es) listed in the article.

Palma ratio

The share of all income received by the 10% people with highest disposable income divided by the share of all income received by the 40% people with the lowest disposable income. It is based on the work of Palma (2011).

Proportion of urban population living in slums

The percentage of the urban population that live in households lacking one or more of the following basic services: improved water, improved sanitation, durable housing, sufficient living area or security of tenure.

Improved water source, piped (% urban population with access)

The percentage of the urban population with access to improved drinking water piped on premises. An "improved" drinking-water source is one that, by the nature of its construction and when properly used, adequately protects the source from outside contamination, particularly faecal matter.

Annual mean concentration of particulate matter of less than 2.5 microns of diameter (PM2.5) in urban areas (µg/m³)

Air pollution measured as the population-weighted mean annual concentration of PM2.5 for the urban population in a country. PM2.5 is suspended particles measuring less than 2.5 microns in aerodynamic diameter, which are capable of penetrating deep into the respiratory tract and can cause severe health damage.

Natural Resource Value Realization Score

This indicator is a subcomponent of the Resource Governance Index, which assesses policies and practices that authorities employ to govern their countries' oil, gas and mining industries. Value Realization covers the governance of allocating extraction rights, exploration, production, environmental protection, revenue collection and state-owned enterprises.

Imported CO₂ emissions, technology-adjusted (tCO₂/capita)

Imports of CO₂ emissions embodied in goods, measured as technology-adjusted, consumption-based (TCBA) emissions minus production-based emissions. Technology-adjusted emissions data reflects the carbon efficiency of exporting sectors. If a country uses relatively CO₂-intensive technologies in its export sector then it will have a higher TCBA than suggested by a simple carbon footprint.

Percentage of inadequately managed plastic waste

The amount of mismanaged plastic waste generated annually by populations living within 50 km of coast worldwide that can potentially enter the ocean as marine debris. For each of 192 coastal countries with at least 100 permanent residents that border the Atlantic, Pacific, and Indian oceans and the Mediterranean and Black seas.

Permanent Deforestation (average annual %)

The mean annual percentage of permanent deforestation over the period 2011 to 2015. Permanent deforestation refers to tree cover removal for urbanization, commodity production, and certain types of small-scale agriculture. It does not include temporary forest loss due to the forestry sector or wildfires.

Conflict-related deaths per 100,000

This indicator reports the number of battle related deaths in armed conflict, and is reported per 100,000 inhabitants in the country. It combines both military and civilian battle related deaths from three datasets collected by the UCDP on: intrastate and interstate organized armed conflict, conflicts between non-state groups, and one-sided violence perpetrated by an armed group against un-armed actors. The data sources used by UCDP include publicly available documents from news agencies, academic journals, NGOs, and other organizations, which are used to list and aggregate individual conflict events to the level of each country or actor for each year. For conflicts or actors spanning across several countries, the number of deaths is divided evenly across the countries involved.

Children 5–14 years old involved in child labour (%)

The percentage of children, between the age of 5-14 years old, involved in child labour at the time of the survey. A child is considered to be involved in child labour under the following conditions: (a) children 5–11 years old who, during the reference week, did at least one hour of economic activity or at least 28 hours of household chores, or (b) children 12–14 years old who, during the reference week, did at least 14 hours of economic activity or at least 28 hours of household chores.

Property Rights (0-100)

This indicator captures the extent to which the government protects and enforces private property and contract rights. It aggregates four aspects: 1) the extent to which government authorities ensure well-defined rights of private property and regulate the acquisition, benefits, use and sale of property, 2) the extent to which a country's legal framework allows individuals to freely accumulate private property, secured by clear laws that are enforced effectively by the government. It measures the degree to which a country's laws protect private property rights and the extent to which those laws are respected. It also assesses the likelihood that private property will be expropriated by the state. 3) the strength of the protection of property rights, including financial assets, ranging from extremely weak to extremely strong; and 4) the extent to which private economic activity is facilitated by an effective legal system and rule-based governance structure in which property and contract rights are reliably respected and enforced.

Public Sector Accountability and Transparency (0-100)

This indicator captures the extent of executive corruption and the extent to which the executive and public employees can be held accountable. It consists of two sub-indicators: the first sub-indicator assesses how routinely members of the executive, or their agents, grant favors in exchange for bribes, kickbacks, or other material inducements, and how often they steal, embezzle, or misappropriate public funds or other state resources for personal or family use. The second sub-indicator captures the extent to which the executive and public employees can be held to account by the electorate, legislative and judiciary.

