

☑ COVID-19 Vaccine Information Update—PLEASE READ ALL THE WAY THROUGH

January 22, 2021

This message is for all Bozeman Health employees and medical staff from Incident Command.

Vaccination Information for the Week of January 25

Here's what's happening...

For those employees who are scheduled to get either their first or second vaccine next week, please review the following requirements below.

Here's what you need to do...

Please report to the COVID-19 Immunization Clinic in the conference rooms located near the cafeteria at Deaconess Hospital. ***Please come as early as possible the day that you are scheduled***; you do not need to wait until your exact appointment time. If you are getting your second dose, ***you must bring your vaccination card with you.***

Employee vaccination clinics will be held Monday, January 25 and Wednesday, January 27, from 7:30 a.m. to 12:30 p.m.

If you are an employee or provider who needs to start your immunization process, contact Employee Health to schedule your first dose at employeehealthbdh@bozemanhealth.org or 414-5566. Please do not show up at the vaccine clinic without an appointment, as we are managing the number of doses being prepared based on that day's schedule.

Here's why...

Bozeman Health is committed to doing everything we can to help with continued COVID-19 vaccine administration to our employees and providers, as well as to our patients and community. Please adhere to the above instructions regarding getting your vaccinations. We have a specific planning process to ensure every dose of the COVID-19 vaccine is used appropriately and that none go to waste. We take responsibility of the doses that we have been allotted very seriously and appreciate your help.
