

DOOSAN®

Portable Power

Equipment Warranty

The warranty period to customer begins at the time of shipment or date of commissioning of equipment or accumulation of hours of service (as mentioned in the equipment warranty) whichever occurs first.

The warranty does not apply to failures occurring as a result of abuse, misuse, negligent repairs corrosion, erosion and normal wear and tear, alterations or modifications made to the product without express written consent of Doosan Bobcat; or failure to follow the recommended operating practices and maintenance procedures as provided in the Products Operating and Maintenance Publications, failure to use genuine Doosan Bobcat Parts, Accessories or equipment furnished by Doosan Bobcat, but manufactured by others including but not limited to, engines, tyres, batteries, belts , electrical items, hydraulic pumps, hydraulic valves etc. shall carry whatever warranty the manufacturers have conveyed to Doosan Bobcat and which can be passed on to the customer.

The only warranty applicable to Doosan Bobcat products are those set forth in the respective warranty policy for each product. No other warranty either expressed or implied will apply.

Doosan Bobcat, through its distributor, warrants that equipment manufactured by it and delivered hereunder to the customer to be free of defects in material and workmanship.

A) Light Source :

The earlier of **twelve (12)** months from date of commissioning, or **thirteen (13)** months from date of shipment to or the accumulation of 1000 hours of service.

What the Warranty Covers :

All the failures which meet the criteria, outlined below or considered as warranty failures and claims should be submitted to Doosan Bobcat for the repair of such failures.
