The Brodesser Cancer Center

The Brodesser Cancer Center and Department of Radiation Oncology are located on the ground floor of Cape Regional Medical Center.

Varian TrueBeam™ Radiation Therapy delivers a full range of radiotherapy modalities, including RapidArc™ Radiotherapy Technology, Respiratory Gating, Stereotactic body radiation therapy (SBRT), Image-guided radiation therapy (IGRT) and Intensity-modulated radiation therapy (IMRT).

David Cho, MD is a board-certified Radiation Oncologist and Medical Director of the Brodesser Cancer Center.

CAPE REGIONAL

**THOMAS & CLAIRE BRODESSER, JR.
CANCER CENTER**

Our Comprehensive Women's Health Services provide advanced technologies, therapies, resources and support backed by Board-Certified Specialists and highly-trained professionals to guide and navigate you and your family.

Our Cancer Care Navigation Program helps you navigate through the healthcare system. Our team works collaboratively to help reduce barriers to care and give you needed support. For more information, please call 609.463.2298.

We offer the following education, healing and support programs to help you during your diagnosis, treatment and recuperation.

Look Good, Feel Better

A free program of the American Cancer Society holds regular meetings at Cape Regional Medical Center. To register, call the American Cancer Society at 800.227.2345.

Gilda's Club South Jersey

For additional information, please visit www.gildasclubsouthjersey.org or call 609.926.2699.

NJ Cancer Education and Early Detection (CEED) Program

Offers free screenings to individuals who are uninsured or underinsured. Please call 609.465.1047 (English) or 609.465.6840 (Spanish)

Lymphedema Therapy