Tax revenue (% GDP)

Tax revenues are compulsory transfers to the central government for public purposes. Certain compulsory transfers, such as fines, penalties, and most social security contributions, are excluded. Refunds and corrections of erroneously collected tax revenues are treated as negative revenue. It is reported as a percentage of GDP.

Level of customs duties on imports

This indicator is the average level of tariffs applied to imports from intra-regional trade. This average is obtained across all the regional economic communities (RECs) with which a given a country trades. The African Union objective is for a free trade zone without customs and duties to boost the level of intra-African trade. This indicator is one of the metrics under the "Trade Integration" component of the African Integration Index.

Visa Requirement score

The visa score for country x is calculated by adding the value of 0 times the number of countries that do not need a visa to enter country x, plus the value of 1 times the number countries that need visa on arrival in country x, plus the value of 3 times the number of countries that need a visa to enter country x.

Governmental Statistical Capacity

The Statistical Capacity Indicator is a composite score assessing the capacity of a country's statistical system. It is based on a diagnostic framework assessing the following areas: methodology, data sources, and periodicity and timeliness. Countries are scored against 25 criteria in these areas, using publicly available information and/or country input. The overall Statistical Capacity score is then calculated as a simple average of all three area scores on a scale of 0-100.

Appendix III. Implementation Survey Results

To understand and gauge how governments are actually implementing the SDGs, this survey covers six strategic aspects: (i) national strategies and baseline assessments in the executive, (ii) budgeting practices and procedures in the executive, (iii) stakeholder engagement, (iv) coordinating units in the executive, (v) legislative actions, and (vi) main challenges for implementation. The answers to the survey's 17 questions for all 54 African countries are detailed in this Annex.

To the extent possible, the survey aims to cover policies and actions enacted by the current administration unless there has been a very recent change of government, such as in Algeria and Sudan. Please note that the survey focuses on initiatives introduced between January 1st, 2016, when the SDGs came into force, and May 1st, 2019 (unless otherwise specified).

I. NATIONAL STRATEGIES AND BASELINE ASSESSMENTS IN THE EXECUTIVE																	
Q.1. Since the current administration took office, was there any official statement made by a high-ranking official endorsing the implementation of the Sustainable Development Goals (SDGs) at the national level? (select all that apply)																	
<i>The statement should be made in a public and official context and should explicitly mention the endorsement of the SDGs and how the country plans to operationalize their implementation. The simple use of the term "SDGs" in an official speech would not be sufficient to tick any of the positive answers.</i>																	
a) Yes, a statement made by the head of state/government (e.g. President, Prime Minister)				X			X	X	X	X	X		X	X			
b) Yes, a statement made by a member of the cabinet (e.g. Minister, State Secretary)	X	X	X	X	X	X						X					X
c) No															X	X	
Q.2. Did the central/federal government launch a formal process to map the alignment of existing national strategies with the SDGs?																	
a) Yes	X	X	X	X	X	X	X	X		X	X		X			X	
b) No but it is planned												X		X			
c) No and it is not planned									X						X		X
Q.3. Did the central/federal government adopt an overarching action plan to implement the SDGs?																	
Yes			X	X	X	X	X	X		X						X	
No but it is planned									X			X	X	X			
No and it is not planned	X	X									X				X		X
Q.3.a If no, is there any evidence that the SDGs are being integrated into sectoral action plans? (please give 2 specific examples to validate the yes option)																	
Yes		X									X		X		X		
No														X			X
Q.4. Have key national priorities been clearly identified regarding the implementation of the SDGs?																	
<i>There should be an explicit mention in an official document of key SDG goals/targets priorities at the national level. There should be an explicit mention in an official document of key SDG goals/targets priorities at the national level. The fact that a VNR focuses on specific goals is not considered as an explicit statement about priorities.</i>																	
Yes		X	X	X	X	X	X	X			X			X		X	
No but it is planned	X											X	X				
No and it is not planned									X	X					X		X
Q.5. Did the National Statistical Institute or any mandated Central/federal institutions identify official key national indicators to monitor the implementation of the SDGs?																	
Yes	X	X	X	X	X	X	X	X			X		X	X		X	
No, but a national document and/or online platform has been developed to report on the status of official SDG indicators																	
No but it is planned									X	X		X			X		X
No and it is not planned																	
Q.5a. If yes, how many indicators are included in this list of official national indicators?																	
<i>Please indicate the exact number (e.g. 100, 88, 50, 12 etc.)</i>		98	82	158	71	103	160	217					40	58			
Q.6. Has the current government administration issued any report about SDG progress and implementation of strategies to meet them? (eg. VNR or other national SDG report)																	
Yes			X	X			X									X	
No	X	X			X	X		X	X	X	X	X	X	X	X		X
Q.6a. If yes, is this a comprehensive standalone report on the SDGs?																	
Yes	X		X	X			X									X	
No, it was part of another national report (eg. national development plan report etc)																	
Q.7. Since January 2016, has there been a comprehensive assessment coordinated by the Central/federal government of where the country stands with regards to its distance to achieving SDG targets?																	
<i>This may be reflected in a Voluntary National Review (VNR) or in another national assessment process. If several assessments have been made please select the most exhaustive one.</i>																	
Yes			X	X	X		X	X								X	
No but it is planned	X					X			X	X	X	X	X	X			
No and it is not planned		X													X		X
Q.7a. If yes, did the assessment cover all the SDGs or a selection of SDGs?																	
All SDGs	X		X	X			X	X								X	
Only a selection of SDGs (please specify which ones)					X						X						
Q.7.b If yes, does this assessment include a quantitative measure of distance pre-defined targets?																	
Yes			X													X

