

MOWER PARTS & ACCESSORY GUIDE

ZERO-TURN MOWERS

MOW LIKE A PRO

CUSTOMIZE YOUR CUTTING EXPERIENCE

Bobcat® zero-turn mowers are engineered to perfection, delivering a precise, quality cut that is virtually unmatched. But the Bobcat Advantage is about more than an industry-leading cutting system. It's about providing exactly what you need to make mowing easier and more comfortable—that's where Bobcat parts and accessories come in clutch.

Looking for a more efficient way to tackle yardwork at home?

Need to guarantee a perfectly manicured finish every time for your clients?

Want to minimize commercial downtime with simplified maintenance solutions?

Bobcat offers quality mowing accessories that can help you do all that and more. Explore our top twenty accessories in this helpful guide.

Machine: ZT6000

MOWER ACCESSORIES

OUR TOP

Machine: ZT3000

ACCESSORIES

Machine: ZS4000

A HELPING HAND

Machine: ZT2000

STEP ASSIST HANDLE

Part No.
46928301

Bolted onto the front frame, providing an additional stability point for entering and exiting the operator seat.

The added contact point offers additional assistance when entering/exiting the operator seat for an improved user experience. For operators who have difficulties getting on and off the mower, this can reduce potential frustration and fatigue.

OPERATOR CONTROLLED DISCHARGE CHUTE (OCDC)

Part No.
7452248 (Deck: 52") **7436351** (Deck: 61") **7442205** (Deck: 72")

Using a hand lever, operators can temporarily block the discharge opening during operation to prevent clippings or other debris from being dispersed.

This saves time as less effort is needed to avoid discharging clippings onto unwanted surfaces. It also reduces the amount of cleanup after a job to increase productivity.

ZT ROPS LIGHT KIT

Part No.

46928397 | Commercial **46928397** | Residential

This light is mounted to the ROPS on zero-turn mowers to offer increased visibility when mowing in lower light conditions.

Additional light improves visibility and increases overall efficiency in low light conditions.

ALUMINUM GRASS CATCHERS

Part No.

46903591 (3.3 bushel) **46903592** (5.0 bushel)

This is a lightweight and durable, rust-resistant aluminum side catcher. It is more sturdy than competitive fabric catchers but much lighter and easier to dump than steel catchers on the market. Mounting is easy with no drilling required. Two sizes: 3.3 bushel and 5.0 bushel. Optional Dust Collection Cover available.*

***DUST COLLECTION COVER** (optional)

Part No.

46934428 (3.3 bushel) **46934429** (5.0 bushel)

POWER UP YOUR PICK UP

Machine: ZT2000

WEIGHT KIT

Part No.

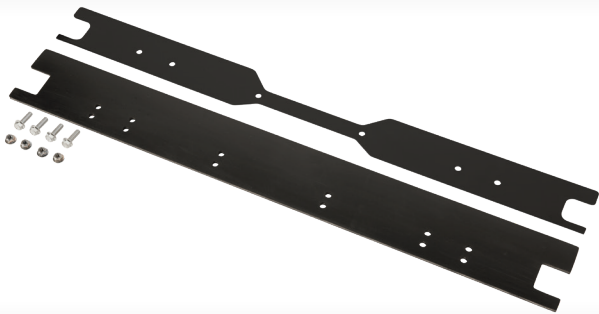

970565 (Deck: 36") **970645** (Decks: 48", 52", 61")

Available on the ZS4000, counterweights are added to the front of the mower to improve weight distribution if needed.

Better weight distribution leads to an even cut and better maneuverability for an overall increased user experience.

ACCESSORIES

MAKE MOWING MORE EFFICIENT

STRIPING KIT

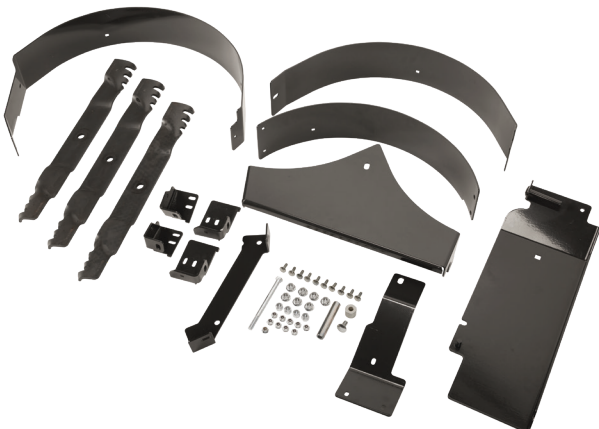

Part No.

970592 | Models: ZT2000, ZT3000, ZT3500, ZS4000 (Deck: 48")

A steel plate with a rubber flap is added to the rear of the cutting deck to provide a cleaner striping look as you mow.

