

# Greater Together.

*"I have been overwhelmed by the quality of Cuero Community Hospital and the responsiveness and courtesy of its staff. I have been pleased with the pain management and nephrology treatment I have received through Outpatient, and also with the staff and care in the Physical Therapy Department. They have helped me get back to the work I love doing for the City of Cuero's museums."*

- Wayne Adickes, Cuero Resident,  
Recipient of the Larry Carter Community Service Award 2016
