WHY CHOOSE FRANCE FOR YOUR SURGERY?

ELSAN's medical teams provide care to international patients from all over the world across its facilities throughout France, ensuring the same high-quality medical attention as for all patients.

The French Healthcare System

With a medical system that combines expertise, compassion, and innovation, France stands as a global leader in healthcare. Cutting-edge technology and the rigorous training of healthcare professionals further enhance its international reputation.

Its healthcare system guarantees strict medical protocols, high-quality follow-up care, and access to the latest treatments.

Put your trust in French medical excellence—a world-renowned in the service of your health.

Our Regions

France is a destination that captivates with its diverse regions, refined gastronomy, and exceptional heritage. Each region offers a unique and enchanting setting. The country is also home to a world-renowned culinary tradition, boasting an array of exquisite flavors.

Additionally, France's rich cultural and historical heritage—featuring iconic landmarks such as Mont-Saint-Michel, the Loire Valley castles, and the Eiffel Tower—makes it a truly fascinating destination.

Our medical facilities are spread across the country, meaning that your treatment in France can also be an opportunity to explore its beauty.

PRIVATE HOSPITALS EVALUATIONS & CERTIFICATIONS

Our institutions adhere to rigorous national and international standards, ensuring excellence in patient care, safety, and medical innovation.

HAS
HAUTE AUTORITÉ DE SANTÉ

The Haute Autorité de Santé (HAS) is an independent public body that evaluates the quality and safety of care in hospitals and private hospitals across France. Facilities are graded from A (excellent) to E (insufficient) based on strict criteria, including risk management, patient care, and medical organization. These assessments, available on the HAS website, ensure transparency and reliability, serving as a key reference for both healthcare professionals and patients.The HAS is the French equivalent of the Joint Commission. Joint Commission International

Newsweek

The World's Best Hospitals ranking, published by Newsweek in collaboration with Statista, identifies the top healthcare institutions globally based on quality of care, medical expertise, and innovation. This ranking is established through surveys with healthcare professionals and patients, as well as performance indicators, making it a trusted guide for selecting top-tier private hospital.

Palmarès 2024
Le Point

Each year, Le Point magazine publishes a ranking of French hospitals and private hospital, analyzing detailed institutional data such as procedure volumes, success rates, complication management, and technical resources. These objective criteria provide a reliable benchmark for assessing care quality, patient safety, and medical excellence, helping patients choose the best healthcare facilities in France.

SANTÉ ATLANTIQUE PRIVATE HOSPITAL

NANTES

OUR EQUIPMENT

Robotic surgery, a technological revolution at the service of patients.

The use of the Greenlight Laser offers a major advantage over traditional techniques (in particular endoscopic resection of the prostate, which cuts the adenoma into shavings): it reduces the risk of bleeding, as the 'vaporisation' immediately coagulates the vessels.

This reduces the risk of haemorrhage following treatment, particularly in patients taking anticoagulants. It also reduces the time patients spend in hospital.

THE AQUITAINE CENTER FOR THE DEVELOPMENT OF HOME DIALYSIS (CA3D)

Located near Bordeaux, amidst prestigious vineyards, the Atlantic Ocean, and natural treasures such as the Arcachon Basin, this centre offers more than just medical services: it provides an opportunity for care in a region where health is synonymous with a refined way of life.

Direct flights from Alger (2h00), Marrakech (2h30), London (1h30), Dakar (5h30)

www.bordeaux.aeroport.fr

Paris- Bordeaux: direct train 2h

THE AQUITAINE CENTER FOR THE DEVELOPMENT OF HOME DIALYSIS (CA3D)

The Aquitaine Centre for the Development of Home Dialysis (CA3D), authorized by the Regional Health Agency (ARS) of Nouvelle-Aquitaine, is an independent facility specializing in the care of chronic kidney disease patients who have reached the dialysis stage and are eligible for treatment outside of a hospital or private hospitalsetting. This includes self-dialysis units, peritoneal dialysis, and home hemodialysis.
The center has an agreement with the Private Hospital Saint-Martin in Pessac and the Pasteur Hospital Center in Langon, which serve as backup centers should the patient's health condition require further medical attention.