970593 | Models: ZT2000, ZT3000, ZT3500, ZT5000, ZT6000, ZT6000e, ZT6100, ZT7000, ZS4000, (Decks: 52"–72")

Striping leads to a much cleaner and premium finish. This kit provides the striping without requiring you to adjust how you mow.

MULCHING KIT

Part No.

970564 | Models: ZS4000 (Deck: 36")

970348 | Models: ZT2000 (Deck: 42")

970533 | Models: ZT2000, ZT3000, ZT3500 (Deck: 48")

970589 | Models: ZS4000 (Deck: 48")

970408 | Models: ZT2000, ZT3000, ZT3500 (Deck: 52")

970578 | Models: ZT5000, ZT6000, ZT6100, ZT7000, ZS4000 (Deck: 52")

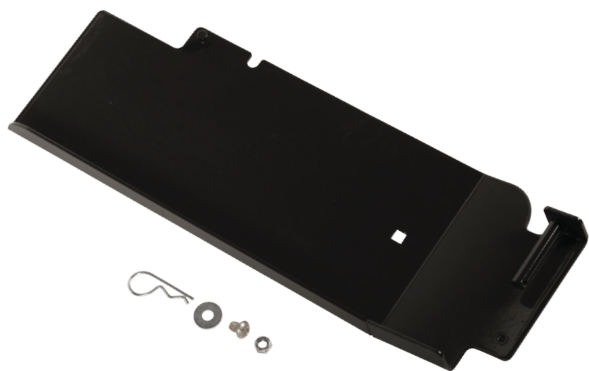

7501133 | Models: ZT6000e (Deck: 61")

970409 | Models: ZT3000, ZT3500 (Deck: 61")

970588 | Models: ZT5000, ZT6000, ZT6100, ZT7000, ZS4000 (Deck: 61")

New baffles are installed onto the cutting deck to alter airflow, recycling the clippings in the chamber. This allows them to get cut multiple times by the mulching blades, creating finer clippings that blend more into the grass.

Increased mulching promotes sustained lawn health and lawn appearance. A mulch kit greatly reduces clumping by finely cutting the clippings multiple times before dispersal. It is also beneficial when mowing in the fall to finely cut leaves.

EFFICIENT CUTTING OPERATION (E.C.O) PLATE

Part No.

970563 (Deck: 36")

970344 (Decks: 42"-61")

970426 (Deck: 48")

970623 (Deck: 48")

970404 (Deck: 52")

970577 (Deck: 52")

970405 (Deck: 61")

970567 (Deck: 61")

970634 (Deck: 72")

A plate is added to the discharge chute to prevent clippings from dispersing onto sidewalks, roads or buildings.

When mowing in residential areas or near businesses, operators may need to avoid dispersing clippings onto sidewalks, buildings or parking lots. An E.C.O plate stops clippings from dispersing out the discharge chute, which greatly reduces cleanup after a job.

THAT'S HOW WE ROLL

Machine: WB700

MOWER SULKY

Part No.

7473134 | Model: WB7000

Attach to a walk-behind mower to convert it to a stand-on. Simple, single-pin attachment, made of heavy-duty steel for increased durability.

When mowing large areas such as parks or yards, operators can experience fatigue due to the extended amount of walking. The sulky offers a comfortable ride when mowing, and experienced operators can comfortably mow at higher speeds.

COOL TOP CANOPY

Part No.
46916732

An overhang with fans is attached to the ROPS, providing shade and a cooling breeze to the operator with fans.

When mowing in higher temperatures or for extended hours, overexposure to the sun can cause sunburns and exhaustion. The Cool Top Canopy provides shade to protect from the sun and fans provide cooling air that can also repel bugs.

TWEEL TIRES

Part No.
46901992 | Models: ZS4000 (22" x 11"-12")
46901982 | Models: ZT5000, ZT6000, ZT6100 (24" x 12"-12")
46901967 | Models: ZT7000 (26" x 12"-12")

Available on commercial mowers, this airless tire eliminates the risk of a flat tire without reducing suspension. The poly-resin spokes maintain hub height to ensure an even cut.

Airless design results in no downtime and maintenance, leading to **three times the performance life of the traditional pneumatic tires**. The tweel tire is the ideal replacement as it offers the same benefits of a pneumatic with a longer life and improved durability.

ZERO T-II TIRES

Part No.
46895492 | Models: ZT2000 (20" x 10.00"-10") **46895489** | Models: ZT4000 (23" x 8.50"-12")
46888384 | Models: ZT3000 (22" x 11.00"-10") **7442883** | Models: ZT5000, ZT6000 (24" x 10.50"-12")
46888385 | Models: ZT3500 (23" x 10.50"-12") **7510825** | Models: ZT7000 (26" x 12.00"-12")

These replacement tires for all zero-turn and walk-behind Bobcat mowers offer squared shoulders for optimum ground contact, large lug voids to improve traction and a unique tread pattern for safety and reduced vibration.

