CUERO REGIONAL HOSPITAL
BOARD OF DIRECTORS MEETING

May 28, 2020

The Board of Directors of Cuero Regional Hospital held their annual meeting, via conference call, on Thursday, May 28, 2020, Cuero Regional Hospital, DeWitt County, Texas, at 5:30 P.M. The agenda was posted in compliance with the Open Meetings Act. A board packet was posted online at cuerohospital.org, along with a dial in Toll-Free number and access code.

Board members present via conference call were:

Mr. Richard Wheeler, Chairman
Mrs. Faye Sheppard, Vice Chairman
Mr. Charles Papacek, Secretary
Dr. John Frels, DDS, Member
Mrs. Cindy Sheppard, Member

Leadership members present were:

Mrs. Lynn Falcone, Chief Executive Officer
Mrs. Alma Alexander, Chief Financial Officer
Mrs. Judy Krupala, Chief Nursing Officer
Mrs. Denise McMahan, Assistant Administrator
Dr. David Hill, Chief Medical Officer
Mrs. Kathy Simon, Administrative Assistant

Guests: Mr. Geoff Crabtree, Methodist Healthcare System, Ms. Allison Flores, Cuero Record

The Board Chairman called the meeting to order at 5:30 p.m.

CALL TO
ORDER

Oath of Office was sworn to by Mrs. Cynthia Sheppard via conference call. Mrs. Sheppard will swear to the Oath of Office before Mrs. Kathy Simon, Administrative Assistant/Notary at a later date. Mrs. Cynthia Sheppard was an incumbent member.

OATH OF
OFFICE

The Chairman opened the floor to nominations for the election of officers. Dr. Frels moved, Mrs. Cindy Sheppard seconded, to elect the current officers (by acclamation) Mr. Richard Wheeler as Chairman of the Board, Mrs. Faye Sheppard as Vice-Chairman of the Board and Mr. Charles Papacek as Secretary of the Board, the motion carried unanimously.

ELECTION
OF OFFICERS

The Chairman of the Board reviewed the current committees and appointments. Mr. Charles Papacek moved, Mrs. Cindy Sheppard seconded to approve the current committees and appointments as presented, the motion carried unanimously.

COMMITTEE
APPOINTMENT

Medical Staff appointments were brought to and approved by the Board in June 2019 and were approved through 2021.

MEDICAL
STAFF
OFFICERS

Cuero Regional Hospital
Board of Directors Meeting
2

Dr. John Frels moved, Mr. Charles Papacek seconded, to adjourn the annual meeting and move into the regularly scheduled monthly meeting; the motion carried unanimously. The meeting adjourned at 5:37 p.m.

Charles Papacek, Secretary

CUERO REGIONAL HOSPITAL
BOARD OF DIRECTORS MEETING

May 28, 2020

The Board of Directors of Cuero Regional Hospital held their regular monthly meeting, via conference call, on Thursday, May 28, 2020, Cuero Regional Hospital, DeWitt County, Texas, at 5:38 P.M. The agenda was posted in compliance with the Open Meetings Act. A board packet was posted online at cuerohospital.org, along with a dial in Toll-Free number and access code.

Board members present via conference call were:

Mr. Richard Wheeler, Chairman
Mrs. Faye Sheppard, Vice Chairman
Mr. Charles Papacek, Secretary
Dr. John Frels, DDS, Member
Mrs. Cindy Sheppard, Member

Leadership members present were:

Mrs. Lynn Falcone, Chief Executive Officer
Mrs. Alma Alexander, Chief Financial Officer
Mrs. Judy Krupala, Chief Nursing Officer
Mrs. Denise McMahan, Assistant Administrator
Dr. Paul Willers, II, Chief of Staff, arrived during the Chief Nursing Officer report
Dr. David Hill, Chief Medical Officer
Mrs. Kathy Simon, Administrative Assistant

Guests via conference call: Mr. Geoff Crabtree, Methodist Healthcare System, Ms. Allison Flores, Cuero Record

The Board Chairman called the meeting to order at 5:38 p.m.

CALL TO
ORDER

Community Input: None

COMMUNITY
INPUT

Mr. Charles Papacek moved, Mrs. Faye Sheppard seconded, to approve the minutes of the regular called meeting on April 23, 2020 and the emergency called meeting on May 7, 2020 as presented with one typographical change to the May 7, 2020 minutes (Payroll to Paycheck); the motion carried unanimously.

MINUTES

The Chief Financial Officer's Financial Statement and Statistical Report were provided. The Chief Financial Officer spoke on hospital financials and on clinic financials. The reports were accepted as presented. The Quarterly Investment Report was for information only.

FINANCIAL/
STATISTICAL

There were no appointments or reappointments for the Chief of Staff to report this month.

MEDICAL
STAFF

The Marketing and Development Director report was provided and consisted of a list of

MARKETING

advertising and current events. Mrs. Sheppard noted the generous support of the community towards the hospital. Mr. Wheeler noted the Best of the Best Awards that were listed in the report.

The Clinic Administrator's report regarding operations and KPI was provided.

CLINIC
LEADERSHIP

The Assistant Administrator's report on Quality/Safety, Finance, and Community was provided.

ASST. ADMIN.
REPORT

The Chief Nursing Officer's report on Quality/Safety, People, Growth and Community was provided. Mrs. Krupala noted that we had our first dialysis patient and everything went well.

CNO REPORT

The Chief Executive Officer's report on Quality/Safety, People, Growth and Community was provided.

CEO REPORT

The Quality report was reviewed.

QUALITY

There was no new compliance information noted.

COMPLIANCE

Committee Reports: None

COMMITTEE
REPORT

Old Business: None

New Business:

The Chairman of the Board reviewed the results of the board's self-evaluation and discussed with the other board members.

BOARD EVA

The Chairman of the Board reviewed the results of the Board's evaluation of the Chief Executive Officer.

CEO EVAL
BY BOARD

The Chief Nursing Officer presented the Semi-annual Review of the Nurse Staffing Plan for October 2019 through March 2020. Highlights of the plan included, (1) average daily census for each nursing unit; (2) patient falls; (3) work related injuries/illnesses; (4) staffing utilization; (5) validated patient complaints; (6) readmission rates; (7) skin breakdown; and (8) patient satisfaction tool. Dr. Frels moved, Mrs. Faye Sheppard seconded, to accept the Semi-annual Review of the Nurse Staffing Plan for October 2019 through March 2020 as presented with one correction of transposed numbers; motion carried unanimously.

NURSE
STAFFING
PLAN

The Assistant Administrator reviewed the 1st Quarter QA/Risk Management/Safety Report. Mr. Papacek moved, Dr. Frels seconded, to approve the 1st Quarter QA/Risk Management Safety Report; the motion carried unanimously.

QUARTERLY
QA/RM/SAFI

The Chief Financial Officer presented the Investment Policy with no changes noted, a

INVESTMEN

Cuero Regional Hospital
Board of Directors Meeting
3

resolution to Adopt Investment Strategies of DeWitt Medical District with no changes noted, and the List of Approved Investment Brokers with no changes noted. Some minor typos had been corrected prior to the meeting and the items resent to the board for review. Dr. Frels moved, Mrs. Cindy Sheppard seconded, to accept the Investment Policy, Strategies and Approved Investment Brokers List with minor typo changes; the motion carried unanimously.

POLICY/
STRATEGIES
APPROVED
BROKER

The Board Chairman requested the board to table the Annual Audit Report and board education by BKD, LLC until the board is able to meet in person. Dr. Frels moved, Mr. Papacek seconded, to table the BKD, LLC Annual Audit Report and board training until the board meets in person; motion carried unanimously.

ANNUAL
AUDIT - BKD

The Chief of Staff reviewed revisions made to the Medical Staff By-Laws. Mrs. Faye Sheppard moved, Mr. Papacek seconded, to approve the revisions made to the Medical Staff By-Laws as presented; motion carried unanimously.

MED STAFF
BYLAW
REVISIONS

The Chief Executive Officer and Senior Leaders gave an informational overview and answered questions regarding current Capital Risks.

CURRENT
CAPITAL
RISKS

The Chief Financial Officer presented a resolution to be approved by the Board to authorize Lynn Falcone, CEO, Alma Alexander, CFO and Denise McMahan, Assistant Administrator to sign checks for all accounts with Prosperity Bank. The resolution also removed Greg Pritchett, Clinic Administrator, from all accounts. The resolution gives authority for Laura Tiffin and Samantha Sutton to discuss banking accounts with Prosperity Bank. It was further resolved that a check would require two signatures and that these signatures will be valid until such time as the Board would pass a new resolution and that such a resolution with the most current date shall have precedence over and other resolutions. Dr. Frels moved, Mr. Papacek seconded, to sign in support of the resolution regarding Prosperity Bank as presented.

RESOLUTION
PROSPERITY
BANK
AUTHORIZED
USERS

The Assistant Administrator requested the capital expenditure purchase to replace two Radiometer ABL80 Flex Blood Gas Analyzers. A quote from IL GEM 4000 for \$17,700.00 was recommended. Mrs. Cindy Sheppard moved, Mrs. Faye Sheppard seconded, to approve the capital expenditure purchase up to \$17,700.00 from IL GEM 4000 to replace two Radiometer ABL80 Flex Blood Gas Analyzers; motion carried unanimously.

2 RADIOMETER
ABL80 FLEX
BLOOD GAS
ANALYZERS

The Chief Financial Officer is requesting authorization from the Board for the CEO or CFO to be able to sign a Surgical Equipment Service Agreement that will have a longer term than that of the Methodist Healthcare Agreement. Mrs. Faye Sheppard moved, Mrs. Cindy Sheppard seconded, to approve the authorization of the CEO and/or the CFO to sign a Surgical Equipment Agreement that will have a longer effective term than the current Methodist Healthcare Agreement subject to resolution of some contractual findings; motion carried unanimously.

AUTHORIZATIO
TO SIGN
SURGICAL EQL
SERVICE AGRM

The Chief Executive Officer and Chief Financial Officer discussed COVID-19 Pay. This was discussion with the board only.

COVID-19 PAY

Cuero Regional Hospital
Board of Directors Meeting

4

The Board entered Executive Session at 7:09 p.m. under Texas Government Code Section 551.074. Personnel matters relating to the appointment, employment, evaluation, discipline or dismissal of an officer or employee.

EXECUTIVE
SESSION

The Board exited Executive Session at 7:30 p.m. At 7:32 p.m., Dr. Frels moved, Mrs. Cindy Sheppard seconded to approve the performance excellence plan summary and bonus for the CEO and CFO as presented; the motion carried unanimously.

ADJOURN

There was no further business; Mrs. Faye Sheppard moved, Dr. Frels seconded, to adjourn; the motion carried unanimously. The meeting adjourned at 7:34 p.m.

