

## **Cass County Area COVID-19 Testing Options** (Updated November 11, 2020)

### **Rapid Testing:**

Due to the increase in cases in the Kansas City area, rapid testing is being reserved for emergency patients who are ill and require admission, emergent surgical/GI procedures, and first responders/hospital staff.

### **Cass County Health Department:**

Drive-up testing locations:

Wednesdays @ Belton Regional Medical Center, 7am-10am

Thursdays @ Cass Regional Medical Center, 7am-10am

Both are FREE to anyone who lives, works, or goes to school in Cass County. You do not have to have symptoms or an exposure to be tested. There are 150 tests available each week at each location, and you must register in advance at <https://www.casscounty.com/health>. If you do not have access to a computer, you can call 816-380-8425, press 0, and someone will work with you to get pre-registered. 2-4 day turnaround time (TAT).

### **Cass Regional-affiliated Clinics:**

*NOTE: Testing is currently limited at these locations. You must be a current patient with a provider at one of these clinics.*