Zero-T-II tires are an ideal solution for customers operating on slopes or rough terrain who need improved tractions and a premium operating experience.

MAGNETIC LIGHT KIT

Part No.
970464 (12V)

The light is magnetically attached to the front of the mower for improved visibility in low light conditions.

When mowing in the evening or when cloudy, low light increases the chances of grass missed or bumping into obstructions. Light added to the front of your mower provides better visibility, so less grass gets missed.

MAKE A BUCKET LIST

Machine: ZS4000

5-GALLON BUCKET KIT

Part No.
46889866

A Bobcat-branded bucket is firmly mounted to the side of the mower for increased storage while operating. Compatible with the ZS4000 – 48" Deck, ZS4000 - 52" Deck and ZS4000 – 61" Deck.

When mowing lawns or larger areas, coming across objects such as rocks or branches can lead to increased downtime because of the need to move them offsite. Jobs can take significantly longer if it's necessary to scope the site for objects prior to mowing. Having a place to store anything they come across allows the operator to clear objects and debris while mowing, increasing overall uptime.

HITCH UP TO HUSTLE UP

HITCH KIT

Part No.

970315 | Models: M6202, M6203 and M6205

46958844

| Models: M6222, M6223 and M6225 with newly designed tailgates

A hitch bracket is installed in the rear of the machine to allow for the towing of carts or other attachments.

Gathering branches or other debris can prolong the time a job takes. The hitch provides the ability to tow a cart, which can reduce prep time for the job and improve your productivity.

MOWER MAINTENANCE KITS

Part No.
46950399
46950400
46951913
46951914
46950401
46950402
46951915

Full-service with quality OE parts in one box. Ensuring your mower is maintained and in top running condition.

Know you are maintaining your machine correctly with genuine OE service parts and a Bobcat approved oil that meets the demands of your hard-working air-cooled engine. The kit includes all filters, spark plugs and oil needed to fully service the engine.

MOWER TOW CART

Part No.
46986010

This 10-cubic foot, heavy-duty compression molded cart won't dent or rust and is great for hauling garden tools, mulch, plants, and more. The swivel dump feature allows for easy, hands-free dumping. Also features 13" turf wheels and a solid steel axle.

A durable tow cart is convenient for homeowners and commercial mowers. Bobcat's cart fits all lawn and garden tractors and zero-turn mowers with a rear pin hitch receiver and offers **hands-free dump release lever to manage a load of up to 500 pounds.**

Requirements:

HITCH KIT - 46958844 | Models: M6221, M6222, M6223, M6225, M6226

HITCH KIT - 970315 | Models: M6101, M6102, M6103, M6105, 9996010, 9996011

RESIDENTIAL TRANSAXLE GUARDS

Part No.
46947647

Easy to install under the transaxle, this sturdy, 7-gauge steel dealer-installed kit helps protect key components of the zero-turn mower transmission from rocks, sticks and other debris.

These guards are crucial for maintaining the efficiency and lifespan of your mower's transmission system by shielding it from the tough conditions of lawn care. Available for the ZT2000 through the ZT5000.

MOWER LIFT

Part No.
7518130

Lift the front of your mower and quickly change out cutting blades and perform general maintenance.

Foot-operated safety wheel brake ensures unit won't move under the machine.

DOES NOT WORK ON:

ZTRs with rear-mounted bagger on. Units with front-mounted weight kits.

ACCESSORIES

MAKE THE MACHINE YOURS

RESIDENTIAL AND COMMERCIAL REAR BAGGING SYSTEMS

2 Bag-7.2 Bushel

46966485 | Models: ZT2000, ZT3000, ZT3500, ZT5000, (Decks: 48", 52", 61") *no 42" option*

3 Bag DFS-9.6 Bushel

47005028 | Models: ZT6000, ZT6100, ZT7000, (Decks: 52", 61")

47008192 | Models: ZT6000, ZT6100, ZT7000, (Deck: 72")

3 Bag-12 Bushel

47005025 | Models: ZT6000, ZT6100, ZT7000, (Decks: 52", 61")

47008195 | Models: ZT6000, ZT6100, ZT7000, (Deck: 72")

This kit offers efficiency and convenience for lawn and leaf collection; options compatible with zero-turn mowers. These powerful and lightweight kits are perfect for the homeowner and commercial operator.

Bobcat collection systems have the power to handle today's high output decks. **All are PTO-driven and easy to install with no additional parts required.** No tool removal needed.

BETTER BAGGING

Machine: ZT5000

SUSPENSION SEAT ASSEMBLY KIT

Part No.

46939012

This mechanical suspension seat kit provides a way to upgrade your ZT2000 and ZT3000 mower for a smoother, more comfortable ride. Easily operate the seat by turning the "T" handle, and enjoy the 23.5" high back and the option to shift the seat forward and back for comfort. The kit includes: seat with armrests, suspension platform, hardware.

Machine: ZT3500