Richard Wheeler, Chairman

Charles Papacek, Secretary

Hospital Net Operating Income at \$779.6K, was positive for the month of May, higher than Budget and Prior Year. Federal Cares Act Relief Fund dollars were received in May for the Hospital and Clinics, totaling \$3.9M. A total of \$1.2M in revenue was recognized for the Hospital and RHC, consolidated. Without the Relief Funds, consolidated net loss from Operations would have been \$106.4K due to continued effects of COVID19. The breakdown of revenue and expenses performance indicators were as follows:

NET REVENUE:

- Hospital Patient Net Revenue was lower than Budget by \$27K mainly due to lower Patient Days (25) and ER visits (188). The lower volume due to continued effects of COVID19, drove the variance lower by \$384K. A positive rate variance by \$356K was driven by a strong Case Mix for Managed Medicare (up by 8%) and Payor Mix with higher Medicaid up 17.7% and Managed Medicare up 6.33%. In addition, higher Surgeries by 6 contributed to the positive rate variance. Ortho cases were higher by 3, Gen Surgeries were up by 4 and Podiatry were up by 11
- Additional COVID-19 Stimulus funds were received through the Cares Act Relief Fund. Revenue was recognized for the Hospital at \$826K in May, covering revenue losses and expense increases from Mar- May due to COVID
- Supplemental dollars were adjusted for the final FY 20 UC payments. UC and DSH payments for the year will total \$962K

EXPENSES:

- Total Expenses were lower than Budget by \$283K due to lower expenses compared to Budget in several categories. Salaries were lower than Budget by \$48.7K due to lower FTEs caused by lower volume. FTEs were lower than Budget by 10.9. Supplies were lower than Budget by \$161K due to lower Implant costs (\$76K), Pharmaceuticals (\$32.1K), Med/Surg (\$12.3K), and Supplies Charged to Patients (\$18K). No Spine cases were performed in May. Purchased Services were lower than Budget by \$68.7K driven by lower Utilities (\$22K), and Prof Services (\$38.6K). Professional Contracts were up \$22K due to higher ER Physician expense with Southwest collections lower due to lower volumes

CLINICS:

- Clinic Net Operating Income at \$303K was higher than Budget due to revenue from the Cares Act Relief Fund for RHC clinics. RHC Net Operating Income was positive at \$302K, higher than Budget by \$282.8K with \$363K in COVID19 funds recognized as revenue. Without the special funds, the RHC loss would have been \$60K due to lower volume (down 1,945 visits). Expenses were also driven lower due to volume with Salaries and Supplies down in May. Specialty Clinic positive income of \$746 was due to higher surgery volume. General Surgeon loss was lower than Budget by \$6K and Podiatry income was higher than Budget by \$9.7K. Both variances were driven by higher surgery volume (General Surgeries 4 and Podiatry up 11, as mentioned above

OTHER:

- Wellness Net Operating Income was negative at \$20.2K, lower than Budget by \$43.9K mainly due lower Revenue by \$49.9K. The Wellness Center was closed most of May due to COVID19 guidelines from the State
- 340B Net Operating Income was lower than Budget by \$33K, mainly due to lower Revenue by \$42.5K driven by lower clinic volumes from COVID19 effects
- Capital Expenditures - update: Electrical upgrades Phase 1 complete, Phase 2 in progress - \$1.1M through May; Computer Network Optimization - phase two in progress - \$401.4K spend of \$898M Budget; and 3D Mammo - \$480K. Current Capital Risk estimated spend \$1M in addition to projects in progress

Marketing and Development Board Report June 2020

- **Marketing Campaign Reporting/Analytics:** Review reporting for all campaigns and see the creative for May/early June:
<https://www.dropbox.com/home/Board%20Report%20June%202020>
- **Video**
 - We did not run on YouTube in April or in May to help watch our expenses, but did resume our YouTube Preroll campaign with Wood Agency in early June, so reporting will come in the next board report.
 - For June, we are rotating two :15 spots – 3D Mammograms (<https://www.youtube.com/watch?v=ilqUSJRBfO0>) with 5.7k views since the campaign started and Cardiopulmonary Rehab as of June 11. (<https://www.youtube.com/watch?v=PhyA0xUD1sA>) with 5.6K views since beginning of June as of June 11.
- **Social Media**
 - We didn't see as much growth with Facebook over past 28 days as COVID-19 hit a lull. We are still right behind Citizens with 3K and ahead of other rural hospitals with similar markets that I compare us to.
 - Twitter and Instagram continue hold their numbers.
 - Social media posts continue to be the main driver of traffic to our website at this time. Thanks to our partnership with Coffey for our website, we have had access to great material to share on social, as well as great info from Methodist as well!
- **Website**
 - Reporting is included in the Dropbox link above. We received April reporting as well. Happy to report website traffic growth! Seeing increase over April. 5.6K users and 7.2K sessions!
 - Emily continues to work on SEO to increase search engine referrals to the site. This is done with particular keywords and metatags used when new content is posted to the site.
- **Public relations**
 - Dueling Pianos (scheduled for Friday, July 24th) promotion – posters printed and distributed, press releases sent out, videos running on social media and boosted and tables are selling quickly!
 - New date for the Baby Fair – Saturday, Sept 26. Working with leadership on the Childbirth Center space to have logo/mission added to accent wall, as well as visuals in the space.
 - Press releases are seeing great traction and coverage due to slight lull period with COVID-19. Seeing great response from local media after releases submitted.
- **Development:**
 - **From Bump to Baby: Family and Baby Expo/ Fair** – rescheduled to Saturday, Sept. 26th. Currently working to finalize the speaker schedule, attendee flow through the facility and finalizing external vendors to come in for the event.
 - **Cuero Health was featured in the new #CrossroadsCares spot** developed by Building Brands Marketing, the firm that does our video production. It will be playing on local traditional media, as well as digital/social media: You can download the original video file here: <https://vimeo.com/406692101>

- **Save the date** for July 24th Dueling Pianos, Sept. 8th 50th anniversary event at the Venue, Sept. 26th baby fair at CRH, Oct. 10th Turkey Trot 5K, Oct. 20th Runway for a Cure
-
- **Coverage in mid-May on to June 12:**
 - **To see all press releases submitted to area print, radio, TV, magazines, etc, visit:** <https://www.cuerohospital.org/news/>
 - **Access Physicians:**
 - **Unveiled their case study and video on telecardiology.** Lynn did a great job. They are running ads to point to it, and as I was searching for articles on the local TV website, I was served an ad that pointed to the case study! <https://accessphysicians.com/telecardiology>
 - **Cuero Record:**
 - **May 13** - <https://www.cuorecord.com/columns-opinions/falcone-thanks-hospital-staff-incredible-work>

Clinic Administrator Report

- Continuing to hold Clinic Leadership Meetings to keep directors focused and engaged; group doing very well
- Regular rounding on physicians
- Working with IT to upgrade Allscripts so that Appropriate Use Imaging requirements can begin to be tested and used before January 2021. This will require update of a 2008 virtual server
- Continuing to look for appropriate After Hours Candidate. Several interviews held but the right candidate is not been located. Re-assessing immediate need given volume reduction with COVID19
- Working to re-start veterans assessment visits with LHI; good cash pay visits.
- Working with Dr. Heard and Dr. Barth on retirement plans
- Candidate to visit on 6/29

Assistant Administrator
Board Report
June 2020

Quality/Safety

1. The city installed the new 480 volt transformer on June 9th with no issues. The generator is now working properly.

Finance

1. The 3D Mammography was installed the 1st week of June. We have begun a marketing campaign to advertise this new service.
2. The Wellness Center is now operating at 50% capacity. Swimming lessons have begun and they currently have 35 kids signed up for lessons.
3. The lab should be receiving 2 Sofia machines during the last week of June. These machines will not only provide better sensitivity for flu and RSV tests, they will also enable us to complete a COVID 19 test in approximately 45 minutes.

Community

1. We participated in the community parade at the local nursing homes on June 9th.
2. Employees volunteered 53.5 hours in May.

BOARD REPORT
NURSING ADMINISTRATION 6-12-2020

Safety/Quality

- We had 3 inpatient falls in April, with 1 minor injury. We also had 1 ER patient fall.
- We were 100% compliant with our Sepsis patients in April. We had 8 patients. Jill Saenz, QA Director, is performing a Root Cause Analysis with staff.

People

- An Ultrasound-guided Intravenous Access Class was provided for 8 of our nursing staff on 6-12-20. Introducing this skill into the hands of our nursing staff will positively influence patient outcomes, reduce delays of care and peripheral intravenous insertion attempts. The 8 staff members will then train additional nursing staff.
- We will conduct our last educational session on our new cardiac monitors on 6-22-2020. We will then place our new units into the departments. These units will have the capability of capnography which is a monitoring tool to measure the concentration or partial pressure of carbon dioxide in the respiratory gases.
- The Med Surg Nursing Unit received 13 replacement phones from WestCom. The company replaced our PIVOT phones with Versity phones at no additional cost. The PIVOT phones were difficult to use with cumbersome phone features. The staff experienced delayed and missed patient calls with the phones. WestCom is the vendor of our nurse call system. That interfaces with the phones.
- Our COVID Unit remains operational.
- We have had 2 dialysis patients in our hospital.

Growth

- Cardio/Pulmonary Rehab. began in June. We have 2 patients scheduled. Marketing materials have been developed and Jennifer Janssen, Cardio/Pulmonary Director is sending letters to announce our services to potential patients. The service is located in the first room of the Day Surgery Unit.

Community

- The residents of Cuero Nursing and Whispering Oaks smiled and waved during the Senior Parade.

Yours in service,

Judy Krupala, CNO

Quality/Safety

- Sepsis for the month of May was 100%
- 4 falls – 3 inpatient and 1 ER
- Department Directors were re-educated on the PDSA process and will report to Quality Committee to better align with Quarterly Quality Council
- DeWitt County is up to 24 positive COVID patients. CRH has diagnosed 3 additional patients who are currently recovering at home
- CRH Trained Yorktown NRC to do their own COVID testing
- Group met to discuss COVID in the future, as it relates to flu and how we might handle hurricane differently

People

- Staff are appreciative of the continued COVID pay; however, census has bounced back nicely and is about as budgeted
- Have a Clinic Administrator candidate who will visit June 29

Growth

- We have had two dialysis patients thus far
- We have had our first CardioPulmonary Rehab patient start the program
- Dr. Lemley doing well working to complete his credentialing paperwork
- Dr. Dale Denton is also completing her credentialing paperwork to begin our aesthetics program and clinic work

Community

- CRH staff took part in the parade to honor our local nursing home patients
- DMF planning Dueling Pianos
- Marketing is working on Baby Fair for September which will allow us to highlight our refreshed/painted unit, new physicians and the experience here at CRH

Nursing Homes/QIPP

- CRH has continued with Nursing Home calls
- All nursing homes following state and CDC guidelines for COVID
- As of our May calls, 2 homes had had positive patients but were isolating appropriately
- Several homes noted staffing concerns after following guidelines that staff who worked multiple jobs had to pick one. This was directed by the State to reduce opportunity for exposure

OLD BUSINESS AGENDA ITEM #1

**Annual Audit Report and Board Education -
Review and Take Appropriate Action**

AGENDA ITEM #1

HUMAN RESOURCES ANNUAL REPORT – Review and Take Appropriate Action

Attached:

2019 Annual Report to the Board of Directors

Cuero Regional Hospital

**2019 ANNUAL REPORT TO THE
BOARD OF DIRECTORS**

CUERO REGIONAL HOSPITAL

2019 COMPETENCY REPORT

The Mission of Cuero Regional Hospital is to provide compassionate care to those we serve with a commitment to excellence in all we do. To meet this goal, the Hospital carries out the following processes and activities:

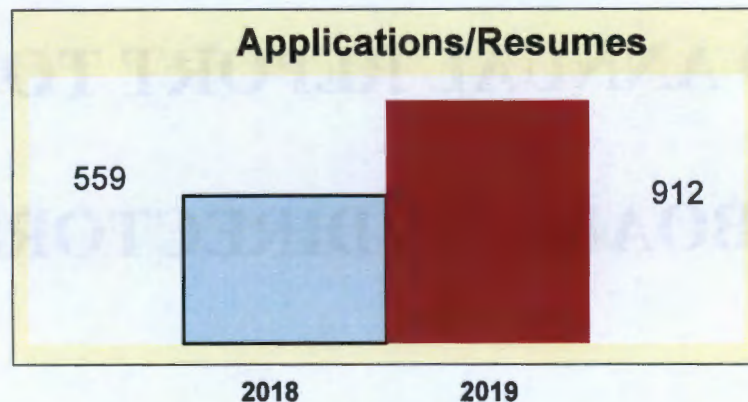

- Providing an adequate number of staff
- Providing competent staff
- Orienting, training, and educating staff

This report will provide a summary of the following processes and activities carried out by the Hospital:

Recruiting
Turnover
Terminations
Resignations
Credentialing
Patterns, Issues and Trends

Recruiting:

1. Human Resources received 912 applications/resumes in 2019. The contributed increase in applications was due to the ability of applicants to complete the application online versus having to come to Human Resources in person or have it emailed/mailed.

