OUR PRESIDENT’S CORNER

As I have mentioned many times, “the only thing that is going to be constant during this construction time is “Change”. Some departments are going to have adjustments, one department is going to expand and there is talk of adding another department. Things are in the works and I will tell you more when everything is worked out.

Stay tuned, Stay Patient,
Keep a Positive Attitude and Keep Happy
We all need to be Ambassadors for the Hospital.

First Change

To update you from the July/August issue of The Hummingbird, I need to let you know that the Outside Food vendors are moving into the tent, so that Surgical Waiting and the Musicians can move back into the Lobby area. Also, we now have new driver seats on the golf carts for Outside Transportation.

Changes in construction

Phase 2 of the construction process is about to begin and it will start to affect existing portions of the hospital while they tie in the two sections. By now you are all aware of what happened to our cafeteria. Now Surgery Waiting and the Musicians will be temporarily relocated so they can start on the new lobby for that area. We are all going to have to be patient and work together to get through this process. Please be patient. I will try to let you know when the other departments will be moving. The only thing that is going to remain constant is “change”.

Incident Report form

Any time that you, or someone else, has, or sees, an accident on the hospital campus you must fill out an Incident Report form. These forms can be found at the Front Desk and the Day Captain’s Office. This form shall be turned into the Day Captain’s Office. In this manner we will have your side of what took place. Even if the person says they are OK you need to get their name and record the incident because we have had people come back later and file a claim. With this form we have an on the spot report of what happened. Naturally, if someone is hurt you need to call Security and Risk Management first then, fill out your report.

continued on page 2
The total volunteer hours for the April through June quarter were:

40,275

Parrot Heads

If you are a member of the “Parrot Head” club let the Auxiliary Office know and you will be added to their report. The Parrot Head club gives recognition to their members that volunteer in other areas. If you belong to any club that gives credit for volunteer hours get the information to the Auxiliary Office and we will add them to the list. Have an officer send the information so we know their needs.

American Legion

I am working with the American Legion to get them set up now. They get credit for their members that do any volunteer work. If you are a member of the American Legion send a notice to the Auxiliary Office and when everything is set up you will get credit there too.

Thank You!!

I know that we are going through some trying times. The end result will remain worth all the trouble, if we just be patient and roll with the changes. I truly appreciate everything that everyone does to help and support the Hospital and Auxiliary. Thank You, Thank You, Thank You.

~~ Jim Lemon, Auxiliary President

SNOW BIRDS Will soon be coming back.

There has been some confusion and apprehension about having Snowbirds. Snowbirds are most welcome and are an asset to our organization.

When a snowbird leaves to go back north:

- they must fill out a “Leave of Absence” form and state the start date and approximate return date.
- If they want the same position when they return THEY MUST find their own substitute for the entire time they will be gone.
- Otherwise when they return they have 4 choices:
  1. If the chairman has not filled that position they may once again step right in.
  2. If the chairman has another day/time slot available the Snowbird may fill that spot if it fits their availability.
  3. The Snowbird may become a SUB in that department. Every department needs Subs and they usually can be busier than a regular shift, if they want to.
  4. The Snowbird may fill out a “Transfer Form” and give it to the VPO and move to a different department.

The Day Captain’s Office, 751-8622 is staffed
8:00 - 4:00 pm, Monday-Friday and 9:00 am - 1 pm, Saturday and Sunday.

The Auxiliary Foundation Office, 751-8871, is staffed Monday through Friday, 9 am-2 pm.
Jim Says ... BRAVO PR DEPARTMENT VOLUNTEERS!!

A huge THANK YOU goes to Carol Hughes, Chairman of the PR Department, for our Discount Coupons. This is just another of her many “brainchilds” that she followed through on her own and delivered a very nice “Perk” for the Auxiliary Volunteers. Please thank Carol when you see her. I also think that we should thank the businesses that are offering this “appreciation perk” to the Volunteers, and a few also included ALL hospital personnel. You should have been sent an email with the coupons in it. There are also some at the sign in kiosk. And they are inserted in this newsletter.

YOU MUST HAVE YOUR Badge ON TO RECEIVE THE DISCOUNT.

