

### DeAndrea L. Sims, MD

Dr. Sims is a board-certified general surgeon practicing with Dameron Hospital in Stockton, California. Originally from Guam, she attended medical school at Howard University School of Medicine and completed her post graduate training in Stockton at San Joaquin General Hospital. She is proficient in the latest surgical techniques and accomplished in treatment of benign and malignant breast disease, gallbladder, hernia, intestine disorders through laparoscopic and robotic surgery.

Dr. Sims enjoys helping her patients and treating healthcare conditions that require surgery. Her practice as a surgeon allows her to interact with patients and families, directly impacting their health and quality of life.

When not serving as a surgeon, you can find her working on home projects, traveling, and spending time with her children and two dogs.