Data collected from Applications/Resumes Log

- Available positions were posted internally in Meditech and on the CRH website. Positions were externally advertised in the Victoria Advocate, Cuero Record, The Yorktown News-View, and on Indeed and CareerBuilder websites. Indeed has been used for many years. CareerBuilder was utilized for its second and final year of our contract.
- Hard to recruit FT and PT positions that were posted and unfilled longer than 2 months.

2018	2019
Cuero Medical LVN & MA	Cuero Medical LVN
Lab MT/MLT	Lab MT/MLT
Med/Surg RN	Home Health RN & LVN

Wellness Center Health Tech	Information Services Director
	Med/Surg CNA

Excludes PRN and PHC/CBA employees
 Data collected from Positions Replacement Log

- There were 60 employees hired to fill available positions. All new hires completed hospital wide and department specific orientation processes.
 Data collected from Meditech. Excludes PHC/CBA new hires

Turnover:

- At the end of 2019, 451 employees were on staff.
- The overall turnover rate for 2018 was 23%, while in 2019 the rate was 15.71%.
 The turnover rate excluded PHC, CBA and PRN employees.
 Data was collected from Meditech.

3. In 2018, the Registered Nurses had a 23% turnover rate, while in 2019 the turnover rate was 2%. The turnover rate excludes PRN employees.

Data was collected from Meditech.

4. The below turnover rates are for the different classifications and excluded PRN employees:

2018		2019	
Nursing	18%	Nursing	6%
Clinical	15%	Clinical	17%
Other	14%	Other	14%
Home Health	0%	Home Health	16%
PHC & CBA	43%	PHC & CBA	72%
Wellness	84%	Wellness	37%
Clinics	32%	Clinics	25%

Nursing includes RNs, LVNs and CNAs in all nursing departments.

Data collected from Meditech

Terminations:

1. Reasons according to the Rules of Conduct:

Data collected from Meditech

Credentialing:

1. In 2019, we credentialed 90 physicians and 6 allied health professionals.
2. There were 36 initial appointments and 60 reappointments.

3. There were 33 consulting physicians, 2 active staff, 0 courtesy staff, and 1 allied health professionals for initial appointments and 45 consulting physicians, 5 active staff, 5 courtesy staff, and 5 allied health professionals for reappointments in 2019.
4. We continue to have Southwest Medical Associates as our Emergency Room Physicians group.
Data collected from Priv+ and medical staff agendas

Patterns, Issues and Trends:

Turnover Rates	2019 – 15.71% *** 18.73% comparison with 33 other hospitals in Texas**
	2018 -- 23% *** 17.98% comparison with 37 other hospitals in Texas**
	2017 -- 18% *** 21.51% comparison with 34 other hospitals in Texas**
	2016 -- 22% *** 21.08% comparison with 34 other hospitals in Texas**
	2015 -- 17% *** 19.12% comparison with 41 other hospitals in Texas**

** data from TSHHRAE wage and benefit survey
*** Excludes, PHC/ CBA, and PRN

SUMMARY

Recruiting

In 2019, Human Resources received 912 applications and resumes. The number of most difficult to fill positions was 10. Online applications provided a greater number of applicants and improved the ability to hire experienced and quality employees.

Turnover

In 2019, the turnover rate was 15.71% in comparison the 18.73% of 33 other hospitals in Texas. This information came from the Texas Society of Healthcare Human Resources and Education Association’s annual wage survey. The turnover rate of all RNs excluding PRNs in 2019, was 2%.

Terminations/Resignations

Most terminations were from no call no shows. The most resignations were due to staff leaving for another job/FT job.

Credentialing

There were 36 initial appointments and 60 reappointments making a total of 96 physician and allied health professionals credentialed in 2019.

Patterns, Issues and Trends

The turnover rate increase was a trend across 33 hospitals in Texas. Our turnover rate decreased by 8.29%, whereas the TSHHRAE survey showed a 0.75% increase in the turnover rate.

AGENDA ITEM #2

Extension of Indigent Care Program – Consider and Take Appropriate Action

The Indigent Program is approaching the \$100,000 limit on the out-of-hospital expenses for indigent care. The Chief Financial Officer is requesting approval from the board to either close the program at the end of June or consider extending the program until the end of the fiscal year.

AGENDA ITEM #3

**Designate Representative to Golden Crescent
Economic Development District – Consider
and Take Appropriate Action**

AGENDA ITEM #4

Revised Capital Risk – Discussion Only

Current Capital Risks

6/17/2020

Dept	Item	Cost	Urgency Explanation
Facility	CAPRS/PAPRS	\$ 30,000	Current equipment is 15 yo PAPRS and not functional; new batteries no longer available. These will allow staff to care for PUI/COVID patients safely & comfortably while saving PPE.and add 5 for total of 10; long term COVID care
Facility	UV Disinfection Light	\$ 75,000	UV Light to disinfect masks and can be used to disinfect rooms/areas
RT	High Flow Cannula	\$ 12,000	Current equipment/systems allow up to 15L of O2; Current COVID treatment can be up to 60L of O2. COVID here to stay; reduce future transfers
Facility	Infrastructure/Plumbing	\$ 100,000	Estimated amount for continued Plumbing repair for 2nd corridor on MedSurg for future COVID Unit; add corridor doors to close off unit;
HH	Laptops	\$ 2,800	Current laptops not functioning properly at all times. Needed to document/bill
Facility	Telemetry	\$ 170,000	Several downtime issues; no longer supported by company. If it crashes we no longer can provide telemetry monitoring will result in, loss of volume. Price includes Hospital and ER allowing one system vs two old systems. ER was budgeted for FY21
ER	Telemetry	\$ -	Intermittant issue; budgeted in FY21 \$50k; More efficient to add to above
PACS Storage	Imaging	\$ 335,000	Planned for FY21; however, with increased volume of new MRI change needed sooner to include new equipment and software. Updated storage will allow us to have one onsite copy and one cloud based copy which will keep us more secure from data destruction. Upgrade will also allow us to electronically share exams with offsite physicians and securely transmit them in a format that physician can save at their location. Will decrease annual service fee from 72K to 12K annually
EMS	LifePak	\$ 42,000	Item was dropped; held together with a zip tie. No longer supported by vendor. Not budgeted for this year.
EMS	Lucas	\$ 18,000	We have one and it is used in ER and on scenes
EMS	Video Laryngoscopes	\$ 5,000	Currently we do not have, using this equipment minimizes space between patient and intubation. 2 X \$2500
Facility	Infrastructure	\$ 75,000	Architects needed to assess OR/HVAC; Lab to accommodate COVID testing equipment
IT	IT Servers/Network/Back Up	\$ 1,100,000	Servers are intermittently have problems. In the past two weeks, system taken down for emergent repair and replacement of drives. Houses all meditech, loss of servers takes down clinical and financial systems
Kenedy RHC	Roof Replacement	\$ 86,000	Roof has been repaired but continues to leak. Concern with RHC Survey anticipated this summer. Working to get additional quotes
Goliad RHC	HVAC/conversion from gas to electrical	\$ 15,000	Install new 320 AMP electrical service to Goliad Clinica & replace a 3 Ton and 4 Ton split AC system. Getting multiple quotes on electrical work. This includes new electric a/c and heater and the electrical to rewire for electric heat so we can do away with natural gas. The current unit is over 15 years old and is leaking Freon and is no longer serviceable
Surg/Anesthesia	Anesthesia Machine	\$ 72,000	This is the OB unit. Out of date, end of life, GE does not have parts readily available. If machine goes down, no replacement in hospital. Machine is 18 years old.
TOTAL		\$ 2,137,800	

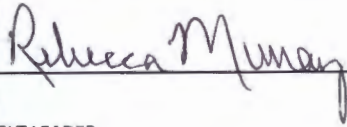

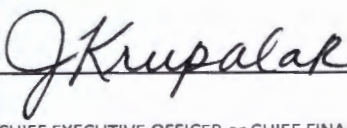

AGENDA ITEM #5

Capital Expenditure Request for CAPRS – Review and Take Appropriate Action

Proposals Attached:

3M Versaflo 300 PAPR Kit with Hood

SKU: #HM5813

Experience the comfort and unique features of the Versaflo 300 respirator system, ideal for healthcare professionals.

PRICE: \$1,148.00

Buy at: <https://shop.dqeready.com/3m-versaflo-300-papr-kit-with-hood/>
or call 800-355-4628

DESCRIPTION

The 3M Versaflo 300 PAPR is a lightweight, compact, and well-balanced belt-mounted unit for positive pressure respiratory protection against airborne particulates. The slim profile is designed for use in tight spaces, and the smooth contoured outer surface is less prone to snagging on nearby objects, making the Versaflo 300 ideal for healthcare settings. Capacity to work with a wide variety of headtops, filters and cartridges. Battery charger sold separately.

Available As

- 3M Versaflo 300 PAPR Kit with Hood (HM5813)

SPECIFICATIONS

3M Versaflo 300 PAPR Kit with Hood (HM5813)

- Two types of alarms - one audible and one LED - alert the user to either a low battery or low airflow.
- The air inlet draws air from the bottom of the unit, making it easier for the wearer to sit without blocking the airflow intake.
- The small, single air inlet helps make decontamination easier and faster.
- The length adjusting breathing tube features a quick release swivel connection, which connects quickly to the headgear and is designed to minimize loops and kinks in the breathing tube.
- *EasyClean* vinyl belt allows for thorough cleaning and reuse.
- Battery Life: 8-12 hours (Charger sold separately)
- 3M Versaflo 300 PAPR Blower Unit Model#: TR-302N+
- Includes 3M hood model S-655 with single shroud

CONTENTS

- Kit includes:
 - 3M Versaflo 300 PAPR Blower Unit
 - 3M Breathing Tube Assembly
 - 3M Airflow Indicator
 - Single Shroud Hood
 - High Capacity Battery
 - HE Filter
 - Easy Clean Vinyl Belt
- Battery Charger *not* included

Available As

- 3M Versaflo 600 PAPR Kit (HM5620)

SPECIFICATIONS**3M Versaflo 600 PAPR Kit (HM5620)**

- Audible, LED and vibrating alarms - alert the user to either a low battery or low airflow.
- Multiple blower flow rate speeds
- The air inlet draws air from the bottom of the unit, making it easier for the wearer to sit without blocking the airflow intake.
- The small, single air inlet helps make decontamination easier and faster.
- The breathing tube features a quick release swivel connection, which connects quickly to the headgear and is designed to minimize loops and kinks in the breathing tube.
- Filter cover helps protect filter cartridges from physical damage and enables PAPR to be worn through decontamination showers or in the rain.
- Meets IP53 rating while in use in decontamination shower
- Meets IP67 rating when used with cleaning and storage plugs to enable full submersion for easy clean-up and decontamination

- EasyClean vinyl belt allows for thorough cleaning and reuse.
- Battery Life: 4-12 hours (Charger sold separately)
- 3M Blower Unit Model#: Versaflo TR-602N

CONTENTS

- Kit Includes:
 - Blower Unit
 - 3M Breathing Tube Assembly - Versaflo (HM5811)
 - 3M Airflow Indicator - Versaflo 600 (HM5603)
 - 3M Standard Capacity Battery - Versaflo 600 (HM5601)
 - 3M Multi-Contaminant Filter - Versaflo 600 (HM5604)
 - 3M Cover for Multi-Containment Filter - Versaflo 600 (HM5611)
 - 3M Easy Clean Vinyl Belt - Versaflo 600 (HM5602)
- Battery Charger and Hood **not** included

3M High Capacity Battery - Versaflo 300

SKU: #HM5807

A high capacity Lithium Ion battery for the 3M Versaflo PAPR.