New Volunteers

The PR department has done a wonderful job of recruitment and the last 3 classes to go through Orientation have been large. We currently have most all of our positions filled (finally) but we still need more volunteers so that when the new section is completed they will be ready to move right in and fill those positions. In the meantime, some departments may finally be a little over loaded. We can’t wait until the new section opens and then try to have a heavy recruitment because it takes time to train people and we will need them at all once. Please be patient and work with us. We will need you, and even more, soon. We are even looking for more opportunities to assist the Hospital.

Jim Says ... HELP NEED!!

ATM/AUXILIARY OFFICE

The ATM department and the Auxiliary Office are in need of a few volunteers. If you enjoy working with computers, doing data entry etc. please contact the Carol Hughes, VPO department and either add another shift or transfer into one of these departments. Carol Hughes our PR Chair at 302-722-3621 or carhughes@cfhalliance.org

ATM – ANNUAL AND NEW VOLUNTEERS & TB TEST

In an effort to streamline and control the ATM test and the TB Testing procedure there will be a few changes. (See article on page 8). A new test that will now need to be taken at the same time as the ATM test is a TB Surveillance questionnaire. This is a simple questionnaire taken on the computer. Sarah will also explain this. The Outside Transportation Drivers will need to take an Eye Exam at this same time. New volunteers will do this when they go through their introduction process and existing volunteers will need to do this annually in their birth month. These tests must be taken annually and we will start tracking whether or not you have taken these tests for compliance with the Joint Commission.

Sarah Ralph and Dottie Williams are going on a leave of absence in September so we need 2 or 3 people ASAP. Our organization is growing very rapidly so we need at least one more person in the Auxiliary office to help. Please consider these opportunities.

~~Jim Lemon, President

VALET PARKING

The Village Regional Hospital has had valet parking on their wish list for a long time. On July 1, this wish came to fruition due to the generosity of the community to the Auxiliary Foundation. Because of the limitation of parking and our age demographics ParkMed, Inc. was hired for this service and has been handling about 100 cars a week. Patients and visitors are experiencing the benefits of this service, at a minimal charge of $3. (This is very reasonable in comparison to other places that offer this same service.) Park Med opens the passenger door, assist the patient, as needed, while the driver fetches a wheelchair and then relieves the driver of the responsibility of parking their vehicle thereby allowing the driver to give full attention to the patient.

The service offers a great stress relief for both the patient and visitor especially when the weather adds its challenges to the already situation of an emergency or medical check up.
NEXT YEAR’S CRUISE FUNDRAISER APRIL 2015

Now you have the opportunity to consider going on the one next year. It will be for 7 nights, Starting April 11, 2015, going from Miami to Nassau and Bermuda, then back to Miami. We are fortunate to have Ocala Travel and Shelley Morjoseph working together to plan this great fundraiser.

Prices: Inner cabin ...$769, Ocean View cabin ...$919, and Balcony cabin ...$1,029. There is a $100 deposit per person with final payment due January 20, 2015. For more information call Sharon Kaminski at 352-205-5515. (See the flyers posted around the hospital.)

WITH SADNESS

Kathleen “Casey” Conway Hagerman, 71, from The Villages, Florida was born October 9, 1942 in Springfield, Illinois died July 9, 2014 at Hospice House, The Villages, FL. “Casey loved everybody and everybody loved Casey”. Her love and devotion to her family, friends and Catholic faith was her life. After retiring from the Department of Human Services, State of Illinois she and husband Gene moved to The Villages in 2003. In lieu of flowers memorial contributions may be made to The Villages Regional Hospital Auxiliary.

JIM LEMON about Casey Hagerman: Casey passed away in July. She had been a volunteer for a number of years and was a Day Captain. She was very good at her job and always had a smile on her face. We will miss her. Our prayers go out to her husband and family. I was happy to see a lot of volunteers at her service. One suggestion I have is that we wear our uniform to a service to show support and appreciation of all that the person did for our volunteer organization.

DOROTHY HOOD - HORSESHOE WINNER! TELLS HER STORY

I grew up on a farm in WV as #8 in my family. My brothers were all good Horseshoe pitchers and would not let “The Babe” play, as she was too little. So my Mom took me aside (she was a great Horseshoe pitcher), and taught me how to practice on just pitching ringers, like my older brothers did. It became my sport.

Over the years we did back yard pitching, then after retiring and moving to Arizona, I joined a league and began Tournament pitching. I pitched in the Hacienda Casino in Las Vegas in 1995 and was the only woman in my division of 26. It was a week long and I came in second place.

