

Disclaimer

The information contained in this Charge Description Master (CDM) listing is specific to Capital Region Medical Center. The charges in this CDM were valid on April 1, 2018 and will be updated annually. Charges may have changed since that date due to changes in technology, the addition or elimination of services or changes made by the manufacturers and suppliers, including the cost of goods and services. This CDM includes all standard items that are available and potentially chargeable to CRMC Health Care patients, insurers, guarantors. The charges contained in this CDM are the same for all patients of CRMC regardless of insurance carrier or coverage. The charges do not reflect expected payment. Capital Region provides a self-pay discount for our patients who are uninsured along with options for additional financial assistance for our patients meeting income, resource, and medical need eligibility criteria.

For information on Financial Assistance eligibility please visit our web page or contact Financial Counseling department at 573-632-5029.

Please note that the bill for a hospital stay or an outpatient service includes many CDM items, including charges for accommodations and/or use of special facilities such as the operating room, supplies, devices, procedures, diagnostic tests such as radiology, laboratory tests, and pharmaceuticals.

Due to the wide range of services that may be provided during a patient's outpatient visit or hospital stay, this CDM should not be utilized to estimate the full estimate or final patient charges in advance of a visit or stay. Patients may contact Financial Counseling to request an estimate of patient financial responsibility prior to receiving services. Please provide CPT code(s) for service you are inquiring about.

Disclaimer

This section includes standard charges for room and board at CRMC Health Care facility. Room charges will vary based on patient acuity, nurse to patient ratios, and various monitoring and equipment needs. At CRMC, the daily room charge may include commonly used supplies and procedures. The daily room and board charges include general duty nursing care, standard bed/mattress, routine personal convenience and hygiene items, most routine "floor stock", items that would be generally available to all patients, local phone calls, television, dietary and housekeeping. Items or services that are special ordered by physicians are generally not included in the daily room charge. Most treatments or services provided by ancillary departments - such as respiratory therapy, laboratory, rehabilitation, etc. - are separate distinct services that are required to bill separately.

Disclaimer

This section includes standard charges for emergency-related services provided at CRMC Health Care. Emergency room visits also may require diagnostic tests such as laboratory or radiology imaging. Please refer to those sections for charges related to those services. Emergency room charges do not include services provided by the emergency room physician. Emergency Physicians will bill separately for their professional service thru Team Health.

Disclaimer

This section includes standard charges for laboratory-related services provided at CRMC Health Care. Hospital laboratory charges do not include services provided by the pathologist for interpretation of the specimen. Often, a pathologist service may involve a biopsy or tissue analysis. Physicians will bill separately for their professional service.

Disclaimer

This section **includes the cost and not the charge** for pharmaceutical-related services provided at CRMC Health Care. We use the Average Whole Sale Price to determine cost. Most are based on units used determined by weight and units prescribed. These charges also are including medical supplies, medical equipment and devices, and prescribed medications. Pharmaceutical-related services are typically used in the delivery of services such as surgery, diagnostic testing, hospital admission, clinic visit.