PRICE: \$308.50

Buy at: <https://shop.dqeready.com/3m-high-capacity-battery-versaflo-300>
or call 800-355-4628

DESCRIPTION

3M Versaflo 300 PAPR high capacity Lithium Ion battery, with a battery life of 8 to 12 hours. LED lights on the battery indicate its charge status, both on and off the charger - great for quick identification in emergency situations. For use with the 4-Station Battery Charger (HM5804) or Single Station Battery Charger (HM5801).

Available As

- 3M High Capacity Battery - Versaflo 300 (HM5807)

SPECIFICATIONS

3M High Capacity Battery - Versaflo 300 (HM5807)

- Charging time: less than 3.5 hours
- Battery Life: 8-12 hours (Estimated time based on testing with a new battery and a new clean filter at 68 degrees F. Actual system run time may be extended or shortened depending on system configuration and environment.)
- 9 month shelf life before needing to be recharged. Up to 250 charge cycles.
- Weight: 2.4 lb (includes weight of belt, filter, battery, and filter cover)
- OSHA Assigned Protection Factor: APF of 25 or 1000 depending on headgear combination.
- 3M Model #: TR-332

CONTENTS

3M Breathing Tube Assembly - Versaflo

SKU: #HM5811

Replacement length adjusting breathing tube for the 3M Versaflo PAPR.

PRICE: \$70.00

Buy at: <https://shop.dqeready.com/3m-breathing-tube-assembly-versaflo>
or call 800-355-4628

DESCRIPTION

Use the Versaflo Breathing Tube Assembly to connect the 3M Versaflo 300 PAPR (HM5800) and 3M Versaflo 600 PAPR (HM5600). The blower forces filtered air from the PAPR, through the Breathing Tube Assembly, and into the Hood or Head Cover.

Available As

- 3M Breathing Tube Assembly - Versaflo (HM5811)

SPECIFICATIONS

3M Breathing Tube Assembly (HM5703)

- Replacement breathing tube for the 3M Versaflo 300 PAPR (HM5800) and 3M Versaflo 600 PAPR (HM5600)
- It features a flexible helix that adjusts to the appropriate length for the individual wearer
- 3M Product #: BT-30

CONTENTS

- One breathing tube

ADDITIONAL INFO

3M Versaflo 300 PAPR Kit

SKU: #HM5814

Experience the comfort and unique features of the Versaflo respirator system, ideal for healthcare professionals.

PRICE: \$998.00

Buy at: <https://shop.dqeready.com/3m-versaflo-300-papr-kit/>
or call 800-355-4628

DESCRIPTION

The 3M Versaflo 300 PAPR is a lightweight, compact and well-balanced belt-mounted unit for positive pressure respiratory protection against airborne particulates. The slim profile is designed for use in tight spaces, and the smooth contoured outer surface is less prone to snagging on nearby objects, making the Versaflo 300 ideal for healthcare settings. Capacity to work with a wide variety of headtops, filters and cartridges. Hood or headcover and battery charger sold separately.

Available As

- 3M Versaflo 300 PAPR Kit (HM5814)

SPECIFICATIONS

3M Versaflo 300 PAPR Kit (HM5814)

- Two types of alarms - one audible and on LED - alert the user to either a low battery or low airflow.
- The air inlet draws air from the bottom of the unit, making it easier for the wearer to sit without blocking the airflow intake.
- The small, single air inlet helps make decontamination easier and faster.
- The breathing tube features a quick release swivel connection, which connects quickly to the headgear and is designed to minimize loops and kinks in the breathing tube.
- EasyClean vinyl belt allows for thorough cleaning and reuse.
- Battery Life: 8-12 hours (Charger sold separately)
- 3M Blower Unit Model#: TR-302N+

- 3M Airflow Indicator - Versaflo 300 (HM5806)
- 3M HE Filter - Versaflo 300 (HM5805)
- 3M Headcover for Versaflo PAPR (HM5808)
- 3M High Capacity Battery - Versaflo 300 (HM5807)
- 3M Hood with Double Shroud for Versaflo PAPR (HM5812)
- 3M Hood with Single Shroud for Versaflo PAPR (HM5815)
- 3M Battery Chargers - Versaflo 300 (HM5801|HM5804)

WARNING: This email originated outside of Cuero Regional Health.
DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.

Angela,

Good afternoon. For the first quarter of 2020 Cuero's compliance was 86.9% on our core portfolio of contracts, which is outstanding. Great job. The April 2020 information is not available at this time, but I am sure all HealthTrust members are going to have a downturn in compliance due to COVID-19 related issues. That is understandable and the HealthTrust leadership is not going to penalize any member for compliance issues during the COVID-19 pandemic.

I am still going to review the Insight Reports and send you any LOC or "Right Item, Wrong Channel" opportunities. Has Cuero developed any post-COVID plans to get the hospital rolling again and is there anything HealthTrust can do to assist the Cuero Team/

3M Science.
Applied to Life.™

New and Improved.

You asked — we delivered!

Our Versaflo TR-300+ PAPR system for particulate environments has been re-engineered – to bring you even greater versatility, comfort and ease of use. Compatible with all current TR-300 components and accessories.*

Meet the 3M™ Versaflo™ TR-300+ Powered Air Purifying Respirator.

Improved Comfort

- Two airflow rate options
- Upgraded altitude compensation up to 14,000 ft
- Constant airflow – Even as the battery discharges, or the filter becomes loaded with particulates, the unit delivers a steady flow of air

Improved Ease of Use

- User-friendly interface – Monitor the operating status of your filter, battery, and airflow at a glance
- Audio and visual alarms for filter load and low battery
- Color-indicated, interactive touch points

Straightforward, Minimal Maintenance

Most maintenance can be done quickly and easily by hand – including changing the battery, filter and pre-filter.

- Easy Clean Belt TR-327 and blower unit have smooth surfaces, facilitating fast wipe-downs for easier cleaning.
- IP53 rating. Suitable for use in decontamination showers.
- A redesigned filter cover on the blower unit allows instant identification of the installed filter.
- Brushless motor for up to 5,000 hours of run time.**

*With the exception of the TR-371 filter cover

** Estimated depending on use conditions

3M™ Versaflo™ TR-300+ Series Complete System Kits

Build your own Versaflo system or choose from one of our complete system kits. These kits offer the convenience of a complete system tailored to your application—all in one box.

Kit Options: Complete, ready-to-use High Efficiency PAPR systems, optimized for specific industry applications are available. All help to provide protection against particulates.

Suggested for:
Pharmaceutical
and food safety
applications

Easy Clean PAPR Kit – TR-300N+ ECK

Includes: S-655 Hood Assembly, BT-30 Length Adjusting Breathing Tube, TR-302N+ PAPR Unit, TR-327 Easy Clean Belt, TR-332 High Capacity Battery, TR-341N Battery Charger Kit, TR-3712N HE Filter, TR-3600 Pre-Filter, TR-971 Airflow Indicator.

Suggested for:
Industrial
applications

Heavy Industry PAPR Kit – TR-300N+ HIK

Includes: M-307N+ Respiratory Hard Hat Assembly, TR-302N+ PAPR Unit, TR-326 High Durability Belt, TR-341N Battery Charger, TR-3712N Filter, TR-362 Spark Arrestor, TR-3600 Pre-Filter, TR-332 High Capacity Battery, BT-40 Heavy Duty Breathing Tube, TR-971 Airflow Indicator.

Suggested for:
Pharmaceutical
and healthcare
applications

Healthcare PAPR Kit – TR-300N+ HKS (small) or HKL (large)

Includes: S-133S/L Headcover, BT-30 Length Adjusting Breathing Tube with BT-922 Breathing Tube Cover, TR-991 Carrying Bag, TR-302N+ PAPR Unit, TR-327 Easy Clean Belt, TR-332 High Capacity Battery, TR-341N Battery Charger Kit, TR-3712N HE Filter, TR-3600 Prefilter, TR-971 Airflow Indicator.

WARNING

These respirators help reduce exposures to certain airborne particulates. Before use, the wearer must read and understand the User Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in injury, illness or death. For correct use, consult supervisor and User Instruction, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

Upon acceptance, please sign and return this quotation, together with your purchase order, to Sales Support via fax at **425-363-5761 or email it to po.us@spacelabs.com.**

By accepting this quotation or by performing hereunder, the customer identified above ("Customer") agrees to purchase or lease (as applicable) the products identified herein subject to the terms of this Customer Quotation and Spacelabs Healthcare's Subscription Software Terms (in the case of SafeNSound) or Spacelabs Terms of Sale (in the case of all other products). If Customer will resell the products, such resale is governed by the Spacelabs Resale Terms. These documents can be found on the About Us/Terms/Policies page of our website at <http://www.spacelabshealthcare.com>. The applicable terms are incorporated herein by this reference. Notwithstanding the foregoing, if Customer has a separate contractual agreement in place with Spacelabs Healthcare relating to the products identified herein (such as a group purchasing agreement, distribution agreement, or master purchasing agreement), the terms of that contractual agreement shall control to the extent such terms conflict with the applicable terms.

Tax Exemption Number (if Exempt)

Requested Delivery Date

This quotation shall remain firm for 60 days unless otherwise stated. Delivery: 21 days after acknowledgement of order, unless otherwise noted in this quotation.

The pricing in this quotation reflects your HealthTrust Purchasing Group pricing per contract HPG-4740. Payment terms are net amount due 30 days after date of invoice. FOB is factory. Freight and insurance are no charge. Warranty is per the terms of your contract.

Depot Support

After the standard 12-month warranty has expired, Company agrees to provide all Spare Parts and labor necessary for the repair of any Equipment failure which may require corrective action upon Customer's return of Equipment to Company's facility ("Depot Support"). Such Depot Support shall be provided as follows:

Customer agrees to promptly notify Company by phone of any Equipment failure, which may require corrective action. If Equipment issues cannot be resolved telephonically through good faith efforts of the parties, Company shall provide at Company's facility all Spare Parts and labor necessary for the repair of any Equipment failure that may require corrective action. Customer shall be responsible for all freight and insurance charges in shipping the Equipment to Company; risk of loss shall pass to Company only upon receipt of the Equipment. Company shall pay all costs for return shipment to Customer.

Company shall, within the limits of equipment availability, use reasonable efforts to satisfy Customer's requests for loan equipment, prior to requests from customers not covered by a warranty or similar agreement.

"Spare Part(s)" mean replaceable spare parts and assemblies used in the Equipment and listed in the Company Spare Part Price List. Spare Parts do not include disposable or user parts that must be routinely replaced, items listed in the Supplies & Accessories Price List, or computer products and peripheral devices not manufactured by Company or produced on Company's behalf. Any original Spare Part for which Company has supplied a replacement Spare Part shall become the property of Company. Any replacement Spare Part shall have equivalent function and performance as the original Spare Part, when new. Company reserves the right to use a refurbished part as a replacement Spare Part.

An antenna system is not included with the quoted Telemetry System. A Pre-Installation Questionnaire (PIQ) will need to be completed to determine the antenna requirements for the hospital's particular installation. Associated costs will vary dependent upon the size and complexity of the installation.

B SPECIAL COMMENTS

Please be aware that this quotation is one part of a series of quotations, which constitutes a larger overall project and purchase. To understand and analyze this proposal in its entirety, other quotations must be considered.

C DISCLAIMER

The information set forth herein is for budgetary purposes only. This document does not constitute an offer to sell on the part of Philips Healthcare. Philips Healthcare makes no representations or guarantees of any kind with respect to price, availability, delivery, or other information contained herein, and all such information is subject to change without notice. Philips Healthcare will be happy to provide a formal quotation on request.

Not binding until accepted in writing by Philips in Andover or invoiced by Philips. Any purchase order or resulting agreement shall be subject to the Philips Terms and Conditions and the following terms which customer accepts.

For certain agreements, Philips may conduct a qualification inspection to verify that customer is suitably trained, the equipment is in serviceable condition, and all like equipment is covered by a valid Philips warranty or service agreement. Any resulting agreement is subject to cancellation by Philips if customer fails to satisfy these conditions during the term.