We then moved to The Villages and I joined two Horseshoe Leagues and played in the Florida Senior Games and was honored in 2010 as the most decorated gold medalists of the decade in Horseshoes, this was written up in The Villages Magazine, January 2010 issue, Special Health Issue.

I have entered many tournaments locally and in other states and had many wins. My daughter, Michelle, who lives in Va, decided to honor me this past Mothers Day with my very own Sport Cards with my stats on it. She said she wanted a true testament for me in the spirit of my love for my sport over the years and the active quality of life that her 78 year old Mother has had. I loved my Mother Day Sport cards and made sure all my children, grandchildren, great-grand children and close friends received a card. I truly have enjoyed every year of this sport and look forward to enjoying the active life that is offered to seniors in this wonderful community.

Editor’s Note: Dorothy has volunteered in SICU since June 2012. Her chairperson hooked The Hummingbird up with her. Thank you Dorothy and Alice for this contribution. Dorothy is presently on leave for a broken arm. We hope to see her back on duty soon.

BE SURE TO STOP AT THE GIFT GALLERY

There are always lots of new items including hats, purses, scarves, toiletries and home deco pieces. You need to stop in frequently as new items arrive and get sold very quickly!

We would also like to thank all the volunteers and hospital employees for shopping with us!
The YOTS Fashion Show all started when the President of the Women’s Guild at St. George Episcopal Church, Peg Busch, and her Board decided they should do something to encourage more women of our church to participate in Women’s Guild activities. They decided to have a Fashion Show. Peg and I are friends and she knows I volunteer at Ye Olde Thrift Shoppe so she asked me if I would be willing to head up the Fashion Show. Only the models and Board members knew that the fashions were coming from a Thrift Shoppe.

They expected to attract about 30 women and since it was not intended to be a money maker they decided to charge only $5.00 for the tickets, just to cover the cost of a small lunch. The Board also announced that members could bring a friend who was not currently in the Guild.

WELL!! a Fashion Show AND a lunch for $5.00? They were the hottest ticket in town and the original 30 became 60 tickets and finally they had to stop selling at 96 tickets because of the room capacity. It was one of the largest attended Guild Meetings in our Guild’s history.

Now my function began. Thinking it over, I decided that it could be a WIN/WIN situation for both the Women’s Guild of St. George as well as Ye Olde Thrift Shoppe. I asked the YOTS Clothing Manager, Kate Peak, if it would be feasible for me to use the clothing for our Fashion Show and possibly sell some of them at the show. I also asked her to be the Narrator and assured her I would take care of the writing of the narration and description of the pieces of clothing that would be modeled.

It was decided by the Guild that the models should be ladies who are members of the Guild. They were selected by our Guild Vice President, Pat Hyde. I had the task of collecting items in various sizes and putting together what I considered to be attractive outfits from the many donations that pour into our clothes area. Of course, each time I went in, I found more things to add to the groupings. I think Kate began to hide things from me so I wouldn’t take all her inventory!

The day for trying on the various outfits was like a Chinese Circus. Thankfully, it was held on a Monday afternoon so we didn’t upset the Shoppe’s business. Many things didn’t work or fit the intended model, so they proceeded to “go shopping” in the racks to find things we thought would be nice for the show. When the outfits were finalized, Kate and I organized them by model, designer, size and price. We didn’t leave that day until 7:30 pm.

Then the REAL work began… Each model’s selection of clothing was scrutinized to see that buttons, hooks and eyes, any unusual marks were addressed and repaired and everything was ironed. Accessories were selected to complete the look wherever possible, and handbags and jewelry were also brought along for sale the day of the show. (continued on page 8)
The show began with Ginette Olson, wife of our Assistant Rector, modeling an outrageous outfit which was described as being designed by “Mortica Addams”. This definitely set the tone for fun. Then Kate announced that the outfits they were about to see came from “THE YOT’S FASHION BOUTIQUE in Lady Lake” and went on to tell them that YOTS was an acronym for “Ye Olde Thrift Shoppe” and was run by TVRH Auxiliary. The crowd was pleasantly surprised to see such lovely fashions from a thrift store and at such fantastic prices.

Many of the volunteers from YOTS bought tickets and Kate thought it would be fun if they all showed up wearing clothes they had purchased at the thrift store. At the end of the show Kate asked them all to stand and show their YOTS bargains to the crowd.

