PROFILE

Frontend developer building fast, responsive, SEO-friendly websites and web applications with Next.js, React, and TypeScript. Experienced in turning Figma designs into production UI, building bilingual Arabic/English interfaces with native RTL, and integrating REST and GraphQL APIs, with additional expertise in Shopify Liquid themes and custom Remix apps. Team lead on a 9-person cross-functional product team. Upwork: 100% Job Success, 5.0 rating, Rising Talent.

TECHNICAL SKILLS

Frontend: React, Next.js App Router, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, GSAP, Remix

State, forms, i18n: Redux Toolkit, RTK Query, React Hook Form, Zod, next-intl, RTL layouts

Shopify and APIs: Liquid, Shopify Admin GraphQL API, OAuth2, REST APIs, Zoho Inventory, Infobip, Wix Studio (Velo)

Data and delivery: Prisma, PostgreSQL, Firebase, Vitest, Git, GitHub, Vercel, Netlify, Agile / Scrum

EXPERIENCE

Team Lead and Frontend Developer | Coach Space (TAQAT Codemap Program) | Jul 2026 - Present

- Led frontend delivery of a bilingual Arabic/English e-learning platform (web, Flutter mobile, Django REST backend) built by a team of 9, coordinating frontend, backend, mobile, and UI/UX work through SRS, user stories, and sprint planning.
- Built the Next.js web interface with Tailwind CSS and next-intl (RTL/LTR), integrated the shared API with RTK Query, and validated forms with React Hook Form and Zod.
- Shipped the MVP, then the full roadmap plus AI-powered features: personalized learning paths, content summarization, AI-generated quizzes, and a CMS.

Shopify Developer | Geepas Iraq (Remote) | Mar 2026 - Sep 2026

- Built the Liquid storefront with native Arabic RTL, mobile-first layouts, and custom sections and product pages.
- Developed a Remix + Prisma + PostgreSQL warranty and rewards app: automated warranty registration, extended-warranty pricing, a five-tier voucher engine, and Infobip customer notifications.
- Implemented two-way Zoho Inventory sync via OAuth2 and the Shopify GraphQL Admin API, reconciling 672 of 672 products and auto-creating 241 missing ones; covered by a Vitest suite, deployed on Vercel.

Wix Developer | Mahseri Remodeling, New Jersey (Remote) | Dec 2025 - Present

- Built the company's marketing site and Wix Stores catalog: interactive project map with geographic filtering, two-tier product taxonomy, and custom Velo functionality, with SEO and responsive optimization.
- Contributed to a reported 45% increase in customer inquiries and a 5-star client review; structured the handoff so the client manages products independently.

Freelance Frontend Developer | Upwork, Khamsat, Mostaq, and direct clients | Sep 2022 - Present

- Own delivery from requirements through revisions, deployment, and post-launch support. Upwork profile: 100% Job Success Score, 5.0 rating, Rising Talent badge; 5-star reviews across Upwork, Khamsat, and Mostaq.
- **Aviation Academy website** (Dr. Marwan Alazzawi): bilingual Next.js, TypeScript, Tailwind, and next-intl site with mirrored RTL layout, GSAP and parallax animations, interactive 3D cards, course pages with downloadable PDFs, and WhatsApp contact.
- **Creative portfolio (Mohammed Anwar)**: responsive Next.js site with scroll and hover interactions, video embeds, and lazy loading for a media-heavy portfolio.
- **Personal portfolio (thekatanani.com)**: bilingual Next.js site with case studies, client reviews, and a technical blog, built for performance and SEO.

EDUCATION, TRAINING AND CERTIFICATIONS