Note: Please do not use these prices as the basis to generate a purchase order.

The pricing in this quotation reflects your HealthTrust Purchasing Group pricing per contract HPG-4740. Payment terms are net amount due 30 days after date of invoice. FOB is factory. Freight and insurance are no charge. Warranty is per the terms of your contract.

Depot Support

After the standard 12-month warranty has expired, Company agrees to provide all Spare Parts and labor necessary for the repair of any Equipment failure which may require corrective action upon Customer's return of Equipment to Company's facility ("Depot Support"). Such Depot Support shall be provided as follows:

Customer agrees to promptly notify Company by phone of any Equipment failure, which may require corrective action. If Equipment issues cannot be resolved telephonically through good faith efforts of the parties, Company shall provide at Company's facility all Spare Parts and labor necessary for the repair of any Equipment failure that may require corrective action. Customer shall be responsible for all freight and insurance charges in shipping the Equipment to Company; risk of loss shall pass to Company only upon receipt of the Equipment. Company shall pay all costs for return shipment to Customer.

Company shall, within the limits of equipment availability, use reasonable efforts to satisfy Customer's requests for loan equipment, prior to requests from customers not covered by a warranty or similar agreement.

"Spare Part(s)" mean replaceable spare parts and assemblies used in the Equipment and listed in the Company Spare Part Price List. Spare Parts do not include disposable or user parts that must be routinely replaced, items listed in the Supplies & Accessories Price List, or computer products and peripheral devices not manufactured by Company or produced on Company's behalf. Any original Spare Part for which Company has supplied a replacement Spare Part shall become the property of Company. Any replacement Spare Part shall have equivalent function and performance as the original Spare Part, when new. Company reserves the right to use a refurbished part as a replacement Spare Part.

The Spacelabs Ultraview SL network supports clinical network sizes up to 1000 nodes. Networks consisting of mixed generations of Spacelabs devices may have lower capacities depending on specific models and age of equipment. Alarm Watch and Remote View functionality directly affect maximum network size. Please consult your field service engineer to determine the maximum size and functionality for your specific Spacelabs network.

Spacelabs Healthcare's installation is based upon the use of standard PVC jacketed interconnecting cables. If local conditions or regulations require use of plenum-rated cabling, 10BaseT is available at no additional charge (please specify on your purchase order). Plenum-rated 10Base5 (AUI and MAU) cabling requires an additional charge of \$1.00 per foot. Any SDLC cables quoted herein are not plenum rated and may need to be run in hospital conduit to comply with local regulations.

An estimated antenna system is included with the quoted Telemetry System. A Pre-Installation Questionnaire (PIQ) will need to be completed to determine the exact antenna requirements for the hospital's particular installation. Associated costs will vary dependent upon the size and complexity of the installation.

Spacelabs Healthcare's telemetry antenna installation is based upon the use of standard PVC jacketed interconnecting cables. If local conditions or regulations require use of plenum-rated cabling, antenna kits specifying that plenum-rated cable is included must be purchased. If, upon completion of the Pre-Installation Questionnaire by our local FSE, additional plenum cabling is required (beyond that which is included in the antenna kits), Spacelabs will charge \$1.00 per foot for the additional plenum-rated cable.

Wireless Monitors

Prior to an acceptance of a purchase order for the wireless monitors quoted herein, Spacelabs Healthcare requires a Signed Acknowledgement regarding the Hospital's decision to have a Site Qualification Survey performed to validate the wireless coverage area.

To determine the costs associated with the Site Qualification Survey (SQS), Spacelabs will need some basic information from the Hospital. Cooperation of hospital employees should be expected in providing such information. Your Spacelabs Sales Executive will email a link to a web-based Site Profile Form to the IT department. The responses to this form will immediately be forwarded to our Wireless Team upon completion by your Hospital representative. This information will allow Spacelabs to provide the Hospital with a quote for the Site Qualification Survey. The cost of this service varies and is dependent upon network design and size of the coverage area. The Site Qualification Survey will be an additional expense incurred by the Hospital.

In some instances, the quote for this Site Qualification Survey is included within the enclosed wireless monitoring quote. However, if the cost for the Site Qualification Survey is not already included within, the Hospital will receive a separate quote for such services from Spacelabs or our network design partner, **Global Technology Resources, Inc. (GTRI)**. The quote for the SQS will be delivered to the Hospital within one day of receipt of the completed Site Profile Form. A follow-up call will be scheduled with the Hospital to review the quote and to answer any questions regarding its necessity. The Hospital will need to review the quote for the SQS services and inform Spacelabs of their decision to proceed with an SQS. Hospital will be asked to sign an Acknowledgement confirming whether or not they would like to proceed with the Site Qualification Survey or not. Spacelabs cannot accept a P.O. for the wireless monitors until such signed Acknowledgement has been received.

Upon acceptance of the P.O. for the Site Qualification Survey, Spacelabs or our partner, **GTRI**, will contact the Hospital to schedule a mutually convenient time for performance of the SQS at the Hospital site. Once the SQS is completed, a detailed report will be provided to the Hospital which may or may not include possible modifications to the infrastructure to ensure optimal performance of Spacelabs wireless monitors. The cost for such modifications is the responsibility of the Hospital and all work must be completed by an authorized vendor approved by Spacelabs Healthcare.

The information contained in this proposal is for budgetary purposes only and does not constitute an offer to sell on the part of Spacelabs Healthcare. Pricing, availability, delivery, product specifications and other information is subject to change without notice. Spacelabs Healthcare will be pleased to provide a formal quotation upon request.

Cuero ED Equipment Replacement Proposal Notes

The 3rd party equipment quoted herein carries the warranty of the original manufacturer. Returns are subject to the vendor's return policy and may not be possible

BUDGETARY

ICS SOFTWARE & HARDWARE REQUIREMENTS

UP TO 32 BEDS - "DEPARTMENTAL SYSTEM"

ICS DEPARTMENTAL SERVER

Database/Application/Loaders on one server (ALL-IN-ONE)

Quantity Required - 1 virtual or physical

Processor - Intel Xeon E5-1410 V2, 2.80 GHz, 10 MB cache, Turbo 3.2 GHz (1 socket 4 cores)

Memory - 32 GB, 1333 MHz

Storage Sizes - Disk sizes

- Vol 1 - 128 GB for OS and app
- Vol 2 - 66 GB for Portal DB transaction log file
- Vol 3 - 132 GB for Portal DB data file
- Vol 4 - 86 GB for SQL Temp DB
- Vol 5 - 164 GB for Software & Portal backups (if needed)

RAID Controller

- Vol 1 - RAID1 - SAS 15K
- Vol 2 - RAID1 - SAS 15K
- Vol 3 - RAID10 - SAS 15K
- Vol 4 - RAID1
- Vol 5 - RAID5

OS - Windows Server 2012 R2 Standard Edition

Observations - SQL Server 2012 or 2014 Standard Edition (mixed mode authorized)

UP TO 128 BEDS - "SMALL MULTI-DEPARTMENT SYSTEM"

ICS DATABASE SERVER

(Core Services)

Quantity Required - 1 virtual or physical

Processor - Intel Xeon E5-2620 V2 2.10 GHz, 15 MB cache (1 socket 6 cores)

Memory - 64 GB 1600 MHz

Storage Sizes - Disk sizes

- Vol 1 - 96 GB for OS and app
- Vol 2 - 114 GB for Portal DB transaction log file
- Vol 3 - 228 GB for Portal DB data file
- Vol 4 - 114 GB for SQL Temp DB
- Vol 5 - 356 GB for Software & Portal backups (if needed)

RAID Controller

- Vol 1 - RAID1 - SAS 15K
- Vol 2 - RAID1 - SAS 15K
- Vol 3 - RAID10 with at least 2 SSD drives or RAID 10 - SAS 8 x 15K drives
- Vol 4 - RAID1
- Vol 5 - RAID5

OS - Windows Server 2012 R2 Standard Edition

Observations - SQL Server 2012 or 2014 Standard Edition (mixed mode authorized)

APPLICATION SERVER

(HL7 Vital Signs, HL7 ADT, ENI, 12 Lead Interfaces)

Quantity Required - 1 virtual or physical

Processor - E5-1410 v2 2.80 GHz with 10 MB cache (1 socket 4 cores)

Memory - 8 GB 1333 MHz UDIMM

Storage Sizes - Vol 1 - 96 GB for OS and app

RAID Controller - RAID1 - SAS 15K

OS - Windows Server 2012 R2 Standard Edition

Observations - No SQL Required

MONITOR LOADER

(Bedside Monitor and Legacy UVSL Telemetry - 64 bed capacity per server)

Quantity Required - 1 virtual or physical

Processor - E5-1410 v2 2.80 GHz with 10 MB cache (1 socket 4 cores)

Memory - 8 GB 1333 MHz UDIMM

Storage Sizes - Vol 1 - 96 GB for OS and app

RAID Controller - RAID1 - SAS 15K

OS - Windows Server 2012 R2 Standard Edition

Observations - No SQL Required. May require 2 NIC's for multi-cast routing.

DATA LOADER

(XTR - Xhibit Telemetry Receiver - up to 100 beds per server)

Quantity Required - 1 virtual or physical

Processor - Dual socket E5-2630 v2 2.60 GHz with 15 MB cache (2 sockets 6 cores)

Memory - 8 GB 1333 MHz UDIMM

Storage Sizes - Vol 1 - 256 GB for OS and app

RAID Controller - RAID1 - SAS 15K

OS - Windows Server 2012 R2 Standard Edition

Observations - No SQL Required. Requires 2 NIC's.

UP TO 300 BEDS - "MEDIUM MULTI-DEPARTMENT SYSTEM"

ICS DATABASE SERVER

(Core Services)

Quantity Required - 1 virtual or physical

Processor - Intel Xeon E5-2630 V2 2.60 GHz, 15 MB cache (1 socket 6 cores)

Memory - 72 GB 1600 MHz

Storage Sizes - Disk sizes

- Vol 1 - 96 GB for OS and app
- Vol 2 - 200 GB for Portal DB transaction log file
- Vol 3 - 400 GB for Portal DB data file
- Vol 4 - 200 GB for SQL Temp DB
- Vol 5 - 700 GB for Software & Portal backups (if needed)

RAID Controller

- Vol 1 - RAID1 - SAS 15K
- Vol 2 - RAID1 - SAS 15K
- Vol 3 - RAID10 with at least 4 SSD drives or SAS 8 x 15K drives
- Vol 4 - RAID1 SAS 15K
- Vol 5 - RAID5

OS - Windows Server 2012 R2 Standard Edition

Observations - SQL Server 2012 or 2014 Standard Edition (mixed mode authorized)

Allocate 64 GB RAM to SQL, and leave rest for OS, Apps

APPLICATION SERVER

(HL7 Vital Signs, HL7 ADT, ENI, 12 Lead Interfaces)

Quantity Required - 1 virtual or physical

Processor - E5-1410 v2 2.80 GHz with 10 MB cache (1 socket 4 cores)

Memory - 8 GB 1333 MHz UDIMM

Storage Sizes - Vol 1 - 96 GB for OS and app

RAID Controller - RAID1 - SAS 15K

OS - Windows Server 2012 R2 Standard Edition

Observations - No SQL Required

MONITOR LOADER

(Bedside Monitor and Legacy UVSL Telemetry - 64 bed capacity per server)

Quantity Required - 1 virtual or physical

Processor - E5-1410 v2 2.80 GHz with 10 MB cache (1 socket 4 cores)

Memory - 8 GB 1333 MHz UDIMM

Storage Sizes - Vol 1 - 96 GB for OS and app

RAID Controller - RAID1 - SAS 15K

OS - Windows Server 2012 R2 Standard Edition

Observations - No SQL Required. May require 2 NIC's for multi-cast routing.