Dialyse and vacations

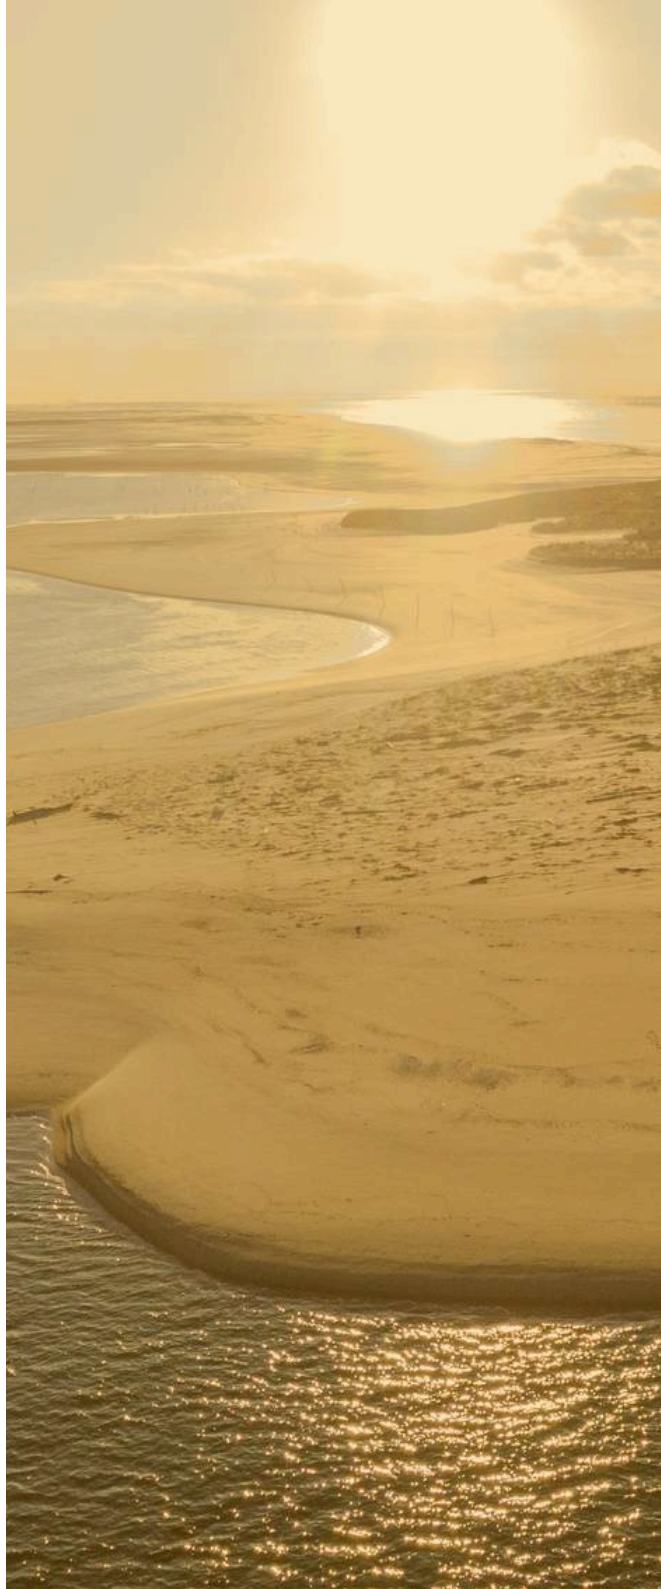

Being on dialysis shouldn't stop you from enjoying your time off. With the approval of your nephrologist, you can continue your treatment while away. Just make sure to inform the medical team about your plans ahead of time to complete any necessary medical and administrative arrangements.

Multidisciplinary teams

Multidisciplinary teams have been formed to meet your needs. Our facilities offer support and assistance services, with the presence of:
A social worker, a dietitian and a psychologist.

Transportation

Transportation is covered if necessary between your vacation location and the dialysis center (Request a transport voucher from your assigned center). A list of transport providers near the dialysis center is also available.

THE AQUITAINE CENTER FOR THE DEVELOPMENT OF HOME DIALYSIS (CA3D)

This care is organized within our facilities in the Gironde-Landes region.
We are able to provide your hemodialysis in several certified establishments, all rated level A by the HAS (Haute Autorité de Santé):

- In the center, at the Saint-Martin Hospital in PESSAC or at the CTMR Saint-Augustin in BORDEAUX,
- Also within 3 UDMs (Medicalized Dialysis Units): ARES near the Bassin d'Arcachon, or in BRUGES and GRADIGNAN, on the outskirts of BORDEAUX,
- And 8 Self-Dialysis Centers located in ARCACHON, ARES, BEGLES, BRUGES, CENON, GRADIGNAN, MIMIZAN, and ST PIERRE DE MONS.

1. UDM - Gradignan branch
2. Bègles branch
3. Cenon branch
4. Arcachon branch
5. Saint-Pierre de Mons branch
6. Mimizan branch
7. Lourd Center - Hôpital Privé Saint-Martin de Pessac
8. Lourd Center - CTMR Saint-Augustin de Bordeaux
9. UDM - Bruges branch
10. UDM - Arès branch
