COVID-19 Drive Thru Testing Moving from Bozeman Health Deaconess Hospital Parking Lot G to Parking Lot H

Here's what's happening...

As of Monday, July 27, 2020, the COVID-19 drive thru testing that is taking place in Bozeman Health Deaconess Hospital parking lot G will be moved to parking lot H. Preparation for this relocation will begin Saturday, July 18, 2020 and will include a partial Lot H closure to allow electrical and data connections to be completed. There will be more logistics and further communications on this move forthcoming.

Here's why...

Recently the high number of vehicles coming in to parking lot G for COVID-19 drive thru testing, along with the current construction vehicle traffic and the combination of employee and patient parking has caused significant traffic congestion. Because of this, the COVID-19 drive thru testing site will be moved to parking lot H to alleviate this traffic concern.