DATA LOADER

(XTR - Xhibit Telemetry Receiver - up to 100 beds per server)

Quantity Required - 1 virtual or physical

Processor - Dual socket E5-2630 v2 2.60 GHz with 15 MB cache (2 sockets 6 cores)

Memory - 8 GB 1333 MHz UDIMM

Storage Sizes - Vol 1 - 256 GB for OS and app

RAID Controller - RAID1 - SAS 15K

OS - Windows Server 2012 R2 Standard Edition

Observations - No SQL Required. Requires 2 NIC's.

UP TO 500 BEDS "LARGE MULTI-DEPARTMENT SYSTEM"

ICS DATABASE SERVER

(Core Services)

Quantity Required - 1 virtual or physical

Processor - Dual socket E5-2630v3 2.40 GHz with 20 MB cache (2 sockets 8 cores ea)

Memory - 96 GB 1866 MHz

Storage Sizes - Disk sizes

- Vol 1 - 96 GB for OS and app
- Vol 2 - 300 GB for Portal DB transaction log file
- Vol 3 - 600 GB for Portal DB data file
- Vol 4 - 300 GB for SQL Temp DB
- Vol 5 - 1100 GB for Software & Portal backups (if needed)

RAID Controller

- Vol 1 - RAID1 - SAS 15K
- Vol 2 - RAID1 - SAS 15K
- Vol 3 - RAID10 with at least 4 SSD drives
- Vol 4 - RAID1 SAS 15K
- Vol 5 - RAID5

OS - Windows Server 2012 R2 Standard Edition

Observations - SQL Server 2012 or 2014 Standard Edition (mixed mode authorized)

Allocate 64 GB RAM to SQL, and leave rest for OS, Apps

Storage Sizes - Vol 1 - 96 GB for OS and app

RAID Controller - RAID1 - SAS 15K

OS - Windows Server 2012 R2 Standard Edition

Observations - No SQL Required. May require 2 NIC's for multi-cast routing.

DATA LOADER

(XTR - Xhibit Telemetry Receiver - up to 100 beds per server)

Quantity Required - 1 virtual or physical

Processor - Dual socket E5-2630 v2 2.80 GHz with 15 MB cache (2 sockets 6 cores)

Memory - 8 GB 1333 MHz UDIMM

Storage Sizes - Vol 1 - 256 GB for OS and app

RAID Controller - RAID1 - SAS 15K

OS - Windows Server 2012 R2 Standard Edition

Observations - No SQL Required. Requires 2 NIC's.

UP TO 700 BEDS "LARGE ENTERPRISE SYSTEM"

ICS DATABASE SERVER*

(Core Services)

Quantity Required - 1 virtual or physical

Processor - Intel® Xeon® Processor E5-2630 v3 with 20 MB cache, 2.40 GHz (2 sockets 8 cores ea)

Memory - 160 GB 1866 MHz

Storage Sizes - Disk sizes

- Vol 1 - 96 GB for OS and app
- Vol 2 - 400 GB for Portal DB transaction log file
- Vol 3 - 800 GB for Portal DB data file
- Vol 4 - 400 GB for SQL Temp DB
- Vol 5 - 1500 GB for Software & Portal backups (if needed)

RAID Controller

- Vol 1 - RAID1 - SAS 15K
- Vol 2 - RAID1 - SAS 15K
- Vol 3 - RAID10 with at least 6 SSD drives
- Vol 4 - RAID10 SAS 15K
- Vol 5 - RAID5

OS - Windows Server 2012 R2 Standard Edition

*Observations - SQL Server 2012 Enterprise Edition (mixed mode authorized)
or SQL Server 2014 Standard Edition (mixed mode authorized)*

*This implementation has not been fully tested. Based on the actual system performance, splitting the database may be a better alternative.

APPLICATION SERVER

(HL7 Vital Signs, HL7 ADT, ENI, 12 Lead Interfaces)

Quantity Required - 1 virtual or physical

Processor - E5-1410 v2 2.80 GHz with 10 MB cache (1 socket 4 cores)

Memory - 8 GB 1333 MHz UDIMM

Storage Sizes - Vol 1 - 96 GB for OS and app

RAID Controller - RAID1 - SAS 15K

OS - Windows Server 2012 R2 Standard Edition

Observations - No SQL Required

MONITOR LOADER

(Bedside Monitor and Legacy UVSL Telemetry - 64 bed capacity per server)

Processor - Dual socket E5-2630 v2 2.80 GHz with 15 MB cache (2 sockets 6 cores)

Memory - 8 GB 1333 MHz UDIMM

Storage Sizes - Vol 1 - 256 GB for OS and app

RAID Controller - RAID1 - SAS 15K

OS - Windows Server 2012 R2 Standard Edition

Observations - No SQL Required. Requires 2 NIC's.

SUPPORT PLAN PORTFOLIO

WARRANTY AND SUPPORT PLAN OPTIONS

Warranty Options

8 x 5 Warranty

On-site coverage during normal business hours.

Warranty description identical to the Depot Support Plan specification provided below.

Depot Warranty

Return to depot coverage.

Warranty description identical to the Depot Support Plan specification provided below.

Support Plan Options

24 x 7 Support Plan

On-site coverage 24 hours a day, 7 days a week, 365 days a year. Designed for customers who prefer that Spacelabs meets all of their service support needs 24 hours a day. All safety updates are included, our technical support and field service teams are available 24 hours a day, 7 days a week to ensure that your equipment is kept in peak operating condition. In the event that there is a problem that we can't fix immediately, priority access to our dedicated pool of loaner equipment is assured.

8 x 5 Support Plan

On-site coverage during normal business hours. Designed for customers who prefer that Spacelabs meets all of their service support needs within normal working hours. All safety updates are included, our technical support team is available 24 hours a day, 7 days a week and our field service teams are available 8 hours a day, 5 days a week to ensure your equipment is kept in top operating condition.

Depot Support Plan

Return to depot coverage. Designed for Spacelabs customers who have less urgent equipment servicing needs. All safety updates are included and our technical support team is available 24 hours a day, 7 days a week. If there is a problem that we can't fix remotely, arrangements will be made to get the device returned to the factory for immediate update or repair.

Parts Exchange Support Plan

Spare part coverage for trained biomed. Designed for Spacelabs customers whose biomed teams have completed our Spacelabs Certified Technical Training courses. Our technical support team is available 24 hours a day, 7 days a week to help diagnose problems and to then supply any parts required for your Spacelabs certified biomed staff to perform the repair.

Enhanced ICS Software Support Plan/Basic Software Support Plan

Software update coverage. These low cost agreements are designed for Spacelabs customers who simply wish to ensure that their equipment's software is updated to the most current level every year. The Enhanced plan is required for customers purchasing ICS G2. For 'Mission Critical' users the Enhanced Plan also provides 24 hours a day, 7 days a week access to our team of IT Product Specialists and an option to include remote Preventive Maintenance checks for a small additional charge of 0.5%.

Custom Support Plan

An à la carte approach allowing customers select coverage to suit specific needs. We appreciate that on occasion, a hospital may have some very individual and unique support requirements. For this reason, we've included a 'Custom' column in the specification matrix on the back of this sheet. Place a check mark by each of the services you require and we'll be delighted to provide you with a quotation tailor-made for you.

B SPECIAL COMMENTS

Please be aware that this quotation is one part of a series of quotations, which constitutes a larger overall project and purchase. To understand and analyze this proposal in its entirety, other quotations must be considered.

C DISCLAIMER

The information set forth herein is for budgetary purposes only. This document does not constitute an offer to sell on the part of Philips Healthcare. Philips Healthcare makes no representations or guarantees of any kind with respect to price, availability, delivery, or other information contained herein, and all such information is subject to change without notice. Philips Healthcare will be happy to provide a formal quotation on request.

Not binding until accepted in writing by Philips in Andover or invoiced by Philips. Any purchase order or resulting agreement shall be subject to the Philips Terms and Conditions and the following terms which customer accepts.

For certain agreements, Philips may conduct a qualification inspection to verify that customer is suitably trained, the equipment is in serviceable condition, and all like equipment is covered by a valid Philips warranty or service agreement. Any resulting agreement is subject to cancellation by Philips if customer fails to satisfy these conditions during the term.

Note: Please do not use these prices as the basis to generate a purchase order.

DEMO EQUIPMENT and ACCESSORIES (6 MONTHS ONLY)

Payment Terms: Net 45

Shipping Terms: F.O.B. ORIGIN (CUSTOMER PAYS FREIGHT)
"To ensure on-time delivery of your orders, Mindray may drop ship products directly from our overseas factories or distribution warehouses"

Proposal Notes:

Product Notes: Biomedical training credits issued to customers at the time of sale, are for the sole use of employees of the facility purchasing the equipment, and are non transferable.

Central Station - Hospitals, or buying groups, that require special containment procedures while opening plenum spaces including the use of a negative chamber tent system will be billed separately for the containment costs. These cost will include, but not be limited to, rental of a containment system, plus the additional cost incurred by the cable installer and the Mindray Representative who are required to use the system. This will also apply to any containment costs incurred after the installation for Mindray Representatives when performing maintenance on the system.

Trash Removal responsibility

Mindray is not responsible for the disposal of packing material associated with newly installed Mindray products. Mindray will work with the customer to collect and centralize the packing material for ease of disposal by the customers' personnel. The customer will be responsible for sorting and disposal of packing material.

De-Installation of existing cabling

Mindray is not responsible for the de-installation of existing cabling associated with an existing patient monitoring system. Mindray will provide this service on a time and material basis in the event that the customer would like to have this work done by Mindray at the time of the installation. Customer will be responsible for pulling of cable and certification, if these items are not charged on the body of this quote.

Fiber Optics Requirements

In the event that fiber optics network runs are necessary due to the location of the central rack, then it will be the customer's responsibility to add the necessary fiber optic run(s). Mindray Technology service will provide this service on a T+M basis in the event that the customer would like to have this work done by Mindray.

Pricing for cable pull and certification is based on nonunion labor. If Union labor is required customer will be invoiced for any additional cost. Pricing for cablepull includes installation of cables above ceilings or any horizontal/vertical pathways and shall be supported per BISC1 standards utilizing communications rated J-hooks. Pricing does not include major structural changes to go between walls or floors, e.g., penetration of interior or exterior cement walls or the installation of conduit/Raceway.

Core Drilling requirements

In the event that core drilling (i.e drilling between floors to accommodate network runs) is required to complete an installation, the customer will be responsible for customary costs associated with this work. Mindray Technology Services will provide this service on a T+M basis if requested by the customer.

(Customary charges are approximately \$450 each)

BeneVision N12/N15/N17

PATIENT MONITORS

Features and Benefits

- 12", 15" and 18.5" high definition capacitive touchscreen displays, featuring platform-wide, intuitive user interface
- Features N1 Monitor/Module as a multi-parameter module and wireless transport solution
- Standard features include 3, 5, 6-lead ECG, Masimo SET® SpO₂, 2 IBP, NIBP, respiration, temperature and arrhythmia analysis with QT/QTc interval monitoring and atrial fibrillation (Afib) detection
- Optional ST-segment monitoring
- Mindray CAAs include SepsisSight™, HemoSight™, Early Warning Score, Glasgow Coma Scale, and 24-Hour ECG Report
- Extensive data storage capability for trend data, alarms, events, and 48 hours of full disclosure
- Available 12-lead ECG interpretation with report storage, providing immediate access for up to twenty reports at POC
- Optional BeneLink™ Module for ventilator, anesthesia machine and IV pump data integration
- Integrates with BeneVision™ DMS hardware or optional 2.4/5 GHz wireless capability
- Compatible with Mindray eGateway for HL7 communication to EMR
- Optional Multi-gas Module, NMT, and INVOS rSO₂ for OR application
- Optional JADAK 2D barcode scanner and remote control

Flexible. Consistent. Comprehensive

The BeneVision N12, N15, and N17 patient monitors empower healthcare providers by offering a premier solution to satisfy patient monitoring needs across diverse care settings. With a platform-wide modular design, expansive parameter options, and specialized Clinical Assistance Applications (CAAs), the N12, N15 and N17 patient monitors support clinical excellence and align nicely with organizational cost of ownership goals.