a) Yes, and it covers investment needs of all the SDGs																		
b) Yes, and it covers investment needs of some of the SDGs			X				X											X
c) Yes, but it does not cover investment needs of the SDGs		X						X						X				
d) No but it is planned	X								X							X		
e) No and it is not planned				X	X	X				X					X			
III. STAKEHOLDER ENGAGEMENT																		
Q.10. Have comprehensive stakeholder engagement mechanisms been developed to inform the implementation of the SDGs? (Please select all that apply)																		
Yes, for informing SDG action plans(s)	X		X				X	X						X			X	
Yes, for setting SDG priorities	X		X			X	X							X		X		X
Yes, for identifying data and indicators for the SDGs	X						X			X								
Yes, for allocating financial resources for the SDGs																		
No		X		X	X			X		X	X	X		X				
Q.10.a. If yes to any of the options above, how have stakeholders been engaged in the SDG implementation process? (Please select all that apply). *																		
Citizen Panel																		
Focus groups																		
Online consultation/survey							X											
Expert panels			X			X								X		X		
Meeting(s) with interest groups (consumers' associations, trade unions, business associations etc.)	X		X			X	X	X						X		X	X	
Not applicable (no existing stakeholder consultation mechanisms)																		
Other (please specify)		volunteer programs						Stakeholder retreat		Stakeholders were invited to participate both the South African indicator validation process and in the SDG report validation process. It is co-ordinated by Statistics South Africa.								Stakeholders Workshop
Q.11. Has the government organized any national SDG awareness-raising? If so, how? (select all that apply)																		
No		X		X	X	X		X		X	X			X	X	X		
Yes, through a public awareness campaign	X		X					X		X			X					Yes, through a public awareness campaign
Yes, by translating the SDGs into the local language(s)	X		X				X	X										
Yes, through SDG partnerships with media (TV, Radio, newspaper, online platform, etc.)	X		X															
Yes, through SDG competitions/ hackathons														X				
Yes, through educational programs in schools	X																	
Other (please specify)																		
Q.12. Is there a dedicated central/federal government online repository/website for the SDGs? i.e. a dedicated website where the latest news, official speeches, metrics and initiatives on the SDGs are provided.																		
Yes, a stand-alone SDG website (please provide web link)	X		X															
Yes, a web page hosted on the website of the coordinating Ministry/Agency or Center of Government portal (please provide web link)	X															X	X	X
No, but information about the SDGs are available in departments' and agencies' websites							X			X								X
No		X		X	X	X		X	X	X	X	X	X	X	X			
Q.12a. If yes, is the repository/website regularly updated (i.e. at least once a month)?																		
Yes			X							X								
No	X															X	X	X
