

SONIC TRACER

Sonic Tracer: To be installed on 244 cm and 274 cm Graders with ACD. Loader must be equipped with the Deluxe panel.

- The Sonic Tracer Package system comprises:
 - 1 sonic tracer
 - 2 slope sensors
 - 1 rotation sensor
- Available as an option for the 244 cm and 274 cm HD graders.

Description: The tracer emits a sonic signal to maintain a set distance or elevation from an object, surface or the ground. Installed on the blade of the grader, the sonic tracer allows it to be used to grade, level and backfill on a multiple slope terrain, when following a string line, kerb stone or gutter or even on a previous pass for a grade control.