Designed with the end-user in mind, all N-Series models feature multi-gesture, capacitive touchscreen technology that works like a smartphone and incorporates a surprisingly new level of ease and speed into your workflow. Auto-brightness detection for increased contrast, paired with an unprecedented wide viewing angle, improve visibility of critical data at the bedside.

Compatible with the BeneVision Distributed Monitoring System (DMS), and sharing the same intuitive user interface, the N12, N15, N17 can blend easily into your existing IT infrastructure, making the most of your existing capital investment.

mindray

BeneVision N12/N15/N17 PATIENT MONITORS

A user interface to put your mind at ease

Using the same capacitive touchscreen technology as smart devices, the N-Series user interface enables clinicians to work with a refreshing level of ease. Purposefully designed with a flat user interface, N-Series monitors enable 90% of common operations to be performed in just two steps, reducing both workflow complexities and required training time.

Tap

Flick

Drag

Swipe

Easily toggle between 2 user configured main screen displays, with just one swipe

N-Series User Highlights:

- All N-Series patient monitors feature the same user interface so your time-to-train is significantly reduced per clinical FTE. To know one N-Series monitor is to know them all!
- Increase waveforms as your screen size grows – 8 waveforms with N12, 10 waveforms with N15, 12 waveforms with N17
- Configure up to 24 quick keys to best suit your care area and practice models
- Advanced patient viewing capability incorporates Bed-to-Bed and Alarm Watch modes
- Manufactured with Eastman disinfectant-resistant polymers, providing exceptional resistance to deterioration over the life span of the monitors and modules

N1 at the Core

Serving as both monitor and module, the adaptable N1 provides, continuous monitoring throughout a healthcare facility. Seamlessly integrating into the hospital IT environment, the N1 is a multi-parameter module within the N12, N15, and N17; when removed, it instantly converts to a wireless transport monitor, ensuring a gap-free patient record, from admittance through discharge.

BeneVision TM80

DISPLAY TELEMETRY TRANSMITTER

Features and Benefits

- 3.5" color touchscreen LCD
- Gesture-driven for fast, intuitive operation, just like your smart device
- Compact and lightweight - just 7.4 oz (210 g) with batteries and ECG lead set
- Waterproof rated IPX7
- Certified rugged, passing 1.5 m hard surface drop test
- Clear, easy to read HR, respiration, and SpO₂ numerics
- ECG, respiration, and SpO₂ waveforms at the patient
- Multi-vector arrhythmia analysis with atrial fibrillation detection, continuous ST analysis, and continuous QT/QTc monitoring at BeneVision DMS
- Supports 3/5/6-lead ECG lead sets, both reusable and single patient use, for infection control
- Features Masimo® SpO₂ (optional)
- Non-invasive blood pressure provided by patient-worn BP10 (optional); measurements sent to BeneVision DMS via wireless pairing with TM80
- Operates in 802.11n dual band
- Supports "Find my Telepack" capability with BeneVision DMS
- Flexible power choices include 3 AA or rechargeable lithium-ion battery packs
- Battery charger (optional) for TM80 and TD60
- Run time up to 36 hours

Ambulatory monitoring to support your workflow

The BeneVision TM80 Display Telemetry Transmitter offers advanced technology for early detection of an ambulatory patient's changing condition. The 3.5" color display shows ECG, respiration, and SpO₂ waveforms with associated numerics. Touchscreen technology using intuitive gestures provides access to critical information.

Rugged and reliable, TM80 meets the 1.5 meter drop test and is IPX7 waterproof rated. Power options include a rechargeable lithium ion battery pack that provides impressive runtime on a single charge, serving clinicians well in high occupancy care areas. With the BP10 NIBP Module, easily flex your monitoring capability for a specific patient by adding blood pressure monitoring; BP10 wirelessly pairs to TM80, sending data to BeneVision DMS and the EMR. TM80 leverages standard Wi-Fi technologies to provide an expanded number of devices within large coverage areas.

BeneVision TM80 – powerful, flexible and connected to meet the ambulatory monitoring needs across your healthcare organization.

mindray

BeneVision TM80 DISPLAY TELEMETRY TRANSMITTER

Easy operation with intuitive gestures

-  **Tap** – to select a function or select a parameter to configure
-  **Drag** – from the top to toggle between landscape and portrait modes
– from the bottom to access configured Quick Keys
-  **Flick** – to scroll through waveforms, numerics, and menus

View additional QRS complexes using landscape mode

Fast access to clinical information

Main Screen is configurable based upon preference
Quick Keys provide access to common functions

Lead Placement tool aids troubleshooting, indicating missing or loose electrodes

Up to seven ECG waveforms can be viewed with a flick of the display

Optional NIBP Module

BeneVision BP10 provides non-invasive blood pressure measurement. BP10 wirelessly pairs to TM80, sending data through to BeneVision DMS and the EMR.

Cuero, TX 77954

Project Name: Ent & MT Backup Solution

Thank you for giving Edge Solutions and Consulting (EDGE) the opportunity to propose a solution to address Cuero Regional Hospital's (CRH's) Enterprise environment and Meditech back-up requirements. Our proposal includes the following:

- Commvault Backup & Recovery appliance
- Netapp E2812 backup target (usable capacity - 94.42 TiBs)
- Redundant Cisco fiber channel switches and redundant Cisco top-of-rack 10G switches
- EDGE Professional Services

The Commvault Backup & Recovery appliance is a Commvault approved HPE server platform (comes with 3 years of HP HW support) equipped with a 1-year subscription and support of Commvault Backup & Recovery software. This also include five days of Commvault professional services, and Commvault training.

The proposed Netapp E2812 backup storage includes three, 2U rack units equipped with a total of 36x4TB SAS drives to support 94.4TBs of usable capacity, Netapp's Base Software and 3 years of 24x7x4 support.

To support fiber channel connectivity, the proposal includes two small, 1U Cisco fiber channel switches. Each switch is configured with 24 active ports (up to 16G Fiber Channel) and have the ability to expand to 48 ports if needed. Each switch includes Cisco 24x7x4 support. For network connectivity, we have included two small, 1U, 48-port capable Cisco 9500 top-of-rack switches with required redundant 10G ports and 1G management switch ports for the current design.

This proposal also includes one week of EDGE professional services to perform onsite implementation of the proposed solution.

Please see the following page for pricing and additional description details. Should you have any questions or need any additional information, please feel free to call me at (818) 645-6705.

Sincerely,
Sean Thomas
Edge Solutions and Consulting
818.645.6705 (mobile)

Attn: Jennifer Garcia
Crest Regional Hospital
2650 N. Eastshore
Grand, TX 77884

Professional: Ed & MT Backup Solution

Thank you for giving Edge Solutions and Consulting (EDGE) the opportunity to provide a solution to address Crest Regional Hospital's (CRH) Backup, Environment and Medical backup requirements. Our proposal includes the following:

- Commvault Backup & Recovery solution
- Netop ES812 backup agent (license & install)
- Redundant Class fiber channel switches with redundant Class top-of-rack 10G switches
- EDGE Professional Services

The Commvault Backup & Recovery solution is a Commvault approved HPE server platform (license with 3 years of HP HW support) equipped with a 1-year subscription and support of Commvault Backup & Recovery software. The also includes five days of Commvault professional services, and Commvault training.

The proposed Netop ES812 Backup storage includes three 2U rack units equipped with a total of 30x4TB SAS drives to provide 96-1TB of usable capacity. Backup Base Software and 3 years of 24x7x4 support.

To support fiber channel connectivity, the proposal includes two small 4U Class fiber channel switches. Each switch is configured with 24 active ports (10G ports) and have the ability to expand to 48 ports (24 ports per controller). Includes Class 24x7x4 support. For network connectivity, we have included two small 1U 48-port capable Class 8000 top-of-rack switches with redundant 10G ports and 10 management switch ports for the current design.

The proposal also includes one week of EDGE professional services to perform initial implementation of the proposed solution.

Submission Date: 6/9/2020

This SOW is subject to the applicable terms posted at <http://www.pivotts.com/legal> (“Terms and Conditions”), which are hereby incorporated into this SOW by reference. In the event of a conflict between the Terms and Conditions and this SOW, the Terms and Conditions shall control unless the parties expressly agree in writing to deviations which are explicitly stated to supersede the Terms and Conditions.

EXECUTIVE SUMMARY

PROJECT OVERVIEW

Cuero Regional Hospital (“Customer”) hereby engages Pivot Technology Services Corp. (“Pivot”) to perform the services specified herein (the “Services”).

TECHNICAL SUMMARY

Pivot will provide remote and/or onsite consulting and management services to support the Customer’s technical environment on an as-requested basis. Support will be scheduled based on the availability of a qualified Pivot engineer.

BLOCK OF HOURS TERMS

The following points define how the block of hours will be used.

- The hours will be paid for in advance.
- The hours purchased and this agreement will expire 12 months from the date of the executed agreement.
- Unused hours are not refundable.
- Minimum increment for on-site support is 8 hours. Minimum increment for remote support is 1 hour.
- Work scheduled in advanced and cancelled within 48 hours will be charged at the regular time rate.
- Customer may schedule a Pivot resource for services by sending an email to PSOperations@pivotts.com.
- Response time to a service request will be best effort.

SUMMARY OF DELIVERABLES PROVIDED

There are no deliverables associated with this engagement

GENERAL INFORMATION

The Professional Services may be performed on the Customer equipment located at the Customer sites (the “Customer Site”) specified below:

- 2550 N. Esplanade St.
Cuero, TX 77954

ASSUMPTIONS

In order to identify and estimate the required tasks and timing for this engagement, certain assumptions need to be made. Based on our current knowledge, the engagement assumptions are identified in the following sections: “**General Project Assumptions**”. If an assumption is invalidated at a later date, then the activities and estimates in the engagement plan should be adjusted accordingly.

GENERAL PROJECT ASSUMPTIONS

- Customer will appoint a project sponsor to oversee the direction of this project. The appointed project sponsor will have decision-making authority over all aspects of the project, including facilitating commitment of Customer resources and employees, decisions regarding scope management, and issue or conflict resolution.
- Customer understands the success of this project is dependent on the participation of Customer employees: attending facilitated workshops, sharing information, and collecting data as needed to support project activities. Customer understands the need to review interim and final deliverables and report acceptance or discrepancy to Supplier according to the project schedule set forth at the project kickoff.
- Customer will provide adequate, co-located workspace for the engagement participants (both Supplier and Customer resources) with the appropriate system level access.
- Customer will provide network connectivity and Internet access to Supplier as needed.
- Customer will provide elevated network and system credentials prior to arrival.
- Any service, process, product or procedure that is not explicitly and clearly stated in this SOW is outside the scope of the Project.
- This SOW is based on discussions with the Customer and does not take into account any changes to the environment made by the Customer or any third parties since its writing. If a significant change has occurred during this period, a Change Order may be required.
- All Pivot work is based on a (40) hours per week work schedule. Work will be performed during standard business hours, Monday through Friday, 8:30 am - 5:30 pm unless otherwise mutually agreed upon between Pivot and the Customer.
- Any non-standard hours that is required and not documented in this SOW will require a Change Order.

FEES AND EXPENSES

BILLING NOTES

- Pivot will invoice Customer in full upon receipt of a signed SOW
- Each hour used will be accounted at the regular rate indicated below.
- Remote support performed between 6:00am and 10:00pm on weekdays will be tracked at the regular rate.
- Customer may purchase additional hours by executing a change order to increase the block of hours.

SERVICES BILLING

Work Description	Qty	Amount
Block of Hours	80	\$16,640.00

EXPENSE BILLING

- Engagement pricing does not include travel expenses.
- Pivot will bill actual travel expenses for airfare, car rental, hotel and meals if consultant is located outside the Cuero, TX area. Pivot will make every effort to use a local consultant.

