

## PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience building scalable web applications using React, Next.js, and TypeScript. Strong focus on UI/UX implementation, reusable component libraries, performance optimization, and accessibility. Experienced working closely with UX designers, product managers, and backend engineers in data-intensive and regulated environments, delivering reliable, high-quality user interfaces.

## CORE COMPETENCIES

**Technologies:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS

**Libraries:** React.js, Next.js (App Router), Zustand, Redux Toolkit, React Router

**Styling & UI:** Tailwind CSS, Shadcn, Bootstrap, Responsive & Accessible Design

**Performance & Optimization:** Lazy Loading, Code Splitting, Webpack, Vite

**Tools:** Git, GitHub, GitLab, Jira, Confluence, Zoho , Notion, Vercel, Swagger

**Other:** REST API integration, responsive layouts, UI/UX best practices, Agile/Scrum

## PROFESSIONAL EXPERIENCE

### Frontend Developer

**e-CENS** | Viernheim, Germany (Full-time/Remote) | June 2025 – Present

- Developing a large-scale analytics and management platform using Next.js 14, TypeScript, Zustand, and Shadcn UI, enhancing UI consistency and code scalability across modules
- Engineered complex, data-intensive features including dynamic dashboards, UTM/QR flow generators, and real-time previews, improving platform interactivity and analytics accuracy
- Integrated RESTful APIs using Swagger and collaborating closely with backend engineers
- Working closely with designers to convert Figma wireframes into polished, responsive, and accessible interfaces
- Implementing advanced table features: sorting, filtering, column visibility, pagination, multi-selection, and batch operations
- Leading front-end improvements: UX refinements, loading state strategies, error handling patterns, and complex dialogs/modals

### Frontend Developer

**JobAutopilot** | Toronto, Ontario (Full-time/Remote) | March 2023 – May 2024

- Contributed to the front-end development of the website, user dashboard, and internal CRM system using React.js and TypeScript. Focused on implementing UI components and ensuring a consistent user experience across different sections of the platform
- Improved initial loading performance of the user dashboard by optimizing image sizes, implementing lazy loading, and enhancing rendering efficiency
- Wrote clean, maintainable code and followed best practices for scalable frontend development

### Junior Frontend Developer

**Galaxy IT** | Khmelnytskyi, Ukraine (Full-time/Office) | July 2022 – Feb 2023

- Developed multiple landing pages and contributed to the frontend development of web applications using JavaScript (React.js, Vue.js), HTML, and CSS
- Delivered seamless user experiences across multiple client projects through attention to detail in frontend implementation

### Junior Frontend Developer

**ULTRA IT** | Khmelnytskyi, Ukraine (Full-time/Office) | December 2021 – June 2022

- Built company website and landing pages using JavaScript, HTML, SCSS
- Applied SEO best practices to optimize content and increase organic traffic for client websites
- Collaborated with designers to deliver pixel-perfect, responsive layouts aligned with brand guidelines

**EDUCATION AND TRAININGS****ReactJS Certificate**

ComIT | June 2025 - September 2025

**Front-End Developer Bootcamp**

Beetroot Academy | May 2022 - September 2022

**Master's Degree in Management**

Khmelnytskyi National University, Khmelnytskyi, Ukraine | Graduated: June 2016

---

**ADDITIONAL INFORMATION**

**Work Authorization:** Eligible to work in Canada ( Open Work Permit )

**Languages:** English, Ukrainian, Russian

**Open to:** Full-time opportunities, contract roles, remote and hybrid work arrangements