After the show, many of the outfits were purchased by the models themselves and almost everything we brought was sold. Needless to say, it turned out to be much more work than I had bargained for, but it was a huge success. The Shoppe made about $300 at the event… not bad considering the prices of the items range from $2 to $11.

If you haven’t visited YOTS you are missing out on some great bargains so stop by. The Shoppe is open Tuesday through Saturday from 10:00 a.m. to 4:00 p.m. and is located just two blocks south of SR 466 and just off US Highway 441/27 in the Lady Lake Historical Park.

Photos courtesy of Dick Griffith, a member of St. George Episcopal Church.

FINALLY THE GROUP PHOTO SHOWS INA (FAR LEFT) AND KATE PEAK, THE NARRATOR, ALSO FROM YOTS. 

WOW, TVRH HAS A ROBOT
DID YOU KNOW IT?

A Robot is pretty exciting news. His name is “da Vinci”. The da Vinci System features a magnified 3D high-definition vision system and tiny wristed instruments that bend and rotate far greater than any human wrist. As a result, da Vinci enables our surgeons to operate with enhanced vision, precision, dexterity and control.

Minimally invasive da Vinci uses the latest in surgical and robotic technologies, da Vinci is beneficial for performing routine and complex surgery. Our surgeons are 100% in control of the system, which translates the surgeon’s movements into smaller, more precise movements of tiny instruments inside a body. da Vinci – is taking surgery beyond the limits of the human hand.

There is no longer a need for residents in our surrounding area to travel long distances for cutting-edge technology anymore. Now we can offer a greater range of assistance to urologists, gynecologists, abdominal and thoracic surgeons in our on area.

Da Vinci offers the ability to perform complex procedures through smaller incisions, and often in a faster recovery time, with minimal scarring and pain and decreased blood loss, which amounts to shorter hospital stays and quicker return to daily activities.

Don Henderson, our president and CEO of Central Florida Health Alliance says, “TVRH is proud to add this capability to our ever-growing list of services.”
NEW PROCEDURES FOR ATM, TB AND VISION TESTING

Recently, there has been a push to enlist more volunteers in anticipation of the TVRH expansion scheduled for an opening date of February 2015. Because of this, the administration of ATM and TB testing/screening has become bogged down.

Effective August 12th we implemented a new procedure that we are hopeful will streamline and make the process for the captioned testing to be handled more rapidly and be less cumbersome for our Volunteers. Having said that, we did find a few problems the first day we tried it and by the time you read this we will have diligently worked toward alleviating them.

The 3rd floor Computer Room in the East Campus will be open EVERY Tuesday from now until the end of this year so that existing Volunteers can take the ATM Test and complete the newly introduced TB Surveillance Form. New Volunteers and Golf Cart Drivers are still being scheduled to take the captioned testing’s EVERY OTHER Tuesday.

If you are not computer literate, one of the ATM Volunteers will complete the form for you by asking you the questions required.

WHAT ARE THE SIGNIFICANT POINTS TO THIS NEW PROCEDURE:

- Every other Tuesday, the Nursing Staff will come to the 3rd floor computer room hourly beginning 8:00 a.m. to 11:00 to administer 1st and 2nd TB shots and VISION EXAMS for Golf Cart Drivers (both New and existing Volunteer drivers)

- On the following Friday morning at 8:00 a.m., the Nursing Staff will be at Orientation in the Sharon Morse Bldg. in Classroom 520 to exam the arms of the Volunteers who had their TB shot the previous Tuesday.

- At the time the annual recertification for existing Volunteers is administered, an online TB Surveillance form must be completed. A confirmation number will be automatically generated by the system, which the Auxiliary will keep track of and Employee Health will be able to retrieve the record. This procedure is mandated in lieu of having a TB shot annually.

One of the questions involves medications, please be prepared to answer that question....perhaps it would be advisable to bring a list of your medications with you.

Listed below are the dates that should be followed for the months of September and October

FOR NEW VOLUNTEERS & GOLF CART DRIVERS
(both new and existing)
September 9th & September 23,
October 7th & October 21st

FOR ANNUAL VOLUNTEERS
Any Tuesday.... keeping in mind that it may be quicker if you can avoid coming in on the same days as New Volunteers and Golf Cart Drivers - that is up to you, however.

The location: East Campus - 3rd floor Computer Room
The time: 8:00 to 12:00 pm.

It is mandatory that every volunteer be recertified annually during their birth...
