WORK EXPERIENCE

JobAutopilot

Toronto, Ontario (remote)

Front-End Developer

Mar 2023 - May 2024

- Contributed to the front-end development of the website, user dashboard, and internal CRM system using React.js and TypeScript. Focused on implementing UI components and ensuring a consistent user experience across different sections of the platform.
- Improved initial loading performance of the user dashboard by optimizing image sizes, implementing lazy loading, and enhancing rendering efficiency.
- Translated UI/UX designs from Figma into functional and responsive code. Worked closely with the design team to ensure the visual fidelity and usability of the user interface across various devices.
- Focused on writing clean, maintainable code and adhered to best practices for front-end development.

Galaxy IT

Khmelnyskyi, Ukraine

Junior Front End Developer

Jul 2022 - Feb 2023

- Developed multiple landing pages and reusable web components using JavaScript (React.js, Vue.js), HTML, and CSS.
- Translated complex UI/UX design wireframes, including interactive forms and dynamic data displays, into high-quality, maintainable code.
- Collaborated with cross-functional teams to deliver projects on time, contributing to effective communication and problem-solving.

ULTRA IT

Khmelnyskyi, Ukraine

Front End Developer Intern

Dec 2021 - Jun 2022

- Built company websites and landing pages using JavaScript, HTML, and CSS, focusing on user-friendly and visually appealing interfaces.
- Worked closely with UI/UX designers to translate design mockups into pixel-perfect, responsive web pages, ensuring consistent branding.
- Developed new website functionality, such as an interactive contact form and a dynamic product gallery, adhering to engineering standards.

Customer support engineer

Oct 2019 - Nov 2021

- Provided technical support to users, resolving ~80% of issues on the first contact.
- Triaged incoming support tickets, prioritizing urgent issues and escalating complex problems to engineering teams.
- Collaborated with engineers and product managers to identify and resolve technical issues, contributing to product improvements.

SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS
- **Frameworks/Libraries:** React.js, Next.js, Redux, Context API, React Router
- **UI & Styling:** Tailwind CSS, Material-UI, Styled-Components, Shadcn