AUTHORIZATION AND ACCEPTANCE

By signing below, both Supplier agree to the Terms and Conditions of this SOW.

AGENDA ITEM #9

Board Resolution to Approve the Perinatal Program Plan for Maternal Designation – Review and Take Appropriate Action

TITLE: Perinatal Program Plan	DEPARTMENT: Childbirth Center
LAST REVIEWED/REVISED DATE: 11-17, 2-20, 6-20	APPROVED BY: Childbirth Ctr. Director
CMS CONDITION OF PARTICIPATION:	

Family Centered Philosophy:

The care team in the Cuero Regional Hospital Childbirth Center recognizes the importance of families as partners in care. Our goal is to provide the most supportive and healing environment for our infants and families by upholding the principles of patient- and family-centered care. Encouraging family presence will be balanced with protecting the health and safety of our patients and staff. "Family" is to be defined by the parents of the infant to include any individuals of significant importance to them. The Childbirth Center is open and family presence is encouraged 24 hours a day. Families are encouraged to participate in the care of their infants. Care is designed to be sensitive to cultural diversity; a language line is available at all times when the primary language of the mother is not spoken by the healthcare provider. When separation of the family unit is needed by the requirement for interventions the entire healthcare team continues with communication and involvement with the family.

The Cuero Regional Hospital Childbirth Center has the capacity for 5 newborns and 5 pregnant or postpartum patients. If the need were to exceed the Perinatal Health Director and/or Medical Director would be consulted to evaluate available discharges. The Med/Surg and or ICU can be utilized for overflow.

Program Plan:

Cuero Regional Hospital Perinatal Program provides all aspects of perinatal care to all low risk patients and infants generally >35 weeks of gestational age who have routine, transient perinatal problems. The Perinatal Program is organized, effective, recognized by the Medical Staff and approved by the Board of Directors.

A physician with special competence in the care of obstetrics neonates whose credentials have been reviewed by the Perinatal Medical Director is on call 24/7 and able to arrive within 30 minutes of an urgent request. Care within the childbirth center is available throughout the stay.

Child birth classes are provided to the community and Health Fairs are attended to provide outreach to the community. In the event that a woman presents and requires a higher level of care or delivery prior to 35 wks gestation staff will anticipate that the patient, will be transferred to an accepting facility with appropriate expertise. In the event that a neonate presents < 35 weeks gestational age or with conditions which require specialized expertise or procedures which are not routinely available at a Level I nursery the infant will be stabilized and transferred to an accepting facility that has the expertise required. All cases requiring transfer out of CRH to a higher level of care are reviewed by the Perinatal Medical Director and documented in the QAPI Program. (See Transfer Hospital to Hospital policy).

The following are criteria for transport of a neonate out of CRH, to a higher level of care:

- <35week gestational age
- Birth anomaly requiring surgery
- Cardiac procedures
- Neonatal Respirator
- Needs beyond Level 1 care and capability

Perinatal services at Cuero Regional Hospital include on-site medical and surgical care for routine maternal conditions for pregnant women and fetuses through antepartum, intrapartum, and post-partum. Care is provided by skilled personnel with documented training, competencies, and continuing education. The team is trained to respond to unanticipated maternal/fetal problems that occur during labor and delivery. An emergency cesarean delivery can be performed within 30 minutes. Maternity patients at < 35 week gestational age with anticipated delivery are transferred to a higher level of care as safe and permitted.

Standard of Practice:

Standards of practice are supported by policies and guidelines that are established by Cuero Regional hospital as well as unit specific policy and guidelines that are related to perinatal care. These practice standards are based on the following established organizations but not limited to:

- National Association of Perinatal Nurses
- Guidelines for Perinatal Care
- Association of Women`s Health, Obstetrics, Perinatal Nurses
- Perinatal Resuscitation Program
- Academy of Perinatal Nurses
- American Academy of Pediatrics
- Texas Nursing Practices Act
- American College of Obstetricians and Gynecologist
- ANA Code of Ethics for Nurses

All policies and guidelines are established using evidence-based practice. The hospital-based policies are established by the Perinatal Directors reports to the Chief Nursing Officer Senior Leadership, Medical Staff, and Governing Board. The unit specific policies and guidelines are established and maintained by the unit's Perinatal Director. All policies and guideline are reviewed at least every 3 years and approved by the unit Director, the Chief Nursing Officer and the Perinatal Medical Director.

Services:

The Cuero Childbirth Center provides care for low risk pregnant women and infants generally >35 weeks gestation age who have routine, transient perinatal problems. Infants and mothers with complications beyond our service capabilities are transported to an accepting facility for a higher level of care. The immediate and ancillary personnel needed to provide supportive care to the infant and family includes but are not limited to:

- Perinatal Medical Director

- Physicians
- Registered Nurses
- Licensed Vocational Nurse
- Nurse Assistants
- Dietary
- Operations Manager
- Respiratory Therapy
- Pharmacy
- Case Manager
- Laboratory
- Anesthesia

Services provided include but not limited to fetal monitoring, IV therapy, telemetry, ultrasound, x-ray, respiratory therapy. Tele-cardiology and tele-psyche are also available.

Medical Staff:

All nursing, medical and ancillary staff should maintain continuing education annually.

1. Physicians—A Current Texas License, NRP
2. Registered Nurse—A current Texas RN licensure, BLS, NRP
3. New Nurse Hire Plan—the goal for the Cuero Regional Hospital is to provide a cohesive onboarding process for new nursing hires to facilitate the progression into the professional Perinatal Nurses role.
4. Annual Competency: The application of knowledge and skills are required for the performance of professional Perinatal Nursing care according to established standards of care. The focus of annual education is based on the verification of competency of knowledge and skills in areas of high priority due to new initiatives, changes in policy and procedure, high-risk job functions, or gaps in clinical education. The Perinatal medical staff will participate in ongoing staff and team based education and training in the care of the perinatal patients.

Minimal requirements for nurses to care for Perinatal patients include a Texas LVN license and basic life support certification. All LVNs are directly supervised by an RN. Neonatal Resuscitation Program certification is required within 6 months of hire. Orientation includes clinical training at the bedside with an experienced nurse preceptor and validation of initial childbirth center competencies. Duration of orientation is individualized, based on prior experience.

On an ongoing basis, in-services are provided on new equipment, products, policies, procedures and processes. Annually, childbirth Center is required to complete selected competencies. Selected competencies for annual validation are those that are high risk, low volume, as well as needs identified by Childbirth Center staff and those identified through the QAPI program. These annual competencies incorporate hands-on and critical thinking skills, and discussion with subject matter experts from the entire multidisciplinary team.

Follow-up of Neonates Post-Discharge:

At the onset of discharge planning, the care team for Cuero Regional Hospital Child Birth Center ensures that follow up with a primary care physician is arranged. Specifically, the staff confirms that the infant has a primary care physician identified, and that the contact information of this physician is known to the parents. Ideally, an appointment is arranged before the patient is discharged. If applicable, contact information and/or appointments with subspecialist physicians are given to the parents at the time of discharge.

For infants with risk factors for hearing loss, and for those infants who did not pass the hearing screen, a follow up hearing screen and/or a referral for evaluation is completed.

Nutrition Support:

A dietitian is on site 8 hours a month, and is available per phone for consult as needed. All patients are screened and assessed within 24 hours of admission.

Lactation Support:

Cuero Regional Hospital Childbirth Center staff actively supports and promotes human milk as the optimal nutrition for all infants. The Cuero Regional Hospital health care team provides education about the benefits of breast milk and encourages for the mothers to provide breast milk throughout the infants stay or for as long as possible. Staff receives training during orientation as well as on line through DSHS, WIC. The Newborn Channel and Written Literature are also available for education. It is the goal of Cuero Regional Hospital Child Birth Center to assist mothers in making an informed decision, help them establish and maintain their milk production, prepare them for discharge, and the appropriate follow-up.

Respiratory Therapy:

A Respiratory Therapist (RT) with experience and specialized training is in-house 24/7.

Quality Assessment and Performance Improvement Plan (QAPI):

The purpose of perinatal QAPI is to provide a forum for discussion of issues and ideas related to improvement to care and services provided to neonates and their families.

- Provide evidence-based practices to ensure safe and effective patient care.
- Facilitate and encourage quality improvement (QI) initiatives that need intervention for all those involved in perinatal care.
- Ensure that care provide is respectful of and responsive to individual patient preferences, needs and values, and ensuring that patient values guide all the clinical decisions.
- Evaluate efficient and equitable care.
- Establish ongoing QI metrics that will be measured, analyzed and tracked for improvement and outcomes.
- Provide feedback to Cuero Regional Hospital leadership regarding perinatal QI status and opportunities for improvement on initiatives brought to committee's attention.

The committee will be comprised of personnel directly involved in perinatal care. The group may include but is not limited to perinatal nurse, practitioners, and pharmacist. The Perinatal Program Manager and Medical Director of the unit will be a permanent member. Members may provide input of agenda planning.

The perinatal program evaluates the provision of perinatal care on an ongoing basis, identifies opportunities for improvement, develops and implements improvement plans, and evaluates the implementation until a resolution is achieved. The perinatal program measures, analyzes, and tracks quality indicators or other aspects of performance that the facility adopts or develops that reflect processes of care and are outcome based.

The committee's activities will be congruent with Cuero Regional Hospital bylaws.

Pharmacy Services:

A Pharmacist is on call for consultation on a 24 hour basis. All pharmacists receive basic pediatric and perinatal pharmacology education as part of their initial, and ongoing education. A pediatric/ perinatal competency review is completed annually. All pharmacists involved in processing pediatric orders receive training that covers pediatric, perinatal, and perinatal orders. This training includes evaluating the order according to the patient's age (including gestational age), weight and disease process. No medications are compounded in the pharmacy. Nurses that compound drugs and administer to infants have annual credentialing and drug competencies.

Radiology:

1. Radiology services incorporate the "As Low as Reasonably achievable" principle when obtaining imaging in perinatal patients.
2. Personnel appropriately trained in the use of x-ray equipment are on-site and available at all times.
3. Personnel appropriately trained in the following are also available as follows:
 - Ultrasound M-F 7a-5p and on call otherwise.
 - Computed tomography-onsite at all times
 - Magnetic resonance imaging M-F 8am-5pm
4. Perinatal diagnostic imaging studies are available at all times with interpretation by radiologists, available within 45 minutes of an urgent request.
5. A portable ultrasound machine is readily available and located in the Emergency Room for easy access.

RESOLUTION OF SUPPORT OF HOSPITAL BOARD

WHEREAS, Cuero Regional Hospital recognizes the importance of families as partners in care, our goal is to provide the most supportive and healing environment for our families by upholding the principles of patient- and family-centered care; and

WHEREAS, Cuero Regional Hospital through a specially trained, multidisciplinary team of health care professionals strives to provide our community and our patients with optimal Maternal and Neonatal care and education; and

WHEREAS, care at a facility that participates in a standardized system of Maternal and Neonatal care can significantly reduce morbidity and mortality, we have reviewed and approved the written plan and the program policies and procedures and ensure that the requirements are implemented and enforced; and

WHEREAS, participation in the Texas Department of State Health Services Maternal Designation will result in an organized response utilizing evidence based treatment guidelines to expedite the assessment and treatment of patients presenting with obstetric or neonatal conditions; and

WHEREAS, participation in the Texas Department of State Health Services Maternal Designation program will result in improved patient outcomes through a robust performance improvement program and an assurance that those caring for maternal and neonatal patients are educationally prepared; now

BE IT RESOLVED the Board of Directors of Cuero Regional Hospital proudly commits to provide the financial, human and physical resources necessary to achieve and sustain designation as a DSHS LEVEL 1 Maternal Facility.

IN WITNESS THEREOF, I have hereunto subscribed my name this ____ day of _____, 2020.

Chairman of the Board
