## **Geography Progression Map**

## Please refer to the individual learning blocks for key vocabulary.

Year Group	TITLE/CONCEPT			
	Locational knowledge	Place knowledge	Physical geography Human geography	Geographical skills and fieldwork
EYFS (Nursery)	I can comment and ask questions about aspects of my familiar world such as the place where I live or the natural world.	I can talk about some of the things I have observed in different places.  I can make imaginative & complex 'small	I can notice and discuss patterns around me, e.g. rubbings from grates, covers, or bricks.	I can observe and identify features in the place I live and in the natural world.
	I know that there are different countries in the world and I can talk about the differences I have experienced or seen in	worlds' with blocks & construction kits, such as a city with different buildings and a park.	I can identify seasonal patterns – focusing on plants and animals.	I can talk about features I like and dislike in my local environment.
	photographs.		I can begin to understand the effect my behaviour can have on the environment.	I can use a range of props, photos and books to notice & talk about similarities & differences between different environments.
EYFS (Reception)	I can describe the immediate environment, using new vocabulary where appropriate.  I know the name of the road, and town that	I can look at aerial views of the school setting, commenting on what I notice, recognising buildings, open space, roads and other simple features.	I can find out about places in the world that contrast with locations I know well.  I can use specific vocabulary to describe contrasting locations and to name	I can observe the natural world and how the seasons change, talking about the weather and seasonal features.
	school is located in.	I can draw simple maps of my immediate environment, or maps from imaginary story settings I am familiar with.	features of the world, both natural and those made by people.	I can note and record the weather.
	I can talk about a range of contrasting environments within my local region.	settings i ani ianimai with.	I can use images, video clips, shared texts and other resources to develop an awareness of the wider world.	I can explain how children's lives in other countries may be similar or different in terms of how they travel to school, what they eat, where they live, and so on. (My teachers will
			I can listen to non-fiction texts to learn about contrasting environments within both my local and national region.	help me to avoid stereotyping.)
			I show an awareness of the wider world and contrasting environments through my conversations and play.	

Year 1	I can <b>name and locate</b> the four countries of the United Kingdom.  I can identify key characteristics of	I know where I live within the United Kingdom. I can <b>describe</b> the key geographical	I can explain what is meant by the terms human and physical features and understand the differences between them.	I can <b>use maps and a globe</b> to identify continents (Europe and Africa), the seas and countries (those within United Kingdom and Kenya).
	the four countries (flags, capital	features of Kenya.	I can <b>sort</b> features of the United Kingdom into	
	cities, national emblems, famous		physical and human features.	I understand that both a map and a
	landmarks etc.)	I know what is meant by a 'national		globe show the same thing and that the
		park' and I can list some animals that are	I can identify seasonal and daily weather patterns	earth is spherical and not flat, like the

		to show the difference.		photographs of the UK to locate major
				rivers within the UK.
				I can follow a map when walking from
				BMA to the River Ouse and the canal.
				I can investigate pollution in waterways.

Year 3	I can <b>name and locate</b> some of the world's major countries within Afri – Egypt, Libya and Sudan
	I can use both maps and globes to locate Tropic of Cancer and Tropic Capricorn.

I can **identify** and **locate** countries with hot and cold climates in relation to the Equator.

I can explain how early settlers used land.

I understand how land use has changed over time.

I can **identify** and **locate** key rivers of the world.

I can **compare** the UK and Egypt in relation to their human and physical features, as well as their climates.

I can **describe** how people can both improve and damage the environment.

I understand how some aspects have changed over time.

I can describe geographical similarities and differences between the longest rivers around the world, drawing upon my knowledge of human and physical differences.

I can identify features of Egypt using aerial photographs and make detailed **maps** using a key.

I can **identify** the 5 main climate zones across the world.

I can **explain** what a biome is.

I can **understand** that climate conditions impact food production.

I **understand** what a settlement is and I can name the 5 types of settlements.

I can explain how early settlers used physical geographical features for a variety of purposes.

I can offer **explanations** for the location of human and physical features in different locations.

I can **describe** how settlements have developed – making links to Buckingham.

I can draw diagrams, produce writing and use the correct vocabulary for rivers.

I understand the significance of different rivers and I can make links between their uses.

I can include a key on a map using common OS symbols.

I can follow a journey using computer mapping – digimaps.

I can use maps, atlases and globes to revise the location of Africa and locate Egypt.

I can **ask and respond to questions** about places and the environment making comparisons between them.

I can **collect data** using surveys and present it in a bar chart.

٦.	e/	_		- 1
- 4	-	-	r	ч

I can **identify** the position and significance of the lines of latitude and longitude.

I can **discuss** the location of countries in different time zones in relation to the UK.

I **understand** how time zones are shown on a map.

I can identify the position and significance of the Prime/Greenwich Meridian and time zones, understand the need for time zones and also the problem with them.

I can explore a location on the opposite side of the world (Australia).

I can **locate** two areas of natural beauty (AONB) and compare the geographical regions and their identifying human and physical characteristics, key topographical features and land-use patterns. I can **explore** areas of outstanding natural beauty within the UK i.e. Cotswolds and the Peak District

I can describe geographical similarities and differences between a region of the UK (Buckingham) and a region in a European country (Mouvaux, France and Neukirchen – Vluyn, Germany), focusing on their human and physical features.

I can **compare and give reasons** for the different lifestyles within a country or area of a country.

I can **describe** and **compare** the different types of settlements and land use.

I can **describe** how humans are impacted both positively and negatively by physical features (Peak District National Park)

I can **recognise** that humans can have some control over physical features.

I can **identify** how landscapes can be protected and why sometimes they are not.

I can describe and understand key aspects of the water cycle – covered in the science curriculum.

I can use the 8 points of a compass when describing the location of places.

I can use four-digit grid references, symbols and keys (including the use of OS maps) to build knowledge of the UK and the wider world.

I can use maps, atlases, globes and digimaps to **locate** and **describe** features studied.

I can observe, measure and record and present the human and physical features in the local area using a range of methods including sketch maps, plans and digital technologies.

Year 5	I can <b>locate</b> the major cities of the UK.	I can understand geographical similarities and differences between	I can <b>describe</b> how volcanoes, earthquakes and tsunamis are formed.	I can use 6 figure grid references.
	I can <b>describe</b> key aspects of land use in the UK.	Buckingham, Oxford and Weymouth	I can describe and understand how volcanoes,	I can record data in a line graph.
	I can make <b>comparisons</b> between	I can describe how physical geography influences the day-to-day life of	earthquakes and other natural disasters happen.	I can use less common OS symbols to show geographical features.
	land use in major cities and where I live/go to school (Buckingham).	inhabitants of an area.	I can <b>describe</b> how humans are impacted both positively and negatively by volcanoes.	I can use fieldwork to observe, measure
	I can <b>locate</b> physical geographical features on a map, including volcanoes.		I can <b>recognise</b> that humans can have some control over physical features.	record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital
	voicanoes.		I understand why Fairtrade is important	technologies.
			I <b>understand</b> the benefits of the UK trading worldwide and the risks associated with this.	
			I can explain the term tourism and compare and contrast tourism in Buckingham, Bournemouth and Oxford.	
			I can explain some of the advantages and disadvantages of tourism.	

~ \ /	ea		
- Y	-	10	Ю

I can **locate** the world's countries, using maps to focus on North and South America (concentrating on their environmental regions, key physical and human characteristics and major cities).

I can **describe countries location** in relation to the Equator, tropics, hemispheres and the poles.

I can suggest reasons for their location.

I can locate Milton Keynes and describe its location in relation to Buckingham.

I can **understand** geographical similarities and differences through the study of human and physical geography of a region of South America including: Brazil, Bolivia, Columbia, Ecuador, Guyana, Peru, Suriname, Venezuela, and French Guiana.

I can **compare and give reasons** for the similarities and differences between the UK and the Amazon Basin, South America.

I can **describe** the characteristics of a rainforest and the types of animals that can be found there.

I can **describe** the different climate zones and vegetation belts on a global scale.

I can **say** what weather and vegetation is related to these and begin to **give reasons why.** 

I can **discuss** the impact of climate change – relating to rainforests and deforestation.

I can explain the human impact on climate change, can list some of the current solutions for slowing climate change, and suggest further ways in which individuals, the school and the wider community can positively contribute towards climate change.

I can **identify** human and physical features of Milton Keynes.

I can explain the original goals of the town planners for Milton Keynes and apply my understanding of these to create a new estate within Milton Keynes.

I can **describe and evaluate** how the geographical features of Milton Keynes have changed over time.

I can use maps, atlases, globes and digital/ computer mapping to locate countries and describe the rainforest.

I can compare aerial photos and maps over time to explore Milton Keynes.

I can generate my own enquiry question relating to Buckingham.

I can carry out surveys and use fieldwork to observe, measure and record data in order to answer an enquiry question, using a variety of methods including sketch maps, plans, graphs and digital technologies.

I can communicate my findings clearly.
